

NATIONAL REPORT ON THE IMPLEMENTATION OF THE RAMSAR CONVENTION ON WETLANDS

**National Reports to be submitted to the 10th Meeting
of the Conference of the Contracting Parties,
Republic of Korea, 28 October – 4 November 2008**

Please submit the completed National Report, in electronic (Microsoft Word) format, and preferably by e-mail, to the Ramsar Secretariat by **31 March 2008**.

National Reports should be sent to: Alexia Dufour, Regional Affairs Officer, Ramsar Secretariat (dufour@ramsar.org)

Introduction & background

1. This Ramsar COP10 National Report Format (NRF) has been approved by the Standing Committee for the Ramsar Convention's Contracting Parties to complete as their national reporting to the 10th meeting of the Conference of the Contracting Parties of the Convention (Republic of Korea, October/November 2008).
2. Following Standing Committee discussions at its 35th meeting in February 2007, and its Decisions SC35-22, -23 and -24, this COP10 National Report Format has been significantly revised and simplified in comparison with the National Report Formats provided to previous recent COPs.
3. In particular this National Report Format provides a much smaller number (66) of implementation "indicator" questions, compared with the much larger suite of questions on all aspects of national implementation of the Convention's Strategic Plan 2003-2008 included in previous NRFs.
4. The COP10 NRF indicators include, with the agreement of the Standing Committee (Decision SC35-24), certain indicators specifically requested to be included by the Convention's Scientific & Technical Review Panel (STRP) and CEPA Oversight Panel, in order to facilitate their information gathering and reporting on key aspects of scientific, technical and CEPA implementation under the Convention.
5. The 66 indicator questions are grouped under each of the implementation "Strategies" approved by the Parties at COP9 (Resolution IX.8) in the Convention's "A Framework for the implementation of the Convention's Strategic Plan 2003-2008 in the 2006 -2008 period" (www.ramsar.org/res/key_res_ix_08_e.htm). The indicators have been selected so as to provide information on key aspects of the implementation of the Convention under each of its Strategies.
6. In addition, for each Strategy the option is provided for a Contracting Party, if it so wishes, to supply **additional information** concerning its implementation under each indicator and, more generally, on implementation of other aspects of each Strategy.

The purposes and uses of national reporting to the Conference of the Contracting Parties

7. National Reports from Contracting Parties are official documents of the Convention, and are made publicly available through their posting on the Convention's Web site.
8. There are six main purposes for the Convention's National Reports. These are to:
 - i) provide data and information on how the Convention is being implemented;
 - ii) capture lessons/experience, so as to allow Parties to develop future action;
 - iii) identify emerging issues and implementation challenges faced by Parties that may require further attention through Convention processes;
 - iv) provide a means for Parties to be accountable against their obligations under the Convention;
 - v) provide each Party with a tool to help it assess and monitor its progress in implementation, and plan for its future implementation and priorities; and
 - vi) provide an opportunity for Parties to draw attention to their achievements during the triennium.
9. In addition, the data and information provided by Parties in their COP10 National Reports now have another important purpose, since a number of the indicators in the National Reports on Parties' implementation will provide key sources of information for the analysis and assessment of the "ecological outcome-oriented indicators of effectiveness of the implementation of the Convention" currently being further developed by the Scientific and Technical Review Panel for Standing Committee and COP10 consideration.

10. To facilitate the analysis and onward use of the data and information provided by Contracting Parties in their National Reports, once received and verified by the Ramsar Secretariat all information is entered and held by the Secretariat in a database, which then facilitates extraction and analysis of the information for a number of purposes.
11. The Convention's National Reports are used in a number of ways. These include:
 - i) providing the basis for reporting by the Secretariat to each COP on the global and regional implementation, and progress in implementation, of the Convention. This is provided to Parties at COP as a series of Information Papers including:
 - the Report of the Secretary General on the implementation of the Convention at the global level (see, e.g., COP9 DOC 5);
 - the Report of the Secretary General pursuant to Article 8.2 (b), (c), and (d) concerning the List of Wetlands of International Importance (see, e.g., COP9 DOC 6); and
 - the reports providing regional overviews of the implementation of the Convention and its Strategic Plan in each Ramsar region (see, e.g., COP9 DOCs 10-13);
 - ii) providing information on specific implementation issues in support of the provision of advice and decisions by Parties at COP. Examples at CO9 included:
 - Resolution IX.15, *The status of sites in the Ramsar List of Wetlands of International Importance*, and
 - Information Papers on *Issues and scenarios concerning Ramsar sites or parts of sites which cease to meet or never met the Ramsar Criteria* (COP9 DOC 15) and *Implementation of the Convention's CEPA Programme for the period 2003-2005* (COP9 DOC 25);
 - iii) providing the source of time-series assessments of progress on specific aspects in the implementation of the Convention, included in other Convention products. An example is the summary of progress since COP3 (Regina, 1997) in the development of National Wetland Policies, included as Table 1 in Ramsar Wise Use Handbook 2 (3rd edition, 2007); and
 - iv) providing information for reporting to the Convention on Biological Diversity (CBD) on the national-level implementation of the CBD/Ramsar Joint Work Plan and the Ramsar Convention's lead implementation role for the CBD for wetlands.

The structure of the COP10 National Report Format

12. In line with Standing Committee Decisions SC35-21 and SC35-22, the COP10 National Report Format is in three sections.
13. **Section 1** provides the Institutional Information about the Administrative Authority and National Focal Points for the national implementation of the Convention.
14. **Section 2** is a "free-text" section in which to provide a summary of various aspects of national implementation progress and recommendations for the future.
15. **Section 3** provides the 66 implementation indicator questions, grouped under each Convention implementation strategy, and with a "free-text" section under each Strategy in which the Contracting Party may, if it wishes, add further information on national implementation of the Strategy and its indicators.

Guidance for filling in and submitting the COP10 National Report Format

IMPORTANT – READ THIS SECTION OF GUIDANCE BEFORE STARTING TO FILL IN THE NATIONAL REPORT FORMAT

16. All three Sections of the COP10 National Report Format should be filled in, in one of the Convention's official languages (English, French, Spanish).
17. The deadline for submission of the completed National Report Format is **31 March 2008**. It will not be possible to include information from National Reports received from Parties after that date in the analysis and reporting on Convention implementation to COP10.
18. All fields with a pale yellow background  must be filled in.
19. Fields with a pale green background  are free-text fields in which to provide additional information, if the Contracting Party so wishes. Although providing information in these fields in the COP10 NRF is optional, Contracting Parties are encouraged to provide such additional information wherever possible and relevant, since it is the experience of the Secretariat that such explanatory information is very valuable in ensuring a full understanding of implementation progress and activity, notably in informing the preparation of global and regional implementation reports to COP.
20. In order to assist Contracting Parties in their provision of such additional information, for a number of indicator questions some particularly helpful types of such information are suggested. However, of course, Parties are free to add any other relevant information they wish in any of the "Additional implementation information" fields.
21. The Format is created as a "Form" in Microsoft Word. You are only able to move to, and between, each of the yellow or green boxes to give your replies and information. All other parts of the form are locked.
22. To go to a yellow or green field you wish to fill in, move the cursor over the relevant part of the form, and left-click the mouse. The cursor will automatically move to the next field available.
23. To move down the sequence of fields to fill in, you can also use the "Tab" key on the computer keyboard.
24. For a "free-text" field, you can type in whatever information you wish. If you wish to amend any of the text you have put in a green or yellow "free-text" box, it is recommended that you cut-and-paste the existing text into a separate file, make the amendments, and then cut-and-paste the revised text back into the green box. This is because within the "Form" format there is limited facility to make editorial changes within the "free-text" box once text has been entered.
25. For each of the "Indicator questions" in Section 3, a drop-down menu of answer options is provided. These vary between indicators, depending on the question asked in the indicator, but are in general of the form: "Yes", "No", "Partly", "In progress", etc.
26. For each indicator question you can choose only one answer. If you wish to provide further information or clarifications concerning your answer, you can provide this in the green additional information box below the relevant indicator question.
27. To select an answer to an indicator question, use the Tab key, or move the cursor over the relevant yellow box, and left-click the mouse. The drop-down menu of answer options will appear. Left-click the mouse on the answer option you choose, and this will appear in the centre of the yellow box.

28. The NRF is not intended normally to be filled in by one person alone – for many indicators it would seem best for the principal compiler to consult with colleagues in the same and other agencies within the government who might have fuller knowledge of the Party's overall implementation of the Convention. The principal compiler can save the work at any point in the process and return to it subsequently to continue or to amend answers previously given.
29. After each session working on the NRF, remember to save the file! A recommended filename structure is: COP10NRF [Country] [date].
30. After the NRF has been completed, please send the completed National Report to the Ramsar Secretariat, preferably by email, to Alexia Dufour, Regional Affairs Officer, Ramsar Convention Secretariat, email: dufour@ramsar.org. The Secretariat must receive your completed National Report in electronic (Microsoft Word) format.
31. When the completed National Report is submitted by the Party, **it must be accompanied by a letter or e-mail message in the name of the Administrative Authority, confirming that this is that Contracting Party's official submission of its COP10 National Report.**
32. If you have any questions or problems concerning filling in the COP10 NRF, please contact the Ramsar Secretariat for advice (e-mail as above).

SECTION 1: INSTITUTIONAL INFORMATION

NAME OF CONTRACTING PARTY: LESOTHO	
DESIGNATED RAMSAR ADMINISTRATIVE AUTHORITY	
Name of Administrative Authority:	MINISTRY OF NATURAL RESOURCES
Head of Administrative Authority - name and title:	BATAUNG LELEKA, PRINCIPAL SECRETARY
Mailing address:	P.O. Box 772
Telephone/Fax:	+266 22322334/22310520
Email:	leleka@ilesotho.com
DESIGNATED NATIONAL FOCAL POINT (DAILY CONTACT IN THE ADMINISTRATIVE AUTHORITY) FOR RAMSAR CONVENTION MATTERS	
Name and title:	SEKHONYANA LEROTHOLI
Mailing address:	P.O. Box 772
Telephone/Fax:	(+266) 22312383 / 22310437 / 22317102
Email:	lerotholi@dwa.gov.ls / motanya@dwa.gov.ls / mefi@dwa.gov.ls
DESIGNATED NATIONAL FOCAL POINT FOR MATTERS RELATING TO STRP (SCIENTIFIC AND TECHNICAL REVIEW PANEL)	
Name and title of focal point:	Dr. Motlatsi Mokhothu
Name of organisation:	National University of Lesotho
Mailing address:	P.O. R.Oma 180, Maseru, LESOTHO
Telephone/Fax:	+266 33430601/22340000
Email:	mn.mokhothu@nul.ls
DESIGNATED GOVERNMENT NATIONAL FOCAL POINT FOR MATTERS RELATING TO THE CEPA PROGRAMME ON COMMUNICATION, EDUCATION AND PUBLIC AWARENESS	
Name and title of focal point:	Ms. Liphon Motanya
Name of organisation:	Department of Water Affairs - Wetlands Unit
Mailing address:	P.O.; Box 772
Telephone/Fax:	+266 22312383 / 22310437
Email:	motanya@dwa.gov.ls
DESIGNATED NON-GOVERNMENT NATIONAL FOCAL POINT FOR MATTERS RELATING TO THE CEPA PROGRAMME ON COMMUNICATION, EDUCATION AND PUBLIC AWARENESS	
Name and title:	Mr. Moshe Tséhlo - National Coordinator
Name of organisation:	Participatory Ecological Land Use Management (PELUM)
Mailing address:	P.O. Box 0523, Maseru West 105, LESOTHO
Telephone/Fax:	+266 22314142
Email:	pelumlesotho@leo.co.ls

SECTION 2: GENERAL SUMMARY OF NATIONAL IMPLEMENTATION PROGRESS AND CHALLENGES

In your country, in the past triennium (i.e., since COP9 reporting):

A. What new steps have been taken to implement the Convention?

There has been a comprehensive capacity assessment on implementing the Ramsar Convention and other MEAs that Lesotho is party to.

There has been development of projects on wetlands rehabilitation and restoration

There has been ongoing public awareness strategies undertaken on the importance of wetlands.

The country has engaged in bilateral discussions with the Republic of South Africa sharing ideas on wetlands restoration and rehabilitation

There has been comprehensive studies on wetlands undertaken to improve information dissemination and more understanding of wetlands functions and services

B. What have been the most successful aspects of implementation of the Convention?

1. The wetlands mapping of the Senqu and Makhaleng catchments based on the imagery of SPOT 2004. The activity was carried out by the 'Biodiversity Assessment Study' of the department of Environment, Ministry of Tourism, Environment and Culture.

2. On going inventory of wetlands.

3. Public awareness campaigns on the wise use of wetlands especially in the highlands of Lesotho.

C. What have been the greatest difficulties in implementing the Convention?

The development of management plans for wetlands has not been completed. And the implementation of such is also likely to be a challenging process. This is compounded by the land tenure issues which make it difficult to institute certain controls on the use of wetlands and their products

D. What proposals and priorities are there for future implementation of the Convention?

Development of restoration and rehabilitation strategies for wetlands as information gathered so far indicate that a lot of wetlands are degraded.

The other priority is developing an enabling institutional, policy and legal framework that supports the implementation of the Convention. Some inroads have been achieved in this regard through the Wetlands Unit.

Capacity building of all institutions that are linked to wetlands management is also necessary to enhance implementation efforts

E. Does the Contracting Party have any recommendations concerning implementation assistance from the Ramsar Secretariat?

The Ramsar Secretariat can assist in Capacity building for the Focal point institution within the country. The Secretariat can also assist in fundraising efforts by the implementing agency as well as extension on relevant expertise to assist the country to implement the Convention.

F. Does the Contracting Party have any recommendations concerning implementation assistance from the Convention's International Organisation Partners (IOPs)?

The Convention IOP's can assist with capacity building on all aspects of the convention implementation for Contracting Parties

- G. How can national implementation of the Ramsar Convention be better linked with implementation of other multilateral environmental agreements (MEAs), especially those in the "Biodiversity cluster" (Ramsar, Convention on Biological Diversity (CBD), Convention on Migratory Species (CMS), CITES, and World Heritage Convention), and UNCCD and UNFCCC?

There has to be a closer cooperation between the Focal Points of these MEA's. The GEF in 2005/06 provided funds for Lesotho to undertake National Capacity Self Assessment (NCSA) of the three (3) RIO Conventions, and Lesotho decided to include the Ramsar and CITES on this process. The final strategy document for enhancing capacity to implement these MEA's was produced end of 2006.

- H. How can Ramsar Convention implementation be better linked with the implementation of water policy/strategy and other strategies in the country (e.g., sustainable development, energy, extractive industry, poverty reduction, sanitation, food security, biodiversity)?

The national focal point needs to work in close collaboration with organisations, communities and departments which are already implementing the above strategies. The convention is much interrelated with the strategies.

- I. Does the Contracting Party have any other general comments on the implementation of the Convention?

The establishment of a Ramsar sub regional center for Southern African issues can be of assistance to the countries in the region on wetlands management. The IUCN-ROSA had a programme on wetlands and is well placed to run such a center.

SECTION 3: INDICATOR QUESTIONS & FURTHER IMPLEMENTATION INFORMATION

Guidance for filling in this section

1. For each “indicator question”, please select one answer from the “drop-down” list in the yellow box.
2. If you wish to add any additional information on either one or more of the specific indicators for each strategy, and/or for other aspects of the national implementation of this strategy, please provide this information in the green “free-text” boxes below the indicator questions for each Strategy.
3. If you wish to amend any of the text you have put in a green “free-text” box, it is recommended that you cut-and-paste the existing text into a separate file, make the amendments, and then cut-and-paste the revised text back into the green box.
4. So as to assist Contracting Parties in referring to relevant information they provided in their National Report to COP9, for each indicator below (where appropriate) a cross-reference is provided to the equivalent indicator(s) in the COP9 NRF, shown thus: {x.x.x}

GOAL 1. THE WISE USE OF WETLANDS

STRATEGY 1.1: *Describe, assess and monitor the extent and condition of wetland resources at relevant scales, in order to inform and underpin implementation of the Convention, in particular in the application of the wise use principle.*

Indicator questions:

1.1.1 Does your country have a comprehensive National Wetland Inventory? {1.1.1}	C - In progress
1.1.2 Is the wetland inventory data and information maintained and made accessible to all stakeholders? {1.1.3; 1.1.6}	A - Yes
1.1.3 Does your country have information about the status and trends of the ecological character of wetlands (Ramsar sites and/or wetlands generally)? {1.2.2} [if “Yes”, please indicate in Additional implementation information below, from where or from whom this information can be accessed]	A - Yes
1.1.4 If the answer is “Yes” in 1.1.3, does this information indicate that the need to address adverse change in the ecological character of wetlands is now greater, the same, or less than in the previous triennium, for: a) Ramsar sites b) wetlands generally	A - Greater A - Greater

Additional implementation information:

A): on Indicators 1.1.1 – 1.1.4 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “1.1.3: [.. additional information ...]”

1.1.1 The wetland inventory is still ongoing.. Due steep slopes and inaccessible mountain areas by vehicle, the inventory will take time to complete.

1.1.2 The stakeholders including consultants are given data at their requests without any charge at all.

1.1.3 The information is available and can be found in the document called ' The Spatial Assessment of Biodiversity Priorities in the Lesotho Highlands' from the Ministry of Tourism, Environment and Culture, Lesotho.

1.1.4. the need is greater.

B): on any other aspects of Strategy 1.1 national implementation:

A wetland summary sheet with the following headings has been designed: Name of wetland, Geographic coordinates, Area, Wetland type, Altitude, Physical features, Ecological features, Land tenure, conservation measures taken, Current Land use, Threats, Social and Cultural values and Wetland code.

STRATEGY 1.2: *Develop, review, amend when necessary, and implement national or supranational policies, legislation, institutions and practices, including impact assessment and valuation, in all Contracting Parties, to ensure that the wise use principle of the Convention is being effectively applied, where possible specifying the appropriate policy instrument(s) in each Contracting Party which ensures wise use of wetlands.*

Indicator questions:

1.2.1 Is a National Wetland Policy (or equivalent instrument) in place? {2.1.1} [If "Yes", please give the title and date of the policy in Additional implementation information]	A - Yes
1.2.2 Does the National Wetland Policy (or equivalent instrument) incorporate any World Summit on Sustainable Development (WSSD) targets and actions? {2.1.2}	A - Yes
1.2.3 Have wetland issues been incorporated into national strategies for sustainable development (including National Poverty Reduction Plans called for by the WSSD and water resources management and water efficiency plans)? {2.1.2}	A - Yes
1.2.4 Has the quantity and quality of water available to, and required by, wetlands been assessed?	E - Planned
1.2.5 Are Strategic Environmental Assessment practices applied when reviewing policies, programmes and plans that may impact upon wetlands? {2.2.2}	A - Yes

Additional implementation information:

A): on Indicators 1.2.1 – 1.2.5 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. "1.2.3: [.. additional information ...]"

1.2.1 There hasn't been a development of a specific 'Wetlands Policy'. But the issues concerning wetlands are incorporated in the Water and Sanitation Policy adopted in February 2007. This Policy includes the principles of Integrated Water Resources Management (IWRM) which include taking cognisance of wetlands issues in managing water.

1.2.2 Yes.

Water Management: Manage water resources in an integrated and sustainable manner to ensure availability of this resource in adequate quantities and quality for present and future social, economic and environmental needs.

Water supply and Sanitation needs: Ensure access to a sustainable supply of potable water and basic sanitation services to all Basotho.

Water and Environment: Protect and conserve water resources and minimise adverse impacts of socio-economic development activities on water.

1.2.3 Yes. Paragraph (f) under the national strategy reads: Adopt and implement internationally recognised principles on wetlands management, among them principles drawn from the Ramsar Convention on Wetlands of International Importance.

1.2.4. This is included in the planned projects. But currently flow recording gauges have been installed at the convenient points on streams/rivers downstream of the wetlands which feed into such streams/rivers. The recorded flows give a picture of how much flow such wetlands contribute in those catchments. There is a plan to erect flow gauges at selected wetlands.

1.2.5. Yes. This is embedded in the Lesotho Water and Sanitation Policy paragraphs (h) and (i): Promote Strategic Environmental Assessment (SEA) of policies and strategies, programs and plans for water resources development in order to enhance sustainable development.

Adopt environment impact assessment (EIA) for all water resources development with emphasis on environment protection, poverty alleviation and reduction of the spread of HIV/AIDS pandemic.

B): on any other aspects of Strategy 1.2 national implementation:

STRATEGY 1.3: *Increase recognition of the significance of wetlands for reasons of water supply, coastal protection, flood defence, climate change mitigation, food security, poverty reduction, cultural heritage, and scientific research, with a focus on under-represented ecosystem types, through developing and disseminating methodology to achieve wise use of wetlands.*

Indicator questions:

<p>1.3.1 Has an assessment been conducted of the ecosystem benefits/services provided by Ramsar sites? {3.3.1} [If "Yes" or "Partly", please indicate in the Additional implementation information below, the year of assessment and from where or from whom this information can be obtained]</p>	<p>B - No</p>
<p>1.3.2 Have wise use wetland programmes and/or projects that contribute to poverty alleviation objectives and/or food and water security plans been implemented? {3.3.4}</p>	<p>E - Planned</p>
<p>1.3.3 Has national action been taken to implement the Guidelines for Global Action on Peatlands (Resolution VIII.17)? {3.2.1}</p>	<p>D - Planned</p>
<p>1.3.4 Has national action been taken to apply the guiding principles on cultural values of wetlands (Resolutions VIII.19 and IX.21)? {3.3.3}</p>	<p>B - No</p>

Additional implementation information:

A): on Indicators 1.3.1 – 1.3.4 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “1.3.3: [.. additional information ...]”

1.3.3 There has been inventories of peatlands undertaken under the Global Peatlands Initiative under the Identification and Mapping of Peatlands in South Africa. Lesotho was included in this initiative. Further action is still planned.

B): on any other aspects of Strategy 1.3 national implementation:

STRATEGY 1.4: *Integrate policies on the conservation and wise use of wetlands in the planning activities in all Contracting Parties and in decision-making processes at national, regional, provincial and local levels, particularly concerning territorial management, groundwater management, catchment/river basin management, coastal and marine zone planning, and responses to climate change, all in the context of implementing Integrated Water Resources Management (IWRM).*

Indicator questions:

1.4.1 Has the Convention’s water-related guidance (see Resolution IX.1. Annex C) been used/applied in decision-making related to water resource planning and management? {3.4.2 – r3.4.xiv}	C - Partly
1.4.2 Have CEPA expertise and tools been incorporated into catchment/river basin planning and management?	D - Planned
1.4.3 Has the Convention’s guidance on wetlands and coastal zone management (Annex to Resolution VIII.4) been used/applied in Integrated Coastal Zone Management (ICZM) planning and decision-making? {3.4.5}	B - No
1.4.4 Have the implications for wetland conservation and wise use of national implementation of the Kyoto Protocol been assessed? {3.4.9}	D - Planned

Additional implementation information:

A): on Indicators 1.4.1 – 1.4.4 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “1.4.3: [.. additional information ...]”

1.4.4 Lesotho is in the process of developing the 2nd Communication on Climate change and has undertaken an inventory of GHG's in order to track the progress in capping the releases of GHG's. In this communication wetlands issues are being addressed in a more comprehensive way as it has been proven that wetlands play an important role in the carbon cycle.

B): on any other aspects of Strategy 1.4 national implementation:

STRATEGY 1.5: *Identify priority wetlands where restoration or rehabilitation would be beneficial and yield long-term environmental, social or economic benefits, and implement the necessary measures to recover these sites.*

Indicator questions:

1.5.1 Have wetland restoration/rehabilitation programmes or projects been implemented? {4.1.2} [If “Yes”, please identify any major programmes or projects in Additional implementation information]	A - Yes
1.5.2 Has the Convention’s guidance on wetland restoration (Annex to Resolution VIII.16; Wise Use Handbook 15, 3rd edition) been used/applied in designing and implementing wetland restoration/rehabilitation programmes or projects? {4.1.2}	C - Partly

Additional implementation information:

A): on Indicators 1.5.1 – 1.5.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “1.5.2: [.. additional information ...]”

1.5.1 There has been implemetation of small scale restoration projects that have met limited success. However, funding has been secured to pilot restoration strategies on a target scale in the highlands of Lesotho, this will culminate in the production of a Strategic Environmental Assessment which will guide land use including catchment management that answers the needs for wise use of wetlands.

B): on any other aspects of Strategy 1.5 national implementation:

1.5.1 The National Wetlands Management Programme recommends activities for rehabilitatinand restoration of wetlands

STRATEGY 1.6: *Develop guidance and promote protocols and actions to prevent, control or eradicate invasive alien species in wetland systems.*

Indicator questions:

1.6.1 Have national policies, strategies and management responses to threats from invasive species, particularly in wetlands, been developed and implemented? {r5.1.ii}	C - Partly
1.6.2 Have such policies, strategies and management responses been carried out in cooperation with the focal points of other conventions and international organisations/processes? {r5.1.ii}	C - Partly

Additional implementation information:

A): on Indicators 1.6.1 – 1.6.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “1.6.2: [.. additional information ...]”

1.6.1 Through the Southern African Biodiversity Support Programme (SABSP), there has been development of an inventory of alien invasive species across Lesotho, including on wetlands.

B): on any other aspects of Strategy 1.6 national implementation:

Through the auspices of the UNCBD, there is national actions being undertaken on Alien Invasive Species.

GOAL 2. WETLANDS OF INTERNATIONAL IMPORTANCE

STRATEGY 2.1 *Apply the Strategic Framework and guidelines for the future development of the List of Wetlands of International Importance (Handbook 7, 2nd edition; Handbook 14, 3rd edition).*

Indicator questions:

2.1.1 Have a strategy and priorities been established for any further designation of Ramsar sites, using the Strategic Framework for the Ramsar List? {10.1.1}

[If further Ramsar site designations are planned, please indicate in Additional implementation information, the number of sites and anticipated year of designation]

D - Planned

Additional implementation information:

A): on Indicator 2.1.1

In the last report Lesotho pledged to designate more Ramsar sites. This has not been achieved, but there are studies being undertaken in a number of wetlands and this will guide the designation to more sites.

B): on any other aspects of Strategy 2.1 national implementation:

The delay in designating more sites partly comes from the issues that the country still is preparing a management plan for its first Ramsar site. With the lessons learned from this site then more can be designated and management plans developed for those.

STRATEGY 2.2 *Maintain the Ramsar Sites Information Service and constantly update it with the best available information, and use the Ramsar Sites Database as a tool for guiding the further designation of wetlands for the List of Wetlands of International Importance.*

Indicator questions:

2.2.1 Have all required updates of the Information Sheet on Ramsar Wetlands been submitted to the Ramsar Secretariat? {10.2.3}

2.2.2 Are the Ramsar Sites Information Service and its database used in national implementation of the Convention concerning Ramsar site issues?

C - Partly

Additional implementation information:

A): on Indicators 2.2.1 – 2.2.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “2.2.1: [.. additional information ...]”

2.2.1: Not applicable in the case of Lesotho

B): on any other aspects of Strategy 2.2 national implementation:

STRATEGY 2.3 *Maintain the ecological character of all Ramsar sites.*

Indicator questions:

2.3.1 Have the measures required to maintain the ecological character of all Ramsar sites been defined and applied? {11.1.1}	C - Partly
2.3.2 Have management plans/strategies been developed and implemented at all Ramsar sites? {11.1.2} [If “Yes” or “Some sites”, please indicate, in Additional implementation information below, for how many sites have plans/strategies been developed but not implemented; for how many are plans/strategies in preparation; and for how many are plans/strategies being reviewed or revised]	D - Planned
2.3.3 Have cross-sectoral site management committees been established at Ramsar sites? {11.1.5} [If “Yes” or “Some sites”, please name the sites in Additional implementation information]	D - Planned
2.3.4 Has any assessment of Ramsar site management effectiveness been carried out? [if “Yes” or “Some sites”, please indicate in Additional implementation information below the year of assessment and from whom, or from where, the information is available]	D - Planned

Additional implementation information:

A): on Indicators 2.3.1 – 2.3.4 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “2.3.3: [.. additional information ...]”

2.3.1 The measures to protect the ecological integrity of the Ramsar site have been undertaken but meet some challenges as the management plan has not been completed and adopted.

2.3.2 The management plan is still under development

B): on any other aspects of Strategy 2.3 national implementation:

The Management Plan for the Ramsar site is still under development with the local communities. With the recent introduction of Local Government, the Community Councils are taking lead in the issues of natural resources in their areas, including wetlands.

STRATEGY 2.4 *Monitor the condition of Ramsar sites, notify the Ramsar Secretariat without delay of changes affecting Ramsar sites as required by Article 3.2, and apply the Montreux Record and Ramsar Advisory Mission as tools to address problems.*

Indicator questions:

2.4.1 Are arrangements in place for the Administrative Authority to be informed of changes or likely changes in the ecological character of Ramsar sites, pursuant to Article 3.2? {r11.2.iv} [If “Yes” or “Some sites”, please summarise the mechanism(s) established in Additional implementation information]	D - Planned
2.4.2 Have all cases of change or likely change in the ecological character of Ramsar sites been reported to the Ramsar Secretariat, pursuant to Article 3.2,? {11.2.4} [If “Yes” or “Some sites”, please indicate in Additional implementation information below for which Ramsar sites Article 3.2 reports have been made by the Administrative Authority to the Secretariat, and for which sites such reports of change or likely change have not yet been made]	---
2.4.3 If applicable, have actions been taken to address the issues for which Ramsar sites have been listed on the Montreux Record? {r11.2.viii} [If “Yes” or “Partly”, please provide in Additional implementation information information about the actions taken]	D - Not applicable

Additional implementation information:

A): on Indicators 2.4.1 – 2.4.3 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “2.4.3: [.. additional information ...]”

2.4.2: Not applicable in the case of Lesotho

B): on any other aspects of Strategy 2.4 national implementation:

STRATEGY 2.5 *Promote inventory and integrated management of shared wetlands and hydrological basins, including cooperative monitoring and management of shared wetland-dependent species.*

Indicator questions:

2.5.1 Have all transboundary/shared wetland systems been identified? {12.1.1}	B - No
2.5.2 Is effective cooperative management in place for shared wetland systems (including regional site and waterbird flyway networks)? {12.1.2; 12.2.2} [If “Yes” or “Partly”, please indicate in Additional implementation information below for which wetland systems such management is in place]	B - No

Additional implementation information:

A): on Indicators 2.5.1 – 2.5.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “2.5.1: [.. additional information ...]”

B): on any other aspects of Strategy 2.5 national implementation:

STRATEGY 2.6 *Support existing regional arrangements under the Convention and promote additional arrangements.*

Indicator questions:

2.6.1 Has the Contracting Party been involved in the development of a regional initiative under the framework of the Convention? {12.3.2}

[If “Yes” or “Planned”, please indicate in Additional implementation information below the name(s) and collaborating countries of each regional initiative]

B - No

Additional implementation information:

A): on Indicator 2.6.1

B): on any other aspects of Strategy 2.6 national implementation:

The IWMI which is a Ramsar IOP has undertaken a regional project on wetlands in which Lesotho has participated. It is titled 'Sustainable Management of Inlands Wetlands in Southern Africa: a Livelihoods ad Ecosystems Approach'

GOAL 3. INTERNATIONAL COOPERATION

STRATEGY 3.1 *Collaboration with other institutions: Work as partners with international and regional multilateral environmental agreements (MEAs) and other agencies.*

Indicator questions:

3.1.1 Are mechanisms in place at the national level for collaboration between the Ramsar Administrative Authority and the focal points of other multilateral environmental agreements (MEAs)? {13.1.1}	A - Yes
3.1.2 Are the national focal points of other MEAs invited to participate in the National Ramsar/Wetland Committee? {r13.1.iii}	A - Yes
3.1.3 [For African Contracting Parties only] Has the Contracting Party participated in the implementation of the wetland programme under NEPAD? {13.1.6}	D - Planned

Additional implementation information:

A): on Indicators 3.1.1 – 3.1.3 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “3.1.3: [.. additional information ...]”

3.1.1 There has been an establishment of a Joint National Committee for MEA's since 2005 when the National Capacity Self Assessment (NCSA) on the implementation of MEA's was undertaken. This committee includes Focal Points for UNCBD, UNFCCC, UNCCD, CITES and Ramsar.

B): on any other aspects of Strategy 3.1 national implementation:

STRATEGY 3.2 *Sharing of expertise and information: Promote the sharing of expertise and information.*

Indicator questions:

3.2.1 Have networks, including twinning arrangements, been established, nationally or internationally, for knowledge sharing and training for wetlands that share common features? {14.1.3} <small>[If “Yes” or “Partly”, please indicate in Additional implementation information below the networks and wetlands involved]</small>	B - No
3.2.2 Has information about the country's wetlands and/or Ramsar sites and their status been made publicly available (e.g., through publications or a Web site)? {14.1.1}	B - No

Additional implementation information:

A): on Indicators 3.2.1-3.2.2

3.2.2 There is an ongoing public awareness campaign to make information on wetlands available. These campaigns includes Ramsar sites and their importance. However, there has not been any notable publications

B): on any other aspects of Strategy 3.2 national implementation:

GOAL 4. IMPLEMENTATION CAPACITY

STRATEGY 4.1 *Local communities, indigenous people, and cultural values: Encourage active and informed participation of local communities and indigenous people, including women and youth, in the conservation and wise use of wetlands, including in relation to understanding the dynamics of cultural values.*

Indicator questions:

4.1.1 Has resource information been compiled on local communities' and indigenous people's participation in wetland management? {6.1.5}	B - No
4.1.2 Have traditional knowledge and management practices in relation to wetlands been documented and their application encouraged? {6.1.2}	B - No
4.1.3 Does the Contracting Party promote public participation in decision-making (with respect to wetlands), especially with local stakeholder involvement in the selection of new Ramsar sites and in Ramsar site management? {6.1.4}	C - Partly
4.1.4 Have educational and training activities been developed concerning cultural aspects of wetlands? {r6.1.vii}	B - No
4.1.5 Have cultural values of wetlands been included in the management planning of Ramsar sites and other wetlands? {r.6.1.vi} <small>[if "Yes" or "Partly", please indicate, if known, how many Ramsar sites and their names in Additional implementation information below]</small>	D - Planned

Additional implementation information:

A): on Indicators 4.1.1 – 4.1.5 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. "4.1.3: [.. additional information ...]"

4.1.3 Consultations with local communities are included as part of designation of Ramsar sites. This will also be instrumental in the planned designation of Ramsar sites.

B): on any other aspects of Strategy 4.1 national implementation:

STRATEGY 4.2 *Promote the involvement of the private sector in the conservation and wise use of wetlands.*

Indicator questions:

4.2.1 Is the private sector encouraged to apply the wise use principle in activities and investments concerning wetlands? {7.1.1}	C - Partly
4.2.2 Have private-sector "Friends of Wetlands" fora or similar mechanisms been established? {7.1.4} <small>[If "Yes" or "Partly", please indicate in Additional implementation information below the private sector companies involved]</small>	B - No

Additional implementation information:

A): on Indicators 4.2.1 – 4.2.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “4.2.2: [.. additional information ...]”

4.2.1 Some mining companies have undertaken to protect wetlands within their areas and try as much as possible not to disturb them. When the damage to a wetlands becomes unavoidable, there is an obligation to participate in the rehabilitation of a wetlands outside the mining territory. This agreements usually takes place when the EIA is being undertaken and mitigation measures are being explored.

B): on any other aspects of Strategy 4.2 national implementation:

The Private Sector is mostly not involved except when their activities directly link to wetlands.

STRATEGY 4.3 *Promote measures which encourage the application of the wise use principle.*

Indicator questions:

4.3.1 Have actions been taken to promote incentive measures which encourage the conservation and wise use of wetlands? {8.1.1}	D - Planned
4.3.2 Have actions been taken to remove perverse incentive measures which discourage conservation and wise use of wetlands? {8.1.1}	D - Planned

Additional implementation information:

A): on Indicators 4.3.1 – 4.3.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “4.3.2: [.. additional information ...]”

B): on any other aspects of Strategy 4.3 national implementation:

STRATEGY 4.4 *Support, and assist in implementing at all levels, the Convention’s Communication, Education, and Public Awareness Programme (Resolution VIII.31) for promoting the conservation and wise use of wetlands through public participation and communication, education, and public awareness (CEPA).*

Indicator questions:

4.4.1 Has a mechanism for planning and implementing wetland CEPA (National Ramsar/Wetland Committee or other mechanism) been established with both CEPA Government and NGO National Focal Point (NFP) involvement? {r9.iii.ii} [If “Yes” or “Partly”, please describe in Additional implementation information below the mechanism]	B - No
4.4.2 Has a National Action Plan (or plans at the subnational, catchment or local level) for wetland CEPA been developed? {r.9.iii.iii} [Even if a National Action Plan has not yet been developed, if broad CEPA objectives for national CEPA actions have been established please indicate this in the Additional implementation information section for Strategy 4.4]	B - No

4.4.3 Have actions been taken to communicate and share information cross-sectorally on wetland issues amongst relevant ministries, departments and agencies? {r9.iii.v}	A - Yes
4.4.4 Have national campaigns, programmes, and projects been carried out to raise community awareness of the ecosystem benefits/services provided by wetlands? {r9.vi.i} [If: a) support has been provided for the delivery of these and other CEPA activities by other organisations; and/or b) these have included awareness-raising for social, economic and/or cultural values, please indicate this in the Additional implementation information section for Strategy 4.4 below]	A - Yes
4.4.5 Have World Wetlands Day activities in the country, either government and NGO-led or both, been carried out? {r9.vi.ii}	A - Yes
4.4.6 Have education centres been established at Ramsar sites and other wetlands? {r9.viii.i} [If any such centres are part of the Wetland Link International (WLI) Programme of the Wildfowl & Wetland Trust, UK, please indicate this in the Additional implementation information section for Strategy 4.4 below]	B - No

Additional implementation information:

A): on Indicators 4.4.1 – 4.4.6 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “4.4.3: [.. additional information ...]”

4.4.4 There is an ongoing campaign by the Wetlands Unit on the importance of wetlands in Lesotho.

4.4.5 Wetlands Day celebrations have been undertaken in some years, in 2007 the Lesotho Highlands Water Development Authority (LHDA) led the activities of that day.

B): on any other aspects of Strategy 4.4 national implementation:

STRATEGY 4.5 *Promote international assistance to support the conservation and wise use of wetlands, while ensuring that environmental safeguards and assessments are an integral component of all development projects that affect wetlands, including foreign and domestic investments.*

Indicator questions:

4.5.1 [For Contracting Parties with development assistance agencies only] Has funding support been provided from the development assistance agency for wetland conservation and management in other countries? {15.1.1} [If “Yes” or “Some countries”, please indicate in Additional implementation the countries supported since COP9]	B - No
4.5.2 [For Contracting Parties in receipt of development assistance only] Has funding support been mobilized from development assistance agencies specifically for in-country wetland conservation and management? {15.1.8} [If “Yes” or “Some countries”, please indicate in Additional implementation the agencies from which support has been received since COP9]	A - Yes

Additional implementation information:

A): on Indicators 4.5.1 – 4.5.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “4.5.2: [.. additional information ...]”

4.5.2 Lesotho has mobilised assistance to undertake a project on wetlands conservation and contribution to watershed management and rural livelihoods from the United States Millennium Challenge Corporation due to start in late 2008. Also through the Orange/Senqu River Basin Commission (ORASECOM) which is made up riparian states to the Orange/Senqu River, funding has been mobilised to undertake a feasibility study on the conservation options of the Upper Senqu wetlands (which are in Lesotho), funding has been secured from the French GEF and this programme started in November 2007 and is scheduled for 8 months

B): on any other aspects of Strategy 4.5 national implementation:

STRATEGY 4.6 Provide the financial resources required for the Convention’s governance, mechanisms and programmes to achieve the expectations of the Conference of the Contracting Parties.

Indicator questions:

4.6.1 {16.1.1}	
a) For the last triennium have Ramsar contributions been paid in full and in a timely manner (by 31 March of calendar year)?	A - Yes
b) If “No” in 4.6.1 a), please clarify what plan is in place to ensure future prompt payment:	

4.6.2 {16.1.2}	
a) Has any additional financial support been provided through voluntary contributions to the Ramsar Small Grants Fund or other non-core funded Convention activity?	B - No
b) If yes, please state the amounts:	

Additional implementation information:

A): on Indicators 4.6.1 – 4.6.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “4.6.2: [.. additional information ...]”

B): on any other aspects of Strategy 4.6 national implementation:

STRATEGY 4.7 *Ensure that the Conference of the Contracting Parties, Standing Committee, Scientific and Technical Review Panel, and Ramsar Secretariat are operating at a high level of efficiency and effectiveness to support implementation of this Framework.*

Indicator questions:

4.7.1 Has the Contracting Party used its previous Ramsar National Reports in monitoring its implementation of the Convention?

[If “Yes” or “Partly”, please indicate in Additional implementation information how the Reports have been used for monitoring]

C - Partly

Additional implementation information:

A): on Indicator 4.7.1

4.7.1 The previous Ramsar National Report has been used to monitor progress in some areas, and has shown that the country has not satisfied its plan to designate more Ramsar Sites

B): on any other aspects of Strategy 4.7 national implementation:

STRATEGY 4.8 *Develop the capacity within, and promote cooperation among, institutions in Contracting Parties to achieve conservation and wise use of wetlands.*

Indicator questions:

4.8.1 Has a review of national institutions responsible for the conservation and wise use of wetlands been completed? {18.1.1}

[If “Yes” or “Partly”, please indicate in Additional implementation information if this has led to proposals for, or implementation of, any changes in institutional responsibilities]

A - Yes

4.8.2 Is a National Ramsar/Wetlands cross-sectoral Committee (or equivalent body) in place and operational? {18.1.2}

[If “Yes”, please summarise in Additional implementation information its membership and frequency of meetings]

A - Yes

Additional implementation information:

A): on Indicators 4.8.1 – 4.8.2 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “4.8.2: [.. additional information ...]”

4.8.1 There are a number of institutions/ agencies dealing with wetlands management programme. These include Range Management, Soil and Water Conservation, National Environment Secretariat, Lesotho Highlands Development Authority, National University of Lesotho, Department of Water Affairs; Community based Organizations and Traditional Local Structures. The functions of these institutions in wetlands management are elaborated in the National Wetlands Management Programme adopted in 2005. The Wetlands Unit of the Department of Water Affairs has been given the the role of a lead institution in the management of wetlands.

4.8.2 As part of its efforts to improve the conservation and management of wetlands in Lesotho, a National Wetlands Committee was established. The role of this committee is to facilitate the formulation, implementation and monitoring of wetlands projects, facilitate research activities on wetlands and formulate guidelines and standards for sustainable use of wetlands. Institutions dealing with wetlands management are members of this committee. The committee meets once in three months.

The Committee was initiated when Lesotho was finalising its plans to accede to the Ramsar Cnvention in 2004. After the accession it continued being the advisory body to the wetlands conservation issues in the country. Membership of the Committee is drawn from the organisations mentioned above with an interest in Wetlands issues. HOverver, the Committee membership is reviewed regularly and new members are invited or co-opted when there is a particular need for expertise or any input.

B): on any other aspects of Strategy 4.8 national implementation:

STRATEGY 4.9 *Maximize the benefits of working with the Convention's International Organization Partners (IOPs*) and others.*

Indicator question:

<p>4.9.1 Has your country received assistance from one or more of the Convention's IOPs* in its implementation of the Convention? [If "Yes", please provide in Additional implementation information the name(s) of the IOP(s) and the type of assistance provided]</p>	A - Yes
<p>4.9.2 Has your country provided assistance to one or more of the Convention's IOPs*? [If "Yes", please provide in Additional implementation information the name(s) of the IOP(s) and the type of assistance provided]</p>	B - No

* The IOPs are: BirdLife International, International Water Management Institute (IWMI), Wetlands International, The World Conservation Union (IUCN), and WWF International.

Additional implementation information:

A): on Indicators 4.9.1-4.9.2

4.9.1 The IWMI has a Project in Southern Africa in which Lesotho participates. Through the SADC Project on Wetlands Conservation undertaken by IUCN-Regional Office for Southern Africa, Lesotho has benenefited a lot on capacity building initiatives of that programme

B): on any other aspects of Strategy 4.9 national implementation:

STRATEGY 4.10 *Identify the training needs of institutions and individuals concerned with the conservation and wise use of wetlands, particularly in developing countries and countries in transition, and implement appropriate responses.*

Indicator questions:

<p>4.10.1 Has your country provided support to, or participated in, the development of regional (i.e., covering more than one country) wetland training and research centres? [If “Yes”, please indicate in Additional implementation information the name(s) of the centre(s)]</p>	<p>D - Planned</p>
<p>4.10.2 Has an assessment of national and local training needs for the implementation of the Convention, including in the use of the Wise Use Handbooks, been made? {20.1.2}</p>	<p>B - No</p>
<p>4.10.3 Have opportunities for wetland site manager training in the country been provided? {20.1.6}</p>	<p>B - No</p>

Additional implementation information:

A): on Indicators 4.10.1 – 4.10.3 For each piece of additional information text, please clearly identify to which indicator number it refers – e.g. “4.10.3: [.. additional information ...]”

[Redacted area]

B): on any other aspects of Strategy 4.10 national implementation:

[Redacted area]
