

CONVENTION ON WETLANDS (Ramsar, Iran, 1971)
52nd Meeting of the Standing Committee
Gland, Switzerland, 13-17 June 2016

SC52-09 Rev.2

Costs of actions to be taken to implement COP12 Resolutions in the 2016-2018 triennium

Actions requested:

The Standing Committee is invited to take note of the estimated costs of the actions that need to be taken to implement each of the COP12 Resolutions, and to advise the Secretariat on sources of funding to support implementation of the Resolutions.

Background

1. In Decision SC48-20 the Standing Committee decided that an unfunded non-core budget would be required to support the implementation of the COP12 Resolutions over the triennium 2016-2018. A resource mobilization effort is required to achieve this budget and has been set up, under the guidance of the Working Group on Resource Mobilization already established by the 50th meeting of the Standing Committee (SC50).
2. Contracting Parties at COP12 set out an initial estimate for these non-core funds in Resolution XII.1 Annex 3, and specified a total amount of CHF 4.2m for non-core funding for priority projects over the triennium 2016-2018. Taking into account the actions detailed under all the Resolutions agreed by the Parties at COP12, a number of other actions have been identified by the Secretariat as not being reflected in the agreed budget for non-core funds in COP XII.1 Annex 3. This present document was therefore prepared to complement the non-core funding for priority projects already agreed, and to be in line with the workplans for the Secretariat as detailed in SC51-07.
3. The following costings indicate areas where further support would be needed to achieve the full implementation of the COP12 Resolutions, in line with the requirement of Rule 14 of the Rules of Procedure¹. The Secretariat notes that actions to comply with this Rule were not previously followed, and intends to include this in the preparations for COP13. This paper therefore reflects the requirement for the Secretariat to prepare details of the projected administrative and financial implications of all COP12 decisions after their approval in June 2015.

¹ See www.ramsar.org/sites/default/files/documents/library/ramsar_rules_of_procedure_e.pdf. **Rule 14 Secretariat's report on administrative and financial implications of agenda items:** The Secretariat shall report, within 24 hours of the opening of the meeting of the Conference of the Parties, on the projected administrative and financial implications of all substantive agenda items submitted to the meeting and before decisions on these items are taken by the Conference of the Parties.

Consideration of funds needed to implement all COP12 Resolutions over the triennium

4. All the COP12 Resolutions which require implementation involving non-core funds are listed in Annex 1, with an estimate of the funds required for each. These funds are listed as one of the following:
 - Non-core funds that are already budgeted for under Resolution XII.1 Annex 3 (“Budgeted non-core funds”)
 - Non-core funds that may be needed to support other implementation actions arising from the various COP12 Resolutions (“Additional non-core funds”)
5. The actions to be implemented and the funds needed against each COP12 Resolution are set out in more detail in Annex 2, referenced to the text of the relevant paragraphs from each of the Resolutions.
6. Annex 1 shows a total non-core funding requirement for the triennium of CHF 4,837,000, including budgeted non-core funds and additional non-core funds needed.
7. The new Partnership/Fundraising Coordinator will be tasked with developing new fundraising approaches and tools (as described in Resolution XII.1 paragraph 20).
8. Funds already raised as at June 2016 are set out in Doc.SC52-03 *Report on resource mobilization*.
9. If the resources mobilized over the triennium are below the amount of CHF 4,837,000 then it is possible that not all actions agreed at COP12 can be fully implemented.
10. The Standing Committee is asked to guide the Secretariat on further actions to be taken, and sources of funding to be approached for support in order to implement fully the COP12 Resolutions.
