

Ramsar National Report to COP13

COP13 National Report

Background information

1. The COP13 National Report Format (NRF) has been approved by the Standing Committee 52 for the Ramsar Convention's Contracting Parties to complete as their national reporting to the 13th meeting of the Conference of the Contracting Parties of the Convention (United Arab Emirates, 2018).
2. The Standing Committee through Decision SC52-07 has also agreed that an online National Reporting format could be made available to Parties by keeping the off-line system and requested the Secretariat to present an evaluation for the next COP regarding the use of the on-line system.
3. The National Report Format is being issued by the Secretariat in 2016 to facilitate Contracting Parties' implementation planning and preparations for completing the Report. The deadline for submission of national targets is by 30 November 2016 and the deadline for submission of completed National Reports is January 21st 2018.
4. Following Standing Committee discussions, this COP13 NRF closely follows that of the NRF used for COP12, to permit continuity of reporting and analysis of implementation progress by ensuring that indicator questions are as far as possible consistent with previous NRFs (and especially the COP12 NRF). It is also structured in terms of the Goals and Strategies of the 2016-2024 Ramsar Strategic Plan adopted at COP12 as Resolution XII.2.
5. This COP13 NRF includes 92 indicator questions. In addition, Section 4 is provided as an optional Annex in order to facilitate the task of preparing the Party's National Targets and Actions for the implementation of each of the targets of the Strategic Plan 2016-2024 according to Resolution XII.2.
6. As was the case for previous NRF, the COP13 Format includes an optional section (Section 5) to permit a Contracting Party to provide additional information, on indicators relevant to each individual Wetland of International Importance (Ramsar Site) within its territory.
7. Note that, for the purposes of this national reporting to the Ramsar Convention, the scope of the term "wetland" is that of the Convention text, i.e. all inland wetlands (including lakes and rivers), all nearshore coastal wetlands (including tidal marshes, mangroves and coral reefs) and human-made wetlands (e.g. rice paddy and reservoirs), even if a national definition of "wetland" may differ from that adopted by the Contracting Parties to the Ramsar Convention.

The purposes and uses of national reporting to the Conference of the Contracting Parties

8. National Reports from Contracting Parties are official documents of the Convention and are made publicly available on the Convention's website.
9. There are seven main purposes for the Convention's National Reports. These are to:
 - i) provide data and information on how, and to what extent, the Convention is being implemented
 - ii) provide tools for countries for their national planning
 - iii) capture lessons and experience to help Parties plan future action;
 - iv) identify emerging issues and implementation challenges faced by Parties that may require further attention from the Conference of the Parties;
 - v) provide a means for Parties to account for their commitments under the Convention;
 - vi) provide each Party with a tool to help it assess and monitor its progress in implementing the Convention, and to plan its future priorities; and
 - vii) provide an opportunity for Parties to draw attention to their achievements during the triennium.
10. The data and information provided by Parties in their National Reports have another valuable purpose as well, since a number of the indicators in the National Reports on Parties' implementation provide key sources of information for the analysis and assessment of the "ecological outcome-oriented indicators of

effectiveness of the implementation of the Convention”.

11. To facilitate the analysis and subsequent use of the data and information provided by Contracting Parties in their National Reports, the Ramsar Secretariat holds in a database all the information it has received and verified. The COP13 reports will be in an online National Reporting system.

12. The Convention’s National Reports are used in a number of ways. These include:

- i) providing an opportunity to compile and analyze information that contracting parties can use to inform their national planning and programming.
- ii) providing the basis for reporting by the Secretariat to each meeting of the Conference of the Parties on the global, national and regional implementation, and the progress in implementation, of the Convention. This is provided to Parties at the COP as a series of Information Papers, including:
 - * the Report of the Secretary General on the implementation of the Convention at the global level;
 - * the Report of the Secretary General pursuant to Article 8.2 (b), (c), and (d) concerning the List of Wetlands of International Importance); and
 - * the reports providing regional overviews of the implementation of the Convention and its Strategic Plan in each Ramsar region;
- iii) providing information on specific implementation issues in support of the provision of advice and decisions by Parties at the COP.
- iv) providing the source data for time-series assessments of progress on specific aspects in the implementation of the Convention included in other Convention products. An example is the summary of progress since COP3 (Regina, 1997) in the development of National Wetland Policies, included as Table 1 in Ramsar Wise Use Handbook 2 (4th edition, 2010); and
- v) providing information for reporting to the Convention on Biological Diversity (CBD) on the national implementation of the CBD/Ramsar Joint Work Plan and the Ramsar Convention’s lead implementation role on wetlands for the CBD. In particular, the Ramsar Secretariat and STRP used the COP10 NRF indicators extensively in 2009 to prepare contributions to the in-depth review of the CBD programme of work on the biological diversity of inland water ecosystems for consideration by CBD SBSTTA14 and COP10 during 2010 (see UNEP/CBD/SBSTTA/14/3). Similar use of COP12 NRF indicators is anticipated for the CBD’s next such in-depth review.

The structure of the COP13 National Report Format

Section 1 provides the institutional information about the Administrative Authority and National Focal Points for the national implementation of the Convention.

Section 2 is a ‘free-text’ section in which the Party is invited to provide a summary of various aspects of national implementation progress and recommendations for the future.

Section 3 provides the 92 implementation indicator questions, grouped under each Convention implementation Goals and Targets in the Strategic Plan 2016-2024, and with an optional ‘free-text’ section under each indicator question in which the Contracting Party may, if it wishes, add further information on national implementation of that activity.

Section 4 is an optional annex to allow any Contracting Party that has developed national targets to provide information on the targets and actions for the implementation of each of the targets of the Strategic Plan 2016-2024.

In line with Resolution XII.2, which encourages Contracting Parties “to develop and submit to the Secretariat on or before December 2016, and according to their national priorities, capabilities and resources, their own quantifiable and time-bound national and regional targets in line with the targets set in the Strategic Plan”, all Parties are encouraged to consider using this comprehensive national planning tool as soon as possible, in order to identify the areas of highest priority for action and the relevant national targets and actions for each target.

The planning of national targets offers, for each of them, the possibility of indicating the national priority for that area of activity as well as the level of resourcing available, or that could be made available during the triennium, for its implementation. In addition, there are specific boxes to indicate the National Targets for implementation by 2018 and the planned national activities that are designed to deliver these targets. Ramsar Strategic Plan 2016-2024 shows the synergies between CBD Aichi Biodiversity Targets and Ramsar Targets. Therefore, the NRF provide an opportunity that Contracting Parties indicate as appropriate how the actions they undertake for the implementation of the Ramsar Convention contribute to achievement of the Aichi Targets according to paragraph 51 of Resolution XII.3.

Section 5 is an optional annex to allow any Contracting Party that so wishes to provide additional information regarding any or all of its Wetlands of International Importance (Ramsar Sites).

General guidance for completing and submitting the COP13 National Report Format

All Sections of the COP13 NRF should be completed in one of the Convention's official languages (English, French, Spanish).

The deadline for submission of the completed NRF is January 21st **2018**. It will not be possible to include information from National Reports received after that date in the analysis and reporting on Convention implementation to COP13.

The deadline for submission of national targets is by 30 November 2016

To help Contracting Parties refer to relevant information they provided in their National Report to COP12, for each appropriate indicator a cross-reference is provided to the equivalent indicator(s) in the COP12 NRF or previous NRF, shown thus: {x.x.x}

For follow up and where appropriate, a cross-reference is also provided to the relevant Key Result Area (KRA) relating to Contracting Parties implementation in the Strategic Plan 2009-2015.

Only Strategic Plan 2016-2024 Targets for which there are implementation actions for Contracting Parties are included in this reporting format; those targets of the Strategic Plan that do not refer directly to Parties are omitted (e.g. targets 6 and 14).

For each indicator question you can choose only one answer. If you wish to provide further information or clarification, do so in the additional information box below the relevant indicator question. Please be as concise as possible (**maximum of 500 words** in each free-text box).

The NRF should ideally be completed by the principal compiler in consultation with relevant colleagues in their agency and others within the government and, as appropriate, with NGOs and other stakeholders who might have fuller knowledge of aspects of the Party's overall implementation of the Convention. The principal compiler can save the document at any point and return to it later to continue or to amend answers. Compilers should refer back to the National Report submitted for COP12 to ensure the continuity and consistency of information provided.

If you have any questions or problems, please contact the Ramsar Secretariat for advice (nationalreports@ramsar.org).

Section 1: Institutional Information

Important note: the responses below will be considered by the Ramsar Secretariat as the definitive list of your focal points, and will be used to update the information it holds. The Secretariat's current information about your focal points is available at <http://www.ramsar.org/search-contact>.

Name of Contracting Party

The completed National Report **must be accompanied by a letter** in the name of the Head of Administrative Authority, confirming that this is the Contracting Party's official submission of its COP13 National Report. It can be attached to this question using the "Manage documents" function (blue symbol below)

> Cyprus

You have attached the following documents to this answer.

[letter-ramsar.pdf](#)

Designated Ramsar Administrative Authority

Name of Administrative Authority

> DEPARTMENT OF ENVIRONMENT

Head of Administrative Authority - name and title

> Mr. Costas Hadjipanayiotou, Director

Section 2: General summary of national implementation progress and challenges

In your country, in the past triennium (i.e., since COP12 reporting)

A. What have been the five most successful aspects of implementation of the Convention?

- 1)
 - › Completion of the Management Plans of the Larnaka Salt Lake for the SAC and SPA area
- 2)
 - › Designation of the SCI Larnaka Salt Lake into Special Area of Conservation (SAC)
- 3)
 - › Ex situ conservation for *Limonium* Spp. In the Larnaka Salt Lake
- 4)
 - › Fulfill paragraph 16 of Resolution XII.14 of the COP12 stating: produce and complete, science-based inventory of all Cyprus island wetlands, based on appropriate methodologies, such as the one developed for Greek island wetlands, and to shared it through a MedWet database (www.cypruswetlands.org)
- 5)
 - › Ongoing actions for protection and management such as habitats restoration and eradication of invasive species, monitor and control water balance and creation of microhabitats for species (Paralimni and Oroklini Wetlands). Additionally part of the wetlands were fenced in order to prevent deterioration of the ecosystem.

B. What have been the five greatest difficulties in implementing the Convention?

- 1)
 - › Inadequate (Limited) resources for management (human and funds)
- 2)
 - › Pressures and threats are increasing due to that the the fact that the site is within the city of larnaka
- 3)
 - › Water scarcity (inadequate knowledge of the water balance)
- 4)
 - › Land ownership - acquisition of private lands needed for sustainable management
- 5)
 - › Managing invasive species

C. What are the five priorities for future implementation of the Convention?

- 1)
 - › Implement Management Plans for the Natura 2000 areas (Wetlands)
- 2)
 - › Restore and Conserve natural habitat types and ecosystem function and structure
- 3)
 - › Control pressures and threats for the whole ecosystem and increase awareness of the importance of wetlands
- 4)
 - › Implement Natura 2000 targets (biodiversity targets) and RAMSAR Targets for conserving the ecosystem
- 5)
 - › Working on paragraph 18 of Resolution XII.14 of the COP12 by providing the Ramsar Secretariat with regular updates on all Cyprus island wetlands, whether or not they have been designated as Ramsar Sites, through the triennial National Reports.

D. Do you (AA) have any recommendations concerning implementation assistance from the Ramsar Secretariat?

> The Ramsar Secretariat should further assist countries in order to develop partnerships and stronger networking

E. Do you (AA) have any recommendations concerning implementation assistance from the Convention's International Organisation Partners (IOPs)? (including ongoing partnerships and partnerships to develop)

> The Convention's International Organization Partners (IOPs) could assist and support the partnership between Mediterranean Countries in order to develop a sound conservation Management Plan and exchange knowledge (best practices).

F. How can national implementation of the Ramsar Convention be better linked with implementation of other multilateral environmental agreements (MEAs), especially those in the 'biodiversity cluster' (Convention on Biological Diversity (CBD), Convention on Migratory Species (CMS), Convention on International Trade in Endangered Species (CITES), World Heritage Convention (WHC), and United Nations Convention to Combat Desertification (UNCCD) and the United Nations Framework Convention on Climate Change (UNFCCC)?

> The Department of Environment, which is responsible for the implementation of the Convention, but is also the NFP for CBD, CMS, CITES, UNCCD etc, cooperates with all the relevant Departments with responsibilities on the aforementioned issues as well as with key stakeholders, in order to ensure the most effective implementation of the Convention. Additionally the Department of Environment aims to integrate Strategies such as the National Strategy on the Biodiversity of Cyprus, the National Strategy of the Adaptation to Climate Change, the National Strategy to Combat Desertification, the National Strategy for Sustainable development, the Marine and Water strategies in order to ensure more effectively conservation issues for the wetlands ecosystem.

G. How can implementation of the Ramsar Convention be better linked with the implementation of water policy/strategy and other strategies in the country (e.g., on sustainable development, energy, extractive industries, poverty reduction, sanitation, food security, biodiversity)?

> The water/policy strategy in Cyprus foresees the management of all Water Bodies including wetlands. The Larnaka salt lake was one of the lakes that in the 1st Water Basin management Plan in Cyprus was evaluated in order to designate the typology of the salt lake. Therefore the results was used for the implementation of action plan and conservation measures. Consequently the Water policy and an integrated 2nd River basin Management Plan took into consideration the Convention's objectives.

H. Do you (AA) have any other general comments on the implementation of the Convention?

> The implementation of the Convention should also take into account smaller sized wetlands of international importance and consider their inclusion into the Ramsar Convention.

I. Please list the names of the organisations which have been consulted on or have contributed to the information provided in this report

> Terra Cypria The Cyprus Conservation Foundation (NGO)

Section 3: Indicator questions and further implementation information

Goal 1. Addressing the drivers of wetland loss and degradation

Target 1

Wetland benefits are featured in national/ local policy strategies and plans relating to key sectors such as water, energy, mining, agriculture, tourism, urban development, infrastructure, industry, forestry, aquaculture, fisheries at the national and local level.

1.1 Have wetland issues/benefits been incorporated into other national strategies and planning processes, including: {1.3.2} {1.3.3} KRA 1.3.i

Please select only one per square.

a) National Policy or strategy for wetland management	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
b) Poverty eradication strategies	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input checked="" type="checkbox"/> Y=Not Relevant
c) Water resource management and water efficiency plans	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
d) Coastal and marine resource management plans	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
e) Integrated Coastal Zone Management Plan	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
f) National forest programmes	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
g) National policies or measures on agriculture	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
h) National Biodiversity Strategy and Action Plans drawn up under the CBD	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
i) National policies on energy and mining	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant

j) National policies on tourism	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
k) National policies on urban development	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
l) National policies on infrastructure	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
m) National policies on industry	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
n) National policies on aquaculture and fisheries {1.3.3} KRA 1.3.i	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input checked="" type="checkbox"/> Y=Not Relevant
o) National plans of actions (NPAs) for pollution control and management	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
p) National policies on wastewater management and water quality	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant

1.1 Additional information

> Regarding point c) Water resource management and water efficiency plans there is a regular monitoring system due to the scarcity of water and drought.

Regarding point h) National Biodiversity Strategy and Action Plans drawn up under the CBD, Cyprus will submit NBSAP early 2018 and wetlands are incorporated.

Target 2

Water use respects wetland ecosystem needs for them to fulfil their functions and provide services at the appropriate scale inter alia at the basin level or along a coastal zone

2.1 Has the quantity and quality of water available to, and required by, wetlands been assessed to support the implementation of the Guidelines for the allocation and management of water for maintaining the ecological functions of wetlands (Resolution VIII.1, VIII.2) ? 1.24.

Please select only one option

- A=Yes
 B=No
 C=Partially
 D=Planned

2.1 Additional Information

> The Larnaca Salt Lakes site has been addressed/studied under an EU LIFE-Nature Project, in relation to upgrading its management, as well as under a LIFE-Environment project: «WATER-Strengthening the scientific foundation of water quality programs».

2.2 Have assessments of environmental flow been undertaken in relation to mitigation of impacts on the ecological character of wetlands (Action r3.4.iv)

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

2.2 Additional Information

> Studies for the water balance of the wetlands has been carried in order to maintain ecological regime required for each wetland ecosystem.

2.3 Have Ramsar Sites improved the sustainability of water use in the context of ecosystem requirements?

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned
- O=No Change
- X=Unknown

2.3 Additional Information

> The current management plan of Larnaka salt lake evaluate the water requirement of the ecosystem.

2.4 Have the Guidelines for allocation and management of water for maintaining ecological functions of wetlands (Resolutions VIII.1 and XII.12) been used/applied in decision-making processes. (Action 3.4.6.)

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

2.4 Additional Information

> There is a comprehensive management plan and measures are taken in order to ensure water for ecological functions of wetlands

2.5 Have projects that promote and demonstrate good practice in water allocation and management for maintaining the ecological functions of wetlands been developed (Action r3.4.ix.)

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

2.5 Additional Information

> There were some projects (LIFE ICOSTACY, LIFE WATER and LIFE OROKLINI) where actions focused on water management for maintaining the ecological functions of the wetlands

2.6 How many household/municipalities are linked to sewage system? SDG Target 6.3.1.

Please select only one option

- E=Exact number (households/municipalities)
- > E = 20 agglomerations
- F=Less than (households/municipalities)
- >
- G=More than (households/municipalities)
- >
- X=Unknown
- Y=Not Relevant

2.6 Additional Information

> The City of Larnaka, and Municipalities of Oroklini, and Paralimni (where the 3 major wetlands of the island

under Government control situated) are connected with sewage system.

20 agglomerations are connected to collecting systems and treatment plants and 3 agglomerations are addressed by IAS (The rate (%) of the generated load of agglomeration treated by IAS is the rate of the generated load treated in situ and the rate of the generated load transported to UWWTPs by trucks). Please note that only the agglomerations (population equivalent > 2.000 p.e) under the provisions of the Urban Waste Water Treatment Directive 91/271/EEC are considered and the reference year of the data provided is 31/12/2014.

2.7 What is the percentage of sewerage coverage in the country? SDG Target 6.3.1.

Please select only one option

E=Exact number (percentage)

> E = 76%

F=Less than (percentage)

>

G=More than (percentage)

>

X=Unknown

Y=Not Relevant

2.7 Additional Information

> 76% of the population equivalent is connected to collecting systems and treatment plants.

Please note that only the agglomerations (population equivalent > 2.000 p.e) under the provisions of the Urban Waste Water Treatment Directive 91/271/EEC are considered and the reference year of the data provided is 31/12/2014.

2.8 What is the percentage of users of septic tank/pit latrine? SDG Target 6.3.1.

Please select only one option

E=Exact number (percentage)

>

F=Less than (percentage)

>

G=More than (percentage)

>

X=Unknown

Y=Not Relevant

2.8 Additional Information

> Please note that only the agglomerations (population equivalent > 2.000 p.e) under the provisions of the Urban Waste Water Treatment Directive 91/271/EEC are considered and the reference year of the data provided is 31/12/2014.

2.9 Does the country use constructed wetlands/ponds as wastewater treatment technology? SDG Target 6.3.1.

Please select only one option

A=Yes

B=No

C=Partially

D=Planned

X=Unknown

Y=Not Relevant

2.9 Additional Information

> Three small artificial ponds are used as Wastewater treatment areas (sewage farms, settling ponds, oxidation basins, etc.)

2.10 How do the country use constructed wetlands/ponds as wastewater treatment technology perform? SDG Target 6.3.1.

Please select only one option

A=Good

B=Not Functioning

C=Functioning

Q=Obsolete

X=Unknown

Y=Not Relevant

2.10 Additional Information

>

2.11 How many centralised wastewater treatment plants exist at national level? SDG Target 6.3.1.

Please select only one option

E=Exact number (plants)

> E = 16

F=Less than (plants)

>

G=More than (plants)

>

X=Unknown

Y=Not Relevant

2.11 Additional Information

> Please note that only the wastewater treatment plants under the provisions of the Urban Waste Water Treatment Directive 91/271/EEC are considered and the reference year of the data provided is 31/12/2014. Information derived from Waste Water and Reuse Division of Water Development Department (WDD)

2.12 How is the functional status of the wastewater treatment plants? SDG Target 6.3.1.

Please select only one option

A=Good

B=Not functioning

C=Functioning

Q=Obsolete

X=Unknown

Y=Not Relevant

2.12 Additional Information

> Please note that only the wastewater treatment plants under the provisions of the Urban Waste Water Treatment Directive 91/271/EEC are considered and the reference year of the data provided is 31/12/2014.

2.13 The percentage of decentralized wastewater treatment technology, including constructed wetlands/ponds is? SDG Target 6.3.1.

Please select only one option

A=Good

B=Not Functioning

C=Functioning

Q=Obsolete

X=Unknown

Y=Not Relevant

2.13 Additional Information

>

2.14 Is there a wastewater reuse system? SDG Target 6.3.1.

Please select only one option

A=Yes

B=No

C=Partially

D=Planned

X=Unknown

Y=Not Relevant

2.14 Additional Information

>

2.15 What Is the purpose of the wastewater reuse system? SDG Target 6.3.1.

Please select only one option

R=Agriculture

S=Landscape

- T=Industrial
- U=Drinking
- X=Unknown
- Y=Not Relevant

2.15 Additional Information

Please indicate if the wastewater reuse system is for free or taxed or add any additional information.
 > Please indicate if the wastewater reuse system is for free or taxed or add any additional information. Please note that the treated waste water is reused for irrigation, into the dry bed of Pediaios and Serrachis River for infiltration, in Ezousa and Akrotiri aquifers and in Polemidia Dam for irrigation.
 The eight main Urban Wastewater Treatment Plants have a total capacity of 165.600 CM/Day. These treated effluents are used for irrigation (~80%) and for the recharge of the aquifer (~12%) while a small proportion (~8%) is discharged to the sea

Target 3

Public and private sectors have increased their efforts to apply guidelines and good practices for the wise use of water and wetlands. {1.10}

3.1 Is the private sector encouraged to apply the Ramsar wise use principle and guidance (Ramsar handbooks for the wise use of wetlands) in its activities and investments concerning wetlands? {1.10.1} KRA 1.10.i

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

3.1 Additional Information

> Private sector is encourage to be involve in the management of wetlands. For example farmers are encourage to graze reeds (invasive species).
 Additionally, reeds can be use in constructions as well as biomass.

3.2 Has the private sector undertaken activities or actions for the conservation, wise use and management of {1.10.2} KRA 1.10.ii

Please select only one per square.

a) Ramsar Sites	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input checked="" type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
b) Wetlands in general	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input checked="" type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant

3.2 Additional information

> activities and actions for the conservation are taken by competent authorities mainly governmental authorities, however private sector is encouraged to take part of the management (farmers etc.).

3.3 Have actions been taken to implement incentive measures which encourage the conservation and wise use of wetlands? {1.11.1} KRA 1.11.i

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

3.3 Additional information

> Actions have been taken for the conservation of wetlands including green infrastructure for water balance in the wetlands, eradication of invasive species, maintenance of paths and other green infrastructure .

3.4 Have actions been taken to remove perverse incentive measures which discourage conservation and wise use of wetlands? {1.11.2} KRA 1.11.i

Please select only one option

- A=Yes
- B=No
- D=Planned
- Z=Not Applicable

3.4 Additional Information

> There are measures enforced to discourage the entrance in the wetlands in order to prevent deterioration of the wetlands. Additionally there are measures for protecting and restoring ecosystem's function and structure.

Target 4

Invasive alien species and pathways of introduction and expansion are identified and prioritized, priority invasive alien species are controlled or eradicated, and management responses are prepared and implemented to prevent their introduction and establishment.

4.1 Does your country have a comprehensive national inventory of invasive alien species that currently or potentially impact the ecological character of wetlands? {1.9.1} KRA 1.9.i

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

4.1 Additional information

> There is an awareness about the invasive alien species in Cyprus however there is not a comprehensive national inventory but is planned under the implementation of the REGULATION (EU) No 1143/2014 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

4.2 Have national policies or guidelines on invasive species control and management been established or reviewed for wetlands? {1.9.2} KRA 1.9.iii

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

4.2 Additional information

> Cyprus enforce the regulation 1143/2014 which sets out a comprehensive framework for action to prevent, minimize and mitigating the adverse effects of introducing and spreading these invasive alien species.

4.3 How many invasive species are being controlled through management actions.

Please select only one option

- E=Exact number (species)

>

- F=Less than (species)

>

- G=More than (species)

> G more than 3

- C=Partially
- X=Unknown
- Y=Not Relevant

4.3 Additional information

If 'Yes', please indicate the year of assessment and the source of the information

> For many years is an on-going process for the clearance of Acacia, Arundo donax and Raccoon taxa.

4.4 Have the effectiveness of wetland invasive alien species control programmes been assessed?

Please select only one option

- A=Yes
- B=No
- C=Partially

- D=Planned
- X=Unknown
- Y=Not Relevant

4.4 Additional information

>

Goal 2. Effectively conserving and managing the Ramsar Site network

Target 5

The ecological character of Ramsar Sites is maintained or restored through effective, planning and integrated management {2.1.}

5.1 Have a national strategy and priorities been established for the further designation of Ramsar Sites, using the Strategic Framework for the Ramsar List? {2.1.1} KRA 2.1.i

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

5.1 Additional information

>

5.2 Are the Ramsar Sites Information Service and its tools being used in national identification of further Ramsar Sites to designate? {2.2.1} KRA 2.2.ii

Please select only one option

- A=Yes
- B=No
- D=Planned

5.2 Additional information

>

5.3 How many Ramsar Sites have an effective, implemented management plan? {2.4.1} KRA 2.4.i

Please select only one option

- E=Exact number (sites)

> E=1

- F=Less than (sites)

>

- G=More than (sites)
- X=Unknown
- Y=Not Relevant

5.4 For how many of the Ramsar Sites with a management plan is the plan being implemented? {2.4.2} KRA 2.4.i

Please select only one option

- E=Exact number (sites)

> E= 1 site

- F=Less than (sites)

>

- G=More than (sites)

>

- X=Unknown
- Y=Not Relevant

5.5 For how many Ramsar Sites is effective management planning currently being implemented (outside of formal management plans ? {2.4.3} KRA 2.4.i

Please select only one option

- E=Exact number (sites)

> E= 1 site

- F=Less than (sites)

>

G=More than (sites)

>

X=Unknown

Y=Not Relevant

5.3 - 5.5 Additional information

> The Larnaka Salt lake is designated as a Ramsar site and Nature 2000 area under Natures Directives. Management Plan for a Ramsar site (Larnaka Salt Lake) is currently start to be implemented

5.6 Have all Ramsar sites been assessed regarding the effectiveness of their management (through formal management plans where they exist or otherwise through existing actions for appropriate wetland management ? {1.6.2} KRA 1.6.ii

Please select only one option

A=Yes

B=No

C=Partially

D=Planned

5.6 Additional information

> Additional information: Actions that has been taken for the Larnaka Salt lake are assessed for their effectiveness in order to be revised.

5.7 How many Ramsar Sites have a cross-sectoral management committee? {2.4.4} {2.4.6} KRA 2.4.iv

Please select only one option

E=Exact number (sites)

> E= 1 site

F=Less than (sites)

>

G=More than (sites)

>

X=Unknown

Y=Not Relevant

5.7 Additional information

If at least 1 site, please give the name and official number of the site or sites

> There is a Stakeholder Committee for the Larnaka salt lake.

5.8 For how many Ramsar Sites has an ecological character description been prepared (see Resolution X.15)? {2.4.5}{2.4.7} KRA 2.4.v

Please select only one option

E=Exact number (sites)

> E= 1 sites

F=Less than (sites)

>

G=More than (sites)

>

C=Partially

X=Unknown

Y=Not Relevant

5.8 Additional information

If at least 1 site, please give the name and official number of the site or sites

> Larnaka Salt Lake

5.9 Have any assessments of the effectiveness of Ramsar Site management been made? {2.5.1} KRA 2.5.i

Please select only one option

A=Yes

B=No

C=Some Sites

5.9 Additional information

If 'Yes' or 'Some sites', please indicate the year of assessment, which assessment tool did you use (e.g. METT,

Resolution XII.15, and the source of the information

>

Target 7

Sites that are at risk of change of ecological character have threats addressed {2.6.}.

7.1 Are mechanisms in place for the Administrative Authority to be informed of negative human-induced changes or likely changes in the ecological character of Ramsar Sites, pursuant to Article 3.2? {2.6.1} KRA 2.6.i

Please select only one option

- A=Yes
- B=No
- C=Some Sites
- D=Planned

7.1 Additional information

If 'Yes' or 'Some sites', please summarise the mechanism or mechanisms established

> There are surveillance mechanisms that prevent ecological degradation of wetlands. The competent authorities in cooperation with the local authorities carry out constant checks in order to prevent possible human-induced changes of the ecological character of the Ramsar sites.

7.2 Have all cases of negative human-induced change or likely change in the ecological character of Ramsar Sites been reported to the Ramsar Secretariat, pursuant to Article 3.2? {2.6.2} KRA 2.6.i

Please select only one option

- A=Yes
- B=No
- C=Some Cases
- O=No Negative Change

7.2 Additional information

If 'Yes' or 'Some cases', please indicate for which Ramsar Sites the Administrative Authority has made Article 3.2 reports to the Secretariat, and for which sites such reports of change or likely change have not yet been made

>

7.3 If applicable, have actions been taken to address the issues for which Ramsar Sites have been listed on the Montreux Record, including requesting a Ramsar Advisory Mission? {2.6.3} KRA 2.6.ii

Please select only one option

- A=Yes
- B=No
- Z=Not Applicable

7.3 Additional information

If 'Yes', please indicate the actions taken

>

Goal 3. Wisely Using All Wetlands

Target 8

National wetland inventories have been either initiated, completed or updated and disseminated and used for promoting the conservation and effective management of all wetlands {1.1.1} KRA 1.1.i

8.1 Does your country have a complete National Wetland Inventory? {1.1.1} KRA 1.1.i

Please select only one option

- A=Yes
- B=No
- C=In Progress
- D=Planned

8.1 Additional information

> Terra Cypria, The Cyprus Conservation Foundation has undertaken a study for completing a full inventory of Cyprus Wetlands with area greater than 1000 square meters. As a wetland the study follows the term of Art 1 of the Convention and followed appropriate methodologies, such as the one developed for Greek island wetlands. The study completed during 2015 and the results were shared through MedWet database. With the completion of this inventory Cyprus has fulfilled paragraph 16 of Resolution XII.14 of the Ramsar COP12. The results of the inventory is available at www.cypruswetlands.org

8.2 Has your country updated a National Wetland Inventory in the last decade?

Please select only one option

- A=Yes
- B=No
- C=In Progress
- C1=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

8.2 Additional information

> The 1st National Wetland Inventory completed during 2015.

8.3 Is wetland inventory data and information maintained? {1.1.2} KRA 1.1.ii

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

8.3 Additional information

> Following paragraph 18 of Resolution XII.14 of the Ramsar COP12 we plan to use the methodology applied for the creation of Cyprus Wetland Inventory for maintaining the existing database and provide the Ramsar Secretariat with regular updates on all Cyprus island wetlands, whether or not they have been designated as Ramsar Sites, through the triennial National Reports, including information on their number, extent, biodiversity, current conditions and protection status, and where possible on the ecosystem services which they perform;

8.4 Is wetland inventory data and information made accessible to all stakeholders? {1.1.2} KRA 1.1.ii

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

8.4 Additional information

> link <http://www.cypruswetlands.org>

8.5 Has the condition* of wetlands in your country, overall, changed during the last triennium? {1.1.3}

Please describe on the sources of the information on which your answer is based in the free- text box below. If there is a difference between inland and coastal wetland situations, please describe. If you are able to, please describe the principal driver(s) of the change(s).

* 'Condition' corresponds to ecological character, as defined by the Convention

Please select only one per square.

a) Ramsar Sites	<input type="checkbox"/> N=Status Deteriorated <input checked="" type="checkbox"/> O=No Change <input type="checkbox"/> P=Status Improved
b) Wetlands generally	<input type="checkbox"/> N=Status Deteriorated <input checked="" type="checkbox"/> O=No Change <input type="checkbox"/> P=Status Improved

8.5 Additional information on a) and/or b)

>

8.6 Based upon the National Wetland Inventory if available please provide a baseline figure in square kilometres for the extent of wetlands (according to the Ramsar definition) for the year 2017. SDG Target 6.6

Please select only one option

- E=Exact Number (km²)

> E = 8.34 Km²

- F=Less than (km²)

>

- G=More than (km²)

>

- A=Yes
- B=No
- C=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

8.6 Additional information

If the information is available please indicate the % of change in the extent of wetlands over the last three years.

>

Target 9

The wise use of wetlands is strengthened through integrated resource management at the appropriate scale, inter alia, within a river basin or along a coastal zone {1.3.}.

9.1 Is a Wetland Policy (or equivalent instrument) that promotes the wise use of wetlands in place? {1.3.1} KRA 1.3.i

If 'Yes', please give the title and date of the policy in the green text box

Please select only one option

- A=Yes
- B=No
- C=In Preparation
- D=Planned

9.1 Additional information

> There is not a Wetland Policy although a number of Wetlands in Cyprus have been designated as SAC's and SPA's areas under the Habitats and Birds Directives and as important water Bodies under the Water Framework Directive as well as Ramsar site regarding the Larnaka Salt lake. . A newly established Mediterranean project entitle MedIsWet funded by MAVA foundation and overseen by MedWet and Tour du Valat is examining the protection status of all island Wetlands and will provide information that will assist us planned for the wiser use of wetlands in Cyprus. The Cyprus partner of this project is Terra Cypria, The Cyprus conservation foundation.

9.2 Have any amendments to existing legislation been made to reflect Ramsar commitments? {1.3.5} {1.3.6}

Please select only one option

- A=Yes
- B=No
- C=In Progress
- D=Planned

9.2 Additional information

>

9.3 Do your country's water governance and management systems treat wetlands as natural water infrastructure integral to water resource management at the scale of river basins? {1.7.1} {1.7.2} KRA 1.7.ii

Please select only one option

- A=Yes
- B=No
- D=Planned

9.3 Additional information

>

9.4 Have Communication, Education, Participation and Awareness (CEPA) expertise and tools been incorporated into catchment/river basin planning and management (see Resolution X.19)? {1.7.2} {1.7.3}

Please select only one option

- A=Yes
- B=No
- D=Planned

9.4 Additional information

>

9.5 Has your country established policies or guidelines for enhancing the role of wetlands in mitigating or adapting to climate change? {1.7.3} {1.7.5} KRA 1.7.iii

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

9.5 Additional information

>

9.6 Has your country formulated plans or projects to sustain and enhance the role of wetlands in supporting and maintaining viable farming systems? {1.7.4} {1.7.6} KRA 1.7.v

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

9.6 Additional information

> Due to the extreme drought Cyprus has been facing through the years, the majority of Cyprus wetlands (83.8%) are artificial (reservoirs/barrages/dams/impoundments) and are mainly used for drinking water supply and irrigation purposes.

9.7 Has research to inform wetland policies and plans been undertaken in your country on:

{1.6.1} KRA 1.6.i

Please select only one per square.

a) agriculture-wetland interactions	<input type="checkbox"/> A=Yes <input checked="" type="checkbox"/> B=No <input type="checkbox"/> D=Planned
b) climate change	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> D=Planned
c) valuation of ecosystem services	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input checked="" type="checkbox"/> D=Planned

9.7 Additional information

>

9.8 Has your country submitted a request for Wetland City Accreditation of the Ramsar Convention, Resolution XII.10 ?

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

9.8 Additional information

If 'Yes', please indicate How many request have been submitted

>

Target 10

The traditional knowledge innovations and practices of indigenous peoples and local communities relevant for the wise use of wetlands and their customary use of wetland resources, are documented, respected, subject to national legislation and relevant international obligations and fully integrated and reflected in the implementation of the Convention with a full and effective participation of indigenous and local communities at all relevant levels.

10.1 Have the guiding principles for taking into account the cultural values of wetlands including traditional knowledge for the effective management of sites (Resolution VIII.19) been used or applied?.(Action 6.1.2/ 6.1.6)

Please select only one option

- A=Yes
- B=No
- C=In Preparation
- C1=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

10.1 Additional information

>

10.2 Have case studies, participation in projects or successful experiences on cultural aspects of wetlands been compiled. Resolution VIII.19 and Resolution IX.21? (Action 6.1.6)

Please select only one option

- A=Yes
- B=No
- C=In Preparation
- D=Planned

10.2 Additional information

If yes please indicate the case studies or projects documenting information and experiences concerning culture and wetlands

>). Archaeological findings show that the salt lake area and that of the nearby mosque have been inhabited since the Late Bronze Age (2nd century BC). In prehistoric times the salt lake was a harbour that served the town, unearthed near where the Hala Sultan Tekkesi mosque stands today. The town was one of the large urban and commercial centers of Cyprus in the Late Bronze Age (1650-1050 BC). When the town was abandoned, the estuary silted up and the natural harbour was destroyed.

10.3 Have the guidelines for establishing and strengthening local communities' and indigenous people's participation in the management of wetlands been used or applied. (Resolution VII. 8) (Action 6.1.5)

Please select only one option

- A=Yes
- B=No
- C=In Preparation
- D=Planned

10.3 Additional information

If the answer is "yes" please indicate the use or application of the guidelines

> There is a Local Community involvement and participation in management decision-making. The local authority involved in actions such cleaning of the wetlands, improvement of nature trails and green infrastructure replacement of observatories, and removal of invasive species.

10.4 Traditional knowledge and management practices relevant for the wise use of wetlands have been documented and their application encouraged (Action 6.1.2)

Please select only one option

- A=Yes
- B=No
- C=In Preparation
- D=Planned

10.4 Additional information

>

Target 11

Wetland functions, services and benefits are widely demonstrated, documented and disseminated. {1.4.}

11.1 Has an assessment been made of the ecosystem benefits/services provided by Ramsar Sites and other wetlands? {1.4.1} KRA 1.4.ii

Please select only one option

- A=Yes
- B=No
- C=In Preparation
- C1=Partially
- D=Planned

- X=Unknown
- Y=Not Relevant

11.1 Additional information

If 'Yes' or 'Partially', please indicate, how many Ramsar Sites and their names

>

11.2 Have wetland programmes or projects that contribute to poverty alleviation objectives or food and water security plans been implemented? {1.4.2} KRA 1.4.i

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

11.2 Additional information

>

11.3 Have socio-economic values of wetlands been included in the management planning for Ramsar Sites and other wetlands? {1.4.3}{1.4.4} KRA 1.4.iii

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

11.3 Additional information

If 'Yes' or 'Partially', please indicate, if known, how many Ramsar Sites and their names

> The Larnaca Salt Lakes is among the most popular touristic (e.g. bird watchers) attraction and is included in the Tourist Organization and therefore its socio-economic values are high.

11.4 Have cultural values of wetlands been included in the management planning for Ramsar Sites and other wetlands? {1.4.3}{1.4.4} KRA 1.4.iii

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

11.4 Additional information

If 'Yes' or 'Partially', please indicate, if known, how many Ramsar Sites and their names

> One Ramsar site "Larnaka Salt lake". The Larnaka Salt Lakes are an impressive natural and cultural monument, encompassing the protected wetland, important archaeological sites and the traditional methods for harvesting salt.

Target 12

Restoration is in progress in degraded wetlands, with priority to wetlands that are relevant for biodiversity conservation, disaster risk reduction, livelihoods and/or climate change mitigation and adaptation. {1.8.}

12.1 Have priority sites for wetland restoration been identified? {1.8.1} KRA 1.8.i

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

12.1 Additional information

>

12.2 Have wetland restoration/rehabilitation programmes, plans or projects been effectively implemented? {1.8.2} KRA 1.8.i

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

12.2 Additional information

If 'Yes' or 'Partially', please indicate, if available the extent of wetlands restored

> Wetlands in Cyprus are constantly monitored and restoration takes place via LIFE projects as well as national funds. Restoration works such as removal of invasive species, maintaining water balance and vegetation, and creation of isles were implemented in Larnaka salt Lake, and in Oroklini and Paralimni Lakes as well, the rehabilitation of both habitats and species as well as ecosystem's function and structure.

Target 13

Enhanced sustainability of key sectors such as water, energy, mining, agriculture, tourism, urban development, infrastructure, industry, forestry, aquaculture and fisheries when they affect wetlands, contributing to biodiversity conservation and human livelihoods

13.1 Have actions been taken to enhance sustainability of key sectors such as water, energy, mining, agriculture, tourism, urban development, infrastructure, industry, forestry, aquaculture and fisheries when they affect wetlands?

Please select only one option

- A=Yes
- B=No
- D=Planned

13.1. Additional information

If 'Yes', please indicate the actions taken

> The Larnaka Salt Lakes area is included as a water body in the river basin management plan, which includes actions and measures for the rational management of the aquatic component. Additionally projects and surveys were completed for maintaining water level (Life Water)

13.2 Are Strategic Environmental Assessment practices applied when reviewing policies, programmes and plans that may impact upon wetlands? {1.3.3} {1.3.4} KRA 1.3.ii

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

13.2 Additional information

>

13.3 Are Environmental Impact Assessments made for any development projects (such as new buildings, new roads, extractive industry) from key sectors such as water, energy, mining, agriculture, tourism, urban development, infrastructure, industry, forestry, aquaculture and fisheries that may affect wetlands? {1.3.4} {1.3.5} KRA 1.3.iii

Please select only one option

- A=Yes
- B=No
- C=Some Cases

13.3 Additional information

>

Goal 4. Enhancing implementation

Target 15

Ramsar Regional Initiatives with the active involvement and support of the Parties in each region are reinforced and developed into effective tools to assist in the full implementation of the Convention. {3.2.}

15.1 Have you (AA) been involved in the development and implementation of a Regional Initiative under the framework of the Convention? {3.2.1} KRA 3.2.i

Please select only one option

- A=Yes
- B=No
- D=Planned

15.1 Additional information

If 'Yes' or 'Planned', please indicate the regional initiative(s) and the collaborating countries of each initiative
> Cyprus is one of MedisWet partners. MedisWet is a joined Mediterranean project (13 partners in 9 Mediterranean countries) that will enable the replication of the Greek island wetland project to all the islands of the Mediterranean Basin. The project will contribute to the full implementation of Ramsar Resolution XII.14 "Conservation of Mediterranean Basin island wetlands" and to the achievement of Ramsar Convention's and MedWet's objectives.

15.2 Has your country supported or participated in the development of other regional (i.e., covering more than one country) wetland training and research centres? {3.2.2}

Please select only one option

- A=Yes
- B=No
- D=Planned

15.2 Additional information

If 'Yes', please indicate the name(s) of the centre(s)

>

Target 16

Wetlands conservation and wise use are mainstreamed through communication, capacity development, education, participation and awareness {4.1}

16.1 Has an action plan (or plans) for wetland CEPA been established? {4.1.1} KRA 4.1.i

Even if no CEPA plans have been developed, if broad CEPA objectives for CEPA actions have been established, please indicate this in the Additional information section below

Please select only one per square.

a) At the national level	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input checked="" type="checkbox"/> C=In Progress <input type="checkbox"/> D=Planned
b) Sub national level	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input checked="" type="checkbox"/> C=In Progress <input type="checkbox"/> D=Planned
c) Catchment/basin level	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=In Progress <input type="checkbox"/> D=Planned
d) Local/site level	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=In Progress <input type="checkbox"/> D=Planned

16.1 Additional information

If 'Yes' or 'In progress' to one or more of the four questions above, for each please describe the mechanism, who is responsible and identify if it has involved CEPA NFPs

> A management plan for the Natura 2000 SCI(SAC) has been prepared. Additionally MP for SPA. Additionally under the 2nd Water Basin Management Plan of Cyprus there are actions for wetlands that are implemented (established)

16.2a How many centres (visitor centres, interpretation centres, education centres) have been established? {4.1.2} KRA 4.1.ii

a) at Ramsar Sites

Please select only one option

- E=Exact Number (centres)

> E= 0

- F=Less than (centres)
- >
- G=More than (centres)
- >
- C=Partially
- X=Unknown
- Y=Not Relevant

16.2b How many centres (visitor centres, interpretation centres, education centres) have been established? {4.1.2} KRA 4.1.ii
b) at other wetlands

Please select only one option
 E=Exact Number (centres)

- > E= 1
- F=Less than (centres)
- >
- G=More than (centres)
- >
- C=Partially
- X=Unknown
- Y=Not Relevant

16.2 Additional information

If centres are part of national or international networks, please describe the networks
>

16.3 Does the Contracting Party {4.1.3} KRA 4.1.iii
Please select only one per square.

a) promote stakeholder participation in decision-making on wetland planning and management	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned
b) specifically involve local stakeholders in the selection of new Ramsar Sites and in Ramsar Site management?	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input checked="" type="checkbox"/> D=Planned

16.3 Additional information

If 'Yes' or 'Partially', please provide information about the ways in which stakeholders are involved
> Stakeholders are involved during decision making. For example during the preparation of the management plan municipality, local communities, farmers and other stakeholders are involved and aware of the decision taking for the management of the protected sited (Natura 2000 areas - SAC including wetlands).

16.4 Do you have an operational cross-sectoral National Ramsar/Wetlands Committee? {4.1.6} KRA 4.3.v
Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

16.4 Additional information

If 'Yes', indicate a) its membership; b) number of meetings since COP12; and c) what responsibilities the Committee has
>

16.5 Do you have an operational cross-sectoral body equivalent to a National Ramsar/Wetlands Committee? {4.1.6} KRA 4.3.v

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

16.5 Additional information

If 'Yes', indicate a) its membership; b) number of meetings since COP12; and c) what responsibilities the Committee has

> There are committees for the management within the N2000 framework

16.6 Are other communication mechanisms (apart from a national committee) in place to share Ramsar implementation guidelines and other information between the Administrative Authority and a), b) or c) below? {4.1.7} KRA 4.1.vi:

Please select only one per square.

a) Ramsar Site managers	<input type="checkbox"/> A=Yes <input checked="" type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned
b) other MEA national focal points	<input type="checkbox"/> A=Yes <input checked="" type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned
c) other ministries, departments and agencies	<input type="checkbox"/> A=Yes <input checked="" type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned

16.6 Additional information

If 'Yes' or 'Partially', please describe what mechanisms are in place

>

16.7 Have Ramsar-branded World Wetlands Day activities (whether on 2 February or at another time of year), either government and NGO-led or both, been carried out in the country since COP12? {4.1.8}

Please select only one option

- A=Yes
- B=No

16.7 Additional information

> The Minister of Agriculture, Rural Development and the Environment inaugurated in 2.2. 2014, the Inventory of the Cyprus Wetlands undertaken by Terra Cypria. Moreover, talks, site visits and distribution of leaflets on the Larnaca Salt Lake ecosystem were undertaken. For February 2nd, 2018, an event is been organized in collaboration with 2 NGO's (Terra Cypria & Birdlife Cyprus) and the Pedagogical institute for education purposed on the importance of wetlands. More than 200 students are expected to participate in this event.

16.8 Have campaigns, programmes, and projects (other than for World Wetlands Day-related activities) been carried out since COP12 to raise awareness of the importance of wetlands to people and wildlife and the ecosystem benefits/services provided by wetlands? {4.1.9}

Please select only one option

- A=Yes
- B=No
- D=Planned

16.8 Additional information

If these and other CEPA activities have been undertaken by other organizations, please indicate this

> The Department of Environment participating in a Life- project regarding raising public awareness on biodiversity in general, as well as specific species and sites of Cyprus, among of which Larnaca Salt Lake. The joined Mediterranean project (MedisWet) has also been initiated in September 2017 for the promotion of full implementation of Ramsar Resolution XII.14 "Conservation of Mediterranean Basin island wetlands" and to the achievement of Ramsar Convention's and MedWet's objectives. Ramsar's National Focal Point is in constant communication with the project partner from Cyprus (Terra Cypria).

Target 17

Financial and other resources for effectively implementing the fourth Ramsar Strategic Plan 2016 – 2024 from all sources are made available. {4.2.}

17.1a Have Ramsar contributions been paid in full for 2015, 2016 and 2017? {4.2.1} KRA 4.2.i

Please select only one option

- A=Yes
 B=No
 Z=Not Applicable

17.1b If 'No' in 17.1 a), please clarify what plan is in place to ensure future prompt payment

>

17.2 Has any additional financial support been provided through voluntary contributions to non-core funded Convention activities? {4.2.2} KRA 4.2.i

Please select only one option

- A=Yes
 B=No

17.2 Additional information

If 'Yes' please state the amounts, and for which activities

>

17.3 [For Contracting Parties with a development assistance agency only ('donor countries')]: Has the agency provided funding to support wetland conservation and management in other countries? {3.3.1} KRA 3.3.i

Please select only one option

- A=Yes
 B=No
 Z=Not Applicable

17.3 Additional information

If 'Yes', please indicate the countries supported since COP12

>

17.4 [For Contracting Parties with a development assistance agency only ('donor countries')]: Have environmental safeguards and assessments been included in development proposals proposed by the agency? {3.3.2} KRA 3.3.ii

Please select only one option

- A=Yes
 B=No
 C=Partially
 X=Unknown
 Y=Not Relevant
 Z=Not Applicable

17.4 Additional information

>

17.5 [For Contracting Parties that have received development assistance only ('recipient countries')]: Has funding support been received from development assistance agencies specifically for in-country wetland conservation and management? {3.3.3}

Please select only one option

- A=Yes
 B=No
 Z=Not Applicable

17.5 Additional information

If 'Yes', please indicate from which countries/agencies since COP12

>

17.6 Has any financial support been provided by your country to the implementation of the Strategic Plan?

Please select only one option

- A=Yes

- B=No
 Z=Not Applicable

17.6 Additional information

If "Yes" please state the amounts, and for which activities

>

Target 18

International cooperation is strengthened at all levels {3.1}

18.1 Are the national focal points of other MEAs invited to participate in the National Ramsar/Wetland Committee? {3.1.1} {3.1.2} KRAs 3.1.i & 3.1.iv

Please select only one option

- A=Yes
 B=No
 C=Partially
 D=Planned

18.1 Additional information

>

18.2 Are mechanisms in place at the national level for collaboration between the Ramsar Administrative Authority and the focal points of UN and other global and regional bodies and agencies (e.g. UNEP, UNDP, WHO, FAO, UNECE, ITTO)? {3.1.2} {3.1.3} KRA 3.1.iv

Please select only one option

- A=Yes
 B=No
 C=Partially
 D=Planned

18.2 Additional information

>

18.3 Has your country received assistance from one or more UN and other global and regional bodies and agencies (e.g. UNEP, UNDP, WHO, FAO, UNECE, ITTO) or the Convention's IOPs in its implementation of the Convention? {4.4.1} KRA 4.4.ii.

The IOPs are: BirdLife International, the International Water Management Institute (IWMI), IUCN (International Union for Conservation of Nature), Wetlands International, WWF and Wildfowl & Wetland Trust (WWT).

Please select only one option

- A=Yes
 B=No
 C=Partially
 D=Planned
 X=Unknown
 Y=Not Relevant

18.3 Additional information

If 'Yes' please name the agency (es) or IOP (s) and the type of assistance received

>

18.4 Have networks, including twinning arrangements, been established, nationally or internationally, for knowledge sharing and training for wetlands that share common features? {3.4.1}

Please select only one option

- A=Yes
 B=No
 C=Partially
 D=Planned

18.4 Additional information

If 'Yes' or 'Partially', please indicate the networks and wetlands involved

> WWF Greece has cooperated with Terra Cypria (NGO) in order to conduct the inventory of the Cyprus wetlands the same way it was conducted for the Island Wetland Inventory for Greece. The inventory is now completed. Terra Cypria is now part of MedIsWet joined Mediterranean project for the Conservation of the island wetlands of the Mediterranean Basin. The project consist of a network of 9 Mediterranean countries and

13 partner organizations.

18.5 Has information about your country's wetlands and/or Ramsar Sites and their status been made public (e.g., through publications or a website)? {3.4.2} KRA 3.4.iv

Please select only one option

- A=Yes
 B=No
 C=Partially
 D=Planned

18.5 Additional information

> Environment Department website,
Water Development Department website
LIFE+ Water: WATER-Strengthening the scientific foundation of water quality programs
Cyprus Wetlands website
MedIsWet website

18.6 Has information about your country's wetlands and/or Ramsar Sites been transmitted to the Ramsar Secretariat for dissemination? {3.4.3} KRA 3.4.ii

Please select only one option

- A=Yes
 B=No
 C=Partially
 D=Planned

18.6 Additional Information

>

18.7 Have all transboundary wetland systems been identified? {3.5.1} KRA 3.5.i

Please select only one option

- A=Yes
 B=No
 D=Planned
 Z=Not Applicable

18.7 Additional information

>

18.8 Is effective cooperative management in place for shared wetland systems (for example, in shared river basins and coastal zones)? {3.5.2} KRA 3.5.ii

Please select only one option

- A=Yes
 B=No
 C=Partially
 D=Planned
 Y=Not Relevant

18.8 Additional information

If 'Yes' or 'Partially', please indicate for which wetland systems such management is in place
> For Wetlands in Cyprus including the Larnaka Salt Lake (Ramsar) there is effective cooperation between competent authorities for their management including integrated approaches in relevant strategies

18.9 Does your country participate in regional networks or initiatives for wetland-dependent migratory species? {3.5.3} KRA 3.5.iii

Please select only one option

- A=Yes
 B=No
 D=Planned
 Z=Not Applicable

18.9 Additional information

> Networking is done via research projects, with NGOs, other authorities, countries and or academic institutions
Oroklini networking, Tour de Valat:, ACCOLAGOONS project networking committee

Target 19

Capacity building for implementation of the Convention and the 4th Ramsar Strategic Plan 2016 – 2024 is enhanced.

19.1 Has an assessment of national and local training needs for the implementation of the Convention been made? {4.1.4} KRAs 4.1.iv & 4.1.viii

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

19.1 Additional information

>

19.2 Are wetland conservation and wise-use issues included in formal education programmes?

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

19.2 Additional information

If you answer yes to the above please provide information on which mechanisms and materials

> During LIFE Oroklini there was an action for preparing an educational pack for schools: Teaching children conservation issues with experiential means such as the education material included in the education pack contributes towards creating citizens with environmental consciousness. The pack for schools was contributed mainly on schools and environmental centers closed to the main wetlands of the island. For the preparation of the pack the Ministry of Education was involve.

19.3a How many opportunities for wetland site manager training have been provided since COP12? {4.1.5} KRA 4.1.iv

a) at Ramsar Sites

Please select only one option

- E=Exact number (opportunities)

> E=0

- F=Less than (opportunities)

>

- G=More than (opportunities)

>

- C=Partially
- X=Unknown
- Y=Not Relevant

19.3b How many opportunities for wetland site manager training have been provided since COP12? {4.1.5} KRA 4.1.iv

b) at other wetlands

Please select only one option

- E=Exact number (Opportunities)

> E=0

- F=Less than (Opportunities)

>

- G=More than (Opportunities)
- C=Partially
- X=Unknown
- Y=Not Relevant

19.3 Additional information

including whether the Ramsar Wise Use Handbooks were used in the training

>

19.4 Have you (AA) used your previous Ramsar National Reports in monitoring implementation of the Convention? {4.3.1} KRA 4.3.ii

Please select only one option

- A=Yes
- B=No
- D=Planned
- Z=Not Applicable

19.4 Additional information

If 'Yes', please indicate how the Reports have been used for monitoring

>

Section 4. Optional annex to allow any Contracting Party that has developed national targets to provide information on those

Goal 1

Target 1: Wetland benefits

Wetland benefits are featured in national / local policy strategies and plans relating to key sectors such as water, energy, mining, agriculture, tourism, urban development, infrastructure, industry, forestry, aquaculture, fisheries at the national and local level. Contributes to Aichi Target 2

Target 1: Wetland benefits - Priority

Please select only one option

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

Target 1: Wetland benefits - Resourcing

Please select only one option

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

Target 1: Wetland benefits - National Targets

>

Target 1: Wetland benefits - Planned activity

>

Target 1: Wetland benefits - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

Note: this field has to be completed when the full report is submitted in January 2018

>

Target 2: Water Use

Water use respects wetland ecosystem needs for them to fulfil their functions and provide services at the appropriate scale inter alia at the basin level or along a coastal zone. Contributes to Aichi Targets 7 and 8 and Sustainable Development Goal 6.3.1

Target 2: Water Use - Priority

Please select only one option

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

Target 2: Water Use - Resourcing

Please select only one option

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

Target 2: Water Use - National Targets

>

Target 2: Water Use - Planned activity

>

Target 2: Water Use - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

Note: this field has to be completed when the full report is submitted in January 2018

>

Target 3: Public and private sectors

Public and private sectors have increased their efforts to apply guidelines and good practices for the wise use of water and wetlands. {1.10}. Contributes to Aichi Targets 3, 4, 7 and 8.

Target 3: Public and private sectors - Priority

Please select only one option

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

Target 3: Public and private sectors - Resourcing

Please select only one option

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

Target 3: Public and private sectors - National Targets

>

Target 3: Public and private sectors - Planned activity

>

Target 3: Public and private sectors - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

Note: this field has to be completed when the full report is submitted in January 2018

>

Target 4: Invasive alien species

Invasive alien species and pathways of introduction and expansion are identified and prioritized, priority invasive alien species are controlled or eradicated, and management responses are prepared and implemented to prevent their introduction and establishment. Contributes to Aichi Target 9.

Target 4: Invasive alien species - Priority

Please select only one option

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

Target 4: Invasive alien species - Resourcing

Please select only one option

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

Target 4: Invasive alien species - National Targets

>

Target 4: Invasive alien species - Planned activity

>

Target 4: Invasive alien species - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

Note: this field has to be completed when the full report is submitted in January 2018

>

Goal 2

Target 5: Ecological character of Ramsar Sites

The ecological character of Ramsar Sites is maintained or restored through effective, planning and integrated management {2.1.}. Contributes to Aichi Target 6,11, 12.

Target 5: Ecological character of Ramsar Sites - Priority

Please select only one option

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

Target 5: Ecological character of Ramsar Sites - Resourcing

Please select only one option

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

Target 5: Ecological character of Ramsar Sites - National Targets

>

Target 5: Ecological character of Ramsar Sites - Planned activity

>

Target 5: Ecological character of Ramsar Sites - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

Note: this field has to be completed when the full report is submitted in January 2018

>

Target 7: Sites at risk

Sites that are at risk of change of ecological character have threats addressed {2.6.}. Contributes to Aichi Targets 5, 7, 11, 12.

Target 7: Sites at risk - Priority

Please select only one option

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

Target 7: Sites at risk - Resourcing

Please select only one option

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

Target 7: Sites at risk - National Targets

>

Target 7: Sites at risk - Planned activity

>

Target 7: Sites at risk - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

Note: this field has to be completed when the full report is submitted in January 2018

>

Goal 3

Target 8: National wetland inventories

National wetland inventories have been either initiated, completed or updated and disseminated and used for promoting the conservation and effective management of all wetlands {1.1.1} KRA 1.1.i. Contributes to Aichi Targets 12, 14, 18, 19.

Target 8: National wetland inventories - Priority

Please select only one option

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

Target 8: National wetland inventories - Resourcing

Please select only one option

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

Target 8: National wetland inventories - National Targets

>

Target 8: National wetland inventories - Planned activity

>

Target 8: National wetland inventories - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

Note: this field has to be completed when the full report is submitted in January 2018

>

Target 9: Wise Use

The wise use of wetlands is strengthened through integrated resource management at the appropriate scale, inter alia, within a river basin or along a coastal zone {1.3.}. Contributes to Aichi Targets 4, 6, 7.

Target 9: Wise Use - Priority

Please select only one option

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

Target 9: Wise Use - Resourcing

Please select only one option

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

Target 9: Wise Use - National Targets

>

Target 9: Wise Use - Planned activity

>

Target 9: Wise Use - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

Note: this field has to be completed when the full report is submitted in January 2018

>

Target 10: Traditional Knowledge

The traditional knowledge innovations and practices of indigenous peoples and local communities relevant for the wise use of wetlands and their customary use of wetland resources, are documented, respected, subject to national legislation and relevant international obligations and fully integrated and reflected in the implementation of the Convention with a full and effective participation of indigenous and local communities at all relevant levels. Contributes to Aichi Target 18.

Target 10: Traditional Knowledge - Priority

Please select only one option

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

Target 10: Traditional Knowledge - Resourcing

Please select only one option

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

Target 10: Traditional Knowledge - National Targets

>

Target 10: Traditional Knowledge - Planned activity

>

Target 10: Traditional Knowledge - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

Note: this field has to be completed when the full report is submitted in January 2018

>

Target 11: Wetland functions

Wetland functions, services and benefits are widely demonstrated, documented and disseminated. {1.4}.
Contributes to Aichi Targets 1, 2, 13, 14.

Target 11: Wetland functions - Priority

Please select only one option

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

Target 11: Wetland functions - Resourcing

Please select only one option

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

Target 11: Wetland functions - National Targets

>

Target 11: Wetland functions - Planned activity

>

Target 11: Wetland functions - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

Note: this field has to be completed when the full report is submitted in January 2018

>

Target 12: Restoration

Restoration is in progress in degraded wetlands, with priority to wetlands that are relevant for biodiversity conservation, disaster risk reduction, livelihoods and/or climate change mitigation and adaptation. {1.8.}.
Contributes to Aichi Targets 14 and 15.

Target 12: Restoration - Priority

Please select only one option

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

Target 12: Restoration - Resourcing

Please select only one option

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

Target 12: Restoration - National Targets

>

Target 12: Restoration - Planned activity

>

Target 12: Restoration - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

Note: this field has to be completed when the full report is submitted in January 2018

>

Target 13: Enhanced sustainability

Enhanced sustainability of key sectors such as water, energy, mining, agriculture, tourism, urban development, infrastructure, industry, forestry, aquaculture and fisheries when they affect wetlands, contributing to biodiversity conservation and human livelihoods. Contributes to Aichi Targets 6 and 7.

Target 13: Enhanced sustainability - Priority

Please select only one option

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

Target 13: Enhanced sustainability - Resourcing

Please select only one option

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

Target 13: Enhanced sustainability - National Targets

>

Target 13: Enhanced sustainability - Planned activity

>

Target 13: Enhanced sustainability - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

Note: this field has to be completed when the full report is submitted in January 2018

>

Goal 4

Target 15: Regional Initiatives

Ramsar Regional Initiatives with the active involvement and support of the Parties in each region are reinforced and developed into effective tools to assist in the full implementation of the Convention. {3.2.}

Target 15: Regional Initiatives - Priority

Please select only one option

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

Target 15: Regional Initiatives - Resourcing

Please select only one option

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

Target 15: Regional Initiatives - National Targets

>

Target 15: Regional Initiatives - Planned activity

>

Target 15: Regional Initiatives - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

Note: this field has to be completed when the full report is submitted in January 2018

>

Target 16: Wetlands conservation and wise use

Wetlands conservation and wise use are mainstreamed through communication, capacity development, education, participation and awareness {4.1}. Contributes to Aichi Target 1 and 18.

Target 16: Wetlands conservation and wise use - Priority

Please select only one option

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

Target 16: Wetlands conservation and wise use - Resourcing

Please select only one option

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

Target 16: Wetlands conservation and wise use - National Targets

>

Target 16: Wetlands conservation and wise use - Planned activity

>

Target 16: Wetlands conservation and wise use - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

>

Section 5: Optional annex to allow any Contracting Party that so wishes to provide additional information regarding any of all of its designated Wetlands of International Importance (Ramsar Sites)

Guidance for filling in this section

1. Contracting Parties can provide additional information specific to any or all of their designated Ramsar Sites, given that the situation and status of individual Ramsar Sites can differ greatly within the territory of a Contracting Party.
 2. The only indicator questions included in this section are those from Section 3 of the COP13 NRF which directly concern Ramsar Sites.
 3. In some cases, to make them meaningful in the context of reporting on each Ramsar Site separately, some of these indicator questions and/or their answer options have been adjusted from their formulation in Section 3 of the COP13 NRF.
 4. Please include information on only one site in each row. In the appropriate columns please add the name and official site number (from the Ramsar Sites Information Service).
 5. For each 'indicator question', please select one answer from the legend.
 6. A final column of this Annex is provided as a 'free text' box for the inclusion of any additional information concerning the Ramsar Site.
- A final column of this Annex is provided as a 'free text' box for the inclusion of any additional information concerning the Ramsar Site.

Cyprus

Larnaca Salt Lake (1081)

5.7 Has a cross-sectoral site management committee been established for the site?

Please select only one option

- A=Yes
- B=No
- D=Planned

5.9 If an assessment of the effectiveness of Ramsar Site management has been made please indicate the year of assessment, which assessment tool did you use (e.g. METT, Resolution XII.15), the result (score) of the assessment and the source of the information in the box for additional information.

Please select only one option

- A=Yes
- B=No
- D=Planned

11.1 Has an assessment been made of the ecosystem benefits/services provided by the Ramsar Site?

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

11.3 Have socio-economic values of wetlands been included in the management planning for the Ramsar Site?

Please select only one option

- A=Yes
- B=No
- C=Partially
- Z=No Management Plan

11.4 Have cultural values of wetlands been included in the management planning for the Ramsar Site?

Please select only one option

- A=Yes
- B=No
- C=Partially
- Z=No Management Plan

16.3a Is stakeholder participation in decision-making promoted, especially with local stakeholder involvement in the management of the Ramsar Site?

Please select only one option

- A=Yes
- B=No
- D=Planned

16.6a Have communication mechanisms been established to share information between the Ramsar Administrative Authority and the Ramsar Site manager(s)?

Please select only one option

- A=Yes
- B=No
- D=Planned

Any additional comments/information about the site

>
