

National planning tool for the implementation of the Ramsar Convention on Wetlands

(And the approved format for National Reports to be
submitted for the 8th Meeting of the Conference of
the Contracting Parties, Spain, 2002)

file 1

Institutional information

Contracting Party: **ISLAMIC REPUBLIC OF IRAN**

Full name of designated Ramsar Administrative Authority: **Department of Environment**

Name and title of the head of the designated Ramsar Administrative Authority: **Mr. Anoushirvan Najafi, Deputy Head of the Department of Environment**

Mailing address and contact details of the head of the institution: **PO Box: 15875-5181, Shhid Hemmat Highway, Pardisan Park, Natural Environment and Biodiversity Deputy, Tehran, I. R. Iran**

Telephone: **+98 21 8269913**

Facsimile: **+98 21 8269912**

Email: **najafi@abedi.net**

Name and title (if different) of the designated national focal point (or “daily contact” in the Administrative Authority) for Ramsar Convention matters: **[REDACTED]**

Mailing address and contact details of the national focal point: **[REDACTED]**

Telephone: **[REDACTED]**

Facsimile: **[REDACTED]**

Email: **[REDACTED]**

Name and title of the designated national focal point for matters relating to the Scientific and Technical Review Panel (STRP): **Mr. Sadegh Sadeghi Zadehan**

Mailing address and contact details of the national STRP focal point: **PO Box: 15875-5181, Department of Environment, Shahid Hemmat Highway, Pardisan Park, Wildlife Bureau, Tehran, I. R. Iran**

Telephone: **+98 21 8269293**

Facsimile: **+98 21 8267993**

Email: **sadeghizadegan@abedi.net**

Name and title of the designated national government focal point for matters relating to the Outreach Programme of the Ramsar Convention: **Mr. Masoud Bagherzadeh Karimi**

Mailing address and contact details of the national focal point: **PO Box: 15875-5181, Department of Environment, Shahid Hemmat Highway, Pardisan Park, Protected Area and Habitats Bureau, Tehran, I. R. Iran**

Telephone: **+98 21 8264026**

Facsimile: **+98 21 8269294**

Email: **mbkarimi@yahoo.com**

Name and title of the designated national non-government (NG) focal point for matters relating to the Outreach Programme of the Ramsar Convention: **[REDACTED]**

Mailing address and contact details of the national focal point: **[REDACTED]**

Telephone: **[REDACTED]**

Facsimile: **[REDACTED]**

Email: **[REDACTED]**

Note – Not all actions from the Convention Work Plan 2000-2002 are included here, as some apply only to the Bureau or Conferences of the Contracting Parties. As a result, the numbering system that follows contains some gaps corresponding to those actions that have been omitted.

η η η

GENERAL OBJECTIVE 1

TO PROGRESS TOWARDS UNIVERSAL MEMBERSHIP OF THE CONVENTION

Operational Objective 1.1: To endeavour to secure at least 150 Contracting Parties to the Convention by 2002.

Actions – Global Targets

1.1.1 Recruit new Contracting Parties, especially in the less well represented regions and among states with significant and/or transboundary wetland resources (including shared species), [CPs, SC regional representatives, Bureau, Partners]

- **The gaps remain in Africa, central Asia, the Middle East and the Small Island Developing States. Refer to Recommendation 7.2 relating to Small Island Developing States.**
- **Global Target - 150 CPs by COP8**
- **These are the countries which at present are not CPs of the Convention:**
Afghanistan, Andorra, Angola, Antigua and Barbuda, Azerbaijan, Barbados, Benin, Bhutan, Bosnia and Herzegovina, Brunei Darussalam, Burundi, Cameroon, Cape Verde, Central African Republic, Cook Islands, Cuba, Cyprus, Democratic Republic of Korea, Djibouti, Dominica, Dominican Republic, Equatorial Guinea, Eritrea, Ethiopia, Fiji, Grenada, Guyana, Haiti, Holy See, Iraq, Kazakhstan, Kiribati, Kuwait, Kyrgyzstan, Lao People's Republic, Lesotho, Liberia, Libya, Maldives, Marshall Islands, Mauritius, Federated States of Micronesia, Mozambique, Myanmar, Nauru, Nigeria, Niue, Oman, Palau, Qatar, Republic of Moldova, Rwanda, St Kitts and Nevis, Saint Lucia, St Vincent and the Grenadines, Samoa, San Marino, Sao Tome and Principe, Saudi Arabia, Seychelles, Sierra Leone, Singapore,

Solomon Islands, Somalia, Sudan, Swaziland, Tajikistan, Tonga, Turkmenistan, Tuvalu, United Arab Emirates, United Republic of Tanzania, Uzbekistan, Vanuatu, Yemen, Zimbabwe.
Is your country a neighbor of, or does it have regular dealings or diplomatic-level dialogue with, one or more of the non-Contracting Parties listed above? (This list was correct as of January 2000. However, accessions to the Convention occur on a regular basis and you may wish to check with the Ramsar Bureau for the latest list of non-CPs.) Yes If No , go to Action 1.1.2.
If Yes , have actions been taken to encourage these non-CPs to join the Convention? Yes
If Yes , have these actions been successful? - I.R. Iran did host the subregional meeting of the Ramsar Convention, which was held from Feb. ,3rd.-5th. 2002 , Iran also arrangeded the 31th aniversary of the Convention, as the side event of the meeting, Recruiting new contracting parties in the represented region of Central Asia and West Asia was one of the main objective of the meeting and its side event.
If No , what has prevented such action being taken?
Proposed national actions and targets: -Placing the objective of the universality of the convention in the agenda of the MFA and DOE to raise and follow the issue in the bilateral meetings with NCPs in particular in the middle east and central Asia . -Considering the possibility of holding regional meetings/seminars/workshops with NCP to encourage them to accede to the convention (in this case, the Bureaus expertise and support would be highly valuable).
Ministry, agency/department, or organization responsible for leading on this action: MFA and DOE

1.1.2 Promote membership of Ramsar through regional meetings and activities, and through partners' regional offices. [SC regional representatives, Bureau, Partners]
These efforts are to continue and to focus on the above priority regions and the Small Island Developing States.
The current member and permanent observer States of the Standing Committee are Algeria, Argentina, Armenia, Australia, Costa Rica, France, India, Japan, Mexico, Netherlands, Norway, Slovak Republic, Spain, Switzerland, Togo, Trinidad & Tobago, and Uganda
Is your country a member of the Standing Committee? No If No , go to Action 2.1.1.
If Yes , have actions been taken to encourage the non-CPs from your region or subregion to join the Convention? Yes/No
If Yes , have these actions been successful? Please elaborate.
If No , what has prevented such action being taken? Please elaborate.
Proposed national actions and targets:

Ministry, agency/department, or organization responsible for leading on this action:

η η η

**GENERAL OBJECTIVE 2
TO ACHIEVE THE WISE USE OF WETLANDS BY IMPLEMENTING AND
FURTHER DEVELOPING THE RAMSAR WISE USE GUIDELINES**

Operational Objective 2.1: To review and, if necessary, amend national or supra-national (e.g., European Community) legislation, institutions and practices in all Contracting Parties, to ensure that the Wise Use Guidelines are applied.

Actions - Global and National Targets

2.1.1 Carry out a review of legislation and practices, and indicate in National Reports to the COP how the Wise Use Guidelines are applied. [CPs]

- **This remains a high priority for the next triennium. The *Guidelines for reviewing laws and institutions* (Resolution VII.7) will assist these efforts.**
- **Global Target – For at least 100 CPs to have comprehensively reviewed their laws and institutions relating to wetlands by COP8.**

Has your country **completed** a review of its laws and institutions relating to wetlands? No

If **No**, what are the impediments to this being done? The value of Iranian wetlands has not been recognized, fortunately an integrated manegment policy has been formed during recent years.

If a review is **planned**, what is the expected timeframe for this being done?

If the review has been **completed**, did the review result in amendments to laws or institutional arrangements to support implementation of the Ramsar Convention? Yes/No

If **No**, what are the impediments to these amendments being completed? Please elaborate.

If **Yes**, and changes to laws and institutional arrangements were made, please describe these briefly.

Proposed national actions and targets: -Developing and strenghtening an integrated manegment mechanisms for revising legislation and related factors in wetlands .

Ministry, agency/department, or organization responsible for leading on this action: DOE

2.1.2 Promote much greater efforts to develop national wetland policies, either separately or as a clearly identifiable component of other national conservation planning initiatives, such as National Environment Action Plans, National Biodiversity Strategies, or National Conservation Strategies. [CPs, Bureau, Partners]

- **The development and implementation of National Wetland Policies continues to**

be one of the highest priorities of the Convention, as does the integration of wetland conservation and wise use into broader national environment and water policies. The *Guidelines for developing and implementing National Wetland Policies* (Resolution VII.6) will assist these efforts.

- Global Target - By COP8, at least 100 CPs with National Wetland Policies or, where appropriate, a recognized document that harmonizes all wetland-related policies/strategies and plans, and all CPs to have wetlands considered in national environmental and water policies and plans. The *Guidelines for integrating wetland conservation and wise use into river basin management* (Resolution VII.18) will assist these efforts.**

Does your country have **in place** a National Wetland Policy (or similar instrument) which is a comprehensive statement of the Government's intention to implement the provisions of the Ramsar Convention? **No**

If **No**, what are the impediments to this being put in place? **-Wetlands related information deficiency .**

-There is no any identified related mechanism.

- Unsustainable priorities,such as agricultural water use.

- Lack of local communities and govermental awareness to wetland also NGOs are very young.

If the development of such a Policy is **planned**, what is the expected timeframe for this being done?

Has your country taken its obligations with respect to the Ramsar Convention into consideration in related policy instruments such as National Biodiversity Strategies, National Environmental Action Plans, Water Policies, river basin management plans, or similar instruments? **Yes**

If **No**, what are the impediments to doing so?

If **Yes**, please provide brief details. **In national Biodiversity strategies,the draft national environmental action plan and river basin management plans,we considered the Ramsar convention obligations .**

Has your government reviewed and modified, as appropriate, its policies that adversely affect intertidal wetlands (COP7 Resolution VII.21)? **No**

If **No**, what has prevented this from happening? **Conflict between economical and conservation policies .**

If **Yes**, what were the conclusions of this review? and what actions have been taken subsequently?

Proposed national actions and targets: **-Effort on compilation national policies and determination wetlands values.**

-Decreasing the conservation issue through integrated manegment.

- Uprising the legislators awareness to the value of wetlands .Ministry, agency/department, or organization responsible for leading on this action: **DOE**

Operational Objective 2.2: To integrate conservation and wise use of wetlands in all Contracting Parties into national, provincial and local planning and decision-making on land use, groundwater management, catchment/river basin and coastal zone planning, and all other environmental planning and management.

Actions - Global and National Targets**2.2.2 Promote the inclusion of wetlands in national, provincial and local land use planning documents and activities, and in all relevant sectoral and budgetary provisions. [CPs]**

- Achieving integrated and cross-sectoral approaches to managing wetlands within the broader landscape and within river basin/coastal zone plans is another of the Convention's highest priorities in the next triennium.**
- Global Target - By COP8, all CPs to be promoting, and actively implementing, the management of wetlands as integrated elements of river basins and coastal zones, and to provide detailed information on the outcomes of these actions in the National Reports for COP8.**

Is your country **implementing** integrated river basin and coastal zone management approaches? **Yes**If **No**, what are the impediments to this being done? **Please elaborate.**If integrated management approaches are being applied in part of the country, indicate the approximate percentage of the country's surface area where this is occurring and to which river basins and coastal areas this applies. If **Yes**, are wetlands being given special consideration in such integrated management approaches? **Yes**If **No**, what are the impediments to this being done? **Please elaborate.**Has your country undertaken any specific pilot projects to implement the *Guidelines for integrating wetland conservation and wise use into river basin management* (COP7 Resolution VII.18)? **Yes**If **Yes**, please describe them briefly. **In four pilot project stations with the support of world Bank including : Tajan River Basin, Dasht-e-Moghan River Basin, Simineh-Rud and Zarrineh-Rud , Jarrahi River Basin.**Proposed national actions and targets: **-Policy decision makings and wise use of wetlands at high level of policy decision makers.**Ministry, agency/department, or organization responsible for leading on this action: **DOE**

Operational Objective 2.3: To expand the Guidelines and Additional Guidance on Wise Use to provide advice to Contracting Parties on specific issues not hitherto covered, and examples of best current practice.

<p>Actions - Global and National Targets</p> <p>2.3.1 Expand the Additional Guidance on Wise Use to address specific issues such as oil spill prevention and clean-up, agricultural runoff, and urban/industrial discharges in cooperation with other bodies. [CPs, STRP, Bureau, Partners]</p> <ul style="list-style-type: none"> Global Target - Following COP7, the Bureau, with other appropriate collaborators, will produce a series of Wise Use handbooks, based on the outcomes of Technical Sessions at COP7. (added by the Ramsar Bureau pursuant to Resolution VII.14 <i>Invasive Species and wetlands</i>) CPs are requested “to provide the Ramsar Bureau with information on databases which exist for invasive species, information on invasive species which pose a threat to wetlands and wetland species, and information on the control and eradication of invasive wetland species.”
<p>Does your country have resource information on the management of wetlands in relation to the following which could be useful in assisting the Convention to develop further guidance to assist other CPs :</p> <p>oil spill prevention and clean-up? No</p> <p>agricultural runoff? No</p> <p>urban/industrial discharges? No</p> <p>invasive species? No</p> <p>other relevant aspects such as highway designs, aquaculture, etc.? No – Please elaborate.</p>
<p>In each case, if the answer was Yes, has this information been forwarded to the Ramsar Bureau for possible inclusion in the Wise Use Resource Centre (see 2.3.2 below)? Yes/No</p> <p>Additional comments?</p>
<p>Proposed national actions and targets: -Collecting and compilation all the information about wetlands.</p> <p>-Facilitate the collaboration between related organization to produce an integrated national data base station.</p> <p>-Encourage related organization to implement the management plan on wetlands.</p>
<p>Ministry, agency/department, or organization responsible for leading on this action: DOE</p>

2.3.2. Publicize examples of effective application of existing Guidelines and Additional Guidance on Wise Use. [CPs, Bureau, Partners]

- **Promoting and improving the availability of such resource materials is a priority under the Convention's Outreach Programme (Resolution VII.9)**
- **Global Target - By COP8, to have included in the Wise Use Resource Centre 500 appropriate references and publications as provided to the Bureau by CPs and other organizations.**

Further to 2.31. above, has your country, as urged by the Outreach Programme of the Convention adopted at COP7 (Resolution VII. 9), **reviewed** its resource materials relating to wetland management policies and practices? **No**

If **No**, what has prevented this being done? **Financial resources deficiency, Technical, scientific and shortage of scientific experts.**

If **Yes**, have copies of this information been forwarded to the Ramsar Bureau? **Yes/No**

If **No**, what has prevented this being done? **Please elaborate.**

Proposed national actions and targets: **-Carry on technical session in order to train the experts for implement the COP resolutions in developing countries.**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

Operational Objective 2.4: To provide economic evaluations of the benefits and functions of wetlands for environmental planning purposes.

Actions - Global and National Targets

2.4.1 Promote the development, wide dissemination, and application of documents and methodologies which give economic evaluations of the benefits and functions of wetlands. [CPs, Bureau, Partners]

- **Given the guidelines available for this activity (see below: *Economic Valuation of Wetlands* handbook), this will be an area of higher priority in the next triennium.**
- **Global Target - By COP8, all CPs to be incorporating economic valuation of wetland services, functions and benefits into impact assessment and decision-making processes related to wetlands.**

Does your government **require** that economic valuations of the full range of services, benefits and functions of wetlands be prepared as part of impact assessments and to support planning decisions that may impact on wetlands? **Yes**

If **No**, what are the impediments to this being done? **Please elaborate.**

If this applies in some, but not all cases, what is the expected timeframe for this to be required in all cases?

If **Yes**, has the inclusion of economic valuation into impact assessment resulted in wetlands being given special consideration or protection. **Yes** If the result of study show any impact on wetlands ,the methods of decreasing the impact will be given into considration.

Proposed national actions and targets: **-Considering the comprehensive wetland studies in EIA .**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

Operational Objective 2.5: To carry out environmental impact assessments (EIAs) at wetlands, particularly of proposed developments or changes in land/water use which have potential to affect them, notably at Ramsar sites, whose ecological character “is likely to change as the result of technological developments, pollution or other human interference” (Article 3.2 of the Convention).

Actions - Global and National Targets

2.5.2 Ensure that, at Ramsar sites where change in ecological character is likely as a result of proposed developments or changes in land/water use which have potential to affect them, EIAs are carried out (with due consideration of economic valuations of wetland benefits and functions), and that the resulting conclusions are communicated to the Ramsar Bureau and fully taken into account by the authorities concerned. [CPs]

- **Global Target - In the next triennium, CPs will ensure that EIAs are applied to any such situation and keep the Bureau advised of the issues and the outcomes of these EIAs.**

Has an EIA been carried out in **all** cases where a change in the ecological character of a Ramsar site within your country was likely (or possible) as a result of proposed developments or changes in land/water use? **Yes**

If **No**, what has prevented this from occurring? **Please elaborate.**

If **Yes**, has this EIA, or have these EIAs, given due consideration to the full range of environmental, social and economic values of the wetland? (See also 2.4.1 above) **Yes**

AND: Have the results of the EIA been transmitted to the Ramsar Bureau? **No**

If **No**, what has prevented this from occurring? **The results have been prepared in persian language and now it has translating into English.**

Proposed national actions and targets: **-Establishment of an identified data base of EIA .
-Study and preparing a brief of the results of studies in English for the Ramsar convention bureau.**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

2.5.3 Carry out EIAs at other important sites, particularly where adverse impact on

wetland resources is likely, due to a development proposal or change in land/water use. [CPs]

- **Global Target - By COP8, all CPs to require EIAs under legislation for any actions which can potentially impact on wetlands and to provide detailed reports on advances in this area in their National Reports for COP8.**

Are EIAs required in your country for **all** cases where a wetland area (whether a Ramsar site or not) may be adversely impacted due to a development proposal or change in land/water use? **Yes**

If **No**, what are the impediments to this occurring? **Please elaborate.**

If **Yes**, are such EIAs required to give due consideration to the full range of environmental, social and economic values of the wetland? (See COP7 Resolution VII.16, also 2.4.1 & 2.5.2 above.) **Yes**

Are EIAs “undertaken in a transparent and participatory manner which includes local stakeholders” (COP7 Resolution VII.16)? **Yes**

If **No**, what are the impediments to this occurring? **Please elaborate.**

Proposed national actions and targets: **-Increase local communities public awareness on different values of the wetlands to collaborate on the management of the wetlands.**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

2.5.4 Take account of Integrated Environmental Management and Strategic Environmental Assessment (at local, provincial and catchment/river basin or coastal zone levels) when assessing impacts of development proposals or changes in land/water use. [CPs]

(Refer to 2.5.3 above) In addition to the assessment of the potential impact of specific projects on wetlands, has your country **undertaken** a review of all government plans, programmes and policies which may impact negatively on wetlands? **Yes**

If **No**, what has prevented this from occurring? **Please elaborate.**

If **Yes**, has this review been undertaken as part of preparing a National Wetland Policy or similar instrument? (refer 2.12 above) **No**

Or as part of other national policy or planning activities? **Yes** – **Dam constructions on the rivers ended to the Urumieh Lake , and other river which terminate to wetlands , Fishery industries in interior water bodies shows adverse affect to whole ecosystem,the results should be considered in future and current activities.**

Proposed national actions and targets: **-Gathering all mentioned above information ,
- Integrated studies on the conclusion ,
- Preparing in combinet the national wetland policies.**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

Operational Objective 2.6: To identify wetlands in need of restoration and rehabilitation, and to implement the necessary measures.

Actions - Global and National Targets
<p>2.6.1 Use regional or national scientific inventories of wetlands (Recommendation 4.6), or monitoring processes, to identify wetlands in need of restoration or rehabilitation. [CPs, Partners]</p> <ul style="list-style-type: none"> • The completion of such inventories is a continuing area of priority for the Convention. • Global Target - Restoration/rehabilitation inventories to be completed by at least 50 CPs by COP8.
<p>Has your country completed an assessment to identify its priority wetlands for restoration or rehabilitation? (COP7 Resolution VII.17) Yes</p>
<p>If No, what has prevented this from being done? Please elaborate.</p>
<p>If this has been done for only part of the country, please indicate for which areas or river basins. Hamoon, Anzali, Shadegan, Miankaleh, Arjan and Parishan, Urmieh wetlands.</p>
<p>If Yes (that is, an assessment has been completed), have actions been taken to undertake the restoration or rehabilitation of these priority sites? Yes</p>
<p>If No, what has prevented this from being done? Please elaborate</p>
<p>If Yes, please provide details. Rehabilitation rush brake project of Hamoon wetland , Elimination the Azola (an invasive plant) project in Anzali wetland , Conservation of Miankaleh project by GEF.</p>
<p>Proposed national actions and targets: -Promote collaboration among different organization and agencies in conservation and rehabilitation of wetlands especially Ramsar site nominated wetlands.</p> <p>- Preparation and compilation the necessary methodology related to the rehabilitation of damaged wetlands.</p> <p>- Request of funds from internation organization.</p>
<p>Ministry, agency/department, or organization responsible for leading on this action: DOE</p>

2.6.2 Provide and implement methodologies for restoration and rehabilitation of lost or degraded wetlands. [CPs, STRP, Bureau, Partners]

- **There is considerable information resource on this subject, although it is not as readily accessed as desirable.**
- **Global Target - The addition of appropriate case studies and information on methodologies, etc., to the Convention's Wise Use Resource Centre (refer to**

2.3.2 above also) will be a priority in the next triennium.
Refer to 2.3.1 and 2.3.2. Does your country have resource information on the restoration or rehabilitation of wetlands? No
If Yes , has this been forwarded to the Ramsar Bureau for possible inclusion in the Wise Use Resource Centre and for consideration by the STRP Expert Working Group on Restoration? Yes/No
If this material has not been forwarded to the Bureau, what has prevented this from occurring? Please elaborate.
Proposed national actions and targets: -Search and providing the resource information on wetlands. -Subject classification of information. -Utilize other countries experiences. -Collaboration and transfer of information with other countries especially at regional level.
Ministry, agency/department, or organization responsible for leading on this action: DOE

2.6.3 Establish wetland restoration / rehabilitation programmes at destroyed or degraded wetlands, especially in association with major river systems or areas of high nature conservation value (Recommendation 4.1). [CPs]
<ul style="list-style-type: none"> The Convention will continue to promote the restoration and rehabilitation of wetlands, particularly in situations where such actions will help promote or retain the ‘health’ and productivity of waterways and coastal environments. Global Target - By COP8, all CPs to have identified their priority sites for restoration or rehabilitation and for projects to be under way in at least 100 CPs.
Refer to 2.6.1 above.

Operational Objective 2.7: To encourage active and informed participation of local communities, including indigenous people, and in particular women, in the conservation and wise use of wetlands.

Actions - Global and National Targets
2.7.1 Implement Recommendation 6.3 on involving local and indigenous people in the management of wetlands. [CPs, Bureau]
<ul style="list-style-type: none"> Global Target - In the next triennium, the implementation of the Guidelines on local communities’ and indigenous people’s participation (COP7 Resolution VII.8) is to be one of the Convention’s highest priorities. By COP8, all CPs to be promoting local stakeholder management of wetlands.

Is your government actively promoting the involvement of local communities and indigenous people in the management of wetlands? Yes
If No , what are the impediments to this occurring? [REDACTED]
If Yes , describe what special actions have been taken (See also 2.7.2, 2.7.3 and 2.7.4 below) (COP7 Resolution VII.8). Fridoon-Kenar wetland conservation management plan and sustainable use collaborate management local communities in fishing of Pike fish(Esox lucius) in Mazandaran province wetlands.
Proposed national actions and targets: -Training sessions for local communities with the emphasize on women collaboration on conservation activities and wise use of wetlands. -Modification and determination of local communities ,native people and women in wetlands management. -Capacity building in development of eco-turism by local communities participation .
Ministry, agency/department, or organization responsible for leading on this action: DOE

2.7.2 Encourage site managers and local communities to work in partnership at all levels to monitor the ecological character of wetlands, thus providing a better understanding of management needs and human impacts. [CPs]
<ul style="list-style-type: none"> The <i>Convention's Outreach Programme</i> (COP7 Resolution VII.9) seeks to give such community participation higher priority as an education and empowerment tool of the Convention.
Does your government actively encourage or support site managers and local communities in monitoring the condition (ecological character) of Ramsar sites and other wetlands? (Also refer to Operational Objective 5.1.) Yes
If No , what prevents this from occurring? [REDACTED]
If Yes , does this include both site managers and local communities, where they are not the same people? Yes The supports including:1-Support of governmental managers through financial,legal,educational and technical.2-Support of local communities including encourage and support from local people and local NGOs through educational programmes,and help them to implement wise use activities.
AND, where such monitoring occurs, are the findings being used to guide management practices? Yes
If No , what prevents this from happening? Please elaborate.
Proposed national actions and targets: -Support and of NGOs,development for collabratiion in all level specially ecological specification monitoring of wetlands. -Necessary and up date the training practices for the wetland specification monitoring through local communitie specially women.
Ministry, agency/department, or organization responsible for leading on this action: DOE

2.7.3 Involve local communities in the management of wetlands by establishing wetland management committees, especially at Ramsar sites, on which local stakeholders, landowners, managers, developers and community interest groups, in particular women’s groups, are represented. [CPs, Partners]

- **Global Target - Ramsar site management committees operating in at least 100 CPs, and including non-government stakeholder representation.**

Are there wetland site management committees **in place** in your country? **No**

If **No**, what are the impediments to such being established? **the absence of public awarness in relation to wetlands values, shortage of necessary capacities.**

If **Yes**, for how many sites are such committees in place?

AND: How many of these are Ramsar sites?

AND: Of these committees, how many include representatives of local stakeholders?

AND: Of these, how many have women’s groups represented?

Proposed national actions and targets: **-Capacity building to establishment of the wetland management committee.**

-To establish the wetlands sub- committee on each province especially Ramsar site provinces .

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

2.7.4 Recognize and apply traditional knowledge and management practice of indigenous people and local communities in the conservation and wise use of wetlands. [CPs]

- **Refer to 2.7.1 above.**
- **Global Target - This will be addressed in the next triennium, possibly in partnership with the Convention on Biological Diversity and Convention to Combat Desertification, which have already initiated work in this area.**

Has your government **made any special efforts** to recognize and see applied traditional knowledge and management practices? **No**

If **No**, what has prevented this from occurring? **-There is no recognition of the traditional knowledge of wetlands.**

If **Yes**, please provide details of how this traditional knowledge was recognized and then put into practice.

Proposed national actions and targets: **-Recognize the traditional knowledge practices around the country.**

-Gathering and compilation of these practicies.

-Applying traditional knowledge to conserve and wise use of wetlands

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

Operational Objective 2.8: To encourage involvement of the private sector in the conservation and wise use of wetlands.

Actions - Global and National Targets

2.8.1. Encourage the private sector to give increased recognition to wetland attributes, functions and values when carrying out projects affecting wetlands. [CPs, Bureau, Partners]

- **Global Target - In the next triennium, the efforts to work in partnership with the private sector will be further increased and the Bureau will seek to document and make available case studies on some of the more effective and innovative approaches. By COP8, the target is to have private sector support for wetlands conservation in more than 100 CPs.**

Have **special efforts been made** to increase the recognition of wetland attributes, functions and values among the private sector in your country? **Yes**

If **No**, what has prevented this from happening?

If **Yes**, describe these special efforts. **-Many wise use guidelines have been completed and distributed among private sector for implimentation.**

AND: Have these efforts been successful? **No**

If **No**, why not? **-The results of the completed projects should not be evaluvated .**

If **Yes**, how do you judge this success? Financial support for management or monitoring? Active involvement in management or monitoring? (Refer to 2.8.3 below) Application of Ramsar’s **Wise Use** principles by private sector interests? (Refer to 2.8.2 below)? Other criteria? **Please elaborate..**

Proposed national actions and targets: **Collecting the results of the activities.,Assesment the results, Identifying diffrent activities and removed weak points and promote strength points.**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

2.8.2 Encourage the private sector to apply the Wise Use Guidelines when executing development projects affecting wetlands. [CPs, Bureau, Partners]

- **Global Target - In the next triennium the application of this tool for promoting Wise Use will be a priority under the Convention. By COP8, the target is to have more than 50 CPs which have completed reviews of their incentive measures.**

Refer to 2.8.1 above. Has your government **completed** a review of its “existing, or evolving,

policy, legal and institutional frameworks to identify and promote those measures which encourage conservation and wise use of wetlands and to identify and remove measures which discourage conservation and wise use” (COP7 Resolution VII.15)? No
If No , what has been the impediment to this being done? -Necessary capacity deficiencies , There is no specific guideline for wise use of them respectively.
If Yes , what actions have been taken to introduce “incentive measures designed to encourage the wise use of wetlands, and to identify and remove perverse incentives where they exist” (COP7 Resolution VII.15). Please elaborate.
AND: Have these actions been effective? Yes/No
If No , why not? Please elaborate.
If Yes , please describe how.
AND if Yes , COP7 Resolution VII.15 requested Parties to share these “experiences and lessons learned with respect to incentive measures and perverse incentives relating to wetlands, biodiversity conservation, and sustainable use of natural resources generally, by providing these to the Ramsar Bureau for appropriate distribution and to be made available through the Wise Use Resource Centre of the Convention’s Web site”. Has this been done? Yes/No
Proposed national actions and targets: -Preparing necessity information for each wetland. - Operational wise use action guidelines based on the existing information and also applying all Ramsar Convention guidelines .
Ministry, agency/department, or organization responsible for leading on this action: DOE

2.8.3 Encourage the private sector to work in partnership with site managers to monitor the ecological character of wetlands. [CPs]
• This action will be promoted further in the next triennium.
Refer to 2.7.2 above. In addition, have any special efforts been made to encourage the private sector involvement in monitoring? No
If No , what has prevented this from happening? -The absence of active necessity capacities in private sector for monitoring .
If Yes , describe these special efforts.
AND: How successful has this been? Please elaborate.
Proposed national actions and targets: -To encourage the private user sectors in continuous monitoring of ecological specification of wetlands .
Ministry, agency/department, or organization responsible for leading on this action: DOE

2.8.4 Involve the private sector in the management of wetlands through participation in

wetland management committees. [CPs]

- **Global Target - As indicated under 2.7.2 and 2.7.3 above, the establishment of cross-sectoral and stakeholder management committees for wetlands, and especially Ramsar sites, will be a priority in the next triennium.**

Refer to 2.7.3 above

η η η

**GENERAL OBJECTIVE 3
TO RAISE AWARENESS OF WETLAND VALUES AND FUNCTIONS
THROUGHOUT THE WORLD AND AT ALL LEVELS**

Operational Objective 3.1: To support and assist in implementing, in cooperation with partners and other institutions, an international programme of Education and Public Awareness (EPA) on wetlands, their functions and values, designed to promote national EPA programmes.

Actions - Global Targets

3.1.1 Assist in identifying and establishing coordinating mechanisms and structures for the development and implementation of a concerted global programme of EPA on wetlands. [CPs, Bureau, Partners]

Refer to Operational Objectives 3.2 and 3.3 below

3.1.2 Participate in the identification of regional EPA needs and in the establishment of priorities for resource development. [CPs, Bureau, Partners]

Has your country **taken any action** to help with the identification of regional EPA needs and in the establishment of priorities for information/education resource development? **Yes**

If **No**, what has prevented this from happening? **Please elaborate.**

If **Yes**, please provide details, and as appropriate, provide samples to the Ramsar Bureau for possible inclusion in the Wise Use Resource Centre's clearing house for Wetland Communications, Public Awareness, and Education (CEPA) (COP7 Resolution VII.9). **The EPA needs has been determined by asking from provincial wetland responsibilities and experts, and based on, some provincial workshop has established and the necessary informations has given to provincial responsibilities and stakeholders. e.g, as a result the stakeholder of wetland in Fridonkenar and Sari do their best to protect the small wetland in this areas. In the future, a compushensive EPA programme will be provide .**

Proposed national actions and targets: **-Effort toward development of regional meetings ,training workshop preparation and presentation offer for establishment of regional research and training center in Ramsar .**

Ministry, agency/department, or organization responsible for leading on this action: **DOE ,**

MFA and Mazandaran province government.**3.1.3 Assist in the development of international resource materials in support of national EPA programmes [CPs, Bureau, Partners]**

Refer to 3.1.2 above also. Has your country **taken any action** to assist with the development of international wetland CEPA resource materials? **Yes**

If **Yes**, please provide details, and as appropriate, provide samples to the Ramsar Bureau for possible inclusion in the Wise Use Resource Centre's clearing house for Wetland CEPA (COP7 Resolution VII.9). **preparation persian manual about Ramsar convention (in 2 sizes) ,holding wetlands world day ceremony (for 3 years),providing and printing posters and bulletin,translation and printing books and articles,and holding seminar about Islam and Environment.**

If **No**, what has prevented this from happening? **Please elaborate.**

Proposed national actions and targets: **-Effort toward development of documents through holding meeting and seminars,use of mass media,printing and publication magazine,poster,photographs,books,etc.-**

-Use of special days for introducing of wetlands values and functions,and cooperation with NGOs in this regard .

Ministry, agency/department, or organization responsible for leading on this action: **DOE , MFA and Ministry of Educational .**

3.1.4 Support international programmes that encourage transfer of information, knowledge and skills between wetland education centres and educators (e.g., Wetland International's EPA Working Group, Global Rivers Environment Education Network (GREEN), Wetland Link International). [CPs, Bureau, Partners]

Refer to 3.2.4 also. Does your country support any international programmes that encourage transfer of information, knowledge and skills among wetland education centres and educators? **No**

If **No**, what are the impediments to this occurring? **-Financial,informational and connectional problems, lack of programs and supportive mechanisms,and lack of suitable use of these centers.**

If **Yes**, please provide details.

Is your country specifically supporting the Wetlands Link International initiative (COP7 Resolution VII.9)? **No**

If **No**, what is preventing this from happening? **-Financial,Technical,informational problems,and etc.**

If **Yes**, please provide details.

AND indicate which Wetland Centres (refer 3.2.3 below), museums, zoos, botanic gardens,

aquaria and educational environment education centres (refer 3.2.4) are now participating as part of Wetlands Link International. [REDACTED]

Proposed national actions and targets: **-Creating wetlands informational and communicational systems and linking to international network of wetland**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

Operational Objective 3.2: To develop and encourage national programmes of EPA on wetlands, targeted at a wide range of people, including key decision-makers, people living in and around wetlands, other wetland users and the public at large.

Actions - Global and National Targets

3.2.1 Encourage partnerships between governments, non-governmental organizations and other organizations capable of developing national EPA programmes on wetlands. [CPs, Bureau, Partners]

- **Global Target - By COP8 to see the global network of proposed CP and non-government focal points for Wetland Communication, Education and Public Awareness (CEPA) in place and functioning effectively in the promotion and execution of the national Outreach Programmes in all CPs. To secure the resources to increase the Bureau's capacity for implementing the Outreach Programme.**

Did your Government **inform** the Ramsar Bureau by 31 December 1999 of the identity of its Government and Non-Government Focal Points for wetland CEPA (COP7 Resolution VII.9)? **Yes**

If **No**, what has prevented this from occurring? **Please elaborate.**

Has your country **established** an "appropriately constituted Task Forces, where no mechanism exists for this purpose (e.g., National Ramsar Committees), to undertake a review of national needs, capacities and opportunities in the field of wetland CEPA and, based on this, to formulate its National Wetland CEPA Action Plans for priority activities which consider the international, regional, national and local needs" (COP7 Resolution VII.9). **No**

If **No**, what has prevented this from occurring? **-Because of National Sustainable Development Committee and Ramsar Convention Sub-Committee.**

If **Yes**, please provide details of the organizations, ministries, etc., represented on this Task Force. [REDACTED]

AND: Has a National Wetland CEPA Action Plan been finalized by 31 December 2000? **No**

If **No**, what has prevented this from occurring? **-Lack of wetlands national strategy and policies.**

If **Yes**, is the Action Plan being implemented effectively? **Yes/No**

If No , what is preventing this from occurring? Please elaborate.
If Yes , what are the priority target groups of the Action Plan and the major activities being undertaken?
AND: Has a copy of this plan been provided to the Ramsar Bureau? Yes/No
Proposed national actions and targets: -Setting the providing national action plan in order of Ramsar convention sub-committee.
Ministry, agency/department, or organization responsible for leading on this action: Ramsar convention sub-committee.

3.2.2 On the basis of identified needs and target groups, support national programmes and campaigns to generate a positive vision of wetlands and create awareness at all levels of their values and functions. [CPs, Bureau, Partners]

Global Target - see 3.2.1 above.

3.2.3 Encourage the development of educational centres at wetland sites. [CPs, Bureau, Partners]

- **Global Target - The Convention will aim to have more than 150 active education centres (and similar venues - see 3.2.4 below) promoting the principles of the Convention by COP8 and to ensure that all CPs have at least one such centre.**

Has your country **encouraged** the establishment of educational centres at wetland sites? **Yes**

If **No**, what has been the impediment to such action being taken? **Please elaborate.**

If **Yes**, how successful has this been? **-In present time,a central visiting center has been established in seven wetland to give the necessary information,to train the students and environmental officers,and to encourage thesis preparation, and the aim is that these centers change officially to training centers in the future.**

AND: How many such centres are in place? and at what sites? **seven visiting centers has been established in the regions of Sia keshim , Selkeh , Amir klaieh , Parishan , Hormoz island , Uromieh lake , and Bodjagh .**

How many centres are being established? and at what sites? **-It is going to establish two visiting centers in the regions of Miankaleh and Alagol .**

How many centres are being planned? and at what sites? **-One research and training center in Fereidonkenar wetland.**

Of the sites in place, how many are participating as part of Wetlands Link International (Refer 3.1.4 above)? and at which sites are they?

Proposed national actions and targets: **-Training development and changing visiting centers to training centers and establishing a training center in each wetland .**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

3.2.4 Work with museums, zoos, botanic gardens, aquaria and environment education centres to encourage the development of exhibits and programmes that support non-formal EPA on wetlands. [CPs, Bureau, Partners]

- **Global Target - see 3.2.3 above**

Do **all** museums, zoos, botanical gardens and similar facilities in your country **have exhibits** and/or programmes that support non-formal wetland CEPA? **Only for some facilities**

If **No**, what are the impediments to this occurring?

If such exhibits or programmes are in place for some facilities, how many and what types of facilities are they? **In each provinces, we have natural history museums , which presents a few sample of funa & flora and the wetland ecosystem.**

If **Yes**, how many facilities does this apply to and how many of these are participating as part of Wetlands Link International (Refer 3.1.4 above)? and which facilities are they? **The most of the centers has local informing duties, so they can't act as a part of wetland international system.**

Proposed national actions and targets: **Development and enhancing of training programmes, equippng visiting and informing centers for acting as a part of wetland international systems.**

Ministry, agency/department, or organization responsible for leading on this action: **DOE, Municipalities, Ministry of sciences , tehnology and research.**

3.2.5 Encourage the inclusion of modules related to wetlands in the curricula at all levels of education, including tertiary courses and specialized training courses. [CPs, Bureau, Partners]

- **Global Target - By COP8, to see wetland issues incorporated into curricula in over 100 CPs.**

In your country are there modules related to wetlands in the curricula at all levels of education, including tertiary courses and specialized training courses? **No**

If **No**, what is preventing this from occurring? **In these kind of courses , the wetland are generally discussed and hasn't any detailed and specialized discussion about wetlands.**

If this is the case for some levels of education, or some parts of the country, please provide details. **The training courses of wetlands at the environmental institution include: Wetland, wetland ecosystems and migratory birds . Also wetlands courses have been teaching at Master and Philoshophy degree of science.**

If **Yes**, have samples of this curriculum material been provided to the Ramsar Bureau for possible inclusion in the Wise Use Resource Centre? **No**

Proposed national actions and targets: **-Developing training about value and functions of**

wetlands at different levels.

Ministry, agency/department, or organization responsible for leading on this action:

DOE, Ministry of science, technology and researchs and Ministry of education.

Operational Objective 3.3: To improve the Ramsar Bureau's communications activities and to develop a Convention Communications Strategy, capable of further promoting the Convention and its wider application, and of raising awareness of wetland values and functions.

Actions - Global and National Targets

3.3.1 Review the Bureau's communications activities, especially those related to the creation and functioning of regional and national communication networks; develop new material and use of technology, and improve existing material. [Bureau]

Refer to 3.2.1 "To secure the resources to increase the Bureau's capacity for implementing the Outreach Programme.". Has your government provided any voluntary contributions to increase the Bureau's capacity for implementing the Outreach Programme? **No**

If Yes, please provide details.

Proposed national actions and targets: **Development national and international communication, and with Ramsar Bureau.**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

3.3.4 Seek the support of an electronic communications carrier to provide and maintain an electronic mail network and electronic bulletin board/ mailing lists linking the Contracting Parties, Standing Committee members, the STRP, the Bureau, and partner organizations. [All]

- **Global Target - By COP8, to gain a sponsor(s) for the Convention's Web site, to ensure that all CPs have Internet access, to increase the use of French and Spanish in the Ramsar Web site, and to see over 300 Ramsar site managers also communicating with the Bureau, and each other, via the Internet.**

The Standing Committee and Bureau will consider the issue of a sponsor for the Convention's Web site, and increased presence of French and Spanish materials on the Web site.

With respect to Ramsar site managers, has your government taken steps to provide for Internet links for these people? **No**

If No, what are the impediments to this action being taken? **Financial and technological difficulties, shortage of specialists.**

If Yes, how many Ramsar site managers have Internet access?

AND: Which Ramsar sites have this facility?

Proposed national actions and targets: **-To equip all Ramsar sites and linked them to the**

internet and informing system.

Ministry, agency/department, or organization responsible for leading on this action: DOE

National planning tool for the implementation of the Ramsar Convention on Wetlands

(And the approved format for National Reports to be submitted for the 8th Meeting of the Conference of the Contracting Parties, Spain, 2002)

η η η

file 2

GENERAL OBJECTIVE 4

TO REINFORCE THE CAPACITY OF INSTITUTIONS IN EACH CONTRACTING PARTY TO ACHIEVE CONSERVATION AND WISE USE OF WETLANDS

Operational Objective 4.1: To develop the capacity of institutions in Contracting Parties, particularly in developing countries, to achieve conservation and wise use of wetlands.

Actions - Global and National Targets

4.1.1 Review existing national institutions responsible for the conservation and wise use of wetlands. [CPs]

Has your country reviewed the national institutions responsible for wetland conservation and wise use and the “designated national Administrative Authority for the Convention to ensure [that] these have the necessary resources to support the increasing demands being placed upon them by the growing expectations of the Convention” (COP7 Resolution VII.27)?

Yes

If No, what is the impediment to this being done?

If Yes, what were the conclusions and outcomes of the review? (Refer to 4.1.2 also).
1- Establishment of Ramsar Convention Sub-committee to the National Committee of Sustainable Development
2-Establish a division named "Wetland section" in the "Habitats and protected areas Bureau" in DOE.

Proposed national actions and targets: To improve the local communities and collaborated management for conservation and sustainable use, Supporting and leading NGOs in conservation and sustainable & wise use of wetlands. Targets for capacity Building in DOE including :1-Suggestion in order upgrade of conservation level for total of Ramsar Sites as Wildlife Refuge "and upgrade of conservation level for other Wetlands to "Protected Area". This suggestion have delive red to the "Environiment Conservation Higher Council". 2-Try to establish a web site in Internet. 3-Suggestion for establishment of provincial committees in provinces whene have Ramsar Sites.

Ministry, agency/department, or organization responsible for leading on this action: DOE

4.1.2 On the basis of such a review, identify and implement measures to:

- increase cooperation and synergy between institutions;
- promote the continued operation of these institutions;
- provide appropriately trained staff, in adequate numbers, for these institutions. [CPs]
- **Global Target - By COP8, to see coordinating mechanisms in place in all CPs, and more particularly to see National Ramsar Committees including government and non-government stakeholder representatives, in place in more than 100 CPs. In addition, by COP8, all CPs that have reported the existence of NRCs at COP7 to have evaluated their effectiveness (COP7 Resolution VII.27).**

Refer also to 8.1.9. Does your country have a National Ramsar Committee or similar body?

Yes

If **No**, what has prevented the establishment of such a committee? **_____**

If **Yes**, is the committee cross-sectoral, including representatives of appropriate government ministries and non-government expert and stakeholder groups? **Yes**

What is the composition of this Committee? **Representatives of related ministries are members of committee, but the stockholders and NGOs are not engaged in the committee**
committee consist of:

2 representatives of deputy director for natural environment and biodiversity from DOE

1 representative from the ministry of foreign affair

1 representative from ministry of Jihad-e-Agriculture

1 representative from ministry of Sciences ,technology and reaserch

1 representative from ministry of oil

1 representative from ministry of Energy

1 representative from managment and planning department

1 representative from marine environment bureau of DOE

1 representative from of Iranian Fisheries Company

1 representative from National committee for sustainable development .

Has there been an evaluation of the effectiveness of the Committee? **Yes**

If **No**, what has prevented this from happening? **_____**

If **Yes**, did the review show the Committee was proving to be effective? **Yes**

If **No**, why not? **_____**

Refer also to 7.2.1 with reference to coordinating the implementation of international conventions.

Proposed national actions and targets: **1-To encourage NGOs for active participation and their member ship in Ramsar convention sub-committee 2- Organizing provincial Ramsar sub-committee with important wetlands .**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

Operational Objective 4.2: To identify the training needs of institutions and individuals concerned with the conservation and wise use of wetlands, particularly in developing countries, and to implement follow-up actions.

Actions - Global and National Targets

4.2.1 Identify at national, provincial and local level the needs and target audiences for training in implementation of the Wise Use Guidelines. [CPs, Bureau, Partners]

- **Global Target - By COP8, to have training needs analyses completed in more than 75 CPs.**

Has a training needs analysis been completed? **Yes**

If **No**, what has prevented this from happening? |

If **Yes**, have the results of this analysis been used to provide direction for training priorities in the future? **No**

If **No**, why not? **Use of analysis results are related to the implementation of 4 GEF supported wetland (conservation of Iranian wetlands)projects.**

If **Yes**, how has this been done?

AND: What impact has this had on the national training effort?

Proposed national actions and targets: **Planning for enhancing capacity building of the related experts and taking benefite of research capabilities in internationally valid institution development of international,national and regional workshops , and exchanging wetland experts among contracting parties.**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

4.2.2 Identify current training opportunities in disciplines essential for the conservation and wise use of wetlands. [CPs, Bureau, Partners]

- **Global Target - By COP8, to have reviews of training opportunities completed in more than 75 CPs.**

Has your country **completed** a review of the training opportunities which exist therein? **No**

If **No**, what are the impediments to this being done? **Lack of training wetland centers and shortage of funds.**

If **Yes**, have the results of this review been used to provide direction for training priorities in the future? **Yes/No**

If **No**, why not?

If **Yes**, how has this been done?

AND: What impact has this had on the national training effort? [REDACTED]
Has this information on training opportunities been provided to the Ramsar Bureau for inclusion in the Directory of Wetland Manager Training Opportunities? (Refer to 4.2.3 below also) No
Proposed national actions and targets: Enhancing the technical and educational support of wetlands, experts, allocating sufficient budget for establishing wetland specialized centers and educational opportunities.
Ministry, agency/department, or organization responsible for leading on this action: DOE

<p>4.2.3 Develop new training activities and general training modules, for application in all regions, concerning implementation of the Wise Use Guidelines, with specialized modules covering [CPs, Bureau, Partners]</p> <ul style="list-style-type: none"> Global Target - To launch a major wetland manager training initiative under the Convention, possibly in partnership with one or more of the Convention's International Organization Partners, which can promote and take advantage of these new training tools. Refer also to 4.2.4 below regarding the <i>Wetlands for the Future Initiative</i>.
Following its review of training needs and opportunities, has your country developed any new training activities, or training modules? No
If Yes, please provide details. [REDACTED]
AND: Has information on these training activities and modules been provided to the Ramsar Bureau for inclusion in the Directory of Wetland Manager Training Opportunities and the Wise Use Resource Centre? (Refer to 4.2.2 above also) Yes/No
Proposed national actions and targets: Promotion close relationship between regional countries for development of regional meetings workshops and exchanging of informations .
Ministry, agency/department, or organization responsible for leading on this action: DOE

<p>4.2.4 Provide opportunities for manager training by: personnel exchanges for on-the-job training; holding pilot training courses at specific Ramsar sites; siting wetland manager training facilities at Ramsar sites; obtaining and disseminating information about training courses for wetland managers around the world. [CPs, Bureau, Partners]</p> <ul style="list-style-type: none"> Global Target - Refer to 4.2.3 above. Also to seek the resources from donors or interested CPs to establish <i>Wetlands for the Future Initiatives</i> for the Asia-Pacific, Eastern European, and African regions.
Refer to 4.2.1, 4.2.2, and 4.2.3 above. Has training been provided for wetland managers:
<ul style="list-style-type: none"> Through personnel exchanges for on-the-job training? No, Lack of the optimal use of training opportunities. Holding pilot training courses at specific Ramsar sites? Yes, Many of wetland

experts and wetlands managers participated in Urumieh, Hamoon and Harra workshops that was held for management and sustainable utilization training.

- Siting wetland manager training facilities at Ramsar sites? **No**, **Technical weaknesses and deficiency of budget.**
- Obtaining and disseminating information about training courses for wetland managers? **Yes**, **Information received and distributed among wetland managers but due to lack of official languages proficiency they are not able to take advantage.**

Has your country provided resources to support the establishment of *Wetlands for the Future* style programmes in any part of the world? (COP7 Recommendation 7.4) **No**

If Yes, please provide details.

Proposed national actions and targets: **Identification the training opportunities for Ramsar site wetland managers, Use of international and national resources to enhance wetland managers knowledge, facilitation, in distribution of necessary informations on Ramsar site wetlands, Persuading international wetlands manager to up-grade their knowledge and technical information.**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

4.2.6 Exchange information, technical assistance and advice, and expertise about the conservation and wise use of wetlands, also with regard to South-South cooperation. [CPs, Bureau, Partners]

Refer to 2.3.1, 2.3.2, 4.2.1-4 above. Has your country specifically undertaken activities as indicated here which could be deemed to be South-South cooperation? **No**

If **No**, what has prevented this from happening? **Lack of specialized and scientific capacities, basically it is subjected to the international support on wetlands.**

If Yes, please provide details.

Proposed national actions and targets: **Effort to make better relationship, transfer of information and experiences in developing countries.**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

η η η

**GENERAL OBJECTIVE 5
TO ENSURE THE CONSERVATION OF ALL SITES INCLUDED IN THE
LIST OF WETLANDS OF INTERNATIONAL IMPORTANCE (RAMSAR LIST)**

Operational Objective 5.1: To maintain the ecological character of Ramsar sites.

Actions - Global and National Targets

5.1.1 Define and apply the precise measures required to maintain the ecological

character of each listed site, in the light of the working definitions of ecological character adopted at the 6th COP (1996) and amended by by Resolution VII.10 of COP7. [CPs]

- **Global Target - By COP8, each CP will seek to ensure that the measures required to maintain the ecological character of at least half of the Ramsar sites have been documented.**

Have the measures required to maintain the ecological character of Ramsar sites in your country been documented? **Yes**

If **No**, what has prevented this being done?

If **Yes**, has this documentation been developed as part of management planning and associated action at the sites? **Yes**

AND: Has a copy been provided to the Ramsar Bureau? **No**

Proposed national actions and targets: **Maintaining all international wetlands as one of the protected areas, and preparing management plan for them.**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

5.1.2 Conduct regular internal reviews to identify potential changes in ecological character, with input from local communities and other stakeholders; take remedial action and/or nominate the site for the Montreux Record. [CPs]

- **Refer to 2.5.2 - In the COP7 National Reports, 35 CPs reported Ramsar sites where some change in ecological character had occurred or was likely to occur in the near future. This was true for 115 sites in 33 CPs, and two other CPs stated that changes had occurred to all or some of their sites. In COP7 Resolution VII.12, these CPs were urged to consider nominating these sites to the Montreux Record.**
- **Global Target – In the period up to COP8, promote the application and benefits of the Montreux Record as a tool of the Convention through disseminating reports and publications on the positive outcomes achieved by a number of countries which have now removed sites from the Record.**

Refer to 2.7.2 and 2.8.3 also. Are regular internal reviews undertaken to identify factors potentially altering the ecological character of Ramsar sites? **Yes**

If **No**, what are the impediments to this occurring?

If **Yes**, have these reviews detected situations where changes in ecological character have occurred or may occur? **Yes**

If **Yes**, for how many sites was this case, which sites were they, and what actions were taken to address these threats? **All activities such as preparing management plans, determining core areas identifying, pollutant centers, and also legally activities in controlling the pollutions has been done in 5 site :Shadegan Urumieh Anzali Arjan &Parishan and Harra .**

AND: Were these sites where change in ecological character was detected, or may occur,

added to the Montreux Record? No
If No , why not? As the altering intensity did not make a serious ecological changes and also anticipated that implementation factors prevent the altering activities in such a way that eliminate them.
Proposed national actions and targets: Integrated management rehabilitation program with the local communities collaboration .
Ministry, agency/department, or organization responsible for leading on this action: DOE

5.1.3 Review and regularly update the Montreux Record (Resolutions 5.4, 5.5, and VI.1). [CPs, STRP, Bureau]
<ul style="list-style-type: none"> Global Target - CPs with Ramsar sites in the Montreux Record, and for which Ramsar Advisory Missions (RAMs) have been completed prior to COP7, are expected to have taken the actions necessary to warrant their removal from the Record before COP8.
For those CPs with a site, or sites, included in the Montreux Record, and for which RAMs (previously Management Guidance Procedures, MGPs) have been completed, have all actions recommended by the RAM been undertaken for each site? No
If No , what are the impediments to this occurring? 1- The value of recording a wetland in Montroux list is not clear. 2- Mechanism weakness of Montroux directory and lack of guidelines for members of country to omit wetland from montroux list. 3- Some of the items are not fitted with the locally realities.4- Technical and scientific deficiencies for rehabilitation of montroux list wetlands. 5- Financial deficiency for implementation proposals. 6- There is no public awareness specially in local communities.
If Yes , have these actions resulted in a restoration of the ecological character? No
AND: If Yes , has the site been removed from the Montreux Record following the completion of the necessary questionnaire (COP6 Resolution VI.1)? Yes/No Additional comment?
Proposed national actions and targets: 1-Development of official structures to conserve wetlands including montroux recorded.2- Effort in establishment and increasing technical and scientific capability for implementing and following the wetland technical support specially Montroux recorded.3-Effort to support NGOs and activate them,and increasing public awarness in order to improve the local communities awareness and promotion local communities participation .
Ministry, agency/department, or organization responsible for leading on this action: DOE

Operational Objective 5.2: To develop and implement management plans for all Ramsar sites, consistent with the Convention's Guidelines on Management Planning and emphasizing involvement of local communities and other stakeholders.

Actions - Global and National Targets

5.2.3 Ensure that, by the 8th COP (2002), management plans or other mechanisms are in preparation, or in place, for at least half of the Ramsar sites in each Contracting Party, beginning with pilot programmes at selected sites with input from local communities and other stakeholders. [CPs, Partners]

- **Global Target - By COP8, management plans will be in preparation, or in place, for at least three-quarters of the Ramsar sites in each CP and all CPs will seek to ensure that these are being implemented in full.**

Do all the Ramsar sites in your country have management plans **in place?** **No**

If **No**, how many sites do not have management plans in place and which sites are they? **11 sites; 1- Alagol ,Almagol & Agigol Lakes 2- Gomishan wetland 3- Rud-e- shur ,shrin and Minab , estuaries 4-Gavkhooni wetland 5- Sowthern region of Hamoon- Poozak 6- Hamoon Saberi and Hirmand 7- Ghoopi lake 8- Shadegan wetland and seasonal rivers Alomayeh & Moosa 9- Shoorgol , Dorgeh Sangi & Yadegarloo lakes 10- Guater gulf and Hoor Bahoo 11- Shidvar island.**

If plans are being prepared for some sites, please indicate which sites these are. **1- Rud-e- Gaz and Harra estuaries 2- Khur-e- Khuran 3- Uromieh lake 4- Parishan and Arjan lakes 5- Miankaleh peninsula , Gorgan gulf & Zaghmarz Lapoo 6- Bakhteghan lake & Kamjan wetland 7- Anzali wetland.**

For those sites where management plans are in place, how many of these are being implemented fully, and which sites are they? **Four sites: 1- Khor -e- Khoran 2- Parishan & Arjan lakes 3- Miankaleh peninsula ,Gorgan gulf and zaghmarz Lapoo 4- Urumieh lake.**

Where plans are not in place, or not being fully implemented, what has prevented this from being done? **Shortage of funds and Droughth. these wetlands have been selected as secondary priority and will have placed their management plans in time .**

Proposed national actions and targets: **Preparing and management plans for Ramsar all ramsar sites and also other important wetlands by DOE.**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

5.2.4 Promote the establishment and implementation of zoning measures related to larger Ramsar sites, wetland reserves and other wetlands (Kushiro Recommendation 5.3). [CPs, Partners]

For those sites where it is warranted, are zoning measures being used to regulate the activities allowed in different parts of the wetlands? **Yes**

If **No**, what is preventing these from being implemented?

If **Yes**, for which sites are these in place? **1- Khur-e -Khuran 2- Parishan and Arjan lakes 3- Miankaleh peninsula ,Gorgan gulf and zaghmarz Lapoo 4- Urumieh lake.**

AND:Are they proving a successful management tool? **Yes , in land use and conservation of**

sensitive areas and also for implementation of research and training activities will be useful.

Have you provided the Ramsar Bureau with information regarding such cases of zoning for possible inclusion in the Wise Use Resource Centre? **No**

Proposed national actions and targets: **Promotion the implementation of zoning studies in all wetlands , Training local communities for being more familiar with wetlands and the characteristics of zoning and land use of each zone.**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

5.2.5 Promote the establishment and implementation of strict protection measures for certain Ramsar sites and other wetlands of small size and/or particular sensitivity (Recommendation 5.3). [CPs, Partners]

- **This aspect of Ramsar site management was not considered in the COP7 National Reports and will have to be reviewed in time for COP8.**
- **Global Target - Provide for consideration at COP8 detailed information on the implementation of strict protection measures at small and/or sensitive sites.**

For those sites where it is warranted, are strict protection measures being used to regulate the activities allowed in different parts of the wetlands? **Yes**

If **No**, what is preventing these from being implemented?

If **Yes**, for which sites are these in place? **Shidvar & Ghoorigol**

AND: Is this proving to be a successful management tool? **As a successful management tool : For preventing any non sustainable use of wetland and unwise uses by serious conservation of these areas.**

Have you provided the Ramsar Bureau with information regarding such cases for possible inclusion in the Wise Use Resource Centre? **No**

Proposed national actions and targets: **Trying for identification all small wetlands or those with a sensitive ecosystem and record them, Integrated planning for serious conservation of these wetlands**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

Operational Objective 5.3: To obtain regularly updated information on wetlands of international importance, in accordance with the approved standard format.

Actions - Global and National Targets

5.3.1 Ensure that the maps and descriptions of Ramsar sites submitted to the Ramsar Database by the Contracting Parties at the time of designation are complete, in the approved standard format of the Information Sheet on Ramsar Wetlands, and provide

sufficient detail to be used for management planning and monitoring of ecological character. [CPs, Bureau, Wetlands International]

5.3.2 Ensure that missing or incomplete data sheets and/or maps of listed sites are submitted as a matter of priority and in the shortest possible time, as a means to enhance the relevance and use of the Ramsar Database. [CPs]

- **Global Target – By the end of 1999, for there to be no Ramsar sites for which appropriate sites descriptions and maps are still required.**

If yours is one of the CPs referred to in COP7 Resolution VII.12 as not having provided a Ramsar (Site) Information Sheet in the approved format, with a suitable map, in one of three working languages of the Convention, has this now be rectified? **Yes**

If **No**, what is preventing this from being done?

5.3.3 Ensure that data sheets on Ramsar Sites are regularly updated, at least for every second meeting of the COP, so that they can be used for reviewing the achievements of the Convention, for future strategic planning, for promotional purposes, and for site, regional and thematic analysis (Resolution VI.13). [CPs, STRP, Bureau, Wetlands International]

- **Global Target - By the end of 1999, for there to be no Ramsar sites designated before 31 December 1990 for which updated site descriptions are still required.**

If yours is one of the CPs referred to in COP7 Resolution VII.12 as not having provided an updated Ramsar (Site) Information Sheet for sites designated before 31 December 1990, has this now be rectified? **Yes**

If **No**, what is preventing this from being done?

Proposed national actions and targets: **Providing data sheets for all Ramsar sites and continuous updating item.**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

Operational Objective 5.4: To keep under review the content and structure, as well as the hardware and software, of the Ramsar Database, in order to ensure that it retains its relevance in light of evolving information and communication technology.

Actions - Global and National Targets

5.4.1 Assess data currently available in the database and identify any gaps in the data provided by Contracting Parties. [CPs, STRP, Bureau, Wetlands International]

Refer to 5.2.2, 5.2.3, and 5.2.4 above.

5.4.4 Support the establishment of national wetland databases compatible with the Ramsar Database and develop a common protocol to facilitate exchange and interaction. [CPs, Partners]

- **Global Target - By COP8, to have national wetland databases in over 50 CPs which are accessible globally.**

Refer also to 6.1.1 and 6.1.2. Does your country have a national wetland database? Yes
If No , what is preventing such a database being established? [REDACTED]
If Yes , is this database generally available for reference and application by all ministries and stakeholders? Yes
If No , why not? [REDACTED]
AND: Is it available through the Internet? (COP7 Resolution VII.20) Yes
If Yes , please provide details. [REDACTED]
If No , why not? [REDACTED]
AND: Is it available on CD-Rom? (COP7 Resolution VII.20) No
If Yes , please provide details. [REDACTED]
If No , why not? Sites are in developing.
Proposed national actions and targets: Promoting and supporting of existant sites .
Ministry, agency/department, or organization responsible for leading on this action: DOE

η η η

GENERAL OBJECTIVE 6

TO DESIGNATE FOR THE RAMSAR LIST THOSE WETLANDS WHICH MEET THE CONVENTION'S CRITERIA, ESPECIALLY WETLAND TYPES STILL UNDER-REPRESENTED IN THE LIST AND TRANSFRONTIER WETLANDS

Operational Objective 6.1: To identify those wetlands that meet the Ramsar criteria, and to give due consideration to their designation for the List.

Actions - Global and National Targets
6.1.1 Develop, regularly update -- especially in the case of Africa -- and disseminate regional wetland directories, which identify potential Ramsar sites. [CPs, Partners]
Refer to 6.1.2 and 6.2.1. Does there exist for your country a directory or similar listing of sites which are potential Ramsar sites? Yes
If No , what are the impediments to such a list of sites being prepared? Please elaborate.
If Yes , when was it prepared and was it prepared taking into consideration the <i>Strategic Framework and guidelines for the future development of the List of Wetlands of International Importance</i> (COP7 Resolution VII.11)? 2001 year No
AND: How many potential Ramsar sites are identified within the important sites directory for your country? about 54 wetlands

Proposed national actions and targets: **Introducing of identificat wetlands with the potential Ramsar sites.**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

6.1.2 Establish, update and disseminate national scientific inventories of wetlands which identify potential Ramsar sites and wetlands of provincial or local importance in the territory of each Contracting Party. [CPs, Partners]

- **Global Target - By COP8, to have national wetland inventories completed by over 50 CPs and the information housed in databases (Refer to 5.4.4) which are accessible globally**

Does there exist a comprehensive national inventory (as opposed to a directory of important sites; see 6.1.1 above) for your country? **Yes**

If **No**, what are the impediments to such an inventory being prepared? **!**

If only some parts of the country have had inventories completed, please indicate which parts these are. **█**

AND: What is the likely timeframe for completing the national inventory? **█**

If a national inventory has already been completed, when was it finalized? **In the year 2000 .**

AND: Is the information housed where it is accessible to stakeholders and the international community? (COP7 Resolution VII.20) **No**

If **No**, what are the impediments to this occurring? **It has been prepared in Persian , it is useful for interior communities and translating the national glossary in English.**

Has national/subnational inventory information been provided to the Ramsar Bureau (if it is not accessible through the Internet)? **No**

Proposed national actions and targets: **Establish a national information system (Home page) in website and introducing the information between local , national and international communities.**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

6.1.4 Support the work of Wetlands International and IUCN in updating information on population sizes of waterfowl and other taxa, and utilize these data in identification of potential Ramsar sites. [CPs, Bureau, Partners]

Does your country regularly gather waterbird population data? **Yes**

If **No**, what prevents this from happening? **█**

If **Yes**, is this information provided to Wetlands International? **Yes**

If **No**, why not? **█**

Proposed national actions and targets: **Monitoring center establishment for population of waterfowl in country .**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

Operational Objective 6.2: To increase the area of wetland designated for the List of Wetlands of International Importance, particularly for wetland types that are under-represented either at global or national level.

Actions - Global and National Targets

6.2.1 Promote the designation for the Ramsar List of an increased area of wetland, through listing by new Contracting Parties, and through further designations by current Contracting Parties, in particular developing countries, in order to ensure the listing of a representative range of wetland types in the territory of each Contracting Party and in each Ramsar region. [CPs, Bureau, Partners]

- **Global Target - As proposed in the Strategic Framework, the short-term target of the Ramsar List should be to achieve the designation of 2000 sites, in accordance with the systematic approach advocated therein, by the time of COP9 in the year 2005. In addition, by COP8 the target is to have at least 20 CPs that are applying a systematic approach to site selection nationally.**

Refer also to 6.1.1, 6.1.2, and 6.2.3. Has your country taken a systematic approach to identifying its future Ramsar sites (as promoted in the *Strategic Framework for the List – COP7 Resolution VII.11*)? **Yes**

If **No**, what are the impediments to this being done?

If **Yes**, has this included considerations to ensure the designation of a representative range of wetland types? **Yes**

If **No**, why not? **|**

If **Yes**, has this resulted in the designation of a representative range of wetland types? **Yes**

Proposed national actions and targets: **Confirm and introducing new wetlands with lower indicators.**

Ministry, agency/department, or organization responsible for leading on this action: **DOE**

6.2.3 Give priority attention to the designation of new sites from wetland types currently under-represented on the Ramsar List, and in particular, when appropriate, coral reefs, mangroves, sea-grass beds and peatlands. [CPs]

- **Global Targets - The long-term targets are set by the *Strategic Framework and guidelines for the future development of the List of Wetlands of International Importance* (COP7 Resolution VII.11). Based on this, short-term targets for each wetland type will be derived [by the STRP].**

Further to 6.2.1 above: If your territory includes under-represented wetland types, has special

attention been given to identifying suitable sites for designation? Yes
If No , what has prevented this from occurring?
If Yes , has this included designations of wetlands including: <ul style="list-style-type: none"> • coral reefs? Yes • mangroves? Yes • seagrass beds? No • peatlands? No • intertidal wetlands? (COP7 Resolution VII.21) Yes
Proposed national actions and targets: To introduce and emphasize on introducing of these wetlands.
Ministry, agency/department, or organization responsible for leading on this action: DOE

<p>6.2.4 Pay particular attention to the designation of new sites currently enjoying no special conservation status at national level, as a first step towards developing measures for their conservation and wise use. [CPs]</p> <ul style="list-style-type: none"> • This question was not considered in the National Reports for COP7. It will be included for consideration in the NRs for COP8. • Global Target - All CPs to consider this approach to ensuring the long-term conservation and wise use of wetlands that are subject to intense human use.
Has your country designated wetland sites for the Ramsar List which previously had no special conservation status? Yes
If No , what has prevented this from happening?
If Yes , please provide details. Gavkhooni , Shur , Shirin & Minab estuaries, Gaz and Harra estuaries ,Alagol , Almagol & Ajigol , Dorgeh Sangi , Shoorgol , Yadegarloo wetlands.
AND: Are there plans for further such designations? Yes
If No , why not?
If Yes , please elaborate. Prevent human disturbance and to eliminate luttural pressure and to increase conservation activities and wise use.
Proposed national actions and targets: Designation and introduce new sites which has any conservation construction.
Ministry, agency/department, or organization responsible for leading on this action: DOE

<p>6.2.5 Consider as a matter of priority the designation of transfrontier wetland sites. [CPs]</p> <ul style="list-style-type: none"> • The issue of transfrontier or shared wetlands is addressed in the <i>Guidelines for international cooperation under the Ramsar Convention</i> (COP7 Resolution VII.19)

<p>and the <i>Guidelines for integrating wetlands into river basin management (COP7 Resolution VII.18)</i>.</p> <ul style="list-style-type: none"> Global Target - By COP8, for there to be over 50 transfrontier wetland sites designated under the Convention.
For those CPs which ‘share’ wetlands with other CPs, have all suitable sites been designated under the Convention? Yes
If No , what has prevented this action being taken? [REDACTED]
If Yes , are there arrangements in place between the CPs sharing the wetland for the cooperative management of the site? No
If No , what has prevented such arrangements from being introduced? Holding conversation at regional level with the Afghanistan , Turkmenistan,Iraq , with share boundaries which are not as convention members ,we are also in conversation with Pakistan.
Proposed national actions and targets: To encourage all neighbouring countries to joint the convention and searching for an integrated management boundry wetlands , and developing collaboration with Pakistan for integrated manegement of Guater gulf.
Ministry, agency/department, or organization responsible for leading on this action: DOE

η η η

GENERAL OBJECTIVE 7

TO PROMOTE INTERNATIONAL COOPERATION AND MOBILIZE FINANCIAL ASSISTANCE FOR WETLAND CONSERVATION AND WISE USE IN COLLABORATION WITH OTHER CONVENTIONS AND AGENCIES, BOTH GOVERNMENTAL AND NON-GOVERNMENTAL

Operational Objective 7.1: To identify international and/or regional needs for managing shared wetlands and shared catchments, and develop and implement common approaches.

<p>Actions - Global and National Targets</p>
<p>7.1.1 Identify transfrontier wetlands of international importance (including those within shared catchment/river basins), and encourage preparation and implementation of joint plans for such sites, using a “catchment approach” (Recommendation 5.3). [CPs, Partners]</p> <p>Refer to 6.2.5 above.</p>
<p>7.1.2 Encourage twinning of transfrontier wetlands, and of other wetlands with similar characteristics, and use successful cases for illustrating the benefits of international cooperation. [CPs, Bureau, Partners]</p> <ul style="list-style-type: none"> Both the <i>Guidelines for international cooperation under the Ramsar Convention (COP7 Resolution VII.19)</i> and the <i>Convention’s Outreach Programme (COP7 Resolution VII.9)</i> promote site twinning as a mechanism for accelerating the flow

<p>of knowledge and assistance and promoting training opportunities.</p> <ul style="list-style-type: none"> • Global Target - By COP8 to have in place over 100 Ramsar site twinning arrangements. The Bureau will keep a record of which sites are twinned and make this available through the Convention's Web site.
Does your country have Ramsar sites twinned with those in other CPs? No
If No , what has prevented this from happening? Lack of information and guidelines that demonstrate the benefit of such twinning ,so that the organisations and institutions responsible for wetlands could consider it as a priority .
If Yes , please note how many such twinning arrangements are in place and indicate which sites are involved.
AND: Do these arrangements involve: <ul style="list-style-type: none"> • sharing of information resources? Yes/No • transfer of financial resources? Yes/No • exchanges of personnel? Yes/No • other activities? Please elaborate.
Proposed national actions and targets: Draw the attention of the authorities responsible for wetlands to the twining of wetlands,as an instument to promote wetlands at the international level and therefore to recieve and international support for the conservation of wetlands . pursuing the proposal of twining between the city of Kushiro,Japan,with the city of Ramsar,the birth place of the convention .
Ministry, agency/department, or organization responsible for leading on this action: DOE and MFA

Operational Objective 7.2: To strengthen and formalize linkages between Ramsar and other international and/or regional environmental conventions and agencies, so as to advance the achievement of shared goals and objectives relating to wetland species or issues.

Actions - Global and National Targets
<p>7.2.1 Participate in, or initiate, consultations with related conventions to foster information exchange and cooperation, and develop an agenda for potential joint actions. [SC, Bureau]</p> <ul style="list-style-type: none"> • Global Target - A Joint Work Plan between the Ramsar Convention and the Convention to Combat Desertification which encourages cooperative implementation of both at the international, national and local levels.
Refer also to 4.2.1. Does there exist a mechanism (such as an inter-ministry committee) at the national level with the charter of coordinating/integrating the implementation of international/regional conventions/treaties to which your country is a signatory? Yes
If No , what are the impediments to such a mechanism being introduced?

<p>If Yes, describe the mechanism and the conventions/treaties it is expected to consider. National Committee on Sustainable Development coordinate the programmes and informations of Ramsar convention and others Conventions such as biodiversity, Climate change . Also it is coordinated with some of international systems such as CITES and forest principles through the DOE of IRAN. Besides the ministry of Foreign Affair as the national focal point is responsible for all of conventions .</p>
<p>AND: Has the mechanism proven to be effective? Yes</p>
<p>If No, why not? </p>
<p>If Yes, please elaborate. Cosiderable increase of public awarenes about conservation and wise use of wetlands among both governmental and non-governmental of the society . Improvement of cooperation and collaboration among organisations and institutions responsible for wetlands . Drawing the attentions of legislators and policy makers to the vital importance of the environment . Increases the number of the laws and regulation protecting environment including wetlands . Enhance the amount of the funds allocated to the environment in the national budget . Promot and encourage the public contribution in particular the local communities to conserve wetlands .</p>
<p>Proposed national actions and targets: Strengthening the current mechanism particularly the Ramsar sub-committee</p>
<p>Ministry, agency/department, or organization responsible for leading on this action: DOE</p>

<p>7.2.2 Prepare project proposals together with other conventions and partner organizations, and submit them jointly to potential funding agencies. [CPs, SC, Bureau, Partners]</p>
<p>For eligible countries, have there been project proposals prepared and submitted to funding agencies which were intended to assist with implementation of the Ramsar Convention? Yes</p>
<p>If No, what has prevented this from happening? </p>
<p>If Yes, were such proposals successful in gaining funds? Yes - Gomishan Ramsar convention small grant projects , conservation of Iranian wetlands (Arjan-parishan, Miankaleh, Harra, Urumieh) with the support of GEF , Integrated management plans for Shadegan and Uromieh with the support of World Bank . ther is no balance between the payments by Islamic Rpublic of Iran to the united nation and also Ramsar convention Bureau and receiving donors .</p>
<p>Proposed national actions and targets: Extend cooperation with such international donors and organization by increaxing awareness of NGO and other organizations . Arrangement the subjec in the bilateral agenda scope of works of countries and donors organization.</p>

Ministry, agency/department, or organization responsible for leading on this action: **DOE, MFA and NPO**

7.2.3 Strengthen cooperation and synergy with the Convention on Biological Diversity, in particular as regards inclusion of wetland concerns in national biodiversity strategies, and planning and execution of projects affecting wetlands. [CPs, Bureau, Partners]

- **Global Target - To see the Joint Work Plan implemented in full and resulting in cooperative implementation of both Conventions at the international, national and local levels.**

Further to 7.2.1 above: Has there been a review **completed** of the Joint Work Plan between Ramsar and Convention on Biological Diversity (CBD) to establish the areas of priority for cooperative implementation of these Conventions? **No**

If **No**, what has prevented such a review being done? **Subject has been placed in priority for both commissions ,but due to shortage of time achievement to this was not possible.**

If **Yes**, what are the areas established as priorities for national cooperation between Ramsar and CBD implementing agencies/focal points?

Proposed national actions and targets: **Consider the objective and searching for internal and national priorities to link these conventions by both sub - committees.**

Ministry, agency/department, or organization responsible for leading on this action: **National committee on sustainable use.**

7.2.4 Develop cooperation with the World Heritage Convention and UNESCO's Programme on Man and the Biosphere (MAB), especially as regards wetlands designated as World Heritage sites, Biosphere Reserves and/or Ramsar sites. [CPs, Bureau, Partners]

- **Global Target - A Memorandum of Cooperation with the Man and the Biosphere Programme, leading to Joint Work Plans with the MAB Programme and with the World Heritage Convention which encourages cooperative implementation of both at the international, national and local, levels.**

Refer to 7.2.1 above.

7.2.5 Enhance Ramsar's contribution to international cooperation on shared wetland species, notably through cooperative arrangements with the Convention on Migratory Species, flyway agreements, networks and other mechanisms dealing with migratory species (Recommendation 6.4). [CPs, Bureau, Partners]

- **The Guidelines for international cooperation under the Ramsar Convention propose an increase in the joint efforts between Ramsar and CMS (COP7 Resolution VII.19)**
- **Global Target - A Joint Work Plan between the Conventions which encourages cooperative implementation of both at the international, regional and national and local levels.**

Refer to 7.2.1 above.

7.2.6 Develop Ramsar's contribution to wildlife trade issues affecting wetlands, through increased interaction with CITES. [Bureau]

- **The *Guidelines for international cooperation under the Ramsar Convention* propose an increase in the joint efforts between Ramsar and CITES (COP7 Resolution VII.19)**
- **Global Target - A Memorandum of Cooperation with CITES, leading to a Joint Work Plan between the Conventions which sees cooperative implementation of both at the international, national and local levels.**

Refer to 7.2.1 above

7.2.7 Initiate links with the United Nations Framework Convention on Climate Change, in view of the potential impacts on wetlands of climate change. [CP, Bureau]

- **Global Target - A Memorandum of Cooperation with UNFCCC, leading to a Joint Work Plan between the Conventions which encourages cooperative implementation of both at the international, national and local levels.**

Refer to 7.2.1 above.

7.2.8 Extend cooperation with conventions and agencies concerned with conservation and wise use of wetlands at regional level, and in particular: with the European Community, as regards application of its Habitats Directive to wetlands, and adoption and application of measures like the Habitats Directive for wetlands outside the states of the European Union; with the Council of Europe (Bern) Convention on the conservation of European wildlife and natural habitats as regards the Pan-European Biological and Landscape Diversity Strategy; with the Barcelona Convention and Mediterranean Action Plan in relation to the MedWet initiative; with the Western Hemisphere Convention; with UNEP programmes, in particular the Regional Seas Conventions; and with the South Pacific Regional Environment Programme (SPREP). [CPs, Bureau]

- **Global Target - With the European Commission and SPREP, develop and sign a Memorandum of Cooperation and prepare and implement a Joint Work Plan. For Medwet, secure the long-term funding base for this important initiative and continue to develop new programmes of regional action. For the others referred to, and others which are appropriate, develop an appropriate working relationship.**

Refer to 7.2.1 above.

7.2.9 Develop relationships with other specialized agencies that deal with wetland-related issues, such as the International Coral Reef Initiative (ICRI) and the World Water Council (COP7 Resolution VI.23). [Bureau]

- **Global Target - To progress to closer working relations with these and other relevant initiatives, as appropriate.**

Refer to 7.2.1 above.

Operational Objective 7.3: To ensure that the development assistance community, and multinational corporations, follow improved wetland practices such as the Wise Use Guidelines in developing countries and countries whose economies are in transition.

Actions - Global and National Targets

7.3.2 Work with multilateral and bilateral development agencies and multinational corporations towards a full recognition of wetland values and functions (Recommendation 4.13), and assist them to improve their practices in favor of wetland conservation and wise use taking account of the *Guidelines for Aid Agencies for Improved Conservation and Sustainable Use of Tropical and Sub-Tropical Wetlands*, published by OECD's Development Assistance Committee (Recommendation 6.16). [Bureau, Partners]

- **Global Target - At the Bureau level, to consider ways and means to increase its ability to work more systematically in this area, so as to increase the level of donor agency support for wetland conservation and wise use activities, and to see an increasing number of multinational corporations adopting voluntary codes of conduct for protecting wetlands.**

While this action is directed at the Bureau principally, CPs also have a role to play in this area; refer to 7.4.2 below with respect to bilateral development agencies. For the multilateral donors: Is your government represented on the governing bodies or scientific advisory bodies of the multilateral donors, or the GEF? **Yes**

If **Yes**, has this person/agency/ministry been briefed on the obligations of your country under the Ramsar Convention, and the relevant expectations raised of each CP by the Strategic Plan and COP decisions? **Yes**

7.3.3 Interact with multilateral development agencies and through bilateral development programmes, to assist developing countries in meeting their Ramsar obligations, and report on actions taken and results achieved (Recommendation 5.5). [CPs]

Refer to 7.4.2 to 7.4.6 below.

Proposed national actions and targets: **Ministry of foreign affair , DOE and other related organization considering and searching for bilattoral and multilatoral donors in the development assistance formation.**

Ministry, agency/department, or organization responsible for leading on this action: **MFA,DOE,MPO.**

Operational Objective 7.4: To obtain funds to fulfil obligations contracted under the Convention, notably for developing countries and countries whose economies are in transition.

Actions - Global and National Targets
7.4.1 Allocate funds for conservation and wise use of wetlands in the budget of each Contracting Party. [CPs]
<ul style="list-style-type: none"> • Global Target - By COP8, to see allocations for wetlands made by all CPs and also for specific wetland programmes in more than 40 CPs.
Does your government allocate funds for wetland conservation and wise use activities? Yes
If No , what are the impediments to this happening? [REDACTED]
If Yes , is this: <ul style="list-style-type: none"> • As a separate allocation to a Wetlands Programme (or similar)? Yes • As part of a broader allocation for the environment? Yes • As part of the programmes maintained by a range of Ministries? Yes
AND: What mechanisms are in place for determining priorities and coordinating the expenditure of these funds? Doe,with respect to the ramsar convention sites priorities ,proposed to the Management and Planning Organnization to confirm budget for social economic impact, ecological changes especially drought and biodiversity of the wetlands.
Is it linked to a National Wetland Policy, Biodiversity Plan, Catchment Plan or something similar? Yes Policies and national strategy and plans implementation reserarchs have been started by the national sustainable development implementation committe but has not completed.
Proposed national actions and targets: Mobilize increasing the national budget of wetlands by the support of legislation, identify other sources of income such as Ecotourism to support conservation of wetlands , private organization support on funding.
Ministry, agency/department, or organization responsible for leading on this action: DOE,MFA,MPO.
7.4.2 Include projects for conservation and wise use of wetlands in development plans funded by development assistance agencies, and ensure the latter consult the Ramsar administrative authority in each Contracting Party. [CPs]
<ul style="list-style-type: none"> • Global Target - To see this trend continue such that all eligible CPs are receiving donor support for a range of major wetland-related projects by the time of COP8. In particular, to see this support being provided, as appropriate, for the priority areas of policy development, legal and institutional reviews, inventory and assessments, the designation and management of Ramsar sites, training and communications.
If your country has a bilateral development assistance programme, does it allocate funds for wetland-related projects on a regular basis? No
If No , what are the impediments to this occurring? [REDACTED]

If Yes , are these projects subjected to rigorous impact assessment procedures, which take account of the full environmental, social and economic values of wetlands? Yes/No
If No , why not? [REDACTED]
If Yes , is the Ramsar Administrative Authority consulted during the screening and assessment phases of the projects? Yes/No
If No , why not? [REDACTED]
AND: Is there a formal consultative process in place (such as a National Ramsar Committee) which ensures that the development assistance agency is fully aware of the Ramsar Convention obligations of the country with respect to international cooperation? Yes/No
If No , why not? [REDACTED]
If Yes , please elaborate. [REDACTED]
Proposed national actions and targets: [REDACTED]
Ministry, agency/department, or organization responsible for leading on this action: [REDACTED]

7.4.4 Mobilize direct funding support from multilateral and bilateral development assistance agencies to assist developing countries and countries whose economy is in transition, in the conservation and wise use of wetlands and in implementation of the present Strategic Plan. [CPs. Bureau]

- **Global Target - By COP8 for all the bilateral donors from appropriate CPs to have funds earmarked for wetland projects, and for all of these CPs to have in place mechanisms for consultation between the development assistance agency and their Ramsar Administrative Authority.**

Refer to 7.4.2 above

η η η

**GENERAL OBJECTIVE 8
TO PROVIDE THE CONVENTION WITH THE REQUIRED INSTITUTIONAL
MECHANISMS AND RESOURCES**

Operational Objective 8.1: To maximize achievement of Ramsar’s mission and objectives by evaluating and, if necessary, modifying the Convention’s institutions and management structures.

Actions - Global and National Targets

8.1.9 Promote the establishment of National Ramsar Committees to provide the opportunity for input from, and representation of, governmental and non-governmental organizations, key stakeholders, indigenous people, the private sector and interest groups, and land use planning and management authorities (Recommendation 5.13).

[CPs, Bureau, Partners]
Refer to 4.1.2.
8.1.10 Review the designated national focal point in each Contracting Party, with a view to increasing involvement in the work of the Convention from all agencies concerned with the conservation and wise use of wetlands. [CPs]
Refer to 4.1.1

Operational Objective 8.2: To provide the financial resources required to carry out Ramsar activities.

Actions - Global and National Targets
8.2.1 Pay invoiced contributions to the Convention’s core budget in full, and promptly at the beginning of each calendar year. [CPs]
<ul style="list-style-type: none"> Global Target - During this triennium to achieve full and timely payment of all dues by all CPs. The SC to prepare a proposal on sanctions for non-payment for consideration at COP8 (COP7 Resolution VII.28).
Is your country completely up to date with its annual contributions to the core budget of the Convention? No
If No , what is the impediment to this being done? Existing bucreratic complexity in payment of dues
Proposed national actions and targets: Active effort for payment the yearly dues on time
Ministry, agency/department, or organization responsible for leading on this action: DOE

8.2.4 Give priority to funding for training programmes, education and public awareness work, development of the Ramsar Database, and the Convention’s Communications Strategy. [CPs, Bureau, Partners]
<ul style="list-style-type: none"> Global Target - To secure the resources needed to establish regional training initiatives (like <i>Wetlands for the Future</i>) in other regions, to allow the Bureau to progress the implementation of the Outreach Programme, and to support the proposed developments for the Ramsar Sites Database into a fully online and Web-based promotional and planning tool of the Convention.
Refer to 3.3.1 (Convention Outreach Programme), 4.2.4 (Wetlands for the Future).

Operational Objective 8.3: To maximize the benefits of working with partner organizations.

Actions - Global and National Targets
8.3.1 Strengthen cooperative planning mechanisms with the partners and improve

communications and information exchange, including exchange of staff. [CPs, Bureau, Partners]
Refer to 3.2.1 and 4.1.2. Does your country include representatives of the Convention's official International Organisation Partners (BirdLife International, IUCN, WWF, Wetlands International) on its National Ramsar Committees or similar bodies, where they exist? No
If No , what prevents this from occurring? Only the representative of DOE in Wetlands International is a member of National Ramsar Convention Sub-Committee.
Proposed national actions and targets: Serious activity to become as a partner of CMS & WWF.
Ministry, agency/department, or organization responsible for leading on this action: MFA.DOE.

Operational Objective 8.4: To secure at least one million US dollars per annum for the Ramsar Small Grants Fund for Wetlands Conservation and Wise Use (Resolutions 5.8 and VI.6) and to allocate these funds effectively.

Actions - Global and National Targets
8.4.1 Develop a strategy for securing at least one million US dollars annually for the Ramsar Small Grants Fund, to be approved by the first full meeting of the Standing Committee after the 6th COP (1996) and proceed immediately to its implementation. [Bureau, SC, CPs, Partners]
<ul style="list-style-type: none"> Global Target - To establish a mechanism to ensure one million US dollars annually for the Ramsar Small Grants Fund (COP7 Resolution VII.28).
Refer also to 8.2.4. For developed countries, do you provide additional voluntary contributions to support the Small Grants Fund? No
If No , what prevents this from happening? Due to expansion and a large number of existing wetlands and necessity for their conservation.
If Yes , is an irregular or regular voluntary contribution?
Proposed national actions and targets: Receiving the international supports to protect and wise use programme of the interior wetlands especially ramsar site nominated.
Ministry, agency/department, or organization responsible for leading on this action: DOE
