

## Provisional working programme

The purpose of the 25th Meeting of the Scientific and Technical Review Panel (STRP) meeting is to welcome the new Panel and to develop a workplan for the 2023-2025 triennium, in consultation with the Secretariat, based on the five thematic work areas in [Annex 2 of Resolution XIV.14](#) and in alignment with the [Fourth Strategic Plan of the Convention](#) (2016-2024) and ongoing scientific work in other international processes, such as IPBES and the CBD, for approval of the Standing Committee at its 62nd Meeting.

### Expected outcomes

To develop a complete draft work plan by the end of the week based on the five thematic work areas in [Annex 2 of Resolution XIV.14](#), also taking into account Contracting Parties requests to the Panel in relevant [COP14 Resolutions](#).

As set out in [Resolution XII.5](#), the resulting STRP outputs, based on the work of the Panel, will be aimed at the following target audiences:

- Policy-makers, including those from the environment and water sectors and other related sectors such as energy, health and sanitation, agriculture, infrastructure; and
- Practitioners and in particular wetland managers and stakeholders, but also others from related fields, such as protected area managers and staff of wetland education centers.

(NB: Times shown are local times in Gland)
