Nagao Wetland Fund (NWF)

Section A

Operational Guidelines for the Nagao Wetland Fund

Contents

I. Introduction

II. Eligibility to apply

III. Types of assistance available

IV. Funds available for annual allocation

V. The NWF project cycle

VI. Reporting to donors

Annex I. Project cycle

I. Introduction

1. The Nagao Wetland Fund was established by a Memorandum of Understanding between the Nagao Natural Environment Foundation (NEF) and the Secretariat of the Convention on Wetlands (the Secretariat), as a mechanism to support developing countries in the Asia-Oceania region to implement the Convention and its Strategic Plan 2016-2024.
2. The NWF is intended for small-scale projects and does not replace the need for most developing countries and countries in transition to have access to much more substantial levels of funding in order to ensure the conservation and sustainable use of their wetland resources. The NWF offers a maximum of 18,000 USD per project (per country per year) and is intended to play a catalytic role.

II. Eligibility to apply

3. The NWF is open to countries which the NEF is supporting (please refer to Section 3 “Target Countries and regions” on the [link](#)) and Contracting Parties in Central and West Asia included in the DAC List available [here](#)). Countries that are not yet Contracting Parties to the Convention of Wetlands, but have clear signaled their intention to access, may apply for grants from the NWF to support activities necessary for the accession process. It should be noted that if resources in the NWF are scarce, such assistance might receive a lower priority than assistance to Contracting Parties.

4. *Important Note*

Projects will be cancelled if they have not been successfully completed within two years of the date of the signing of the project contract.

III. Types of assistance available under the NWF

5. Projects should be identified as a national priority by the Contracting Party in implementation of the Convention's Strategic Plan 2016-2024.

Implementation of the Strategic Plan 2016-2024

6. The Strategic Plan 2016-2024, adopted by the Conference of the Contracting Parties to the Convention on Wetlands (COP12) (July 2015 as Res XII.02) is available [here](#) or in hard copy upon request.
7. A Contracting Party, when considering submitting a project to the NWF for funding, should consider how the project fits in with its national planning for the implementation of the Convention, and in particular which Target(s) in the Strategic Plan 2016-2024 the project will address, and indicate this in its project proposal.
8. The maximum amount to be requested from the NWF for each project should not exceed USD 18,000 per country and per year. Since resources in the Fund are limited, Parties are strongly encouraged to make a pre-selection of the most significant project that they would like to seek funding for and to submit to the Secretariat only **one project proposal per year**.

IV. Funds available for annual allocation

10. The NWF is administered by the Secretariat under the supervision of the NEF, pursuant to the Terms of Reference for the Financial Administration of the Convention.

V. NWF project cycle

11. The project cycle during the year 2017-2021 is attached in Annex I.

Notification

12. Each year, the Secretariat will send an e-mail to the Administrative Authorities of the Convention in the Asia-Oceania region to invite them to submit a project proposal to the NWF, indicating the deadline for submission and specifying that the Operational Guidelines and its attachments are available from the Asia-Oceania Team within the Secretariat.

Formulation of project proposals

13. All project proposals MUST be submitted using the form attached to these Operational Guidelines. This "Request for Funding Form" (see Section B) contains both the detailed project proposal and Project Summary Form, which should be endorsed by the Administrative Authority of the Convention in the country.
14. It should be noted that:

- Projects are expected to be implemented within one-year.
- Countries are unlikely to be awarded more than one project in any year. Thus, the Administrative Authorities of the Convention of the eligible Contracting Parties are encouraged to make a pre-selection of potential projects and submit to the Secretariat only the one considered to be the top priority for advancing the implementation of the Convention in the country.

Advisory service of the Secretariat of Convention on Wetlands

15. The Secretariat offers an advisory service to those developing proposals that wish to seek guidance. In order to do this, project developers are invited to submit draft project proposals to the Secretariat before March 10 of each year, at the latest. In 2021, please refer to the Project cycle details during the year 2021 (pg8).

Submission of project proposals

16. ALL projects must be endorsed by the head of the Administrative Authority of the Convention in the country concerned. Formal submission of projects must be made by the deadline established in Annex I.

Assessment of projects

17. The Secretariat makes a technical and feasibility assessment of all project proposals received using the Project Proposal Assessment Form (see Section D).
18. ***Important Note.*** Prospective project developers are urged to consider the enclosed Project Proposal Assessment Form (see Section D).

Approval of projects

19. Approval of the successful project is made by a selection committee made up by two members of the Asia-Oceania Team with the Secretariat, and two members from the NEF.

Project contract and transfer of funds

20. Upon selection of a proposal, the Secretariat prepares the contract with the recipient agency, which can be the Administrative Authority of the Convention or a different beneficiary (and in that case sends a copy to the Administrative Authority of the Convention). The contract duly signed by the recipient agency must be returned to the Secretariat within three months; otherwise the selection will be automatically canceled

The contract will be valid for the period of 24 months since the Administrative Authority has been informed in written about the successful selection.

21. This contract is governed by Swiss law.

22. Recipients receive an initial payment of 60% upon receipt by the Secretariat of the contract duly signed and receiving the first invoice. Progress reports should be submitted nine months following the receipt of initial payment. The 40% balance of the funds is retained pending the submission of an acceptable Final Report (see Section F) and the second and final invoice, which should include a statement of expenditure for the funds provided, but no later than two years after the signature of the Agreement)
23. The Secretariat, in agreement with the Administrative Authority of the Convention in the recipient country, shall be allowed to visit, with financial support by the NEF, the project site and/or the project implementing agency or agencies, and/or to designate one of its partners or collaborators to do so on its behalf, in order to have a first-hand appraisal of the progress made during implementation and/or to provide advice on how best to complete the project.

Progress Report and Final Report

24. Each recipient agency is required to provide a Progress Technical and Financial Report on the implementation of NWF-funded projects nine months after receipt of the first payment and a Final Report up to six months after completion of the project. The standard forms for both the Progress and Final Reports are attached (see Sections E and F). Both Progress and Final Reports MUST be submitted with the endorsement of the Administrative Authority of the Convention in the recipient country.
25. ***Important Note.*** To assist the Secretariat with its evaluation and reporting to donors, the Final Report should include copies of any materials produced under the project. Published materials should be submitted with the final report in both hard and electronic copy (for example, PDF), with suitable photographs illustrating the activities undertaken. Materials produced with NWF funding should acknowledge the origin of the funds.
26. Final reports are also requested in electronic as well as hard copy format.
27. The person responsible for executing the project is encouraged to maintain regular contact with the Senior Regional Advisor for Asia-Oceania and Assistant Advisor in the Secretariat and the designated focal point in the Administrative Authority of the Convention in the recipient country. The Secretariat and the Administrative Authority of the Convention should be informed as soon as possible if the project leader were to change during the course of the project. The new project leader should be given all the project details so that he/she can continue the project effectively.

VI. Reporting to NEF

28. The Secretariat provides to NEF a Progress Report and/or Final Report received from the beneficiaries.

Section B.2

Structure and contents of Detailed Project Proposal

Notes:

- i) Please follow the section headings and sequence and the guidance for what to include in each section.
- ii) Please use a maximum of **five (5) pages** (A4 size paper) to provide detailed information on your proposal, following the headings and instructions given below. Please do not use margins of less than 1.5 cm, and do not use letters smaller than 10-point font size.

Details of proposal

A. Background and justification

Background information should provide basic factual and descriptive information to put the problem(s) in its local, provincial, national, or regional context, including relevant sectoral information, government objectives, policies, plans, and ongoing programmes. The amount of background information presented should be limited to what is essential to understand the current circumstances. Describe briefly the human population living in the project area and, if the project will be carried out at a certain location, the site should be described and ideally a map should be attached to show the location.

B. The problem(s) to be addressed

In this section identify the problem(s) that can usefully be addressed by this project and covered by the objectives described in Section C. Determine the underlying causes of the problem(s) and the aspects that can be addressed by this proposal with NWF support.

C. Objective(s)

General Objective(s):

Please study the Convention Strategic Plan 2016-2024 available [here](#) and indicate the issues that are being addressed in this project, and to which Goals and Targets of the Plan they relate.

Specific Objective(s):

The objective states the results to be achieved by the project. These results should address and solve the problems and issues identified in Section B. Objective statements should define the intended results that should have been achieved by the end of the project. For clarity and ease of understanding, objectives should be written in standard grammatical patterns and phrases, e.g.,

...to develop the management and governance of a wetland..., ...to achieve the wise use of..., ...to raise awareness of wetland values..., ...to reinforce the capacity of institutions to..., ...to identify the wetlands..., etc.

D. Outputs

Outputs are results or products of the project to achieve an objective. Several outputs may be necessary to enable the achievement of an objective. The vocabulary used should describe the finished products or a completed result, e.g., “a management plan”, “a feasibility study”, “trained personnel”.

E. Activities

Explain all the activities that will be undertaken to produce each output. Explanation of the activities should be detailed and analytical so that at the end of this section the methodology of the project is clear. The vocabulary used should describe actions that will be taken, e.g., “conduct training”, “consultation with ministries”, “organize seminars”. A full description of how these activities will be carried out should be provided, including details such as, for example, the person and organization executing the activity, sampling or monitoring methodologies, types of materials to be produced, number of publications to be printed, number of people attending workshop, cost of food and accommodation, etc. Following Resolution XIII.18 Gender and Wetlands (Dubai, 2018), proposed activities are encouraged to be a balanced gender representation, such as workshops and trainings.

F. Logical frame of the project

Use the table below to summarize the activities undertaken to produce each output and to reach each objective. This table should be consistent with the paragraphs B, C, D and E above. It will be used to assess the project’s progress.

Problems	Objectives	Outputs	Activities
<i>Example: Unsustainable use of the Ramsar Site due to overfishing</i>	<i>1. to develop the sustainable management and governance of the Ramsar Site</i>	<i>1. Management plan</i>	<i>1.1 Working group involving all stakeholders: the authorities in charge of the site, fishermen, etc. 3 meetings. 1. 2 Preparing the draft management plan 1. 3 Review of the draft management plan by the working group</i>

G. Project management arrangements and stakeholders

A plan or flow chart for management and implementation arrangements of the project should be prepared. This section should include information on the agency or body executing the project, describe institutional and technical capacities to undertake the work, and indicate the monitoring and evaluation procedures to ensure that the objectives are met. It should also include an identification of the stakeholders concerned by the project. If the implementing agency is not the Administrative Authority of the Convention, general information on the implementing agency should be provided, including details about its institutional and/or working relations with the Administrative Authority.

H. Work Plan

A schedule should be presented for production of all the outputs of the proposed project during the life of the project. This work plan should indicate the order in which activities will be undertaken so as to show the sequence and relationship between activities.

Outputs & Key Activities	Month											
	1	2	3	4	5	6	7	8	9	10	11	12
Output 1												
Activity 1:												
Activity 2:												
Output 2												
Activity 3:												
Activity 4:												

I. Budget

The NWF provides a maximum of US Dollars (USD) 18,000 per strategic project or activities to support projects submitted by non-Contracting Parties to assist with their accession.

Please provide the budget costs in **your local currency and converted to US Dollars (USD) – but NOT in any other currency**. Please distinguish between the amounts to be covered by the NWF grant and by counterpart funding (if any). If there is counterpart funding, please indicate whether the funds have been secured and, if so, from which organization these funds will come. Also, distinguish clearly between counterpart funds coming from, or proposed to come from, sources within and from outside the country.

In this section a detailed budget, consistent with the previous sections, in particular with the activities described, should be presented. All items (especially salary costs) for which support is requested from the NWF must be justified in the activity section. Please include unit costs (e.g., monthly salaries, number of copies and unit cost of publications, etc.) where appropriate. Present the budget for a one-year period: the NWF contribution should be spent during a one-year period, in line with the work plan provided.

In addition to the cash funds in the budget, please also provide additional information in this section of the project proposal about any additional “in-kind” contributions to the project (e.g., provision of office accommodation, provision of technical equipment, work time of personnel paid from other sources, etc.).

Use the format below for the project budget tables.
