

# Ramsar National Report to COP13

## COP13 National Report

### Background information

1. The COP13 National Report Format (NRF) has been approved by the Standing Committee 52 for the Ramsar Convention's Contracting Parties to complete as their national reporting to the 13th meeting of the Conference of the Contracting Parties of the Convention (United Arab Emirates, 2018).
2. The Standing Committee through Decision SC52-07 has also agreed that an online National Reporting format could be made available to Parties by keeping the off-line system and requested the Secretariat to present an evaluation for the next COP regarding the use of the on-line system.
3. The National Report Format is being issued by the Secretariat in 2016 to facilitate Contracting Parties' implementation planning and preparations for completing the Report. The deadline for submission of national targets is by 30 November 2016 and the deadline for submission of completed National Reports is January 21st 2018.
4. Following Standing Committee discussions, this COP13 NRF closely follows that of the NRF used for COP12, to permit continuity of reporting and analysis of implementation progress by ensuring that indicator questions are as far as possible consistent with previous NRFs (and especially the COP12 NRF). It is also structured in terms of the Goals and Strategies of the 2016-2024 Ramsar Strategic Plan adopted at COP12 as Resolution XII.2.
5. This COP13 NRF includes 92 indicator questions. In addition, Section 4 is provided as an optional Annex in order to facilitate the task of preparing the Party's National Targets and Actions for the implementation of each of the targets of the Strategic Plan 2016-2024 according to Resolution XII.2.
6. As was the case for previous NRF, the COP13 Format includes an optional section (Section 5) to permit a Contracting Party to provide additional information, on indicators relevant to each individual Wetland of International Importance (Ramsar Site) within its territory.
7. Note that, for the purposes of this national reporting to the Ramsar Convention, the scope of the term "wetland" is that of the Convention text, i.e. all inland wetlands (including lakes and rivers), all nearshore coastal wetlands (including tidal marshes, mangroves and coral reefs) and human-made wetlands (e.g. rice paddy and reservoirs), even if a national definition of "wetland" may differ from that adopted by the Contracting Parties to the Ramsar Convention.

### The purposes and uses of national reporting to the Conference of the Contracting Parties

8. National Reports from Contracting Parties are official documents of the Convention and are made publicly available on the Convention's website.
9. There are seven main purposes for the Convention's National Reports. These are to:
  - i) provide data and information on how, and to what extent, the Convention is being implemented
  - ii) provide tools for countries for their national planning
  - iii) capture lessons and experience to help Parties plan future action;
  - iv) identify emerging issues and implementation challenges faced by Parties that may require further attention from the Conference of the Parties;
  - v) provide a means for Parties to account for their commitments under the Convention;
  - vi) provide each Party with a tool to help it assess and monitor its progress in implementing the Convention, and to plan its future priorities; and
  - vii) provide an opportunity for Parties to draw attention to their achievements during the triennium.
10. The data and information provided by Parties in their National Reports have another valuable purpose as well, since a number of the indicators in the National Reports on Parties' implementation provide key sources of information for the analysis and assessment of the "ecological outcome-oriented indicators of

effectiveness of the implementation of the Convention”.

11. To facilitate the analysis and subsequent use of the data and information provided by Contracting Parties in their National Reports, the Ramsar Secretariat holds in a database all the information it has received and verified. The COP13 reports will be in an online National Reporting system.

12. The Convention’s National Reports are used in a number of ways. These include:

- i) providing an opportunity to compile and analyze information that contracting parties can use to inform their national planning and programming.
- ii) providing the basis for reporting by the Secretariat to each meeting of the Conference of the Parties on the global, national and regional implementation, and the progress in implementation, of the Convention. This is provided to Parties at the COP as a series of Information Papers, including:
  - \* the Report of the Secretary General on the implementation of the Convention at the global level;
  - \* the Report of the Secretary General pursuant to Article 8.2 (b), (c), and (d) concerning the List of Wetlands of International Importance); and
  - \* the reports providing regional overviews of the implementation of the Convention and its Strategic Plan in each Ramsar region;
- iii) providing information on specific implementation issues in support of the provision of advice and decisions by Parties at the COP.
- iv) providing the source data for time-series assessments of progress on specific aspects in the implementation of the Convention included in other Convention products. An example is the summary of progress since COP3 (Regina, 1997) in the development of National Wetland Policies, included as Table 1 in Ramsar Wise Use Handbook 2 (4th edition, 2010); and
- v) providing information for reporting to the Convention on Biological Diversity (CBD) on the national implementation of the CBD/Ramsar Joint Work Plan and the Ramsar Convention’s lead implementation role on wetlands for the CBD. In particular, the Ramsar Secretariat and STRP used the COP10 NRF indicators extensively in 2009 to prepare contributions to the in-depth review of the CBD programme of work on the biological diversity of inland water ecosystems for consideration by CBD SBSTTA14 and COP10 during 2010 (see UNEP/CBD/SBSTTA/14/3). Similar use of COP12 NRF indicators is anticipated for the CBD’s next such in-depth review.

### **The structure of the COP13 National Report Format**

**Section 1** provides the institutional information about the Administrative Authority and National Focal Points for the national implementation of the Convention.

**Section 2** is a ‘free-text’ section in which the Party is invited to provide a summary of various aspects of national implementation progress and recommendations for the future.

**Section 3** provides the 92 implementation indicator questions, grouped under each Convention implementation Goals and Targets in the Strategic Plan 2016-2024, and with an optional ‘free-text’ section under each indicator question in which the Contracting Party may, if it wishes, add further information on national implementation of that activity.

**Section 4** is an optional annex to allow any Contracting Party that has developed national targets to provide information on the targets and actions for the implementation of each of the targets of the Strategic Plan 2016-2024.

In line with Resolution XII.2, which encourages Contracting Parties “to develop and submit to the Secretariat on or before December 2016, and according to their national priorities, capabilities and resources, their own quantifiable and time-bound national and regional targets in line with the targets set in the Strategic Plan”, all Parties are encouraged to consider using this comprehensive national planning tool as soon as possible, in order to identify the areas of highest priority for action and the relevant national targets and actions for each target.

The planning of national targets offers, for each of them, the possibility of indicating the national priority for that area of activity as well as the level of resourcing available, or that could be made available during the triennium, for its implementation. In addition, there are specific boxes to indicate the National Targets for implementation by 2018 and the planned national activities that are designed to deliver these targets. Ramsar Strategic Plan 2016-2024 shows the synergies between CBD Aichi Biodiversity Targets and Ramsar Targets. Therefore, the NRF provide an opportunity that Contracting Parties indicate as appropriate how the actions they undertake for the implementation of the Ramsar Convention contribute to achievement of the Aichi Targets according to paragraph 51 of Resolution XII.3.

**Section 5** is an optional annex to allow any Contracting Party that so wishes to provide additional information regarding any or all of its Wetlands of International Importance (Ramsar Sites).

## **General guidance for completing and submitting the COP13 National Report Format**

All Sections of the COP13 NRF should be completed in one of the Convention's official languages (English, French, Spanish).

The deadline for submission of the completed NRF is January 21st **2018**. It will not be possible to include information from National Reports received after that date in the analysis and reporting on Convention implementation to COP13.

The deadline for submission of national targets is by 30 November 2016

To help Contracting Parties refer to relevant information they provided in their National Report to COP12, for each appropriate indicator a cross-reference is provided to the equivalent indicator(s) in the COP12 NRF or previous NRF, shown thus: {x.x.x}

For follow up and where appropriate, a cross-reference is also provided to the relevant Key Result Area (KRA) relating to Contracting Parties implementation in the Strategic Plan 2009-2015.

Only Strategic Plan 2016-2024 Targets for which there are implementation actions for Contracting Parties are included in this reporting format; those targets of the Strategic Plan that do not refer directly to Parties are omitted (e.g. targets 6 and 14).

For each indicator question you can choose only one answer. If you wish to provide further information or clarification, do so in the additional information box below the relevant indicator question. Please be as concise as possible (**maximum of 500 words** in each free-text box).

The NRF should ideally be completed by the principal compiler in consultation with relevant colleagues in their agency and others within the government and, as appropriate, with NGOs and other stakeholders who might have fuller knowledge of aspects of the Party's overall implementation of the Convention. The principal compiler can save the document at any point and return to it later to continue or to amend answers. Compilers should refer back to the National Report submitted for COP12 to ensure the continuity and consistency of information provided.

If you have any questions or problems, please contact the Ramsar Secretariat for advice ([nationalreports@ramsar.org](mailto:nationalreports@ramsar.org)).

## Section 1: Institutional Information

**Important note:** the responses below will be considered by the Ramsar Secretariat as the definitive list of your focal points, and will be used to update the information it holds. The Secretariat's current information about your focal points is available at <http://www.ramsar.org/search-contact>.

### Name of Contracting Party

The completed National Report **must be accompanied by a letter** in the name of the Head of Administrative Authority, confirming that this is the Contracting Party's official submission of its COP13 National Report. It can be attached to this question using the "Manage documents" function (blue symbol below)

> Republic of Serbia

You have attached the following documents to this answer.

[Letter.pdf](#)

## Designated Ramsar Administrative Authority

### Name of Administrative Authority

> Ministry of Environmental Protection

### Head of Administrative Authority - name and title

> Mr Goran Trivan, Minister

### Mailing address

> Bul. Mihaila Pupina 2  
11070 Belgrade  
Serbia

### Telephone/Fax

> +381 11 311 02 71

### Email

> kabinet@ekologija.gov.rs

## Designated National Focal Point for Ramsar Convention Matters

### Name and title

> Jelena Ducic, senior adviser, Sector for Nature Protection and Climate Change

### Mailing address

> Omladinskih brigada 1  
11070 Belgrade  
Serbia

### Telephone/Fax

> +381 11 36 2222 1

### Email

> jelena.ducic@ekologija.gov.rs

## Designated National Focal Point for Matters Relating to The Scientific and Technical Review Panel (STRP)

### Name and title

> Nikola Stojnic, ornithologist, Head of Department for species and habitats

### Name of organisation

> Provincial Institute for Nature Conservation

### Mailing address

> Radnicka 20a  
21000 Novi Sad  
Serbia

### Telephone/Fax

> +381 21 4896 301 /+381 21 6616 252 (fax)

Email

> nikola.stojnic@pzzp.rs

**Designated Government National Focal Point for Matters Relating to The Programme on Communication, Education, Participation and Awareness (CEPA)**

Name and title

> Natasa Panic, Head of Department for education and publishing

Name of organisation

> Institute for Nature Conservation of Serbia

Mailing address

> Dr Ivana Ribara 91  
11070 Belgrade  
Serbia

Telephone/Fax

> +381 11 2093 801/ +381 11 2093 867 (fax)

## Section 2: General summary of national implementation progress and challenges

In your country, in the past triennium (i.e., since COP12 reporting)

### A. What have been the five most successful aspects of implementation of the Convention?

1)

> In legislative point of view, in 2015 the Government of Republic of Serbia has adopted the Decree on proclamation of protected area Special Nature Reserve 'Peštersko polje' ('Official Gazzette of the RS' no.114/2015 ), I category according to Serbian Law, protected area of international and exceptional importance (2015/12/31). It's also a part of ecological network of the Republic of Serbia. Total protected area is 3117, 97 ha and Ramsar site is on 3,455 hectares. Performing all works that could disturb or modify the geomorphologic and pedological characteristics of the area, which primarily relates to soil degradation, pollution and irrational use, as well as the exploitation of mineral resources (peat, stone, materials of river beds and lakes) and waste disposal as well as construction of surface exploitation fields of peat and associated infrastructure, are prohibited according to the Decree on proclamation.

In 2014, Decree on proclamation of Protected landscape "Karas-Nera" was aproved at the regional level. Part of this protected area is within Ramsar site Labudovo okno.

Decree on proclamation of enlargement of protected area Zasavica within the borders of Ramsar site is ongoing.

The Law on ratification of AEWA agreement is in the procedure of being aproved by the Parliament.

2)

> In June 2017 the International coordination council of the UNESCO Man and Biosphere program has added Backo Podunavlje to the World Network of Biosphere. Backo Podunavlje Biosphere Reseve is located at the north-west of Serbia spreading on 176,635 ha along 5 municipalities and containing four protected areas including Special nature reserve and Ramsar site Gornje Podunavlje, part of ecological network of the Republic of Serbia. Backo Podunavlje is also a part of the "Amazon of Europe", one of the most undisturbed river and wetland regions in the whole Danube river basin. This unique landscape is of precious biological diversity and is home to rare natural habitats such as gravel islands, side-arms and sandy river shores. This announcement will help conserve Serbia's nature which is one of the most diverse in Europe. Backo Podunavlje also boasts a great cultural heritage.

3)

> After more than 50 years of absence, the Glossy Ibis (*Plegadis falcinellus*) has returned to breed in the Obedska Bara Ramsar site in Serbia. Survey of the breeding grounds in 2016 found four pairs of Glossy Ibis and 6-8 pairs of Eurasian Spoonbill (*Platalea leucorodia*), which have also not been seen in the area since the 1990s. Obedska Bara, an Important Bird Area (IBA), Ramsar site and part of ecological network of the Republic of Serbia, located on the banks of the Sava River some 30 km west of the capital Belgrade, was once considered a European stronghold of these species. During the late 19th and beginning of the 20th century, up to 4.500 breeding pairs were spotted congregating there during breeding season, according to research. Actions were carried out at six former pastures and wet meadows, from where dense bushes and trees, many of them invasive, were removed. These areas are being maintained by regular mowing, mulching and cattle grazing. More than 220 volunteers from 25 countries and 100 locals, officials and companies from from neighboring villages took part. They were led by the Institute for Nature Conservation of Vojvodina Province, Young Researchers of Serbia and Provincial Secretariat for Urban Planning and Environmental Protection of Vojvodina Province, who are also conducting further research into the area. The plan was to increase the extent of wet meadows and pastures from 50 ha in 1995 to 250 ha (2.5% of protected area). As of 2016, 200 ha of land has been restored, making therefore (and finally) favorable feeding sites for Glossy Ibis, Spoonbill and many other waterbirds.

4)

> Best example of good wetland management in Serbia is Obedska bara, one of the first Ramsar sites, where numerous revitalization activities occur. Many wet meadows, ponds and oxbows are restored. Similar activities, but on a smaller scale, are done on Ramsar sites Gornje Podunavlje, Stari begej - Carska bara, Ludasko jezero and Zasavica. On Ramsar site Slano kopovo a water regime restoration project is in its final stage. Key activities implemented at the Ramsar sites (according to their management plans for the period 2012-2022) are:

1.Obedska bara-revitalization of wet meadows and pastures, revitalization of forest habitats, water regime management.

2.Zasavica- revitalization of wet meadows and pastures, water regime management, education and promotion,

3.Koviljsko-Petrovaradinski rit-active protection of habitats and species (including revitalization of specific habitats), education and promotion,

4. Gornje Podunavlje- active protection of habitats and species, restoration of wet habitats, feeding areas for raptors, education and promotion,
5. Slano kopovo- active protection of habitats and species, revitalization of grassland salt habitats, improvement of water regime, education and promotion,
6. Stari Begej-Carska Bara- active protection of habitats and species, revitalization of habitats, removal of invasive species, management of water regime, education and promotion
7. Ludas lake - active protection of habitats and species, improved habitat management, removal of invasive species, education and promotion
8. Vlasina - education and promotion

5)

> Preparation of RIS for designation of new Ramsar site in Serbia - 'Djerdap' which includes National Park Djerdap and IBA Mala Vrbica, both part of ecological network of the Republic of Serbia, is done. Public hearing was held in December 2016 in the Public Enterprise "National Park Djerdap" and the data are currently being filled into RSIS for finalizing the national procedure for designation. There is also a initiative from the Romanian Ministry responsible for Environment for proclamation of the transboundary Ramsar site that includes Serbian Djerdap and Romanian Portile de Fier sites.

## **B. What have been the five greatest difficulties in implementing the Convention?**

1)

> Harmonizing wise use principles with demands of other sectors (agriculture, forest, hunting, water management, spatial planning, economy and infrastructure, tourism, energy and mining)

2)

> At the site level - water regime regulation, habitat fragmentation, expansion of invasive species, urbanization, land tenure issues, forestry, agriculture

3)

> Lack of Ramsar National Committee

4)

> Lack of resources for further inventarisation of the Ramsar sites

5)

> Insufficient management capacities

## **C. What are the five priorities for future implementation of the Convention?**

1)

> Improvement of wise use management on Ramsar sites and wetlands in general

2)

> Establishing and/or enlarging protected areas, ecological network including identification of Natura 2000 in wetland areas

3)

> Designation of new Ramsar sites including potential transboundary ones (e.g. Djerdap)

4)

> Improvement of the synergy within all Biodiversity related conventions as well as improvement of the synergies in implementation of EU legislation especially between WFD and Habitats Directive

5)

> Capacity Building, both institutional and individual

D. Do you (AA) have any recommendations concerning implementation assistance from the Ramsar Secretariat?

> Support for capacity building activities for managers, more webinars on management of Ramsar sites and implementation of recommendations adopted by COPs

E. Do you (AA) have any recommendations concerning implementation assistance from the Convention's International Organisation Partners (IOPs)? (including ongoing partnerships and partnerships to develop)

> Improvement of using nature based solutions in disaster risk management (a study is currently being developed by IUCN ECARO for Serbia towards the implementation of nature-based solutions - the role of ecosystem services in disaster risk reduction and climate change adaptation)

F. How can national implementation of the Ramsar Convention be better linked with implementation of other multilateral environmental agreements (MEAs), especially those in the 'biodiversity cluster' (Convention on Biological Diversity (CBD), Convention on Migratory Species (CMS), Convention on International Trade in Endangered Species (CITES), World Heritage Convention (WHC), and United Nations Convention to Combat Desertification (UNCCD) and the United Nations Framework Convention on Climate Change (UNFCCC)?

> In general, there is a good linkage in terms of implementing the above mentioned MEAs since the Ministry of Environmental Protection is the focal point for all MEAs except WHC. National implementation of the Ramsar Convention needs to be closely linked with implementation of other biodiversity related MEAs in order to improve synergy - possibly through enhancing cooperation of all FP or establishing the national unit/body for implementation of all MEAs.

G. How can implementation of the Ramsar Convention be better linked with the implementation of water policy/strategy and other strategies in the country (e.g., on sustainable development, energy, extractive industries, poverty reduction, sanitation, food security, biodiversity)?

> Through delivering cross cutting actions in action plans for implementation of those strategic documents and/or establishing permanent working group comprised of the key policy and decision makers in named sectors

H. Do you (AA) have any other general comments on the implementation of the Convention?

>

I. Please list the names of the organisations which have been consulted on or have contributed to the information provided in this report

> Ministry of Environmental Protection (Division for ecological networks and appropriate assessment, Unit for protected areas, Division for biodiversity, Division for EIA, Unit for SEA, Division for water protection, Division for climate change), Water Directorate of the Ministry of Agriculture, Forestry and Water management, Institute for Nature Conservation of Serbia, Provincial Institute for Nature Conservation

## Section 3: Indicator questions and further implementation information

### Goal 1. Addressing the drivers of wetland loss and degradation

#### Target 1

Wetland benefits are featured in national/ local policy strategies and plans relating to key sectors such as water, energy, mining, agriculture, tourism, urban development, infrastructure, industry, forestry, aquaculture, fisheries at the national and local level.

1.1 Have wetland issues/benefits been incorporated into other national strategies and planning processes, including: {1.3.2} {1.3.3} KRA 1.3.i

Please select only one per square.

a) National Policy or strategy for wetland management	<input type="checkbox"/> A=Yes <input checked="" type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
b) Poverty eradication strategies	<input type="checkbox"/> A=Yes <input checked="" type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
c) Water resource management and water efficiency plans	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
d) Coastal and marine resource management plans	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input checked="" type="checkbox"/> Y=Not Relevant
e) Integrated Coastal Zone Management Plan	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input checked="" type="checkbox"/> Y=Not Relevant
f) National forest programmes	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input checked="" type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
g) National policies or measures on agriculture	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input checked="" type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
h) National Biodiversity Strategy and Action Plans drawn up under the CBD	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
i) National policies on energy and mining	<input type="checkbox"/> A=Yes <input checked="" type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant

j) National policies on tourism	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input checked="" type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
k) National policies on urban development	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input checked="" type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
l) National policies on infrastructure	<input type="checkbox"/> A=Yes <input checked="" type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
m) National policies on industry	<input type="checkbox"/> A=Yes <input checked="" type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
n) National policies on aquaculture and fisheries {1.3.3} KRA 1.3.i	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input checked="" type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
o) National plans of actions (NPAs) for pollution control and management	<input type="checkbox"/> A=Yes <input checked="" type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
p) National policies on wastewater management and water quality	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input checked="" type="checkbox"/> Y=Not Relevant

## 1.1 Additional information

> Nature protection strategy, pursuant to the Law on Nature Protection ("Official Gazette of RS", no. 36/2009, 88/2010, 91/2010 – corr. and 14/16), is a basic instrument for the implementation of ratified international agreements in the field of nature conservation, establishing long-term objectives and measures for the conservation of biological and geological diversity and the manner of their implementation. Draft Nature Protection Strategy of the Republic of Serbia for the period 2017-2027 was prepared in 2016 and includes revised strategic objectives and targets for biodiversity conservation in accordance with global Strategic plan and Aichi targets (revised Strategy for biodiversity) and EU targets and also includes geodiversity strategic area and landscapes.

In accordance with the Water Law, the Government of the Republic of Serbia adopted on December 23rd 2016, the Strategy for Water Management in the Republic of Serbia up to 2034 (Official Gazette RS, no. 3/2017). In accordance with the Water Law and by laws adopted in 2017 (Rulebook on the criteria for determination of protected areas, Official Gazette of RS number 33/17 and Rulebook on the Content and Method of Keeping of Registers of Protected Areas, Official Gazette of RS number 33/17), Register of protected areas on river district shall be established and a summary of the register of protected areas, including a map indicating the locations of the protected areas shall be given in River Basin Management Plan (RBMP). RBMP shall also include a list of environmental objectives relating to surface waters, groundwaters and protected areas/ecological network/Ramsar sites; Currently, DIRECTIVE 2000/60/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL (WFD) is partially transposed to national legislation for water management. The full transposition is expected to be finalized by 2020. Ongoing activity is preparation of RBMP, the plan is to have it adopted by the Government of RS by the end 2021.

Disaster risk management programme was adopted by the Government on 19th December 2014.

Answer n) relates for freshwater capture fisheries only.

## Target 2

Water use respects wetland ecosystem needs for them to fulfil their functions and provide services at the

appropriate scale inter alia at the basin level or along a coastal zone

2.1 Has the quantity and quality of water available to, and required by, wetlands been assessed to support the implementation of the Guidelines for the allocation and management of water for maintaining the ecological functions of wetlands (Resolution VIII.1, VIII.2) ? 1.24.

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned

#### 2.1 Additional Information

> Within management plans of some protected areas and Ramsar sites (for example Obedska bara, Slano kopovo) activities are conducted to assess and use water for better wetland status. Further analysis will be done during RBMP preparation

2.2 Have assessments of environmental flow been undertaken in relation to mitigation of impacts on the ecological character of wetlands (Action r3.4.iv)

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned

#### 2.2 Additional Information

> Pilot study on ecosystem services was done for Ramsar site Koviljsko Petrovaradinski rit, where the assessment of relation between floods and ecological character has been done. This assessment will be further done during RBMP preparation

2.3 Have Ramsar Sites improved the sustainability of water use in the context of ecosystem requirements?

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned
- O=No Change
- X=Unknown

#### 2.3 Additional Information

> This relates to Ramsar sites along big rivers Danube and Sava.

2.4 Have the Guidelines for allocation and management of water for maintaining ecological functions of wetlands (Resolutions VIII.1 and XII.12 ) been used/applied in decision-making processes. (Action 3.4.6.)

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned

#### 2.4 Additional Information

> This analysis will be done during RBMP preparation

2.5 Have projects that promote and demonstrate good practice in water allocation and management for maintaining the ecological functions of wetlands been developed (Action r3.4.ix. )

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned

## 2.5 Additional Information

> For Ramsar sites Obedska bara, Slano Kopovo

## 2.6 How many household/municipalities are linked to sewage system? SDG Target 6.3.1.

*Please select only one option*

E=Exact number (households/municipalities)

> E=3.900.000

F=Less than (households/municipalities)

>

G=More than (households/municipalities)

>

X=Unknown

Y=Not Relevant

## 2.6 Additional Information

> Approximately 3.9 million residents are currently connected to wastewater collection systems in Serbia

## 2.7 What is the percentage of sewerage coverage in the country? SDG Target 6.3.1.

*Please select only one option*

E=Exact number (percentage)

> E=55%

F=Less than (percentage)

>

G=More than (percentage)

>

X=Unknown

Y=Not Relevant

## 2.7 Additional Information

> Approximately 3.9 million residents are currently connected to wastewater collection systems in Serbia. This represents about 55% of the total population. Public sewerage receives approximately 296 thousand m<sup>3</sup> wastewater annually. Approximately 72% of the wastewater entering the sewers is discharged from households.

Wastewater collection service coverage is more favourable in the region Serbia - North where around 60% of population is connected to a public wastewater collection system, while in the region Serbia - South this percentage is lower - around 50%.

## 2.8 What is the percentage of users of septic tank/pit latrine? SDG Target 6.3.1.

*Please select only one option*

E=Exact number (percentage)

> E=27%

F=Less than (percentage)

>

G=More than (percentage)

>

X=Unknown

Y=Not Relevant

## 2.8 Additional Information

> In accordance with the Water Law, the government of the Republic of Serbia adopted on December 23rd 2016, the Strategy for Water Management in the Republic of Serbia up to 2034 (Official Gazette RS, no. 3/2017).

## 2.9 Does the country use constructed wetlands/ponds as wastewater treatment technology? SDG Target 6.3.1.

*Please select only one option*

A=Yes

B=No

C=Partially

D=Planned

X=Unknown

Y=Not Relevant

## 2.9 Additional Information

>

## 2.10 How do the country use constructed wetlands/ponds as wastewater treatment technology perform? SDG Target 6.3.1.

*Please select only one option*

- A=Good
- B=Not Functioning
- C=Functioning
- Q=Obsolete
- X=Unknown
- Y=Not Relevant

## 2.10 Additional Information

>

## 2.11 How many centralised wastewater treatment plants exist at national level? SDG Target 6.3.1.

*Please select only one option*

- E=Exact number (plants)

> E=50

- F=Less than (plants)

>

- G=More than (plants)

>

- X=Unknown
- Y=Not Relevant

## 2.11 Additional Information

> In the Republic of Serbia, more than 50 WWTP have been built in settlements of more than 2,000 PE, of which 32 WWTP are operating but of which a small number works according to project criteria, while others work with efficiency far below the projected ones.

## 2.12 How is the functional status of the wastewater treatment plants? SDG Target 6.3.1.

*Please select only one option*

- A=Good
- B=Not functioning
- C=Functioning
- Q=Obsolete
- X=Unknown
- Y=Not Relevant

## 2.12 Additional Information

> In the Republic of Serbia, more than 50 WWTP have been built in settlements of more than 2,000 PE, of which 32 WWTP are operating but of which a small number works according to project criteria, while others work with efficiency far below the projected ones.

## 2.13 The percentage of decentralized wastewater treatment technology, including constructed wetlands/ponds is? SDG Target 6.3.1.

*Please select only one option*

- A=Good
- B=Not Functioning
- C=Functioning
- Q=Obsolete
- X=Unknown
- Y=Not Relevant

## 2.13 Additional Information

>

## 2.14 Is there a wastewater reuse system? SDG Target 6.3.1.

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

## 2.14 Additional Information

>

## 2.15 What Is the purpose of the wastewater reuse system? SDG Target 6.3.1.

Please select only one option

- R=Agriculture
- S=Landscape
- T=Industrial
- U=Drinking
- X=Unknown
- Y=Not Relevant

## 2.15 Additional Information

Please indicate if the wastewater reuse system is for free or taxed or add any additional information.

>

## Target 3

Public and private sectors have increased their efforts to apply guidelines and good practices for the wise use of water and wetlands. {1.10}

3.1 Is the private sector encouraged to apply the Ramsar wise use principle and guidance (Ramsar handbooks for the wise use of wetlands) in its activities and investments concerning wetlands? {1.10.1} KRA 1.10.i

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

## 3.1 Additional Information

>

3.2 Has the private sector undertaken activities or actions for the conservation, wise use and management of {1.10.2} KRA 1.10.ii

Please select only one per square.

a) Ramsar Sites	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant
b) Wetlands in general	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned <input type="checkbox"/> X=Unknown <input type="checkbox"/> Y=Not Relevant

## 3.2 Additional information

> WWF and Coca-Cola system established a seven-year partnership (4.4 mil.\$) to restore vital wet and flooded areas along the Danube and its tributaries. The goal of the partnership is reconstruction of the area whose water capacity is 12 million m<sup>3</sup>, and 53 km<sup>2</sup> of wetlands by 2020. The reconnection of former floodplains to the river system by opening the dikes and dams, retaining water in the flooded areas in cooperation with local authorities and stakeholders, is foreseen. At the same time, regional movement for the conservation and restoration of wetlands, as well as proper management of water flow (good water stewardship) will be launched. Restoration projects are planned in Serbia, Hungary, Croatia, Bulgaria, as well as in Austria. WWF is also implementing a two-pillar project "Wetland restoration in the Mura-Drava-Danube area" that will

undertake practical wetland restoration in the Drava-Danube confluence area. Restoration will take place in Gornje Podunavlje Special Nature Reserve and Ramsar site to support biodiversity and generate ecosystem services to local communities and demonstrate the benefits of integrated water management and sustainable use of water resources. Project is financially supported by The Coca-Cola Company, with the aim to improve the status of wetlands in Danube River basin and to become a model example of how businesses and non-profits can work together to benefit nature conservation.

3.3 Have actions been taken to implement incentive measures which encourage the conservation and wise use of wetlands? {1.11.1} KRA 1.11.i

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned

3.3 Additional information

>

3.4 Have actions been taken to remove perverse incentive measures which discourage conservation and wise use of wetlands? {1.11.2} KRA 1.11.i

*Please select only one option*

- A=Yes
- B=No
- D=Planned
- Z=Not Applicable

3.4 Additional Information

>

#### **Target 4**

Invasive alien species and pathways of introduction and expansion are identified and prioritized, priority invasive alien species are controlled or eradicated, and management responses are prepared and implemented to prevent their introduction and establishment.

4.1 Does your country have a comprehensive national inventory of invasive alien species that currently or potentially impact the ecological character of wetlands? {1.9.1} KRA 1.9.i

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned

4.1 Additional information

> The lists of invasive species were published by relevant scientific and expert authorities

4.2 Have national policies or guidelines on invasive species control and management been established or reviewed for wetlands? {1.9.2} KRA 1.9.iii

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned

4.2 Additional information

> Guidelines for fish and plant species removal have been done for several Ramsar sites (Ludasko Lake, Obedska bara, Gornje Podunavlje, Stari Begej Carska bara) and other protected wetlands

4.3 How many invasive species are being controlled through management actions.

*Please select only one option*

- E=Exact number (species)

>

- F=Less than (species)

>

- G=More than (species)

> G=5

- C=Partially
- X=Unknown
- Y=Not Relevant

#### 4.3 Additional information

If 'Yes', please indicate the year of assessment and the source of the information

> Source: Provincial Institute for Nature Conservation

#### 4.4 Have the effectiveness of wetland invasive alien species control programmes been assessed?

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

#### 4.4 Additional information

> Done for Obedska bara

## Goal 2. Effectively conserving and managing the Ramsar Site network

### Target 5

The ecological character of Ramsar Sites is maintained or restored through effective, planning and integrated management {2.1.}

#### 5.1 Have a national strategy and priorities been established for the further designation of Ramsar Sites, using the Strategic Framework for the Ramsar List? {2.1.1} KRA 2.1.i

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned

#### 5.1 Additional information

> Wetland inventory includes comprehensive list of sites to be proposed for designation

#### 5.2 Are the Ramsar Sites Information Service and its tools being used in national identification of further Ramsar Sites to designate? {2.2.1} KRA 2.2.ii

*Please select only one option*

- A=Yes
- B=No
- D=Planned

#### 5.2 Additional information

>

#### 5.3 How many Ramsar Sites have an effective, implemented management plan? {2.4.1} KRA 2.4.i

*Please select only one option*

- E=Exact number (sites)

> E=10

- F=Less than (sites)

>

- G=More than (sites)

- X=Unknown

- Y=Not Relevant

#### 5.4 For how many of the Ramsar Sites with a management plan is the plan being implemented? {2.4.2} KRA 2.4.i

*Please select only one option*

- E=Exact number (sites)

> E=10

- F=Less than (sites)

>

G=More than (sites)

>

X=Unknown

Y=Not Relevant

5.5 For how many Ramsar Sites is effective management planning currently being implemented (outside of formal management plans ? {2.4.3} KRA 2.4.i

*Please select only one option*

E=Exact number (sites)

> E=6

F=Less than (sites)

>

G=More than (sites)

>

X=Unknown

Y=Not Relevant

### 5.3 - 5.5 Additional information

> Management plans of Ramsar sites are incorporated into management plans of protected areas.

The management plans of protected areas are implemented through the annual management programmes, which are subject to consent by the Ministry, Provincial Secretariat for Urbanism and Environmental Protection and/or the local self-government units, depending on the level of proclamation of protected area.

Managers of the PAs/Ramsar sites deliver the report on the progress of the annual programme for the previous year.

All Ramsar sites have their management plans implemented. For Ludasko Lake, Obedska bara, Slano Kopovo, Gornje Podunavlje, Zasavica and Koviljsko Petrovaradinski rit, the effective management planning is also being implemented outside of formal management plans

5.6 Have all Ramsar sites been assessed regarding the effectiveness of their management (through formal management plans where they exist or otherwise through existing actions for appropriate wetland management ? {1.6.2} KRA 1.6.ii

*Please select only one option*

A=Yes

B=No

C=Partially

D=Planned

### 5.6 Additional information

>

5.7 How many Ramsar Sites have a cross-sectoral management committee? {2.4.4} {2.4.6} KRA 2.4.iv

*Please select only one option*

E=Exact number (sites)

> E=0

F=Less than (sites)

>

G=More than (sites)

>

X=Unknown

Y=Not Relevant

### 5.7 Additional information

If at least 1 site, please give the name and official number of the site or sites

>

5.8 For how many Ramsar Sites has an ecological character description been prepared (see Resolution X.15)? {2.4.5}{2.4.7} KRA 2.4.v

*Please select only one option*

E=Exact number (sites)

> E=0

F=Less than (sites)

>  
 G=More than (sites)

>  
 C=Partially  
 X=Unknown  
 Y=Not Relevant

## 5.8 Additional information

If at least 1 site, please give the name and official number of the site or sites

>

## 5.9 Have any assessments of the effectiveness of Ramsar Site management been made? {2.5.1} KRA 2.5.i

*Please select only one option*

A=Yes  
 B=No  
 C=Some Sites

## 5.9 Additional information

If 'Yes' or 'Some sites', please indicate the year of assessment, which assessment tool did you use (e.g. METT, Resolution XII.15, and the source of the information

> Success in protected areas management in Serbia has been assessed through application of RAPPAM methodology (Rapid Assessment and Prioritization of Protected Area Management) in February 2009 for Ludasko jezero, Obedska bara, Koviljsko Petrovaradinski rit, Gornje Podunavlje and Slano Kopovo. The project has been implemented in collaboration with the Ministry of Environment and Spatial Planning, Institute for Nature Protection of Serbia and WWF (Porej, D., Piscevic, N. & Orlovic-Lovren, V., 2009. Protected area management effectiveness in Serbia, Final report of the RAPPAM analysis). Management Effectiveness Tracking Tool - METT: Within the UNDP/GEF project "Ensuring financial sustainability of the protected area system of Serbia", evaluation of effectiveness of protected areas management in accordance with the Management Effectiveness Tracking Tool (METT) has been performed. The evaluation of management effectiveness was performed in 19 protected areas among which for one Ramsar site - Ludasko Lake, in 2009 as a baseline following with ones in 2012 and 2015.

## Target 7

Sites that are at risk of change of ecological character have threats addressed {2.6.}.

### 7.1 Are mechanisms in place for the Administrative Authority to be informed of negative human-induced changes or likely changes in the ecological character of Ramsar Sites, pursuant to Article 3.2? {2.6.1} KRA 2.6.i

*Please select only one option*

A=Yes  
 B=No  
 C=Some Sites  
 D=Planned

### 7.1 Additional information

If 'Yes' or 'Some sites', please summarise the mechanism or mechanisms established

> The mechanism is formed by managers of Ramsar sites, environmental Inspection for surveillance and control, Institutes for Nature Conservation, NGO and also through EIA procedures

### 7.2 Have all cases of negative human-induced change or likely change in the ecological character of Ramsar Sites been reported to the Ramsar Secretariat, pursuant to Article 3.2? {2.6.2} KRA 2.6.i

*Please select only one option*

A=Yes  
 B=No  
 C=Some Cases  
 O=No Negative Change

### 7.2 Additional information

If 'Yes' or 'Some cases', please indicate for which Ramsar Sites the Administrative Authority has made Article 3.2 reports to the Secretariat, and for which sites such reports of change or likely change have not yet been made

> For Slano Kopovo, reported by other subject than AA

### 7.3 If applicable, have actions been taken to address the issues for which Ramsar Sites have been listed on the Montreux Record, including requesting a Ramsar Advisory Mission? {2.6.3} KRA 2.6.ii

Please select only one option

- A=Yes
- B=No
- Z=Not Applicable

### 7.3 Additional information

If 'Yes', please indicate the actions taken

>

## Goal 3. Wisely Using All Wetlands

### Target 8

National wetland inventories have been either initiated, completed or updated and disseminated and used for promoting the conservation and effective management of all wetlands {1.1.1} KRA 1.1.i

#### 8.1 Does your country have a complete National Wetland Inventory? {1.1.1} KRA 1.1.i

Please select only one option

- A=Yes
- B=No
- C=In Progress
- D=Planned

#### 8.1 Additional information

> Inventory of wetlands and other wet habitats in Serbia - outcome of project is inventory of all wet habitats in Serbia, including those habitats that could be designated as Ramsar sites, as well as important habitats on local, regional and national level.

#### 8.2 Has your country updated a National Wetland Inventory in the last decade?

Please select only one option

- A=Yes
- B=No
- C=In Progress
- C1=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

#### 8.2 Additional information

>

#### 8.3 Is wetland inventory data and information maintained? {1.1.2} KRA 1.1.ii

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

#### 8.3 Additional information

>

#### 8.4 Is wetland inventory data and information made accessible to all stakeholders? {1.1.2} KRA 1.1.ii

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

#### 8.4 Additional information

>

#### 8.5 Has the condition\* of wetlands in your country, overall, changed during the last triennium? {1.1.3}

Please describe on the sources of the information on which your answer is based in the free- text box below. If there is a difference between inland and coastal wetland situations, please describe. If you are able to, please describe the principal driver(s) of the change(s).

\* 'Condition' corresponds to ecological character, as defined by the Convention

Please select only one per square.

a) Ramsar Sites	<input type="checkbox"/> N=Status Deteriorated <input type="checkbox"/> O=No Change <input checked="" type="checkbox"/> P=Status Improved
b) Wetlands generally	<input checked="" type="checkbox"/> N=Status Deteriorated <input type="checkbox"/> O=No Change <input type="checkbox"/> P=Status Improved

### 8.5 Additional information on a) and/or b)

> In Ramsar sites number of revitalization activities have been conducted (please refer to introduction part). For some other wetlands infrastructural activities and pollution overall led to some degree of deterioration

### 8.6 Based upon the National Wetland Inventory if available please provide a baseline figure in square kilometres for the extent of wetlands (according to the Ramsar definition) for the year 2017. **SDG Target 6.6**

*Please select only one option*

E=Exact Number (km<sup>2</sup>)

>

F=Less than (km<sup>2</sup>)

>

G=More than (km<sup>2</sup>)

>

A=Yes

B=No

C=Partially

D=Planned

X=Unknown

Y=Not Relevant

### 8.6 Additional information

If the information is available please indicate the % of change in the extent of wetlands over the last three years.

>

## Target 9

The wise use of wetlands is strengthened through integrated resource management at the appropriate scale, inter alia, within a river basin or along a coastal zone {1.3.}.

### 9.1 Is a Wetland Policy (or equivalent instrument) that promotes the wise use of wetlands in place? {1.3.1} KRA 1.3.i

If 'Yes', please give the title and date of the policy in the green text box

*Please select only one option*

A=Yes

B=No

C=In Preparation

D=Planned

### 9.1 Additional information

> Protection and wise use of wetlands is incorporated in Biodiversity Strategy of the Republic of Serbia for the period 2011-2018 and National Strategy for Sustainable use of natural goods and resources

### 9.2 Have any amendments to existing legislation been made to reflect Ramsar commitments? {1.3.5} {1.3.6}

*Please select only one option*

A=Yes

B=No

C=In Progress

D=Planned

### 9.2 Additional information

>

### 9.3 Do your country's water governance and management systems treat wetlands as natural water infrastructure integral to water resource management at the scale of river basins? {1.7.1} {1.7.2} KRA

1.7.ii

Please select only one option

- A=Yes
- B=No
- D=Planned

9.3 Additional information

> It will be elaborated in RBMP

9.4 Have Communication, Education, Participation and Awareness (CEPA) expertise and tools been incorporated into catchment/river basin planning and management (see Resolution X.19)? {1.7.2}{1.7.3}

Please select only one option

- A=Yes
- B=No
- D=Planned

9.4 Additional information

>

9.5 Has your country established policies or guidelines for enhancing the role of wetlands in mitigating or adapting to climate change? {1.7.3} {1.7.5} KRA 1.7.iii

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

9.5 Additional information

> Disaster risk management programme was adopted by the Government in december 2014. Nature based solutions for disaster risk reduction study is beeing developed for Serbia by IUCN ECARO

9.6 Has your country formulated plans or projects to sustain and enhance the role of wetlands in supporting and maintaining viable farming systems? {1.7.4} {1.7.6} KRA 1.7.v

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

9.6 Additional information

> Mainly for traditional grazing

9.7 Has research to inform wetland policies and plans been undertaken in your country on:

{1.6.1} KRA 1.6.i

Please select only one per square.

a) agriculture-wetland interactions	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input checked="" type="checkbox"/> D=Planned
b) climate change	<input type="checkbox"/> A=Yes <input checked="" type="checkbox"/> B=No <input type="checkbox"/> D=Planned
c) valuation of ecosystem services	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> D=Planned

9.7 Additional information

>

9.8 Has your country submitted a request for Wetland City Accreditation of the Ramsar Convention, Resolution XII.10 ?

Please select only one option

- A=Yes
- B=No

- C=Partially
- D=Planned

## 9.8 Additional information

If 'Yes', please indicate How many request have been submitted

>

### Target 10

The traditional knowledge innovations and practices of indigenous peoples and local communities relevant for the wise use of wetlands and their customary use of wetland resources, are documented, respected, subject to national legislation and relevant international obligations and fully integrated and reflected in the implementation of the Convention with a full and effective participation of indigenous and local communities at all relevant levels.

10.1 Have the guiding principles for taking into account the cultural values of wetlands including traditional knowledge for the effective management of sites (Resolution VIII.19) been used or applied?.(Action 6.1.2/ 6.1.6)

*Please select only one option*

- A=Yes
- B=No
- C=In Preparation
- C1=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

### 10.1 Additional information

>

10.2 Have case studies, participation in projects or successful experiences on cultural aspects of wetlands been compiled. Resolution VIII.19 and Resolution IX.21? (Action 6.1.6)

*Please select only one option*

- A=Yes
- B=No
- C=In Preparation
- D=Planned

### 10.2 Additional information

If yes please indicate the case studies or projects documenting information and experiences concerning culture and wetlands

> Yes, for Djerdap and Koviljsko Petrovaradinski rit

10.3 Have the guidelines for establishing and strengthening local communities' and indigenous people's participation in the management of wetlands been used or applied. (Resolution VII. 8) (Action 6.1.5)

*Please select only one option*

- A=Yes
- B=No
- C=In Preparation
- D=Planned

### 10.3 Additional information

If the answer is "yes" please indicate the use or application of the guidelines

>

10.4 Traditional knowledge and management practices relevant for the wise use of wetlands have been documented and their application encouraged (Action 6.1.2)

*Please select only one option*

- A=Yes
- B=No
- C=In Preparation
- D=Planned

### 10.4 Additional information

>

## Target 11

Wetland functions, services and benefits are widely demonstrated, documented and disseminated. {1.4.}

11.1 Has an assessment been made of the ecosystem benefits/services provided by Ramsar Sites and other wetlands? {1.4.1} KRA 1.4.ii

*Please select only one option*

- A=Yes
- B=No
- C=In Preparation
- C1=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

### 11.1 Additional information

If 'Yes' or 'Partially', please indicate, how many Ramsar Sites and their names

> A study for valuation of ecosystem services was developed for the Koviljsko-Petrovaradinski Rit Special Nature Reserve and Ramsar site in the framework of the UNDP/GEF financed project 'Ensuring financial sustainability of protected areas' (2015), implemented by the Institute for Nature Conservation of Vojvodina Province.

Several other region-wide projects included promotion and awareness raising of the valuation of ecosystem services in Serbia. The project 'Biodiversity and ecosystem services for local sustainable development in the Western Balkans' (2009–2013), was implemented by the European Centre for Nature Conservation, Regional Environmental Centre and local authorities of 18 municipalities in the SEE, focused on raising awareness of local people on the value of nature.

One of the results of the 'Danube Payment for Ecosystem Services (PES) project: promoting payments for ecosystem services and related sustainable financing schemes in the Danube basin', implemented by WWF, with the financial support of the GEF through UNEP and the European Commission, was the Analysis of PES Needs and Feasibility in Serbia (2012).

An assessment of the ecosystem benefits/services provided has been made for several sites in the framework of various projects activities. The project 'Benefits of ecosystem services of the Djerdap National Park for the local community' (started in 2014) is being implemented by the Institute for Nature Conservation of Serbia in partnership with Djerdap National Park, as part of the broader 'Bioregio Carpathians' project financed by the EU Cross-border Cooperation Programme for South-eastern Europe. A study will be developed on the ecosystem services in Djerdap and their integration with the economic and development policy.

11.2 Have wetland programmes or projects that contribute to poverty alleviation objectives or food and water security plans been implemented? {1.4.2} KRA 1.4.i

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

### 11.2 Additional information

>

11.3 Have socio-economic values of wetlands been included in the management planning for Ramsar Sites and other wetlands? {1.4.3}{1.4.4} KRA 1.4.iii

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned

### 11.3 Additional information

If 'Yes' or 'Partially', please indicate, if known, how many Ramsar Sites and their names

> Management plans of protected areas (all Ramsar sites and other protected wetlands) include socio-economic values of wetlands

11.4 Have cultural values of wetlands been included in the management planning for Ramsar Sites and other wetlands? {1.4.3}{1.4.4} KRA 1.4.iii

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned

#### 11.4 Additional information

If 'Yes' or 'Partially', please indicate, if known, how many Ramsar Sites and their names

> Management plans of protected areas (all Ramsar sites and other protected wetlands) include cultural values of wetlands

### Target 12

Restoration is in progress in degraded wetlands, with priority to wetlands that are relevant for biodiversity conservation, disaster risk reduction, livelihoods and/or climate change mitigation and adaptation. {1.8.}

12.1 Have priority sites for wetland restoration been identified? {1.8.1} KRA 1.8.i

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

#### 12.1 Additional information

> Catalogue of restoration was done for Gornje Podunavlje

12.2 Have wetland restoration/rehabilitation programmes, plans or projects been effectively implemented? {1.8.2} KRA 1.8.i

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

#### 12.2 Additional information

If 'Yes' or 'Partially', please indicate, if available the extent of wetlands restored

> Key activities of active protection of habitats and species, revitalization of habitats (wet meadows and pastures, ponds, oxbows, forest habitats, grassland salt habitats), removal of invasive species were implemented at Ramsar sites (pursuant to management plans for the period 2012-2022) Obedska bara, Zasavica, Koviljsko-Petrovaradinski rit, Gornje Podunavlje, Slano kopovo, Stari Begej-Carska Bara, Ludas lake. Also, several activities were implemented by the WWF projects (please refer to 3.2.)

### Target 13

Enhanced sustainability of key sectors such as water, energy, mining, agriculture, tourism, urban development, infrastructure, industry, forestry, aquaculture and fisheries when they affect wetlands, contributing to biodiversity conservation and human livelihoods

13.1 Have actions been taken to enhance sustainability of key sectors such as water, energy, mining, agriculture, tourism, urban development, infrastructure, industry, forestry, aquaculture and fisheries when they affect wetlands?

*Please select only one option*

- A=Yes
- B=No
- D=Planned

#### 13.1. Additional information

If 'Yes', please indicate the actions taken

> Mainly through conditions issued by Institutes for Nature Conservation as well as EIA procedure

13.2 Are Strategic Environmental Assessment practices applied when reviewing policies, programmes and plans that may impact upon wetlands? {1.3.3} {1.3.4} KRA 1.3.ii

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned

### 13.2 Additional information

> Pursuant to the Law on SEA, Ministry of Environmental protection during the reviewing process of the SEA reports asks for opinion of relevant institutes for nature conservation

13.3 Are Environmental Impact Assessments made for any development projects (such as new buildings, new roads, extractive industry) from key sectors such as water, energy, mining, agriculture, tourism, urban development, infrastructure, industry, forestry, aquaculture and fisheries that may affect wetlands? {1.3.4} {1.3.5} KRA 1.3.iii

*Please select only one option*

- A=Yes
- B=No
- C=Some Cases

### 13.3 Additional information

> Pursuant to the Law on EIA and relevant by-laws, Environmental Impact Assessments are made for any development projects

## Goal 4. Enhancing implementation

### Target 15

Ramsar Regional Initiatives with the active involvement and support of the Parties in each region are reinforced and developed into effective tools to assist in the full implementation of the Convention. {3.2.}

15.1 Have you (AA) been involved in the development and implementation of a Regional Initiative under the framework of the Convention? {3.2.1} KRA 3.2.i

*Please select only one option*

- A=Yes
- B=No
- D=Planned

### 15.1 Additional information

If 'Yes' or 'Planned', please indicate the regional initiative(s) and the collaborating countries of each initiative  
> Republic of Serbia is involved in implementation of two regional initiatives, namely 1)Mediterranean Wetlands Initiative that brings together 27 Mediterranean and peri-Mediterranean countries that are Parties to the Convention. Participating countries: Albania, Algeria, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Egypt, France, Greece, Israel, Italy, Jordan, Lebanon, Libya, Malta, Monaco, Montenegro, Morocco, Portugal, Serbia, Slovenia, Spain, Syrian Arab Republic, The FYR of Macedonia, Tunisia, Turkey and Palestinian Authority. A number of organizations and wetland centres are also part of the MedWet Initiative

and  
2)Carpathian Wetland Initiative, regional initiative with a mission to ensure and support the effective conservation and wise use of wetlands in the Carpathian region and beyond, through local, national, regional and international activities. It also facilitates collaboration between the Ramsar Convention and UNEP Interim Secretariat of the Carpathian Convention. Participating countries: Czech Republic, Hungary, Poland, Romania, Serbia, Slovakia and Ukraine

15.2 Has your country supported or participated in the development of other regional (i.e., covering more than one country) wetland training and research centres? {3.2.2}

*Please select only one option*

- A=Yes
- B=No
- D=Planned

### 15.2 Additional information

If 'Yes', please indicate the name(s) of the centre(s)

>

### Target 16

Wetlands conservation and wise use are mainstreamed through communication, capacity development, education, participation and awareness {4.1}

16.1 Has an action plan (or plans) for wetland CEPA been established? {4.1.1} KRA 4.1.i

Even if no CEPA plans have been developed, if broad CEPA objectives for CEPA actions have been established, please indicate this in the Additional information section below

Please select only one per square.

a) At the national level	<input type="checkbox"/> A=Yes <input checked="" type="checkbox"/> B=No <input type="checkbox"/> C=In Progress <input type="checkbox"/> D=Planned
b) Sub national level	<input type="checkbox"/> A=Yes <input checked="" type="checkbox"/> B=No <input type="checkbox"/> C=In Progress <input type="checkbox"/> D=Planned
c) Catchment/basin level	<input type="checkbox"/> A=Yes <input checked="" type="checkbox"/> B=No <input type="checkbox"/> C=In Progress <input type="checkbox"/> D=Planned
d) Local/site level	<input type="checkbox"/> A=Yes <input checked="" type="checkbox"/> B=No <input type="checkbox"/> C=In Progress <input type="checkbox"/> D=Planned

16.1 Additional information

If 'Yes' or 'In progress' to one or more of the four questions above, for each please describe the mechanism, who is responsible and identify if it has involved CEPA NFPs

> Objectives of CEPA are incorporated in strategic and planning documents on all levels in the country and are implemented within the work of the Ministry of Environmental Protection, institutes for nature conservation, managers of protected areas, NGOs, etc.

16.2a How many centres (visitor centres, interpretation centres, education centres) have been established? {4.1.2} KRA 4.1.ii

a) at Ramsar Sites

Please select only one option

E=Exact Number (centres)

> E=6

F=Less than (centres)

>

G=More than (centres)

>

C=Partially

X=Unknown

Y=Not Relevant

16.2b How many centres (visitor centres, interpretation centres, education centres) have been established? {4.1.2} KRA 4.1.ii

b) at other wetlands

Please select only one option

E=Exact Number (centres)

> E=3

F=Less than (centres)

>

G=More than (centres)

>

C=Partially

X=Unknown

Y=Not Relevant

16.2 Additional information

If centres are part of national or international networks, please describe the networks

>

**16.3 Does the Contracting Party {4.1.3} KRA 4.1.iii**

*Please select only one per square.*

a) promote stakeholder participation in decision-making on wetland planning and management	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned
b) specifically involve local stakeholders in the selection of new Ramsar Sites and in Ramsar Site management?	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned

**16.3 Additional information**

If 'Yes' or 'Partially', please provide information about the ways in which stakeholders are involved

> Mainly through traditional use, grazing, reed management, fishing, tourism

**16.4 Do you have an operational cross-sectoral National Ramsar/Wetlands Committee? {4.1.6} KRA 4.3.v**

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

**16.4 Additional information**

If 'Yes', indicate a) its membership; b) number of meetings since COP12; and c) what responsibilities the Committee has

>

**16.5 Do you have an operational cross-sectoral body equivalent to a National Ramsar/Wetlands Committee? {4.1.6} KRA 4.3.v**

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

**16.5 Additional information**

If 'Yes', indicate a) its membership; b) number of meetings since COP12; and c) what responsibilities the Committee has

>

**16.6 Are other communication mechanisms (apart from a national committee) in place to share Ramsar implementation guidelines and other information between the Administrative Authority and a), b) or c) below? {4.1.7} KRA 4.1.vi:**

*Please select only one per square.*

a) Ramsar Site managers	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned
b) other MEA national focal points	<input checked="" type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned

c) other ministries, departments and agencies	<input type="checkbox"/> A=Yes <input type="checkbox"/> B=No <input checked="" type="checkbox"/> C=Partially <input type="checkbox"/> D=Planned
---	--

## 16.6 Additional information

If 'Yes' or 'Partially', please describe what mechanisms are in place

> a) Regular annual meetings of the Ministry of Environmental protection and managers of protected areas including Ramsar sites are platforms for sharing Ramsar implementation guidelines and other relevant information between AA and site managers.

b) Ministry of Environmental Protection is the AA for all biodiversity MEAs.

c) Other ministries and relevant organizations are involved in management planning pursuant to the Law on Nature Protection through the process of giving opinion to the management plans of all PAs including ecological network and Ramsar sites.

## 16.7 Have Ramsar-branded World Wetlands Day activities (whether on 2 February or at another time of year), either government and NGO-led or both, been carried out in the country since COP12? {4.1.8}

Please select only one option

A=Yes

B=No

## 16.7 Additional information

> Each year at the occasion of WWD special public events are organized, presentations, lectures, exhibitions, field visits, art competition for children etc, all reflecting the importance and relation of given theme for respective year. Reports are regularly sent to Ramsar Secretariat

## 16.8 Have campaigns, programmes, and projects (other than for World Wetlands Day-related activities) been carried out since COP12 to raise awareness of the importance of wetlands to people and wildlife and the ecosystem benefits/services provided by wetlands? {4.1.9}

Please select only one option

A=Yes

B=No

D=Planned

## 16.8 Additional information

If these and other CEPA activities have been undertaken by other organizations, please indicate this

> Danube day manifestation is carried on June 29th each year.

Regular public raising awareness activities on Ramsar sites and other protected wetlands

## Target 17

Financial and other resources for effectively implementing the fourth Ramsar Strategic Plan 2016 - 2024 from all sources are made available. {4.2.}

### 17.1a Have Ramsar contributions been paid in full for 2015, 2016 and 2017? {4.2.1} KRA 4.2.i

Please select only one option

A=Yes

B=No

Z=Not Applicable

### 17.1b If 'No' in 17.1 a), please clarify what plan is in place to ensure future prompt payment

>

### 17.2 Has any additional financial support been provided through voluntary contributions to non-core funded Convention activities? {4.2.2} KRA 4.2.i

Please select only one option

A=Yes

B=No

## 17.2 Additional information

If 'Yes' please state the amounts, and for which activities

>

### 17.3 [For Contracting Parties with a development assistance agency only ('donor countries')]: Has the agency provided funding to support wetland conservation and management in other countries? {3.3.1}

### KRA 3.3.i

Please select only one option

- A=Yes
- B=No
- Z=Not Applicable

### 17.3 Additional information

If 'Yes', please indicate the countries supported since COP12

>

17.4 [For Contracting Parties with a development assistance agency only ('donor countries')]: Have environmental safeguards and assessments been included in development proposals proposed by the agency? {3.3.2} KRA 3.3.ii

Please select only one option

- A=Yes
- B=No
- C=Partially
- X=Unknown
- Y=Not Relevant
- Z=Not Applicable

### 17.4 Additional information

>

17.5 [For Contracting Parties that have received development assistance only ('recipient countries')]: Has funding support been received from development assistance agencies specifically for in-country wetland conservation and management? {3.3.3}

Please select only one option

- A=Yes
- B=No
- Z=Not Applicable

### 17.5 Additional information

If 'Yes', please indicate from which countries/agencies since COP12

>

17.6 Has any financial support been provided by your country to the implementation of the Strategic Plan?

Please select only one option

- A=Yes
- B=No
- Z=Not Applicable

### 17.6 Additional information

If "Yes" please state the amounts, and for which activities

> Resources have been allocated from the national and provincial budgets for national activities for implementation of Strategic Plan

## Target 18

International cooperation is strengthened at all levels {3.1}

18.1 Are the national focal points of other MEAs invited to participate in the National Ramsar/Wetland Committee? {3.1.1} {3.1.2} KRAs 3.1.i & 3.1.iv

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

### 18.1 Additional information

> National Ramsar/Wetland Committee doesn't exist

18.2 Are mechanisms in place at the national level for collaboration between the Ramsar Administrative Authority and the focal points of UN and other global and regional bodies and agencies (e.g. UNEP, UNDP, WHO, FAO, UNECE, ITTO)? {3.1.2} {3.1.3} KRA 3.1.iv

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

## 18.2 Additional information

>

18.3 Has your country received assistance from one or more UN and other global and regional bodies and agencies (e.g. UNEP, UNDP, WHO, FAO, UNECE, ITTO) or the Convention's IOPs in its implementation of the Convention? {4.4.1} KRA 4.4.ii.

The IOPs are: BirdLife International, the International Water Management Institute (IWMI), IUCN (International Union for Conservation of Nature), Wetlands International, WWF and Wildfowl & Wetland Trust (WWT).

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned
- X=Unknown
- Y=Not Relevant

## 18.3 Additional information

If 'Yes' please name the agency (es) or IOP (s) and the type of assistance received

> Yes, through regional and GEF funded projects

18.4 Have networks, including twinning arrangements, been established, nationally or internationally, for knowledge sharing and training for wetlands that share common features? {3.4.1}

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

## 18.4 Additional information

If 'Yes' or 'Partially', please indicate the networks and wetlands involved

>

18.5 Has information about your country's wetlands and/or Ramsar Sites and their status been made public (e.g., through publications or a website)? {3.4.2} KRA 3.4.iv

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

## 18.5 Additional information

> Series of publications were made: monography series named Ramsar sites of Vojvodina have been published for Stari Begej Carska bara, Obedska bara, Slano Kopovo, Labudovo Okno, by the Provincial Secretariat for Environmental Protection. Other promotional material has also been published, including publication for Vlasina. Atlas of breeding birds of Zasavica is finished and been promoted on December 26th 2017.

18.6 Has information about your country's wetlands and/or Ramsar Sites been transmitted to the Ramsar Secretariat for dissemination? {3.4.3} KRA 3.4.ii

Please select only one option

- A=Yes
- B=No
- C=Partially
- D=Planned

## 18.6 Additional Information

>

18.7 Have all transboundary wetland systems been identified? {3.5.1} KRA 3.5.i

Please select only one option

- A=Yes
- B=No
- D=Planned
- Z=Not Applicable

#### 18.7 Additional information

>

18.8 Is effective cooperative management in place for shared wetland systems (for example, in shared river basins and coastal zones)? {3.5.2} KRA 3.5.ii

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned
- Y=Not Relevant

#### 18.8 Additional information

If 'Yes' or 'Partially', please indicate for which wetland systems such management is in place

>

18.9 Does your country participate in regional networks or initiatives for wetland-dependent migratory species? {3.5.3} KRA 3.5.iii

*Please select only one option*

- A=Yes
- B=No
- D=Planned
- Z=Not Applicable

#### 18.9 Additional information

> Within the framework of Adriatic Flyway project, implemented by the Bird Protection and Study Society of Serbia, in presence of wide range of stakeholders several workshops have been held in 2015 for drafting the management plan for Labudovo okno Ramsar site.

Initiative for sturgeons - WWF works to raise awareness of the risk of extinction facing the sturgeon and promotes the sustainable management of the species. It aims to protect and restore vital habitats and migration routes, including for example the Danube floodplains, especially the Lower Danube Green Corridor. WWF also initiated and facilitated development of the Danube Sturgeon Action Plan, which has been adopted by the Bern Convention.

Regular International Waterbird Census has been conducted

### Target 19

Capacity building for implementation of the Convention and the 4th Ramsar Strategic Plan 2016 - 2024 is enhanced.

19.1 Has an assessment of national and local training needs for the implementation of the Convention been made? {4.1.4} KRAs 4.1.iv & 4.1.viii

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned

#### 19.1 Additional information

>

19.2 Are wetland conservation and wise-use issues included in formal education programmes?

*Please select only one option*

- A=Yes
- B=No
- C=Partially
- D=Planned

#### 19.2 Additional information

If you answer yes to the above please provide information on which mechanisms and materials

>

19.3a How many opportunities for wetland site manager training have been provided since COP12?  
{4.1.5} KRA 4.1.iv

a) at Ramsar Sites

*Please select only one option*

E=Exact number (opportunities)

>

F=Less than (opportunities)

>

G=More than (opportunities)

>

C=Partially

X=Unknown

Y=Not Relevant

19.3b How many opportunities for wetland site manager training have been provided since COP12?  
{4.1.5} KRA 4.1.iv

b) at other wetlands

*Please select only one option*

E=Exact number (Opportunities)

>

F=Less than (Opportunities)

>

G=More than (Opportunities)

C=Partially

X=Unknown

Y=Not Relevant

### 19.3 Additional information

including whether the Ramsar Wise Use Handbooks were used in the training

> Regular annual meetings of the Ministry of Environmental Protection and managers of protected areas including Ramsar sites are platforms for sharing Ramsar implementation guidelines and other relevant information between AA and site managers.

19.4 Have you (AA) used your previous Ramsar National Reports in monitoring implementation of the Convention? {4.3.1} KRA 4.3.ii

*Please select only one option*

A=Yes

B=No

D=Planned

Z=Not Applicable

### 19.4 Additional information

If 'Yes', please indicate how the Reports have been used for monitoring

>

## Section 4. Optional annex to allow any Contracting Party that has developed national targets to provide information on those

### Goal 1

#### Target 1: Wetland benefits

Wetland benefits are featured in national / local policy strategies and plans relating to key sectors such as water, energy, mining, agriculture, tourism, urban development, infrastructure, industry, forestry, aquaculture, fisheries at the national and local level. Contributes to Aichi Target 2

##### Target 1: Wetland benefits - Priority

*Please select only one option*

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

##### Target 1: Wetland benefits - Resourcing

*Please select only one option*

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

##### Target 1: Wetland benefits - National Targets

>

##### Target 1: Wetland benefits - Planned activity

>

##### Target 1: Wetland benefits - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

**Note:** this field has to be completed when the full report is submitted in January 2018

>

## Target 2: Water Use

Water use respects wetland ecosystem needs for them to fulfil their functions and provide services at the appropriate scale inter alia at the basin level or along a coastal zone. Contributes to Aichi Targets 7 and 8 and Sustainable Development Goal 6.3.1

### Target 2: Water Use - Priority

*Please select only one option*

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

### Target 2: Water Use - Resourcing

*Please select only one option*

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

### Target 2: Water Use - National Targets

>

### Target 2: Water Use - Planned activity

>

### Target 2: Water Use - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

**Note:** this field has to be completed when the full report is submitted in January 2018

>

### Target 3: Public and private sectors

Public and private sectors have increased their efforts to apply guidelines and good practices for the wise use of water and wetlands. {1.10}. Contributes to Aichi Targets 3, 4, 7 and 8.

#### Target 3: Public and private sectors - Priority

*Please select only one option*

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

#### Target 3: Public and private sectors - Resourcing

*Please select only one option*

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

#### Target 3: Public and private sectors - National Targets

>

#### Target 3: Public and private sectors - Planned activity

>

#### Target 3: Public and private sectors - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

**Note:** this field has to be completed when the full report is submitted in January 2018

>

#### **Target 4: Invasive alien species**

Invasive alien species and pathways of introduction and expansion are identified and prioritized, priority invasive alien species are controlled or eradicated, and management responses are prepared and implemented to prevent their introduction and establishment. Contributes to Aichi Target 9.

##### Target 4: Invasive alien species - Priority

*Please select only one option*

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

##### Target 4: Invasive alien species - Resourcing

*Please select only one option*

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

##### Target 4: Invasive alien species - National Targets

>

##### Target 4: Invasive alien species - Planned activity

>

##### Target 4: Invasive alien species - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

**Note:** this field has to be completed when the full report is submitted in January 2018

>

## Goal 2

### Target 5: Ecological character of Ramsar Sites

The ecological character of Ramsar Sites is maintained or restored through effective, planning and integrated management {2.1.}. Contributes to Aichi Target 6,11, 12.

#### Target 5: Ecological character of Ramsar Sites - Priority

*Please select only one option*

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

#### Target 5: Ecological character of Ramsar Sites - Resourcing

*Please select only one option*

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

#### Target 5: Ecological character of Ramsar Sites - National Targets

>

#### Target 5: Ecological character of Ramsar Sites - Planned activity

>

#### Target 5: Ecological character of Ramsar Sites - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

**Note:** this field has to be completed when the full report is submitted in January 2018

>

## Target 7: Sites at risk

Sites that are at risk of change of ecological character have threats addressed {2.6.}. Contributes to Aichi Targets 5, 7, 11, 12.

### Target 7: Sites at risk - Priority

*Please select only one option*

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

### Target 7: Sites at risk - Resourcing

*Please select only one option*

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

### Target 7: Sites at risk - National Targets

>

### Target 7: Sites at risk - Planned activity

>

### Target 7: Sites at risk - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

**Note:** this field has to be completed when the full report is submitted in January 2018

>

### Goal 3

#### Target 8: National wetland inventories

National wetland inventories have been either initiated, completed or updated and disseminated and used for promoting the conservation and effective management of all wetlands {1.1.1} KRA 1.1.i. Contributes to Aichi Targets 12, 14, 18, 19.

##### Target 8: National wetland inventories - Priority

*Please select only one option*

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

##### Target 8: National wetland inventories - Resourcing

*Please select only one option*

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

##### Target 8: National wetland inventories - National Targets

>

##### Target 8: National wetland inventories - Planned activity

>

##### Target 8: National wetland inventories - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

**Note:** this field has to be completed when the full report is submitted in January 2018

>

## Target 9: Wise Use

The wise use of wetlands is strengthened through integrated resource management at the appropriate scale, inter alia, within a river basin or along a coastal zone {1.3.}. Contributes to Aichi Targets 4, 6, 7.

### Target 9: Wise Use - Priority

*Please select only one option*

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

### Target 9: Wise Use - Resourcing

*Please select only one option*

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

### Target 9: Wise Use - National Targets

>

### Target 9: Wise Use - Planned activity

>

### Target 9: Wise Use - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

**Note:** this field has to be completed when the full report is submitted in January 2018

>

## Target 10: Traditional Knowledge

The traditional knowledge innovations and practices of indigenous peoples and local communities relevant for the wise use of wetlands and their customary use of wetland resources, are documented, respected, subject to national legislation and relevant international obligations and fully integrated and reflected in the implementation of the Convention with a full and effective participation of indigenous and local communities at all relevant levels. Contributes to Aichi Target 18.

### Target 10: Traditional Knowledge - Priority

*Please select only one option*

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

### Target 10: Traditional Knowledge - Resourcing

*Please select only one option*

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

### Target 10: Traditional Knowledge - National Targets

>

### Target 10: Traditional Knowledge - Planned activity

>

### Target 10: Traditional Knowledge - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

**Note:** this field has to be completed when the full report is submitted in January 2018

>

## Target 11: Wetland functions

Wetland functions, services and benefits are widely demonstrated, documented and disseminated. {1.4}.  
Contributes to Aichi Targets 1, 2, 13, 14.

### Target 11: Wetland functions - Priority

*Please select only one option*

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

### Target 11: Wetland functions - Resourcing

*Please select only one option*

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

### Target 11: Wetland functions - National Targets

>

### Target 11: Wetland functions - Planned activity

>

### Target 11: Wetland functions - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

**Note:** this field has to be completed when the full report is submitted in January 2018

>

## Target 12: Restoration

Restoration is in progress in degraded wetlands, with priority to wetlands that are relevant for biodiversity conservation, disaster risk reduction, livelihoods and/or climate change mitigation and adaptation. {1.8.}.  
Contributes to Aichi Targets 14 and 15.

### Target 12: Restoration - Priority

*Please select only one option*

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

### Target 12: Restoration - Resourcing

*Please select only one option*

- A=Good
- B=Adequate
- C=Limiting
- D=Severely limiting
- E=No answer

### Target 12: Restoration - National Targets

>

### Target 12: Restoration - Planned activity

>

### Target 12: Restoration - Outcomes achieved by 2018

Outcomes achieved by 2018 and how they contribute to achievement of the Aichi Targets and Sustainable Development Goals

**Note:** this field has to be completed when the full report is submitted in January 2018

>

### **Target 13: Enhanced sustainability**

Enhanced sustainability of key sectors such as water, energy, mining, agriculture, tourism, urban development, infrastructure, industry, forestry, aquaculture and fisheries when they affect wetlands, contributing to biodiversity conservation and human livelihoods. Contributes to Aichi Targets 6 and 7.

#### Target 13: Enhanced sustainability - Priority

*Please select only one option*

- A=High
- B=Medium
- C=Low
- D=Not relevant
- E=No answer

#### Target 13: Enhanced sustainability - Resourcing

## **Section 5: Optional annex to allow any Contracting Party that so wishes to provide additional information regarding any of all of its designated Wetlands of International Importance (Ramsar Sites)**

### **Guidance for filling in this section**

1. Contracting Parties can provide additional information specific to any or all of their designated Ramsar Sites, given that the situation and status of individual Ramsar Sites can differ greatly within the territory of a Contracting Party.
2. The only indicator questions included in this section are those from Section 3 of the COP13 NRF which directly concern Ramsar Sites.
3. In some cases, to make them meaningful in the context of reporting on each Ramsar Site separately, some of these indicator questions and/or their answer options have been adjusted from their formulation in Section 3 of the COP13 NRF.
4. Please include information on only one site in each row. In the appropriate columns please add the name and official site number (from the Ramsar Sites Information Service).
5. For each 'indicator question', please select one answer from the legend.
6. A final column of this Annex is provided as a 'free text' box for the inclusion of any additional information concerning the Ramsar Site.

A final column of this Annex is provided as a 'free text' box for the inclusion of any additional information concerning the Ramsar Site.

### **Serbia**

#### **Gornje Podunavlje (1737)**

5.7 Has a cross-sectoral site management committee been established for the site?
