

**National Report Implementation of the Ramsar Convention in Albania,
and of the Ramsar Strategic Plan 1997-2002 in particular,
during the period since the National Report prepared in 1995
for Ramsar COP6 and 30 June 1998**

----- 0 -----

Contracting Party: **Albania**

Designated Ramsar Administrative Authority

Full name of the institution: **National Environmental Agency (NEA)**

Name and title of the head of the institution: **Dr. Maksim DELIANA
Chairman**

Mailing address for the head of the institution: **c/o Ministry of Health, Bul. "Bajram
Curri"
Tirana-ALBANIA**

Telephone: + **355 42 65229/30682** Fax: + **335 42 65229** Email: **maks@cep.tirana.al**

Name and title (if different) of the designated contact officer for Ramsar Convention matters:

**Zamir DEDEJ
Head of Natural Protection Directorate**

Mailing address (if different) for the designated contact officer:

Telephone: + **355 42 64904** Fax: Email: **zamir@cep.tirana.al**

Ramsar Strategic Plan - General Objective 1

To progress towards universal membership of the Convention.

- 1.1 Describe any actions your government has taken (such as hosting regional or subregional meetings/consultations, working cooperatively with neighbouring countries on transfrontier wetland sites) to encourage others to join the Convention.
- National wetlands seminar was organised in Tirana on February 02-04. The seminar had a broad audience of over 50 participants. The main objectives were to develop a new MedWet methodology on the social and economic aspects of Mediterranean wetlands, to record the situation in the five states of the region ...and assess the necessary interventions for their conservation, to test and apply the methodologies and tools developed by the first MedWet project at specific wetland sites in the five non-EU countries.**

Ramsar Strategic Plan - General Objective 2

To achieve the wise use of wetlands by implementing and further developing the Ramsar Wise Use Guidelines.

- 2.1 Has a National Wetland Policy/Strategy/Action Plan been developed, or is one being developed or planned for the near future? If so:
- There is not any Strategy or Action Plan developed. The Biodiversity Strategy/Action Plan (to be finalized in February) will include elements of strategy for the wetlands.**
- a. What are/will be its main features?
- b. Was it, or is it, intended that the Policy/Strategy/Action Plan be adopted by the whole of Government, the Minister responsible for Ramsar matters or through some other process. Please describe.
- c. How does it relate/will it relate to other national environmental/ conservation planning initiatives (e.g., National Environmental Action Plans, National Biodiversity Action Plans, National Conservation Strategies)?

- 2.2 If a policy is in place, how much progress has been made in its implementation, and what are the major difficulties being encountered in doing so?
- N/A**

- 2.3 If a Policy/Strategy/Action Plan is in place, is the responsibility for implementing it with :
- a. a single Government Ministry,
- b. a committee drawn from several Ministries, or
- c. a cross-sectoral committee?
- Please provide details.
- N/A**

2.4 For countries with Federal systems of Government, are there Wetland Policies/Strategies/Plans in place, being developed or planned for the provincial/state or regional levels of Government? Yes/No
N/A
If yes, please give details.

2.5 Has a review of legislation and practices which impact on wetlands been carried out, and if so, has this resulted in any changes which assist with implementation of the Ramsar Convention? Please describe these.
No

2.6 Describe the efforts made in your country to have wetlands considered in integrated land/water and coastal zone planning and management processes at the following levels:
a. national
b. provincial
c. local
In a national level the National Environmental Agency had finished the Coastal Zone Management study (including the wetlands), and the National Wetlands Seminar; in a local level the MedWet 2 study for the "Management of Kune-Vaini wetland" - Territorial planning and tourism.

2.7 Have there been any publications produced, or practices documented, which could assist other countries to promote and improve the application of the Ramsar Wise Use of Wetlands Guidelines?
Yes
If Yes, please provide details and copies.
The National wetland report, the "Conservation and wise use of wetlands in the Mediterranean basin - focus on the Kune-Vaini Lagoon"

2.8 Noting COP6 Recommendation 6.14 relating to toxic chemicals and pollution, please advise of the actions taken since then "to remedy and to prevent pollution impacts affecting Ramsar sites and other wetlands" (Operative paragraph 9).
N/A

2.9 Describe what steps have been taken to incorporate wetland economic valuation techniques into natural resource planning and assessment actions.
According to the in-country experience, during the MedWet 2 project has been developed and introduced a relatively new methodology on socio-economic aspects of the wetland as a whole. Former experiences in this area did exist in the framework of a former project focusing in the Karavasta lagoon (Albanian Ramsar site).

2.10 Is Environmental Impact Assessment for actions potentially impacting on wetlands required under legislation in your country?
Yes. Under the Albanian legislation the EIA is requested in general for every activity.

2.11 Is wetland restoration and rehabilitation considered a priority in your country?
Yes.
If Yes, describe the actions that have been taken to identify wetlands in need of these actions and to mobilise resources for restoration or rehabilitation.
The MedWet 2 project is the main attempt for the last two years period.

2.12 Describe what actions have been taken to “encourage active and informed participation of local communities, including indigenous people, and in particular women, in the conservation and wise use of wetlands.” (refer to Actions 2.7.1-4 in the Strategic Plan).

During the duration of the MedWet 2 project it was prepared a 30 minutes movie aiming at promotion of the natural and historical values of the Kune-Vaini wetlands and the surrounding environment. One of the most active NGO based in Tirana with several local branches was responsible for the preparation of a leaflet in Albanian and English which was distributed in Tirana and in the local community of Lezha. The local branch of the Tirana based NGO “Ecological Club” was involved together with the middle school pupils in distribution of posters and leaflets in Lezha.

2.13 Describe what actions have been taken to “encourage involvement of the private sector in the conservation and wise use of wetlands” (refer to Actions 2.8.1-4 in the Strategic Plan). Has this included a review of fiscal measures (taxation arrangements, etc.) to identify and remove disincentives and introduce incentives for wetlands conservation and wise use?

No

If yes, please provide details.

Ramsar Strategic Plan - General Objective 3

To raise awareness of wetland values and functions throughout the world and at all levels

3.1 Is there a government-run national programme for Education and Public Awareness in your country which focuses on, or includes, wetlands?

No.

If yes, what are the priority actions under this programme and who are the target groups? (Refer also to question 9.4)

3.2 Describe the steps taken to have wetlands issues and Ramsar’s Wise Use principles included as part of the curricula of educational institutions. Has this been at all levels of education (primary, secondary, tertiary and adult)? Please give details.

No.

Ramsar Strategic Plan - General Objective 4

To reinforce the capacity of institutions in each Contracting Party to achieve conservation and wise use of wetlands.

4.1 Describe the mechanisms in place, or being introduced, to increase cooperation between the various institutions responsible for actions which can have an impact on the conservation and wise use of wetlands. If one of the mechanisms is a National Ramsar/Wetlands Committee, please describe its composition, functions and *modus operandi*.

There is no committee of this nature.

4.2 Of the following, indicate which have been undertaken:

a. a review to identify the training needs of institutions and individuals concerned with the conservation and wise use of wetlands

No

If yes, please indicate the major findings of the review.

b. a review to identify training opportunities for these people both within your country and in other countries.

No

c. the development of training modules or a training programme specifically for wetland managers.

No

If yes, please give details.

d. people from your country have gained wetland-related training either within or outside the country.

No

If yes, please give details.

Ramsar Strategic Plan - General Objective 5

To ensure the conservation of all sites included in the List of Wetlands of International Importance (Ramsar List).

5.1 Of the Ramsar sites in your country, how many have formal management plans:

a. being prepared?

b. fully prepared?

c. being implemented?

One, fully prepared.

Please indicate in the attached table of Ramsar sites which sites these are and what category they fall into.

5.2 Of the management plans referred to above, which ones have included a monitoring scheme or programme to allow changes in ecological character to be detected?

Yes

Please indicate this in the attached table of Ramsar sites also.

5.3 Has there been a change in the ecological character (either positive or negative) at any of your Ramsar sites or is this likely to occur in the near future?

Yes

If Yes, please give details.

After the illegal construction near the beach and uncontrolled fishing, we hope to implement the management plan in the near future to stabilize the ecological parameters.

5.4 In the case of Montreux Record Ramsar sites where the Management Guidance Procedure has been applied, what is the status of the implementation of the MGP report recommendations? What is the expected time-frame for removing the site from the Montreux Record?
N/A

5.5 For those countries referred to in COP6 Recommendations 6.17.1-4, “Ramsar sites in the Territories of Specific Contracting Parties”, please provide advice on the actions that have been taken in response to the issues raised at that time.
N/A

Ramsar Strategic Plan - General Objective 6
To designate for the Ramsar List those wetlands which meet the Convention’s criteria, especially wetland types still under-represented in the List and transfrontier wetlands.

6.1 Has a national inventory of wetlands been prepared for your country?
No.

If no, are there plans for this to be done?
Yes.

Where a national inventory exists please provide details of when it was finalised, where it is kept and what information it contains.

6.2 Does there exist a list or directory of “important” wetlands for your country or region?
Yes.

If yes, please provide details of when it was finalised, where it is kept, what criteria for “important” were used, and the types of information it contains.
The national wetlands review was finalised in the beginning of 1998 and was prepared by the specialist of NEA. The materials give a background information on the major wetlands of the country. The describe structure for each wetland is: 1. Location and characteristics; 2. Wetland classification; 3. Administration; 4. Climate; 5. Geology geomorphology; 6. Hydrology; 7. Wetland and terrestrial Environment; 8. Human activities.

6.3 If it is known, please provide an estimate of the area of wetlands in your country at present and any information on rates of loss or conversion to other activities.
About 150 km².

If this information is available, please indicate what definition of “wetland” was used.
Wetlands are the ecosystem better represented in the Albania coast. Typical of low laying alluvial shores these ecosystem are found from North to South forming a continuous chain of very useful habitats. Most of them are described as salt pans.

6.4 Have any actions been taken in response to the COP6 Resolutions and Recommendations that Contracting Parties should give priority to listing Wetlands of International Importance which:

- a. meet the criteria for fish habitat (Resolution VI.2),
- b. meet the 1% criterion for waterbird populations using data provided by the International Waterfowl Census (Resolution VI.4),

- c. are subterranean karst or cave wetland systems (Resolution VI.5),
- d. are peatland ecosystems (Recommendation 6.1)
- e. are coral reefs and associated systems (Recommendation 6.7)
- f. are under-represented wetland types (which apart from d. and e. above include mangroves and sea grass beds) (Strategic Plan Action 6.2.3)

No

If yes, please describe these actions.

6.5 If your government indicated at COP6 that it would be proceeding to list further specific sites, please advise of the status of this action.

N/A

6.6 Please advise which of the sites included in the Ramsar List from your country are transfrontier wetlands (Refer also to 7.1).

N/A

6.7 Describe any plans, or actions being taken for further transfrontier sites to be listed (Refer also to 7.1).

N/A

Ramsar Strategic Plan - General Objective 7

To mobilise international cooperation and financial assistance for wetland conservation and wise use in collaboration with other conventions and agencies, both governmental and non-governmental.

7.1 Briefly describe any bilateral or multilateral activities that have been taken, are under way, or are planned for the management of transfrontier wetlands or their watersheds/catchments (Refer also to 6.6 and 6.7).

N/A

7.2 Do you have Ramsar sites that are "twinned" with others, either nationally or internationally?

No.

If yes, please give details.

7.3 Where your country is also a signatory of any of the following Conventions, describe what mechanism(s) exist to assist regular dialogue and cooperative actions between the personnel responsible for their implementation and the Ramsar Administrative Authority:

- a. Convention on Biological Diversity
- b. Framework Convention on Climate Change
- c. Convention to Combat Desertification
- d. Convention on Migratory Species
- e. World Heritage Convention

Albania ratify the Convention on Biological Diversity and is a signatory of the next three conventions. Exist a very good collaboration between the personnel responsible for their implementation and the Ramsar Administrative Authority, as we are part of the same institution, the National Environmental Agency.

7.4 Is your country cooperating as part of any bilateral or multilateral activities directed at the conservation of migratory wetland species?

Yes. Only as a part of the Bonn Convention.

If yes, please provide details.

7.5 Are there multilateral and/or bilateral donors supporting projects which contribute to implementation of the Ramsar Convention in your country?

Yes.

If yes, please provide details.

The Phare Program contributes on the study and management plan of the Karavasta Lagoon (Ramsar site). The Life Program financed the MedWet 2 project. We are waiting from GEF to support the MedWet 3 Project.

7.6 Does your government make an annual budgetary allocation to support the conservation and wise use of wetlands within your country?

No.

If yes, is this a specific allocation to a wetlands programme or as part of a larger environment or natural resource management budget?

7.7 If your country has a development assistance programme, does it include funds earmarked for wetland conservation and wise use in other countries?

No.

If yes, please give details.

7.8 Is there a formal process in place for consultation between the Ramsar Administrative Authority and the development assistance programme in your country, where one exists?

No.

If yes, what is that process.

Ramsar Strategic Plan - General Objective 8

To provide the Convention with the required institutional mechanisms and resources.

8.1 Has your government made voluntary financial contributions, other than the invoiced contributions or to the Small Grants Fund, to further the work of the Convention globally?

No.

If yes, please provide details.

8.2 If your country is in arrears with the payment of its annual contributions to the Ramsar Convention, please indicate the reasons for this situation and the prospects for paying these arrears in the near future.

N/A

Optional section - Participation of non-government organizations in the implementation of the Convention

These are **optional** questions relating to cooperation with and involvement of non-government organizations in the implementation of the Convention.

At COP6 some 42 NGOs made the “Brisbane NGO pledge of support for the Ramsar Convention”. The Standing Committee agreed that for COP7 there should be an effort made to gauge the level and type of cooperation which is occurring between government Administrative Authorities and the national and international NGOs with an interest in wetlands issues.

In this **optional** section of the National Report, you are asked to describe the nature of the cooperation and relationship with any other international, regional, national and provincial NGOs operating within your country.

9.1 Approximately how many NGOs have wetlands as part of their regular “business” in your country?

Is only one which deal with wetlands issues, but there are also several environmental NGOs whose activities focused on nature conservation problems on wetlands.

Please break this down between international, regional and national/provincial organizations.

They are all national organizations.

9.2 Is there a regular forum or mechanism through which these NGOs express their views on wetland conservation and Ramsar implementation:

a. to each other? **No**

b. to the government? **No**

If yes in either case, please give details.

9.3 Does your government include one or more NGO representatives on its official delegation to Ramsar COPs?

No, due to the financial problems.

9.4 Do any of the NGOs run programmes aimed at Education and Public Awareness about wetlands in your country?

Yes.

If yes, please give details (Refer also to question 3.1).

The Preservation and Protection of Natural Environment Assocacion undertook a project raising the awareness of the fisherman and the school children about the value of the Karavasta Lagoon.

9.5 Where they exist, do Ramsar site management advisory committees include NGO representatives? If yes, please give details

N/A

9.6 Describe the themes of the Convention (refer to General Objectives 1-8 of the Strategic Plan) where you perceive the national/provincial NGOs to be most active.

1. To raise awareness of wetland values and functions at all levels.

2. To mobilize international cooperation and financial assistance for wetland conservation.

3. To ensure the conservation of all sites included in the List of Wetlands of International Importance

Final comments:

10.1 General comments on implementation of the Ramsar Strategic Plan.

10.2 Observations concerning the functioning of, relations with, and services provided by:

- a. The Ramsar Standing Committee
- b. The Ramsar Scientific and Technical Review Panel
- c. The Ramsar Bureau
- d. The Ramsar NGO partners

10.3 Any other general observations and/or recommendations for the future.
