

## **NATIONAL REPORT ON THE IMPLEMENTATION OF THE RAMSAR CONVENTION ON WETLANDS**

**National Reports to be submitted to the 12<sup>th</sup> Meeting  
of the Conference of the Contracting Parties,  
Uruguay, 2015**

Please submit the completed National Report in Microsoft Word format (.doc, 97-2003), as an electronic file (not a printed copy) and preferably by e-mail, to Alexia Dufour, Regional Affairs Officer, Ramsar Secretariat ([dufour@ramsar.org](mailto:dufour@ramsar.org)) by **1 September 2014**.

## The structure of the COP12 National Report Format

The COP12 National Report Format (NRF) is in four sections:

**Section 1** provides the institutional information about the Administrative Authority and National Focal Points for the national implementation of the Convention.

**Section 2** is a 'free-text' section in which the Party is invited to provide a summary of various aspects of national implementation progress and recommendations for the future.

**Section 3** provides the 66 implementation indicator questions, grouped under each Convention implementation strategy in the Strategic Plan 2009-2015, and with an optional 'free-text' section under each indicator question in which the Contracting Party may, if it wishes, add further information on national implementation of that activity.

**Section 4** is an optional annex to allow any Contracting Party that so wishes to provide additional information regarding any or all of its Wetlands of International Importance (Ramsar Sites).

## General guidance for completing and submitting the COP12 National Report Format

<b>IMPORTANT – PLEASE READ THIS GUIDANCE SECTION BEFORE STARTING TO COMPLETE THE NATIONAL REPORT FORMAT</b>
---

1. All Sections of the COP12 NRF should be completed in one of the Convention's official languages (English, French, Spanish).
2. The deadline for submission of the completed NRF is **1 September 2014**. It will not be possible to include information from National Reports received after that date in the analysis and reporting on Convention implementation to COP12.
3. All fields with a pale yellow background  must be filled in.
4. Fields with a pale green background  are free-text fields in which to provide additional information, if the Contracting Party so wishes. Although providing information in these fields is optional, Contracting Parties are encouraged to provide such additional information wherever possible and relevant, as it helps us understand Parties' progress and activity more fully, to prepare the best possible global and regional implementation reports to COP.
5. The Format is created as a form in Microsoft Word. You are only able to submit replies and information in the yellow or green boxes, as all other parts of the form are locked to ensure that the structure and wording of indicators will remain uniform and comparable for all Parties.
6. To select a yellow or green field you wish to complete, move the cursor over the relevant part of the form and left-click the mouse. The cursor will automatically move to the next field available.
7. To move down through the sequence of fields, you can also use the 'Tab' key on the computer keyboard.

8. For a 'free-text' field, you can type in whatever information you wish. Note that there is only limited facility within the Microsoft 'form' format to make editorial changes in the 'free-text' box once text has been entered. Therefore, if you wish to amend any of the text you have put in a green or yellow 'free-text' box, you should cut and paste the existing text into a separate document, make all the amendments, and then cut and paste the revised text back into the box.
9. Certain keyboard characters interfere with the automatic entry of data into the Secretariat's database. For that reason, please **do not use double quote marks " "** in the 'free-text' fields. Please **only use single quote marks ' '**. For the same reason, please **only use simple text in the 'free-text' fields: they cannot accept formatting, colours or objects such as tables and images.**
10. For each of the 'indicator questions' in Section 3, a drop-down menu of answer options is provided. These vary between indicators, depending on the question, but are generally of the form: 'Yes', 'No', 'Partly', 'In progress'. This is necessary so that statistical comparisons can be made of the replies.
11. For each indicator question you can choose only one answer. If you wish to provide further information or clarification, do so in the green additional information box below the relevant indicator question. Please be as concise as possible (**maximum of 500 words** in each free-text box).
12. To select an answer to an indicator question, use the Tab key, or move the cursor over the relevant yellow box and left-click the mouse. The drop-down menu of answer options will appear. Left-click the mouse on the answer option you choose, and this will appear in the centre of the yellow box.
13. An NRF is not usually completed by one person alone: for many indicators it is best for the principal compiler to consult with colleagues in their agency and others within the government and, as appropriate, with NGOs and other stakeholders who might have fuller knowledge of aspects of the Party's overall implementation of the Convention. The principal compiler can save the document at any point and return to it later to continue or to amend answers. Compilers should refer back to the National Report submitted for COP11 to ensure the continuity and consistency of information provided.
14. After each session, **remember to save the file** in Microsoft Word, .doc, 97-2003 format. A recommended filename structure is: COP12NRF [Country] [date], for example: COP12NRFSpain13July2014.doc
15. After the NRF has been completed, please **send it in this format to Alexia Dufour, Regional Affairs Officer, Ramsar Convention Secretariat, preferably by e-mail (dufour@ramsar.org).**
16. The completed NRF **must be accompanied by a letter or e-mail message in the name of the Head of Administrative Authority, confirming that this is the Contracting Party's official submission of its COP12 National Report.**
17. If you have any questions or problems, please contact the Ramsar Secretariat for advice (e-mail as above).

## SECTION 2: GENERAL SUMMARY OF NATIONAL IMPLEMENTATION PROGRESS AND CHALLENGES

**REMINDER: Please do not use double quote marks “ ”: use single quotes ‘ ’ instead.**

**In your country, in the past triennium (i.e., since COP11 reporting):**

**A. What have been the five most successful aspects of implementation of the Convention?**

- 1) Implementation of NGO BIOTICA Ecological Society with the support of Ministry of Environment and the financial support of the Austrian Development Agency project "Improvement of water resources management and protection of water ecosystems associated with Ramsar area " Lower Dniester " .
- 2) Raising public awareness on values of the wetlands through celebrations of the Wetlands Day and close co-operation with Academy of Science and ONG.
- 3) Elaborated the National Strategy on wetlands with the support of Ministry of Environment and the Academy of Sciences
- 4) The seminar on awareness raising was organized on 7 December 2012 and gathered 53 participants, representative of Ramsar Secretariat, Ministry of Environment, Moldsilva Forest Agency, local ecological inspections, NGOs
- 5)

**B. What have been the five greatest difficulties in implementing the Convention?**

- 1) Insufficient administrative capacity for implementation of the Convention;
- 2) Privatization of lands;
- 3) Lack of financing to organize the national wetland inventory;
- 4) Financing support of activities in the field of wetlands conservation are limited;
- 5) Lack of co-ordination between environmental and other legislation

**C. What are the five priorities for future implementation of the Convention?**

- 1) To update RIS for existing Ramsar sites.
- 2) To implement key positions of the draft National Wetland Strategy
- 3) Creation of new Ramsar Sites and protected areas.
- 4) Integrated management of wetland conservation and ecological restoration.
- 5) Improvement of education and awareness (CEPA) activities.

**D. Do you (AA) have any recommendations concerning implementation assistance from the Ramsar Secretariat?**

NO

**E. Do you (AA) have any recommendations concerning implementation assistance from the Convention's International Organisation Partners (IOPs)? (including ongoing partnerships and partnerships to develop)**

NO

**F. How can national implementation of the Ramsar Convention be better linked with implementation of other multilateral environmental agreements (MEAs), especially those in the 'biodiversity cluster' (Ramsar, Convention on Biological Diversity (CBD), Convention on Migratory Species (CMS), CITES, and World Heritage Convention), and UNCCD and UNFCCC?**

The Ministry of Environment of Moldova is executive body of such MEAs as CITES, Ramsar, CBD, Bonn, Bern and other Conventions. Focal points of these conventions work in the departments in the Ministry of Environment and they are obliged to coordinate among themselves their actions according to national legislation and international commitments.

Harmonization of national reporting to the biodiversity-related conventions – UNEPWCMC initiative, and pilot country activities suggested for Western Black Sea (Ukraine, Moldova, Romania) and Central Asia as endorsed by Pan-European Biodiversity Platform (earlier PEBLDS).

- G. How can implementation of the Ramsar Convention be better linked with the implementation of water policy/strategy and other strategies in the country (e.g., on sustainable development, energy, extractive industries, poverty reduction, sanitation, food security, biodiversity)?

Currently the MoE occupy with the revision of the national water government policy and has developed the new Water Law, which corresponds to the EU Water Framework Directive and integrate wetlands management in a part related to water.

- H. Do you (AA) have any other general comments on the implementation of the Convention?

NO

- I. Please list the names of the organisations which have been consulted on or have contributed to the information provided in this report:

NGO BIOTICA Ecological Society (ES)
