

NATIONAL REPORT ON THE IMPLEMENTATION OF THE RAMSAR CONVENTION ON WETLANDS

**National Reports to be submitted to the 10th Meeting
of the Conference of the Contracting Parties,
Republic of Korea, 28 October – 4 November 2008**

Please submit the completed National Report, in electronic (Microsoft Word) format, and preferably by e-mail, to the Ramsar Secretariat by **31 March 2008**.

National Reports should be sent to: Alexia Dufour, Regional Affairs Officer, Ramsar Secretariat (dufour@ramsar.org)

Introduction & background

1. This Ramsar COP10 National Report Format (NRF) has been approved by the Standing Committee for the Ramsar Convention's Contracting Parties to complete as their national reporting to the 10th meeting of the Conference of the Contracting Parties of the Convention (Republic of Korea, October/November 2008).
2. Following Standing Committee discussions at its 35th meeting in February 2007, and its Decisions SC35-22, -23 and -24, this COP10 National Report Format has been significantly revised and simplified in comparison with the National Report Formats provided to previous recent COPs.
3. In particular this National Report Format provides a much smaller number (66) of implementation "indicator" questions, compared with the much larger suite of questions on all aspects of national implementation of the Convention's Strategic Plan 2003-2008 included in previous NRFs.
4. The COP10 NRF indicators include, with the agreement of the Standing Committee (Decision SC35-24), certain indicators specifically requested to be included by the Convention's Scientific & Technical Review Panel (STRP) and CEPA Oversight Panel, in order to facilitate their information gathering and reporting on key aspects of scientific, technical and CEPA implementation under the Convention.
5. The 66 indicator questions are grouped under each of the implementation "Strategies" approved by the Parties at COP9 (Resolution IX.8) in the Convention's "A Framework for the implementation of the Convention's Strategic Plan 2003-2008 in the 2006 -2008 period" (www.ramsar.org/res/key_res_ix_08_e.htm). The indicators have been selected so as to provide information on key aspects of the implementation of the Convention under each of its Strategies.
6. In addition, for each Strategy the option is provided for a Contracting Party, if it so wishes, to supply **additional information** concerning its implementation under each indicator and, more generally, on implementation of other aspects of each Strategy.

The purposes and uses of national reporting to the Conference of the Contracting Parties

7. National Reports from Contracting Parties are official documents of the Convention, and are made publicly available through their posting on the Convention's Web site.
8. There are six main purposes for the Convention's National Reports. These are to:
 - i) provide data and information on how the Convention is being implemented;
 - ii) capture lessons/experience, so as to allow Parties to develop future action;
 - iii) identify emerging issues and implementation challenges faced by Parties that may require further attention through Convention processes;
 - iv) provide a means for Parties to be accountable against their obligations under the Convention;
 - v) provide each Party with a tool to help it assess and monitor its progress in implementation, and plan for its future implementation and priorities; and
 - vi) provide an opportunity for Parties to draw attention to their achievements during the triennium.
9. In addition, the data and information provided by Parties in their COP10 National Reports now have another important purpose, since a number of the indicators in the National Reports on Parties' implementation will provide key sources of information for the analysis and assessment of the "ecological outcome-oriented indicators of effectiveness of the implementation of the Convention" currently being further developed by the Scientific and Technical Review Panel for Standing Committee and COP10 consideration.

10. To facilitate the analysis and onward use of the data and information provided by Contracting Parties in their National Reports, once received and verified by the Ramsar Secretariat all information is entered and held by the Secretariat in a database, which then facilitates extraction and analysis of the information for a number of purposes.
11. The Convention's National Reports are used in a number of ways. These include:
 - i) providing the basis for reporting by the Secretariat to each COP on the global and regional implementation, and progress in implementation, of the Convention. This is provided to Parties at COP as a series of Information Papers including:
 - the Report of the Secretary General on the implementation of the Convention at the global level (see, e.g., COP9 DOC 5);
 - the Report of the Secretary General pursuant to Article 8.2 (b), (c), and (d) concerning the List of Wetlands of International Importance (see, e.g., COP9 DOC 6); and
 - the reports providing regional overviews of the implementation of the Convention and its Strategic Plan in each Ramsar region (see, e.g., COP9 DOCs 10-13);
 - ii) providing information on specific implementation issues in support of the provision of advice and decisions by Parties at COP. Examples at CO9 included:
 - Resolution IX.15, *The status of sites in the Ramsar List of Wetlands of International Importance*, and
 - Information Papers on *Issues and scenarios concerning Ramsar sites or parts of sites which cease to meet or never met the Ramsar Criteria* (COP9 DOC 15) and *Implementation of the Convention's CEPA Programme for the period 2003-2005* (COP9 DOC 25);
 - iii) providing the source of time-series assessments of progress on specific aspects in the implementation of the Convention, included in other Convention products. An example is the summary of progress since COP3 (Regina, 1997) in the development of National Wetland Policies, included as Table 1 in Ramsar Wise Use Handbook 2 (3rd edition, 2007); and
 - iv) providing information for reporting to the Convention on Biological Diversity (CBD) on the national-level implementation of the CBD/Ramsar Joint Work Plan and the Ramsar Convention's lead implementation role for the CBD for wetlands.

The structure of the COP10 National Report Format

12. In line with Standing Committee Decisions SC35-21 and SC35-22, the COP10 National Report Format is in three sections.
13. **Section 1** provides the Institutional Information about the Administrative Authority and National Focal Points for the national implementation of the Convention.
14. **Section 2** is a "free-text" section in which to provide a summary of various aspects of national implementation progress and recommendations for the future.
15. **Section 3** provides the 66 implementation indicator questions, grouped under each Convention implementation strategy, and with a "free-text" section under each Strategy in which the Contracting Party may, if it wishes, add further information on national implementation of the Strategy and its indicators.

Guidance for filling in and submitting the COP10 National Report Format

IMPORTANT – READ THIS SECTION OF GUIDANCE BEFORE STARTING TO FILL IN THE NATIONAL REPORT FORMAT

16. All three Sections of the COP10 National Report Format should be filled in, in one of the Convention's official languages (English, French, Spanish).
17. The deadline for submission of the completed National Report Format is **31 March 2008**. It will not be possible to include information from National Reports received from Parties after that date in the analysis and reporting on Convention implementation to COP10.
18. All fields with a pale yellow background  must be filled in.
19. Fields with a pale green background  are free-text fields in which to provide additional information, if the Contracting Party so wishes. Although providing information in these fields in the COP10 NRF is optional, Contracting Parties are encouraged to provide such additional information wherever possible and relevant, since it is the experience of the Secretariat that such explanatory information is very valuable in ensuring a full understanding of implementation progress and activity, notably in informing the preparation of global and regional implementation reports to COP.
20. In order to assist Contracting Parties in their provision of such additional information, for a number of indicator questions some particularly helpful types of such information are suggested. However, of course, Parties are free to add any other relevant information they wish in any of the "Additional implementation information" fields.
21. The Format is created as a "Form" in Microsoft Word. You are only able to move to, and between, each of the yellow or green boxes to give your replies and information. All other parts of the form are locked.
22. To go to a yellow or green field you wish to fill in, move the cursor over the relevant part of the form, and left-click the mouse. The cursor will automatically move to the next field available.
23. To move down the sequence of fields to fill in, you can also use the "Tab" key on the computer keyboard.
24. For a "free-text" field, you can type in whatever information you wish. If you wish to amend any of the text you have put in a green or yellow "free-text" box, it is recommended that you cut-and-paste the existing text into a separate file, make the amendments, and then cut-and-paste the revised text back into the green box. This is because within the "Form" format there is limited facility to make editorial changes within the "free-text" box once text has been entered.
25. For each of the "Indicator questions" in Section 3, a drop-down menu of answer options is provided. These vary between indicators, depending on the question asked in the indicator, but are in general of the form: "Yes", "No", "Partly", "In progress", etc.
26. For each indicator question you can choose only one answer. If you wish to provide further information or clarifications concerning your answer, you can provide this in the green additional information box below the relevant indicator question.
27. To select an answer to an indicator question, use the Tab key, or move the cursor over the relevant yellow box, and left-click the mouse. The drop-down menu of answer options will appear. Left-click the mouse on the answer option you choose, and this will appear in the centre of the yellow box.

28. The NRF is not intended normally to be filled in by one person alone – for many indicators it would seem best for the principal compiler to consult with colleagues in the same and other agencies within the government who might have fuller knowledge of the Party's overall implementation of the Convention. The principal compiler can save the work at any point in the process and return to it subsequently to continue or to amend answers previously given.
29. After each session working on the NRF, remember to save the file! A recommended filename structure is: COP10NRF [Country] [date].
30. After the NRF has been completed, please send the completed National Report to the Ramsar Secretariat, preferably by email, to Alexia Dufour, Regional Affairs Officer, Ramsar Convention Secretariat, email: dufour@ramsar.org. The Secretariat must receive your completed National Report in electronic (Microsoft Word) format.
31. When the completed National Report is submitted by the Party, **it must be accompanied by a letter or e-mail message in the name of the Administrative Authority, confirming that this is that Contracting Party's official submission of its COP10 National Report.**
32. If you have any questions or problems concerning filling in the COP10 NRF, please contact the Ramsar Secretariat for advice (e-mail as above).

SECTION 1: INSTITUTIONAL INFORMATION

NAME OF CONTRACTING PARTY: KYRGYZ REPUBLIC	
DESIGNATED RAMSAR ADMINISTRATIVE AUTHORITY	
Name of Administrative Authority:	The State Agency on Environment and Forestry under the Government of the Kyrgyz Republic
Head of Administrative Authority - name and title:	Arstanbek Davletkeldiev - the director of the State Agency on Environment and Forestry under the Government of the Kyrgyz Republic
Mailing address:	Kyrgyz Republic, 720001, Bishkek, 228, Toktogul str.
Telephone/Fax:	tel/fax: (996 312) 564195
Email:	min-eco@elcat.kg
DESIGNATED NATIONAL FOCAL POINT (DAILY CONTACT IN THE ADMINISTRATIVE AUTHORITY) FOR RAMSAR CONVENTION MATTERS	
Name and title:	Kylychbek Jundubaev chief of the Protected Areas and Biodiversity Conservation Department
Mailing address:	720001, Bishkek, 228 Toktogula str.
Telephone/Fax:	tel/fax: (996 312) 564195
Email:	sheraly@mail.ru
DESIGNATED NATIONAL FOCAL POINT FOR MATTERS RELATING TO STRP (SCIENTIFIC AND TECHNICAL REVIEW PANEL)	
Name and title of focal point:	Askar Davletbakov - researcher
Name of organisation:	National Science Academy of Kyrgyz Republic
Mailing address:	Kyrgyz Republic, 720001, Bishkek, 228, Toktogul str.
Telephone/Fax:	tel/fax: (996 312) 564195
Email:	askar_davl@rambler.ru
DESIGNATED GOVERNMENT NATIONAL FOCAL POINT FOR MATTERS RELATING TO THE CEPA PROGRAMME ON COMMUNICATION, EDUCATION AND PUBLIC AWARENESS	
Name and title of focal point:	Ms. Nazgul Turdumatova - chief specialist
Name of organisation:	State Agency on Environment and Forestry under the Government of the Kyrgyz Republic
Mailing address:	720001, Bishkek, 228 Toktogula str.
Telephone/Fax:	tel/fax: (996 312) 564195
Email:	sheraly@mail.ru
DESIGNATED NON-GOVERNMENT NATIONAL FOCAL POINT FOR MATTERS RELATING TO THE CEPA PROGRAMME ON COMMUNICATION, EDUCATION AND PUBLIC AWARENESS	
Name and title:	(this information will be submitted later)
Name of organisation:	
Mailing address:	
Telephone/Fax:	
Email:	

SECTION 2: GENERAL SUMMARY OF NATIONAL IMPLEMENTATION PROGRESS AND CHALLENGES

In your country, in the past triennium (i.e., since COP9 reporting):

A. What new steps have been taken to implement the Convention?

- The responsibility for infringement of the nature protection legislation (the Law of a Kyrgyz Republic 'About fauna') is toughened;
 - The Concept of ecological safety of the Kyrgyz Republic, approved by the Government of a Kyrgyz Republic and confirmed by the Decree of the President of a Kyrgyz Republic from 23.11.2007r. No506 where necessary measures on a biodiversity protection are certain is developed and confirmed, including one of intermediate term measures 2010-2012 is an inventory of all high-mountainous wetlands of republic;
 - Inventory and specification of borders of national park Issyk-Kul, since 1976 included in Ramsar list. Final materials will be presented to Secretary of Ramsar convention;
 - Within the limits of Fund of Small Grants of Ramsar convention 'the Ecological estimation of lakes the Son-Kul and the Chatyr-Kul of Kyrgyz Republic for development of guidance on management and entering into Ramsar list', now there is it completion according to remarks of Secretary of Ramsar convention;
- The Chatyr-Kul lake from 25.07.2005r. No310 is given by the governmental order of a Kyrgyz Republic the status of international importance wetlands, and by the decision of Secretary of the convention is included in Ramsar list;
- By national agency of Ramsar convention - State Agency on Environment Protection and Forestry of the Kyrgyz Republic there was begin works on giving to lake the Son-Kul the status of international importance wetlands and entering into Ramsar list according recommendations of Secretary of the convention;
- Under the initiative of National Implementation Agency of the Ramsar convention - State Agency on Environment Protection and Forestry under Government of the Kyrgyz Republic from 10.01.2008r. No7 declares announces the moratorium on fish catching in lakes Issyk Kul and the Son-Kul that will create the certain preconditions on reduction of anthropogenous influence by a waterfowl and wetlands;
- The project of National Strategy of wetlands preservation which after the coordination with stakeholders will be approved confirmed by the Government of a Kyrgyz Republic is developed;
 - Close communication with special representatives the state bodies and official scientific body of the Ramsar convention - the National academy of sciences of a Kyrgyz Republic is adjusted
- Developed new project of the law Kyrgyz Republic 'About conservation biodiversities and protected area' where is stipulated protection places of dwelling of a waterfowl, creation of temporary reserved areas and the responsibility for infringements of nature protection legislations becomes tougher;
- It is developed and approved the Concept of ecological safety of a Kyrgyz Republic where necessary measures on a biodiversity protection are specified.
 - The draft variant of Strategy of preservation of wetlands is developed;
 - Close connection with the special representative the state authority and official scientific body of the National academy of sciences is adjusted

B. What have been the most successful aspects of implementation of the Convention?

Inventory and specification of borders of national park Issyk-Kul, since 1976 included in the Ramsar list;

- An ecological estimation of lakes the Son-Kul and the Chatyr-Kul of a Kyrgyz Republic for entering into Ramsar list;
- The Chatyr-Kul lake is given status of the international importance wetlands by the governmental order of a Kyrgyz Republic from 25.07.2005r No310, and by the decision of Secretary of the convention it is included in the Ramsar list;
- By national agency of the Ramsar convention - State Agency on Environment Protection and Forestry under Government of the Kyrgyz Republic started works on giving to lake the Son-Kul of status of the international importance wetlands and entering in the Ramsar list according to recommendations of Secretary of the convention;
- is developed the project of National Strategy of wetlands preservation that after the coordination with stakeholders will be approved by the Government of a Kyrgyz Republic;
- Close communication adjusted with special representatives the state bodies and official scientific body of the Ramsar convention - the National academy of sciences of a Kyrgyz Republic
- Inventory of a waterfowl is lead,
- To prepare the proposal for inclusion in the Wetlands List the international importance the Son-Kol lake.

C. What have been the greatest difficulties in implementing the Convention?

- Frequent reorganization of the Kyrgyz Republic executive power structure hence the national executive agency for the Convention;
- Limitation and lack of financial resources

D. What proposals and priorities are there for future implementation of the Convention?

- Inventory wetlands of republic;
- Specification of existing wetlands and definition of new wetlands;
- Inventory of fauna and flora of wetlands
- Inventory of fauna and flora of wetlands;
- Expansion of wetlands border
- Enhancing of cooperation with the international institutes, the organizations on National, regional and global levels on development of management plans issues, strategy and policy in questions of protection and use of wetlands in a view of Climate Global Change.

E. Does the Contracting Party have any recommendations concerning implementation assistance from the Ramsar Secretariat?

- Support in questions of increase of knowledge of the population is necessary;
- Strengthening potential of National executive agency for support of activity Issyk-Kul and Karata-Japyryk(the Chatyr-Kul and the Son-Kul) reserves is necessary

F. Does the Contracting Party have any recommendations concerning implementation assistance from the Convention's International Organisation Partners (IOPs)?

For the present time there is some recommendations and support on Convention realization only from Russian Wetland International representatives, NABU

G. How can national implementation of the Ramsar Convention be better linked with implementation of other multilateral environmental agreements (MEAs), especially those in the "Biodiversity cluster" (Ramsar, Convention on Biological Diversity (CBD),

Convention on Migratory Species (CMS), CITES, and World Heritage Convention), and UNCCD and UNFCCC?

Preservation of a waterfowl, wetlands protection of the republics are priority in questions of a biodiversity protection which is reflected in high mention Concepts of ecological safety of a Kyrgyz Republic;

- Noted interrelation with realization of other multilateral agreements in the field of an environment protection (a biodiversity, change of a climate, desertification and others) will be reflected by way of actions of National strategy after wetlands preservation, and the tool of interaction is - formation of Interdepartmental council from representatives of the interested ministries, departments, NGO

H. How can Ramsar Convention implementation be better linked with the implementation of water policy/strategy and other strategies in the country (e.g., sustainable development, energy, extractive industry, poverty reduction, sanitation, food security, biodiversity)?

A number of legislative and normative acts as well as some documents for nature management, poverty reduction, health protection and other which are directly and indirectly regulated the Kyrgyz Republic's efforts under the Ramsar Convention are adopted in the Kyrgyz Republic

- The constitution of the Kyrgyz Republic
- Strategy of the Country Development
- The Concept of Ecological Safety

Law KR 'About an environment protection-a preservation of the environment'

Law KP 'About especially protected natural territories '

Law KP 'About interstate use of water objects, water resources of water-economic constructions'

Law KP 'About water'

Law KP 'About potable water'

Law KP 'About sanitary-and-epidemiologic well-being of the population'

Law KP 'About radiating safety of population KP'

Law KR 'About bowels'

Law KR 'About a fish facilities'

Law KR 'About biospheric territories'

Law KR 'About protection and use of flora'

Law KR 'About local self-management and local state administration in KR'

Ground code KR

I. Does the Contracting Party have any other general comments on the implementation of the Convention?

We mark expediency of introduction of Russian, as one of languages of the United Nations in activity of the Convention. There is some problems in Convention Framework meetings where experts from the countries of the former USSR discussed Convention coordination issues .

SECTION 3: INDICATOR QUESTIONS & FURTHER IMPLEMENTATION INFORMATION

Guidance for filling in this section

1. For each “indicator question”, please select one answer from the “drop-down” list in the yellow box.
2. If you wish to add any additional information on either one or more of the specific indicators for each strategy, and/or for other aspects of the national implementation of this strategy, please provide this information in the green “free-text” boxes below the indicator questions for each Strategy.
3. If you wish to amend any of the text you have put in a green “free-text” box, it is recommended that you cut-and-paste the existing text into a separate file, make the amendments, and then cut-and-paste the revised text back into the green box.
4. So as to assist Contracting Parties in referring to relevant information they provided in their National Report to COP9, for each indicator below (where appropriate) a cross-reference is provided to the equivalent indicator(s) in the COP9 NRF, shown thus: {x.x.x}

GOAL 1. THE WISE USE OF WETLANDS

STRATEGY 1.1: *Describe, assess and monitor the extent and condition of wetland resources at relevant scales, in order to inform and underpin implementation of the Convention, in particular in the application of the wise use principle.*

Indicator questions:

1.1.1 Does your country have a comprehensive National Wetland Inventory? {1.1.1}	B - No
1.1.2 Is the wetland inventory data and information maintained and made accessible to all stakeholders? {1.1.3; 1.1.6}	A - Yes
1.1.3 Does your country have information about the status and trends of the ecological character of wetlands (Ramsar sites and/or wetlands generally)? {1.2.2} [if “Yes”, please indicate in Additional implementation information below, from where or from whom this information can be accessed]	A - Yes
1.1.4 If the answer is “Yes” in 1.1.3, does this information indicate that the need to address adverse change in the ecological character of wetlands is now greater, the same, or less than in the previous triennium, for: a) Ramsar sites b) wetlands generally	--- ---

Additional implementation information:

A): on Indicators 1.1.1 – 1.1.4 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “1.1.3: [.. additional information ...]”

1.1.2. Inventory of the large wetlands of the republics is carried out, the dates are available in National academy of sciences KP and State EPA and to a forestry at the Government of a Kyrgyz Republic

B): on any other aspects of Strategy 1.1 national implementation:

1.1.3.

The wetlands of the Kyrgyzstan are presented by the rivers, lakes, bogs and artificial reservoirs.

The largest lakes Issyk Kul, Son-Kul and Chatyr-Kul and more than 100 small lakes. The total area of lakes exceeds 66750 km². As a rule lakes are located at height more than 2000 m above sea level

The rivers of Kyrgyzstan are presented basically by mountain type water streams and only with an exit in valleys get plain character.

In Kyrgyzstan there are totaled about 3 thousand natural water-currents belongs to basin of lakes Aral, Balkhash, Issyk Kul and inland basin of the rivers Chus and Tarim. The most part of the water-currents represents small rivers and streamlets originating on heights more than 3000 m above sea level which merging give rise to the largest rivers of the Central Asia. Their general extent nearby 150 thousand km, a mid-annual drain of all rivers of Kyrgyzstan makes about 48 km³.

In territory of Kyrgyzstan water basins are created. Water from them is used basically on an irrigation and only on the river Naryn on water basins there are power stations. A total area of artificial reservoirs more than 440 km².

126 kinds of birds ecologically connected with wetlands from them 66 kinds nest in Kyrgyzstan and 59 meet during seasonal migration. About 50 kinds of birds connected with wetlands meets on wintering. Moreover 11 species of birds nest in coastal vegetation of reeds and bushes. 24 species of birds nest in inundated forests. Thus, there are about 100 species of birds nesting in wetlands.

There are 4 species of mammals habitat in wetlands: the kutora, an otter, the American mink and the muskrat. The American mink and the muskrat are delivered on territory of Kyrgyzstan from Northern America.

There are 4 species amphibious: a green toad, Danatian toad, a lake frog and the central-Asian frog.

68 kinds of native fishes live in reservoirs of Kyrgyzstan: 12 species endemics and 7 species of fishes are acclimatized.

From them:

Since 1976 National park Issyk-Kul and the lake Issyk Kul included in the International list of Wetlands of the Ramsar convention, as point of rest on flight and wintering of waterfowls. The total area 623600 hectares. Annually on lake winters from 40 up to 60 thousand various waterfowl.

The national park Issyk-Kul is formed in 1948 with the purpose of preservation of wetlands and ornithological complexes of the lake Issyk Kul. Protection of birds and natural ecosystems of wetlands of the coasts of the lake Issyk Kul is the primary goal of Issyk-Kul reserve.

In 2005 in the list of the wetlands included reserve site 'Chatyr - Kul' of the reserve Karatal-Zhapyryk, being by a place of nesting of the mountain goose - a species put in the international Red book, and two birds living here, a hooping swan and a demoiselle, are put in the Red book of the Kyrgyzstan

The additional information is available in the State Agency on Environment Protection and Forestry under Government of the Kyrgyz Republic and Biology-Soil institute of the National academy of sciences of the Kyrgyz Republic, the Ministry of rural and water management and process industry of the Kyrgyz Republic

STRATEGY 1.2: *Develop, review, amend when necessary, and implement national or supranational policies, legislation, institutions and practices, including impact assessment and valuation, in all Contracting Parties, to ensure that the wise use principle of the Convention is being effectively applied, where possible specifying the appropriate policy instrument(s) in each Contracting Party which ensures wise use of wetlands.*

Indicator questions:

1.2.1 Is a National Wetland Policy (or equivalent instrument) in place? {2.1.1} [If "Yes", please give the title and date of the policy in Additional implementation information]	A - Yes
1.2.2 Does the National Wetland Policy (or equivalent instrument) incorporate any World Summit on Sustainable Development (WSSD) targets and actions? {2.1.2}	C - Partly
1.2.3 Have wetland issues been incorporated into national strategies for sustainable development (including National Poverty Reduction Plans called for by the WSSD and water resources management and water efficiency plans)? {2.1.2}	A - Yes
1.2.4 Has the quantity and quality of water available to, and required by, wetlands been assessed?	B - No
1.2.5 Are Strategic Environmental Assessment practices applied when reviewing policies, programmes and plans that may impact upon wetlands? {2.2.2}	B - No

Additional implementation information:

A): on Indicators 1.2.1 – 1.2.5 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. "1.2.3: [.. additional information ...]"

1.2.1. By the decision of the Government of the Kyrgyz Republic 'About biospheric territory Issyk-Kul' (from 25.09.1998r. No 623) creates biospheric territory Issyk-Kul.

The law of the Kyrgyz Republic 'About sustainable development of ecology-economic system 'Issyk Kul' ' (from 13.08.2004r. No 115) is passed. Preservation, use and development of ecology-economic system 'Issyk Kul' are regulated by this Law.

In the Plan of Measures on Realization of National Forest Programme for 2005-2015 considered principles of the creation of the protected area in view of ecology, economic and social specialty of the region, long-term flora, fauna and ecosystem monitoring, development of measures on conservation biodiversity, development and introduction of the scheme of supervision of the ecological network.

Developed measures on reduction of the desertification and stipulated sustainable management of water and ground resources in the National Frame Program (11.2006r.), passed by Government of the Kyrgyz Republic.

B): on any other aspects of Strategy 1.2 national implementation:

1.2.3. - noticed in priority of biodiversity conservation.

STRATEGY 1.3: *Increase recognition of the significance of wetlands for reasons of water supply, coastal protection, flood defence, climate change mitigation, food security, poverty reduction, cultural heritage, and scientific research, with a focus on under-represented ecosystem types, through developing and disseminating methodology to achieve wise use of wetlands.*

Indicator questions:

1.3.1 Has an assessment been conducted of the ecosystem benefits/services provided by Ramsar sites? {3.3.1} [If “Yes” or “Partly”, please indicate in the Additional implementation information below, the year of assessment and from where or from whom this information can be obtained]	A - Yes
1.3.2 Have wise use wetland programmes and/or projects that contribute to poverty alleviation objectives and/or food and water security plans been implemented? {3.3.4}	C - Partly
1.3.3 Has national action been taken to implement the Guidelines for Global Action on Peatlands (Resolution VIII.17)? {3.2.1}	B - No
1.3.4 Has national action been taken to apply the guiding principles on cultural values of wetlands (Resolutions VIII.19 and IX.21)? {3.3.3}	D - Planned

Additional implementation information:

A): on Indicators 1.3.1 – 1.3.4 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “1.3.3: [.. additional information ...]”

1.3.1. The final ecological assessment report on Son-Kul and Chatyr-Kul Lakes was finished in 2005, for development of guidance on management and putting in Ramsar Wetlands List (additional information is available in the State Agency on Environment Protection and Forestry under Government of the Kyrgyz Republic)

B): on any other aspects of Strategy 1.3 national implementation:

1.3.2. Indicated in the developed project of The Strategy on Preservation Wetlands of KR
1.3.4. Will be indicated in the Strategy on Preservation Wetlands of KR

STRATEGY 1.4: *Integrate policies on the conservation and wise use of wetlands in the planning activities in all Contracting Parties and in decision-making processes at national, regional, provincial and local levels, particularly concerning territorial management, groundwater management, catchment/river basin management, coastal and marine zone planning, and responses to climate change, all in the context of implementing Integrated Water Resources Management (IWRM).*

Indicator questions:

1.4.1 Has the Convention’s water-related guidance (see Resolution IX.1. Annex C) been used/applied in decision-making related to water resource planning and management? {3.4.2 – r3.4.xiv}	C - Partly
1.4.2 Have CEPA expertise and tools been incorporated into catchment/river basin planning and management?	C - Partly

1.4.3 Has the Convention's guidance on wetlands and coastal zone management (Annex to Resolution VIII.4) been used/applied in Integrated Coastal Zone Management (ICZM) planning and decision-making? {3.4.5}	B - No
1.4.4 Have the implications for wetland conservation and wise use of national implementation of the Kyoto Protocol been assessed? {3.4.9}	B - No

Additional implementation information:

A): on Indicators 1.4.1 – 1.4.4 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “1.4.3: [.. additional information ...]”

[Green bar for additional information]

B): on any other aspects of Strategy 1.4 national implementation:

[Green bar for additional information]

STRATEGY 1.5: *Identify priority wetlands where restoration or rehabilitation would be beneficial and yield long-term environmental, social or economic benefits, and implement the necessary measures to recover these sites.*

Indicator questions:

1.5.1 Have wetland restoration/rehabilitation programmes or projects been implemented? {4.1.2} [If “Yes”, please identify any major programmes or projects in Additional implementation information]	C - Planned
1.5.2 Has the Convention's guidance on wetland restoration (Annex to Resolution VIII.16; Wise Use Handbook 15, 3rd edition) been used/applied in designing and implementing wetland restoration/rehabilitation programmes or projects? {4.1.2}	B - No

Additional implementation information:

A): on Indicators 1.5.1 – 1.5.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “1.5.2: [.. additional information ...]”

Will be indicated in the Strategy on Preservation Wetlands of KR

B): on any other aspects of Strategy 1.5 national implementation:

[Green bar for additional information]

STRATEGY 1.6: *Develop guidance and promote protocols and actions to prevent, control or eradicate invasive alien species in wetland systems.*

Indicator questions:

1.6.1 Have national policies, strategies and management responses to threats from invasive species, particularly in wetlands, been developed and implemented? {r5.1.ii}	A - Yes
1.6.2 Have such policies, strategies and management responses been carried out in cooperation with the focal points of other conventions and international organisations/processes? {r5.1.ii}	B - No

Additional implementation information:

A): on Indicators 1.6.1 – 1.6.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “1.6.2: [.. additional information ...]”

1.6.1. The concept of ecological safety of a Kyrgyz Republic provides stage-by-stage realization of positions of maintenance of ecological safety where questions of a biodiversity protection and expansion of a network of especially protected areas and inventory of fauna and flora of republic are considered.

The national forest policy for 2005-2015.

The concept of development of forest branch for 2003-2025

B): on any other aspects of Strategy 1.6 national implementation:

GOAL 2. WETLANDS OF INTERNATIONAL IMPORTANCE

STRATEGY 2.1 *Apply the Strategic Framework and guidelines for the future development of the List of Wetlands of International Importance (Handbook 7, 2nd edition; Handbook 14, 3rd edition).*

Indicator questions:

2.1.1 Have a strategy and priorities been established for any further designation of Ramsar sites, using the Strategic Framework for the Ramsar List? {10.1.1}

[If further Ramsar site designations are planned, please indicate in Additional implementation information, the number of sites and anticipated year of designation]

B - No

Additional implementation information:

A): on Indicator 2.1.1

B): on any other aspects of Strategy 2.1 national implementation:

STRATEGY 2.2 *Maintain the Ramsar Sites Information Service and constantly update it with the best available information, and use the Ramsar Sites Database as a tool for guiding the further designation of wetlands for the List of Wetlands of International Importance.*

Indicator questions:

2.2.1 Have all required updates of the Information Sheet on Ramsar Wetlands been submitted to the Ramsar Secretariat? {10.2.3}

B - No

2.2.2 Are the Ramsar Sites Information Service and its database used in national implementation of the Convention concerning Ramsar site issues?

B - No

Additional implementation information:

A): on Indicators 2.2.1 – 2.2.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “2.2.1: [.. additional information ...]”

B): on any other aspects of Strategy 2.2 national implementation:

STRATEGY 2.3 *Maintain the ecological character of all Ramsar sites.*

Indicator questions:

2.3.1 Have the measures required to maintain the ecological character of all Ramsar sites been defined and applied? {11.1.1}

A - Yes

<p>2.3.2 Have management plans/strategies been developed and implemented at all Ramsar sites? {11.1.2}</p> <p>[If “Yes” or “Some sites”, please indicate, in Additional implementation information below, for how many sites have plans/strategies been developed but not implemented; for how many are plans/strategies in preparation; and for how many are plans/strategies being reviewed or revised]</p>	B - No
<p>2.3.3 Have cross-sectoral site management committees been established at Ramsar sites? {11.1.5}</p> <p>[If “Yes” or “Some sites”, please name the sites in Additional implementation information]</p>	B - No
<p>2.3.4 Has any assessment of Ramsar site management effectiveness been carried out?</p> <p>[if “Yes” or “Some sites”, please indicate in Additional implementation information below the year of assessment and from whom, or from where, the information is available]</p>	B - No

Additional implementation information:

A): on Indicators 2.3.1 – 2.3.4 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “2.3.3: [.. additional information ...]”

2.3.1. Measures on wetlands preservation in the Strategy of wetlands preservation in the Kyrgyz Republic are defined.

2.3.3. Creation of intersectoral committees indicated in the Action Plan of National Strategy on Wetlands of Kyrgyz Republic

B): on any other aspects of Strategy 2.3 national implementation:

STRATEGY 2.4 Monitor the condition of Ramsar sites, notify the Ramsar Secretariat without delay of changes affecting Ramsar sites as required by Article 3.2, and apply the Montreux Record and Ramsar Advisory Mission as tools to address problems.

Indicator questions:

<p>2.4.1 Are arrangements in place for the Administrative Authority to be informed of changes or likely changes in the ecological character of Ramsar sites, pursuant to Article 3.2? {r11.2.iv}</p> <p>[If “Yes” or “Some sites”, please summarise the mechanism(s) established in Additional implementation information]</p>	B - No
<p>2.4.2 Have all cases of change or likely change in the ecological character of Ramsar sites been reported to the Ramsar Secretariat, pursuant to Article 3.2,? {11.2.4}</p> <p>[If “Yes” or “Some sites”, please indicate in Additional implementation information below for which Ramsar sites Article 3.2 reports have been made by the Administrative Authority to the Secretariat, and for which sites such reports of change or likely change have not yet been made]</p>	A - Yes
<p>2.4.3 If applicable, have actions been taken to address the issues for which Ramsar sites have been listed on the Montreux Record? {r11.2.viii}</p> <p>[If “Yes” or “Partly”, please provide in Additional implementation information information about the actions taken]</p>	B - No

Additional implementation information:

A): on Indicators 2.4.1 – 2.4.3 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “2.4.3: [.. additional information ...]”

[Green text box]

B): on any other aspects of Strategy 2.4 national implementation:

[Green text box]

STRATEGY 2.5 *Promote inventory and integrated management of shared wetlands and hydrological basins, including cooperative monitoring and management of shared wetland-dependent species.*

Indicator questions:

2.5.1 Have all transboundary/shared wetland systems been identified? {12.1.1}	B - No
2.5.2 Is effective cooperative management in place for shared wetland systems (including regional site and waterbird flyway networks)? {12.1.2; 12.2.2} [If “Yes” or “Partly”, please indicate in Additional implementation information below for which wetland systems such management is in place]	B - No

Additional implementation information:

A): on Indicators 2.5.1 – 2.5.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “2.5.1: [.. additional information ...]”

[Green text box]

B): on any other aspects of Strategy 2.5 national implementation:

[Green text box]

STRATEGY 2.6 *Support existing regional arrangements under the Convention and promote additional arrangements.*

Indicator questions:

2.6.1 Has the Contracting Party been involved in the development of a regional initiative under the framework of the Convention? {12.3.2} [If “Yes” or “Planned”, please indicate in Additional implementation information below the name(s) and collaborating countries of each regional initiative]	A - Yes
--	---------

Additional implementation information:

A): on Indicator 2.6.1

2.6.1. In the field of Himalayan Initiative

B): on any other aspects of Strategy 2.6 national implementation:

[Green text box]

GOAL 3. INTERNATIONAL COOPERATION

STRATEGY 3.1 *Collaboration with other institutions: Work as partners with international and regional multilateral environmental agreements (MEAs) and other agencies.*

Indicator questions:

3.1.1 Are mechanisms in place at the national level for collaboration between the Ramsar Administrative Authority and the focal points of other multilateral environmental agreements (MEAs)? {13.1.1}	D - Planned
3.1.2 Are the national focal points of other MEAs invited to participate in the National Ramsar/Wetland Committee? {13.1.iii}	B - No
3.1.3 [For African Contracting Parties only] Has the Contracting Party participated in the implementation of the wetland programme under NEPAD? {13.1.6}	E - Not applicable

Additional implementation information:

A): on Indicators 3.1.1 – 3.1.3 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “3.1.3: [.. additional information ...]”

3.1.1. But it is exist in the Action Plan of National Strategy on Wetlands of Kyrgyz Republic.

B): on any other aspects of Strategy 3.1 national implementation:

STRATEGY 3.2 *Sharing of expertise and information: Promote the sharing of expertise and information.*

Indicator questions:

3.2.1 Have networks, including twinning arrangements, been established, nationally or internationally, for knowledge sharing and training for wetlands that share common features? {14.1.3} [If “Yes” or “Partly”, please indicate in Additional implementation information below the networks and wetlands involved]	B - No
3.2.2 Has information about the country’s wetlands and/or Ramsar sites and their status been made publicly available (e.g., through publications or a Web site)? {14.1.1}	A - Yes

Additional implementation information:

A): on Indicators 3.2.1-3.2.2

3.2.2. Accessible information in the website of the State Agency on Environment Protection and Forestry under Government of the Kyrgyz Republic www.ecokg.caresd.net, in mass media of Naryn region, national park Karatal-Zhapyryk, General Direction of Biosphere territory 'Issyk-Kol'

B): on any other aspects of Strategy 3.2 national implementation:

GOAL 4. IMPLEMENTATION CAPACITY

STRATEGY 4.1 *Local communities, indigenous people, and cultural values: Encourage active and informed participation of local communities and indigenous people, including women and youth, in the conservation and wise use of wetlands, including in relation to understanding the dynamics of cultural values.*

Indicator questions:

4.1.1 Has resource information been compiled on local communities' and indigenous people's participation in wetland management? {6.1.5}	B - No
4.1.2 Have traditional knowledge and management practices in relation to wetlands been documented and their application encouraged? {6.1.2}	B - No
4.1.3 Does the Contracting Party promote public participation in decision-making (with respect to wetlands), especially with local stakeholder involvement in the selection of new Ramsar sites and in Ramsar site management? {6.1.4}	B - No
4.1.4 Have educational and training activities been developed concerning cultural aspects of wetlands? {r6.1.vii}	B - No
4.1.5 Have cultural values of wetlands been included in the management planning of Ramsar sites and other wetlands? {r.6.1.vi} <small>[if "Yes" or "Partly", please indicate, if known, how many Ramsar sites and their names in Additional implementation information below]</small>	B - No

Additional implementation information:

A): on Indicators 4.1.1 – 4.1.5 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. "4.1.3: [... additional information ...]"

B): on any other aspects of Strategy 4.1 national implementation:

STRATEGY 4.2 *Promote the involvement of the private sector in the conservation and wise use of wetlands.*

Indicator questions:

4.2.1 Is the private sector encouraged to apply the wise use principle in activities and investments concerning wetlands? {7.1.1}	B - No
4.2.2 Have private-sector "Friends of Wetlands" fora or similar mechanisms been established? {7.1.4} <small>[If "Yes" or "Partly", please indicate in Additional implementation information below the private sector companies involved]</small>	B - No

Additional implementation information:

A): on Indicators 4.2.1 – 4.2.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “4.2.2: [.. additional information ...]”

[Redacted area]

B): on any other aspects of Strategy 4.2 national implementation:

[Redacted area]

STRATEGY 4.3 *Promote measures which encourage the application of the wise use principle.*

Indicator questions:

4.3.1 Have actions been taken to promote incentive measures which encourage the conservation and wise use of wetlands? {8.1.1}	B - No
4.3.2 Have actions been taken to remove perverse incentive measures which discourage conservation and wise use of wetlands? {8.1.1}	B - No

Additional implementation information:

A): on Indicators 4.3.1 – 4.3.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “4.3.2: [.. additional information ...]”

[Redacted area]

B): on any other aspects of Strategy 4.3 national implementation:

[Redacted area]

STRATEGY 4.4 *Support, and assist in implementing at all levels, the Convention’s Communication, Education, and Public Awareness Programme (Resolution VIII.31) for promoting the conservation and wise use of wetlands through public participation and communication, education, and public awareness (CEPA).*

Indicator questions:

4.4.1 Has a mechanism for planning and implementing wetland CEPA (National Ramsar/Wetland Committee or other mechanism) been established with both CEPA Government and NGO National Focal Point (NFP) involvement? {r9.iii.ii} [If “Yes” or “Partly”, please describe in Additional implementation information below the mechanism]	B - No
4.4.2 Has a National Action Plan (or plans at the subnational, catchment or local level) for wetland CEPA been developed? {r.9.iii.iii} [Even if a National Action Plan has not yet been developed, if broad CEPA objectives for national CEPA actions have been established please indicate this in the Additional implementation information section for Strategy 4.4]	B - No
4.4.3 Have actions been taken to communicate and share information cross-sectorally on wetland issues amongst relevant ministries, departments and agencies? {r9.iii.v}	B - No

<p>4.4.4 Have national campaigns, programmes, and projects been carried out to raise community awareness of the ecosystem benefits/services provided by wetlands? {r9.vi.i}</p> <p>[If: a) support has been provided for the delivery of these and other CEPA activities by other organisations; and/or b) these have included awareness-raising for social, economic and/or cultural values, please indicate this in the Additional implementation information section for Strategy 4.4 below]</p>	<p>B - No</p>
<p>4.4.5 Have World Wetlands Day activities in the country, either government and NGO-led or both, been carried out? {r9.vi.ii}</p>	<p>A - Yes</p>
<p>4.4.6 Have education centres been established at Ramsar sites and other wetlands? {r9.viii.i}</p> <p>[If any such centres are part of the Wetland Link International (WLI) Programme of the Wildfowl & Wetland Trust, UK, please indicate this in the Additional implementation information section for Strategy 4.4 below]</p>	<p>A - Yes</p>

Additional implementation information:

A): on Indicators 4.4.1 – 4.4.6 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “4.4.3: [.. additional information ...]”

4.4.5. In Karatal-Zhapyryk and Issyk-Kul national parks annually with attraction of educational institutions and representatives of the nongovernmental organizations and other public, actions on preservation wetlands in the eco-educational purposes are spent

4.4.6. There are organized Ecological Centers in Karatal-Zhapyryk and Issyk-Kul national parks, where information materials are available.

B): on any other aspects of Strategy 4.4 national implementation:

STRATEGY 4.5 *Promote international assistance to support the conservation and wise use of wetlands, while ensuring that environmental safeguards and assessments are an integral component of all development projects that affect wetlands, including foreign and domestic investments.*

Indicator questions:

<p>4.5.1 [For Contracting Parties with development assistance agencies only] Has funding support been provided from the development assistance agency for wetland conservation and management in other countries? {15.1.1}</p> <p>[If “Yes” or “Some countries”, please indicate in Additional implementation the countries supported since COP9]</p>	<p>B - No</p>
<p>4.5.2 [For Contracting Parties in receipt of development assistance only] Has funding support been mobilized from development assistance agencies specifically for in-country wetland conservation and management? {15.1.8}</p> <p>[If “Yes” or “Some countries”, please indicate in Additional implementation the agencies from which support has been received since COP9]</p>	<p>B - No</p>

Additional implementation information:

A): on Indicators 4.5.1 – 4.5.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “4.5.2: [.. additional information ...]”

[Empty green box for additional information]

B): on any other aspects of Strategy 4.5 national implementation:

[Empty green box for additional information]

STRATEGY 4.6 *Provide the financial resources required for the Convention’s governance, mechanisms and programmes to achieve the expectations of the Conference of the Contracting Parties.*

Indicator questions:

4.6.1 {16.1.1}	B - No
a) For the last triennium have Ramsar contributions been paid in full and in a timely manner (by 31 March of calendar year)?	
b) If “No” in 4.6.1 a), please clarify what plan is in place to ensure future prompt payment:	
[Empty space for answer]	

4.6.2 {16.1.2}	A - Yes
a) Has any additional financial support been provided through voluntary contributions to the Ramsar Small Grants Fund or other non-core funded Convention activity?	
b) If yes, please state the amounts:	
25000-30000 dollars USA for developing the Strategy on wetlands conservation of Kyrgyz Republic	

Additional implementation information:

A): on Indicators 4.6.1 – 4.6.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “4.6.2: [.. additional information ...]”

The State Agency of Forestry under the Government of the Kyrgyz Republic received financial support for exploration the Con-Kol and Chatyr-Kol lakes but the sum is unknown to us, such as the State Agency of Forestry reorganized to the State Agency on Environment and Forestry under the Government of the Kyrgyz Republic.
 - The State on Environment and Forestry received about 30000 dollars USA for developing the Strategy on wetlands conservation of Kyrgyz Republic. At the present moment we've received 60 % of this sum. Final report will be submitted later. There is some delay because of frequent changes with the State Agency's staff as well as government's structure.

B): on any other aspects of Strategy 4.6 national implementation:

STRATEGY 4.7 *Ensure that the Conference of the Contracting Parties, Standing Committee, Scientific and Technical Review Panel, and Ramsar Secretariat are operating at a high level of efficiency and effectiveness to support implementation of this Framework.*

Indicator questions:

4.7.1 Has the Contracting Party used its previous Ramsar National Reports in monitoring its implementation of the Convention?

[If “Yes” or “Partly”, please indicate in Additional implementation information how the Reports have been used for monitoring]

B - No

Additional implementation information:

A): on Indicator 4.7.1

B): on any other aspects of Strategy 4.7 national implementation:

STRATEGY 4.8 *Develop the capacity within, and promote cooperation among, institutions in Contracting Parties to achieve conservation and wise use of wetlands.*

Indicator questions:

4.8.1 Has a review of national institutions responsible for the conservation and wise use of wetlands been completed? {18.1.1}

[If “Yes” or “Partly”, please indicate in Additional implementation information if this has led to proposals for, or implementation of, any changes in institutional responsibilities]

B - No

4.8.2 Is a National Ramsar/Wetlands cross-sectoral Committee (or equivalent body) in place and operational? {18.1.2}

[If “Yes”, please summarise in Additional implementation information its membership and frequency of meetings]

B - No

Additional implementation information:

A): on Indicators 4.8.1 – 4.8.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “4.8.2: [.. additional information ...]”

B): on any other aspects of Strategy 4.8 national implementation:

STRATEGY 4.9 *Maximize the benefits of working with the Convention’s International Organization Partners (IOPs*) and others.*

Indicator question:

<p>4.9.1 Has your country received assistance from one or more of the Convention's IOPs* in its implementation of the Convention? [If "Yes", please provide in Additional implementation information the name(s) of the IOP(s) and the type of assistance provided]</p>	B - No
<p>4.9.2 Has your country provided assistance to one or more of the Convention's IOPs*? [If "Yes", please provide in Additional implementation information the name(s) of the IOP(s) and the type of assistance provided]</p>	B - No

* The IOPs are: BirdLife International, International Water Management Institute (IWMI), Wetlands International, The World Conservation Union (IUCN), and WWF International.

Additional implementation information:

A): on Indicators 4.9.1-4.9.2

B): on any other aspects of Strategy 4.9 national implementation:

STRATEGY 4.10 *Identify the training needs of institutions and individuals concerned with the conservation and wise use of wetlands, particularly in developing countries and countries in transition, and implement appropriate responses.*

Indicator questions:

<p>4.10.1 Has your country provided support to, or participated in, the development of regional (i.e., covering more than one country) wetland training and research centres? [If "Yes", please indicate in Additional implementation information the name(s) of the centre(s)]</p>	B - No
<p>4.10.2 Has an assessment of national and local training needs for the implementation of the Convention, including in the use of the Wise Use Handbooks, been made? {20.1.2}</p>	B - No
<p>4.10.3 Have opportunities for wetland site manager training in the country been provided? {20.1.6}</p>	B - No

Additional implementation information:

A): on Indicators 4.10.1 – 4.10.3 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. "4.10.3: [.. additional information ...]"

B): on any other aspects of Strategy 4.10 national implementation:
