

Hello again! HAPPY 40'TH RAMSAR'S BIRTHDAY!

Beautiful minds, good message, new meetings, enthusiasm for the future.

World Wetlands Day has been celebrated for the first time in the GYMNASIUM SCHOOL NR. 5 from TULCEA. The students understood the meaning of this RAMSAR idea and they have many ideas for a healthy nature.

I'm very happy because all the children I worked with every year have good hearts and they want to do more than their parents for a responsible living. They will be the next volunteers in activities that send messages like CARRING FOR WETLANDS.
