

NATIONAL REPORT ON THE IMPLEMENTATION OF THE RAMSAR CONVENTION ON WETLANDS

**National Reports to be submitted to the 11th Meeting
of the Conference of the Contracting Parties,
Romania, June 2012**

Please submit the completed National Report, in electronic (Microsoft Word) format, and preferably by e-mail, to the Ramsar Secretariat by **15 September 2011**.

National Reports should be sent to: Alexia Dufour, Regional Affairs Officer, Ramsar Secretariat (dufour@ramsar.org)

Introduction & background

1. This National Report Format (NRF) has been approved by the Standing Committee in Decision SC41-24 for the Ramsar Convention's Contracting Parties to complete as their national reporting to the 11th meeting of the Conference of the Contracting Parties of the Convention (Bucharest, Romania, June 2012).
2. Following Standing Committee discussions at its 40th meeting in May 2009, and its Decision SC40-29, this COP11 National Report Format closely follows that used for the COP10 National Report Format, which in turn was a significantly revised and simplified format in comparison with the National Report Formats provided to previous recent COPs.
3. In addition to thus permitting continuity of reporting and implementation progress analyses by ensuring that indicator questions are as far as possible consistent with previous NRFs (and especially the COP10 NRF), this COP11 NRF is structured in terms of the Goals and Strategies of the 2009-2015 Ramsar Strategic Plan adopted at COP10 as Resolution X.1, and the indicators speak to relevant Key Result Areas (KRAs) for each Strategy in the Strategic Plan.
4. The COP11 NRF indicators include, with the agreement of the Standing Committee, certain indicators specifically requested to be included by the Convention's Scientific and Technical Review Panel (STRP) in light of its work on assessing effectiveness indicators, and by the CEPA Oversight Panel, in order to facilitate their information gathering and reporting on key aspects of scientific, technical and CEPA implementation under the Convention. The format also includes indicator questions concerning the use of the "Changwon Declaration on human well-being and wetlands", as requested in Resolution X.3 (2008).
5. This COP11 NRF includes 82 indicator questions. In addition, for each Strategy the option is provided for a Contracting Party, if it so wishes, to supply additional information concerning its implementation under each indicator and, more generally, on implementation of other aspects of each Strategy.
6. The COP11 Format also now includes an additional, optional, section (section 4) to permit a Contracting Party to provide additional information, if it wishes to, on indicators relevant to individual Wetlands of International Importance (Ramsar Sites).

The purposes and uses of national reporting to the Conference of the Contracting Parties

7. National Reports from Contracting Parties are official documents of the Convention and are made publicly available through their posting on the Convention's website.
8. There are six main purposes for the Convention's National Reports. These are to:
 - i) provide data and information on how the Convention is being implemented;
 - ii) capture lessons and experience to help Parties develop future action;
 - iii) identify emerging issues and implementation challenges faced by Parties that may require further attention from the Conference of the Parties;
 - iv) provide a means for Parties to be accountable for their commitments under the Convention;

- v) provide each Party with a tool to help it assess and monitor its progress in implementation, and to plan its future priorities; and
 - vi) provide an opportunity for Parties to draw attention to their achievements during the triennium.
9. The data and information provided by Parties in their National Reports have another valuable purpose as well, since a number of the indicators in the National Reports on Parties' implementation provide key sources of information for the analysis and assessment of the "ecological outcome-oriented indicators of effectiveness of the implementation of the Convention" currently being further developed by the Scientific and Technical Review Panel for Standing Committee and COP11 consideration.
10. To facilitate the analysis and subsequent use of the data and information provided by Contracting Parties in their National Reports, once received and verified by the Ramsar Secretariat all information is entered and held by the Secretariat in a database, which then facilitates extraction and analysis of the information for a number of purposes.
11. The Convention's National Reports are used in a number of ways. These include:
- i) providing the basis for reporting by the Secretariat to each meeting of the Conference of the Parties on the global and regional implementation, and the progress in implementation, of the Convention. This is provided to Parties at the COP as a series of Information Papers, including:
 - the Report of the Secretary General on the implementation of the Convention at the global level (see, e.g., COP10 DOC. 6);
 - the Report of the Secretary General pursuant to Article 8.2 (b), (c), and (d) concerning the List of Wetlands of International Importance (see, e.g., COP10 DOC. 7); and
 - the reports providing regional overviews of the implementation of the Convention and its Strategic Plan in each Ramsar region (see, e.g., COP10 DOCs 8-13);
 - ii) providing information on specific implementation issues in support of the provision of advice and decisions by Parties at the COP. Examples at CO9 and COP10 included:
 - Resolution IX.15 and X.13, *The status of sites in the Ramsar List of Wetlands of International Importance*, and
 - Information Papers on *Issues and scenarios concerning Ramsar Sites or parts of sites which cease to meet or never met the Ramsar Criteria* (COP9 DOC. 15), *Implementation of the Convention's CEPA Programme for the period 2003-2005* (COP9 DOC. 25), *Overview of the implementation of the Convention's CEPA Programme for the period 2006-2008* (COP10 DOC. 16, and *Background and rationale to the Framework for processes of detecting, reporting and responding to change in wetland ecological character* (COP10 DOC. 27);
 - iii) providing the source data for time-series assessments of progress on specific aspects in the implementation of the Convention included in other Convention products. An example is the summary of progress since COP3 (Regina, 1997) in the development

of National Wetland Policies, included as Table 1 in Ramsar Wise Use Handbook 2 (4th edition, 2010); and

- iv) providing information for reporting to the Convention on Biological Diversity (CBD) on the national-level implementation of the CBD/Ramsar Joint Work Plan and the Ramsar Convention's lead implementation role on wetlands for the CBD. In particular, the COP10 NRF indicators have been used extensively in 2009 in the preparation by the Ramsar Secretariat and STRP of contributions to the in-depth review of the CBD programme of work on the biological diversity of inland water ecosystems that was being considered by CBD SBSTTA14 and COP10 during 2010 (see UNEP/CBD/SBSTTA/14/3).

The structure of the COP11 National Report Format

12. The COP11 National Report Format is in four sections.

Section 1 provides the Institutional Information about the Administrative Authority and National Focal Points for the national implementation of the Convention.

Section 2 is a “free-text” section in which the Party is invited to provide a summary of various aspects of national implementation progress and recommendations for the future.

Section 3 provides the 82 implementation indicator questions, grouped under each Convention implementation strategy in the Strategic Plan 2009-2015, and with an optional “free-text” section under each indicator question in which the Contracting Party may, if it wishes, add further information on national implementation of that activity; and a further “free-text” section for adding further information on other aspects of implementation of that Strategy.

Section 4 (www.ramsar.org/doc/cop11/cop11_nrform_e_sec4.doc) is an optional Annex to the National Report Format to allow any Contracting Party that wishes to do so to provide additional information separately for any or all of its Wetlands of International Importance (Ramsar Sites). This has been included at the request of a number of Parties.

Guidance for filling in and submitting the COP11 National Report Format

IMPORTANT – PLEASE READ THIS SECTION OF GUIDANCE BEFORE STARTING TO FILL IN THE NATIONAL REPORT FORMAT

13. All of the first three Sections of the COP11 National Report Format should be completed in one of the Convention's official languages (English, French, Spanish).
14. The deadline for submission of the completed NRF is **15 September 2011**. It will not be possible to include information from National Reports received after that date in the analysis and reporting on Convention implementation to COP11.
15. All fields with a pale yellow background  must be filled in.
16. Fields with a pale green background  are optional free-text fields in which to provide additional information, if the Contracting Party so wishes. Although providing information in these fields in the NRF is optional, Contracting Parties are encouraged to provide such additional information wherever possible and relevant, since experience

shows that such explanatory information is very valuable in ensuring a full understanding of implementation progress and activity, notably in informing the preparation of global and regional implementation reports to COP.

17. In order to assist Contracting Parties in providing such additional information, for a number of indicator questions some particularly helpful types of such information are suggested. However, of course, Parties are free to add any other relevant information they wish in any of the “Additional implementation information” fields.
18. The Format is created as a “Form” in Microsoft Word. You are only able to move to each of the yellow or green boxes to give your replies and information, as all other parts of the form are locked to ensure that the form and wording of indicators will remain uniform and comparable for all Parties. If you need to work with an unlocked version of the Format, please contact Alexia Dufour, Regional Affairs Officer (dufour@ramsar.org), who will advise on how that can be done.
19. To go to a yellow or green field you wish to fill in, move the cursor over the relevant part of the form and left-click the mouse. The cursor will automatically move to the next field available.
20. To move down the sequence of fields to fill in, you can also use the “Tab” key on the computer keyboard.
21. For a “free-text” field, you can type in whatever information you wish. If you wish to amend any of the text you have put in a green or yellow “free-text” box, it is recommended that you cut-and-paste the existing text into a separate file, make the amendments, and then cut-and-paste the revised text back into the green box – this is because within the Microsoft “Form” format there is limited facility to make editorial changes in the “free-text” box once text has been entered.
22. Certain keyboard characters interfere with the automatic data entry into our database for handling and analysing National Reports. For that reason, please do not use the characters “ ”, [] °°°° in the “free text” fields.
23. For each of the “Indicator questions” in Section 3, a drop-down menu of answer options is provided. These vary between indicators, depending on the question, but are generally of the form: “Yes”, “No”, “Partly”, “In progress”, etc. This is necessary so that statistical comparisons can be made of the replies.
24. For each indicator question you can choose only one answer. If you wish to provide further information or clarifications concerning your answer, you can do so in the green additional information box below the relevant indicator question.
25. To select an answer to an indicator question, use the Tab key, or move the cursor over the relevant yellow box and left-click the mouse. The drop-down menu of answer options will appear. Left-click the mouse on the answer option you choose, and this will appear in the centre of the yellow box.
26. The NRF is not intended normally to be filled in by one person alone – for many indicators it would seem best for the principal compiler to consult with colleagues in the same and other agencies within the government who might have fuller knowledge of the Party’s overall implementation of the Convention. The principal compiler can save the

work at any point in the process and return to it subsequently to continue or to amend answers previously given. When filling in this form, it is also advised to refer back to the National Report submitted for COP10 for purposes of continuity and consistency.

27. After each session working on the NRF, remember to save the file! A recommended filename structure is: COP11NRF [Country] [date].
28. After the NRF has been completed, please send the completed National Report to the Ramsar Secretariat, preferably by e-mail, to Alexia Dufour, Regional Affairs Officer, Ramsar Convention Secretariat, e-mail: dufour@ramsar.org. The Secretariat must receive your completed National Report in this electronic (Microsoft Word) format.
29. When the completed National Report is submitted by the Party, **it must be accompanied by a letter or e-mail message in the name of the Administrative Authority, confirming that this is that Contracting Party's official submission of its COP11 National Report.**
30. If you have any questions or problems concerning filling in the COP11 NRF, please contact the Ramsar Secretariat for advice (e-mail as above).

SECTION 1: INSTITUTIONAL INFORMATION

NAME OF CONTRACTING PARTY: GEORGIA	
DESIGNATED RAMSAR ADMINISTRATIVE AUTHORITY	
Name of Administrative Authority:	Ministry of Environment Protection of Georgia
Head of Administrative Authority - name and title:	Giorgi Khachidze, Minister
Mailing address:	6 Gulua street, 0114, Tbilisi, Georgia
Telephone/Fax:	+995 32 2727200
Email:	
DESIGNATED NATIONAL FOCAL POINT FOR RAMSAR CONVENTION MATTERS	
Name and title:	Anna Rukhadze, Main specialist of Biodiversity Protection Service
Mailing address:	6 Gulua street, 0114, Tbilisi, Georgia
Telephone/Fax:	+995 32 2727231
Email:	Biodepbio@moe.gov.ge; anarukhadze@yahoo.com
DESIGNATED NATIONAL FOCAL POINT FOR MATTERS RELATING TO STRP (SCIENTIFIC AND TECHNICAL REVIEW PANEL)	
Name and title of focal point:	Dr Gia Sopadze
Name of organisation:	Ivane Javakhishvili Tbilisi State University, Department of Geography
Mailing address:	1, Ilia Chavchavadze Ave., 0115 Tbilisi, Georgia
Telephone/Fax:	+995 32 2366014
Email:	info@ecovision.ge
DESIGNATED GOVERNMENT NATIONAL FOCAL POINT FOR MATTERS RELATING TO THE CEPA PROGRAMME ON COMMUNICATION, EDUCATION, PARTICIPATION AND AWARENESS	
Name and title of focal point:	
Name of organisation:	
Mailing address:	
Telephone/Fax:	
Email:	
DESIGNATED NON-GOVERNMENT NATIONAL FOCAL POINT FOR MATTERS RELATING TO THE CEPA PROGRAMME ON COMMUNICATION, EDUCATION, PARTICIPATION AND AWARENESS	
Name and title:	Levan Butkhuzi
Name of organisation:	NACRES - Centre for Biodiversity Conservation and Research
Mailing address:	PO Box 20, Tbilisi, 0179, Georgia
Telephone/Fax:	+995 32 223 3706 and +995 32 253 71 25
Email:	administrator@nacres.org

SECTION 2: GENERAL SUMMARY OF NATIONAL IMPLEMENTATION PROGRESS AND CHALLENGES

In your country, in the past triennium (i.e., since COP10 reporting):

A. What new steps have been taken to implement the Convention?

Parliament of Georgia adopted law on Establishment and Management of Javakheti Protected Areas On 22 March, 2011 with total area 14206,83 ha. According to the law managed reserves (IUCN category IV) have been established on Khanchali, Bugdasheni, Madatafa and Kartsakhi lakes, which represent globally important areas for migratory birds.

Measures were implemented in Kolkehti National Park and Kobuleti protected areas (Wetlands of International importance) for further development of infrastructure, public awareness and education, overall management of the wetlands.

According to the requirement of CBD Ministry of Environment Protection initiated in May 2011 the process of revising NBSAP. First NBSAP Consultative Workshop held in July 2011 with participation of 18 biodiversity experts. Workshop elaborated tentative structure and strategic thematic components of the future NBSAP of Georgia. New Chapters on Biodiversity of Black Sea and Internal waters will be added to the content of NBSAP. Consequently, wetlands conservation and management strategy will be revised and respective action plan for 2012-2015 will be elaborated in Georgia.

Management plan for Ktsia -Tabatskuri Managed Reserve has been developed. Infrastructure development has been finished. The managed reserve covers such important areas as Lake Tabatskuri and mountain wetlands.

Georgia hosted 41st Meeting of the Standing Committee in 2010. The event was widely highlighted by local and national media. This gave excellent visibility for Georgian wetlands and helped raise awareness of both the general public and decision-makers in the country.

B. What have been the most successful aspects of implementation of the Convention?

Establishment of Javakheti Protected Areas

C. What have been the greatest difficulties in implementing the Convention?

No wetlands inventory has been accomplished until now in Georgia.

More support is needed to ensure effective functioning of the Council on wetlands management issues.

Due to a lack of modern and effective tools for data collection, storage and analysis the identification of actual changes in wetlands conditions has become quite difficult; this, in its turn, has made the assessment of the current state and trends of wetlands significantly more complicated.

D. What are the priorities for future implementation of the Convention?

Inventory of the wetlands

Establishment of the monitoring system

E. Does the Contracting Party have any proposals concerning adjustments to the 2009-2015 Strategic Plan?

No comments

F. Does the Contracting Party have any recommendations concerning implementation assistance from the Ramsar Secretariat?

Assistance in the inventory of the wetlands and establishment of the monitoring system

G. Does the Contracting Party have any recommendations concerning implementation assistance from the Convention's International Organisation Partners (IOPs)?

Assistance in the inventory of the wetlands and establishment of the monitoring system

H. How can national implementation of the Ramsar Convention be better linked with implementation of other multilateral environmental agreements (MEAs), especially those in the "Biodiversity cluster" (Ramsar, Convention on Biological Diversity (CBD), Convention on Migratory Species (CMS), CITES, and World Heritage Convention), and UNCCD and UNFCCC?

Inclusion of representatives of administrative authorities of other multilateral agreements into National Wetlands Committees

Harmonization of the planning and reporting process

I. How can Ramsar Convention implementation be better linked with the implementation of water policy/strategy and other strategies in the country (e.g., sustainable development, energy, extractive industries, poverty reduction, sanitation, food security, biodiversity)?

Establishment of the inter sectoral committees

J. Does the Contracting Party have any other general comments on the implementation of the Convention?

No comments

SECTION 3: INDICATOR QUESTIONS & FURTHER IMPLEMENTATION INFORMATION

Guidance for filling in this section

1. For each “indicator question”, please select one answer from the “drop-down” list in the yellow box.
2. If you wish to add any additional information on a specific indicator, please provide this information in the green “free-text” boxes below the indicator questions.
3. If you wish to amend any of the text you have put in a green “free-text” box, it is recommended that you cut-and-paste the existing text into a separate file, make the amendments, and then paste the revised text back into the green box.
4. Some characters used in the free text box prevent the automatic data entry into our database designed for handling and analysing National Reports. For that reason, please do not use the characters “ ”, [], °°°° in the free text box.
5. To assist Contracting Parties in referring to relevant information they provided in their National Report to COP10, for each indicator below (where appropriate) a cross-reference is provided to the equivalent indicator(s) in the COP10 NRF, shown thus: {x.x.x}
6. Where appropriate, a cross-reference is also provided to the relevant Key Result Area (KRA) relating to Contracting Parties in the Strategic Plan 2009-2015.
7. Only Strategic Plan 2009-2015 Strategies and KRAs for which there are significant implementation actions for Contracting Parties are included in this reporting format; those parts of the Strategic Plan that do not refer directly to Parties are omitted.

GOAL 1. THE WISE USE OF WETLANDS

STRATEGY 1.1 Wetland inventory and assessment. *Describe, assess and monitor the extent and condition of all types of wetlands as defined by the Ramsar Convention and wetland resources at relevant scales, in order to inform and underpin implementation of the Convention, in particular in the application of its provisions concerning the wise use of all wetlands.*

1.1.1 Does your country have a comprehensive National Wetland Inventory? {1.1.1} KRA 1.1.i	B - No
1.1.1 Additional information:	
1.1.2 Is wetland inventory data and information maintained and made accessible to all stakeholders? {1.1.2} KRA 1.1.ii	B - No
1.1.2 Additional information:	

<p>1.1.3 Has the condition* of wetlands in your country, overall, changed since the previous triennium?{1.1.3 & 1.1.4}</p> <p>a) Ramsar Sites b) wetlands generally</p> <p>Please comment on the nature of the information on which your answer is based in the green free- text box below. If there is a difference between inland and coastal wetland situations, please describe. If you are able to, please comment on what are the principal driver(s) of the change(s).</p> <p>* "Condition" corresponds to ecological character, as defined by the Convention</p>	<p>O - No change O - No change</p>
1.1.3 a) Additional information:	
1.1.3 b) Additional information:	

Additional information on any other aspects of Strategy 1.1 implementation:

STRATEGY 1.3 Policy, legislation and institutions. *Develop and implement policies, legislation, and practices, including growth and development of appropriate institutions, in all Contracting Parties, to ensure that the wise use provisions of the Convention are being effectively applied.*

<p>1.3.1 Is a National Wetland Policy (or equivalent instrument) in place? {1.2.1} KRA 1.3.i (If "Yes", please give the title and date of the policy in the green text box)</p>	<p>A - Yes</p>
1.3.1 Additional information:	
<p>1.3.2 Does the National Wetland Policy (or equivalent instrument) incorporate any 2002 World Summit on Sustainable Development (WSSD) targets and actions? {1.2.2}</p>	<p>B - No</p>
1.3.2 Additional information:	
<p>1.3.3 Have wetland issues been incorporated into other national strategies and planning processes, including:</p> <p>a) Poverty eradication strategies b) Water resource management and water efficiency plans c) Coastal and marine resource management plans d) National forest programmes e) National strategies for sustainable development f) National policies or measures on agriculture g) National Biodiversity Strategy and Action Plans {1.2.3} KRA 1.3.i</p>	<p>B - No B - No B - No B - No B - No B - No A - Yes</p>

1.3.3 Additional information:

1.3.4 Are Strategic Environmental Assessment practices applied when reviewing policies, programmes and plans that may impact upon wetlands? {1.2.5} KRA 1.3.ii

B - No

1.3.4 Additional information:

1.3.5 For any project development (new buildings, new roads, extractive industry, etc.) that may affect wetlands, are Environmental Impact Assessments made?

A - Yes

1.3.5 Additional information:

1.3.6 Have any amendments to existing legislation been made to reflect Ramsar commitments?

B - No

1.3.6 Additional information:

Additional information on any other aspects of Strategy 1.3 implementation:

STRATEGY 1.4: Cross-sectoral recognition of wetland services. *Increase recognition of and attention in decision-making to the significance of wetlands for reasons of biodiversity conservation, water supply, coastal protection, integrated coastal zone management, flood defence, climate change mitigation and/or adaptation, food security, poverty eradication, tourism, cultural heritage, and scientific research, by developing and disseminating methodologies to achieve wise use of wetlands.*

1.4.1 Has an assessment been conducted of the ecosystem benefits/services provided by Ramsar Sites? {1.3.1} KRA 1.4.ii

B - No

1.4.1 Additional information:

1.4.2 Have wetland programmes and/or projects that contribute to poverty alleviation objectives and/or food and water security plans been implemented? {1.3.2} KRA 1.4.i

B - No

1.4.2 Additional information:

1.4.3 Has national action been taken to apply the guiding principles on cultural values of wetlands (Resolutions VIII.19 and IX.21)? {1.3.4} KRA 1.4.iii

B - No

1.4.3 Additional information:

1.4.4 Have socio-economic and cultural values of wetlands been included in the management planning for Ramsar Sites and other wetlands? {4.1.5} KRA 1.4.iii

C - Partly

1.4.4 Additional information (if "Yes" or "Partly", please indicate, if known, how many Ramsar Sites and their names):

Additional information on any other aspects of Strategy 1.4 implementation:

STRATEGY 1.5 Recognition of the role of the Convention. *Raise the profile of the Convention by highlighting its capacity as a unique mechanism for wetland ecosystem management at all levels; promote the usefulness of the Convention as a possible implementation mechanism to meet the goals and targets of other global conventions and processes*

1.5.1 Have you taken steps to ensure that your national focal points for other environmental conventions are contributing to the application of Ramsar Convention implementation mechanisms? KRA 1.5.i

C - Partly

1.5.1 Additional information:

1.5.2 Have you brought the "Changwon Declaration" (Resolution X.3) to the attention of your:

- a. head of state
- b. parliament
- c. private sector
- d. civil society

B - No

B - No

B - No

B - No

1.5.2 Additional information:

1.5.3 Has the "Changwon Declaration" been used to inform the positions of your national delegations to other external processes (such as the UN Commission on Sustainable Development, UN agencies, multilateral environmental agreements, and the World Water Forum)?

B - No

1.5.3 Additional information:

1.5.4 Have you translated and disseminated the "Changwon Declaration" into local languages relevant for your country?

B - No

1.5.4 Additional information:

Additional information on any other aspects of Strategy 1.5 implementation:

STRATEGY 1.6 Science-based management of wetlands. *Promote successful implementation of the wise use concept by ensuring that national policies and wetland management plans are based on the best available scientific knowledge, including technical and traditional knowledge.*

1.6.1 Has research to inform wetland policies and plans been undertaken in your country on:

- a. agriculture-wetland interactions
- b. climate change
- c. valuation of ecosystem services

KRA 1.6.i

B - No

A - Yes

B - No

1.6.1 Additional information:

1.6.2 Have all wetland management plans been based on sound scientific research, including on potential threats to the wetlands? KRA 1.6.ii

C - Partly

1.6.2 Additional information:

Additional information on any other aspects of Strategy 1.6 implementation:

STRATEGY 1.7 Integrated Water Resources Management. *Ensure that policies and implementation of Integrated Water Resources Management (IWRM), applying an ecosystem-based approach, are included in the planning activities in all Contracting Parties and in their decision-making processes, particularly concerning groundwater management, catchment/river basin management, coastal and nearshore marine zone planning and climate change mitigation and/or adaptation activities.*

1.7.1 Has the Convention's water-related guidance (see Resolution IX.1. Annex C) been helpful in informing decision-making related to water resource planning and management? {1.4.1} KRA 1.7.i

C - Partly

1.7.1 Additional information:

1.7.2 Does your country's water governance and management treat wetlands as natural water infrastructure integral to water resource management at the scale of river basins? KRA 1.7.ii

B - No

1.7.2 Additional information:

1.7.3 Have Communication, Education, Participation and Awareness (CEPA) expertise and tools been incorporated into catchment/river basin planning and management (see Resolution X.19)? {1.4.2}

B - No

1.7.3 Additional information:

1.7.4 Has the Convention's guidance on wetlands and coastal zone management (Annex to Resolution VIII.4) been used/applied in Integrated Coastal Zone Management (ICZM) planning and decision-making? {1.4.3}

C - Partly

1.7.4 Additional information:

1.7.5 Has your country established policies or guidelines for enhancing the role of wetlands in mitigation and/or adaptation to climate change? KRA 1.7.iii

B - No

1.7.5 Additional information:

1.7.6 Has your country formulated plans or projects to sustain and enhance the role of wetlands and water in supporting and maintaining viable farming systems? KRA 1.7.v

B - No

1.7.6 Additional information:

Additional information on any other aspects of Strategy 1.7 implementation:

STRATEGY 1.8 Wetland restoration. *Identify priority wetlands and wetland systems where restoration or rehabilitation would be beneficial and yield long-term environmental, social or economic benefits, and implement the necessary measures to recover these sites and systems.*

1.8.1 Have priority sites for wetland restoration been identified? {1.5.1} KRA 1.8.i

D - Planned

1.8.1 Additional information:

1.8.2 Have wetland restoration/rehabilitation programmes or projects been implemented? {1.5.1} KRA 1.8.i

B - No

1.8.2 Additional information:

1.8.3 Has Ramsar guidance (Annex to Resolution VIII.16) or equivalent guidance on wetland restoration been used in designing and implementing wetland restoration/rehabilitation programmes or projects? {1.5.2}

B - No

1.8.3 Additional information:

Additional information on any other aspects of Strategy 1.8 implementation:

STRATEGY 1.9 Invasive alien species. *Encourage Contracting Parties to develop a national inventory of invasive alien species that currently and/or potentially impact the ecological character of wetlands, especially Ramsar Sites, and ensure mutual supportiveness between the national inventory and IUCN's Global Register on Invasive Species (GRIS); develop guidance and promote procedures and actions to prevent, control or eradicate such species in wetland systems.*

1.9.1 Does your country have a comprehensive national inventory of invasive alien species that currently or potentially impact the ecological character of wetlands?
KRA 1.9.i

B - No

1.9.1 Additional information:

1.9.2 Have national invasive species control and management policies or guidelines been established for wetlands?
{1.6.1} KRa 1.9.iii

B - No

1.9.2 Additional information:

Additional information on any other aspects of Strategy 1.9 implementation:

STRATEGY 1.10 Private sector. *Promote the involvement of the private sector in the conservation and wise use of wetlands.*

1.10.1 Is the private sector encouraged to apply the Ramsar wise use principle and guidance (Ramsar handbooks for the wise use of wetlands) in its activities and investments concerning wetlands? {4.2.1} KRA 1.10.i

B - No

1.10.1 Additional information:

1.10.2 Has the private sector undertaken activities or actions for the wise and management of:

a. Wetlands in general

b. Ramsar Sites

KRA 1.10.ii

A - Yes

B - No

1.10.2 Additional information: Development of Ktsia -Tabatskuri Managed Reserve MP and implementation funded by BP&BTCO/IUCN, 750,000\$, 2006-2008(09); implementation /infrastructure development was finished.

1.10.3 Have awareness-raising materials been made available to enable wetland-friendly consumer choices? KRA 1.10.iii	B - No
---	--------

1.10.3 Additional information:

Additional information on any other aspects of Strategy 1.10 implementation:

STRATEGY 1.11: Incentive measures. *Promote incentive measures that encourage the application of the wise use provisions of the Convention.*

1.11.1 Have actions been taken to implement incentive measures which encourage the conservation and wise use of wetlands? {4.3.1} KRA 1.11.i	B - No
--	--------

1.11.1 Additional information:

1.11.2 Have actions been taken to remove perverse incentive measures which discourage conservation and wise use of wetlands? {4.3.2} KRA 1.11.i	B - No
---	--------

1.11.2 Additional information:

Additional information on any other aspects of Strategy 1.11 implementation:

GOAL 2. WETLANDS OF INTERNATIONAL IMPORTANCE

Note. An optional Annex (Section 4) to this COP11 National Report Format is provided so that a Contracting Party, if it so wishes, can also provide additional information separately on any of its designated Wetlands of International Importance (Ramsar Sites).

STRATEGY 2.1 Ramsar Site designation. *Apply the "Strategic Framework and guidelines for the future development of the List of Wetlands of International Importance" (Handbook 14, 3rd edition).*

2.1.1 Have a national strategy and priorities been established for the further designation of Ramsar Sites, using the <i>Strategic Framework for the Ramsar List</i> ? {2.1.1} KRA 2.1.i	C - Partly
2.1.1 Additional information:	
2.1.2 Have all required updates of the Information Sheet on Ramsar Wetlands been submitted to the Ramsar Secretariat? {2.2.1} KRA 2.1.ii	A - Yes
2.1.2 Additional information:	
2.1.3 How many Ramsar Site designations in your country have been submitted to the Secretariat but are not yet placed on the List of Wetlands of International Importance? KRA 2.1.iii	0 sites
2.1.3 Additional information: 0	
2.1.4 If further Ramsar Site designations are planned for the next triennium (2012-2015), please indicate how many sites (otherwise indicate 0) KRA 2.1.iii	1 sites
2.1.4 Additional information (please indicate the anticipated year of designation):	

Additional information on any other aspects of Strategy 2.1 implementation:

STRATEGY 2.2 Ramsar Site information. *Ensure that the Ramsar Sites Information Service . . . is available and enhanced as a tool for guiding the further designation of wetlands for the List of Wetlands of International Importance and for research and assessment, and is effectively managed by the Secretariat.*

2.2.1 Are the Ramsar Sites Information Service and its tools being used in national identification of further Ramsar Sites to designate? {2.2.2} KRA 2.2.ii	D - Planned
2.2.1 Additional information:	

Additional information on any other aspects of Strategy 2.2 implementation:

STRATEGY 2.3 Management planning - new Ramsar Sites. *While recognizing that Ramsar Site designation can act as a stimulus for development of effective site management plans, generally encourage the philosophy that all new Ramsar Sites should have effective management planning in place before designation, as well as resources for implementing such management.*

2.3.1 Have all sites being prepared for Ramsar designation (2.1.2 above) had adequate management planning processes established? KRA 2.3.i

B - No

2.3.1 Additional information: Javakheti Protected Areas (JPAs) was established in March 23, 2011; the management plan for JPAs is under development.

Additional information on any other aspects of Strategy 2.3 implementation:

STRATEGY 2.4 Ramsar Site ecological character. *Maintain the ecological character of all designated Ramsar Sites, through planning and management.*

2.4.1 How many Ramsar Sites have a management plan? {2.3.2} KRA 2.4.i

2 sites

2.4.2 For those Ramsar Sites with a management plan, for how many is the management plan being implemented? KRA 2.4.i

2 sites

2.4.3 How many Ramsar Sites have a management plan in preparation? KRA 2.4.i

0 sites

2.4.4 For those Ramsar Sites with a management plan, for how many is the management plan being revised or updated? KRA 2.4.i

0 sites

2.4.1 – 2.4.4 Additional information: Kolkheti NP and Kobuleti PAs MPs were adopted in 2006; the management plans are valid till 2012.

2.4.5 Do the Ramsar Site management plans establish the maintenance of the ecological character as a management objective? KRA 2.4.ii

A - Yes

2.4.5 Additional information:

Appropriate measures to maintain the ecological character of wetlands are included in Management Plans of KNP and KNR, such as establishment of monitoring systems, inventory of main habitats and species, monitoring of threats/human activities, development of strategy and project on recuperation of forest ecosystems, development of project on mire restoration, law enforcement measures such as patrol of the territory and control of resources use.

2.4.6 How many sites have a cross-sectoral management committee? {2.3.3} KRA 2.4.iv

2 sites

2.4.6 Additional information (If at least "1 site", please name the site(s)): Kolkheti NP (Central Kolkheti wetlands) and Kobuleti PAs (Ispani mires) Scientific Consulting Councils are established and active

2.4.7 For how many sites has an ecological character description been prepared? KRA 2.4.v

2 sites

2.4.7 Additional information (If at least "1 site", please give the site(s) name and official number): Ecological characteristics are described in Kolkheti NP and Kobuleti PAs MPs

Additional information on any other aspects of Strategy 2.4 implementation:

STRATEGY 2.5 Ramsar Site management effectiveness. *Review all existing Ramsar Sites to determine the effectiveness of management arrangements, in line with the "Strategic Framework and guidelines for the future development of the List of Wetlands of International Importance".*

2.5.1 Have any assessments of Ramsar Site management effectiveness been carried out? {2.3.4} KRA 2.5.i

C - Some sites

2.5.1 Additional information (if "Yes" or "Some sites", please indicate the year of assessment and from whom, or from where, the information is available): 2009, RAPPAM assessment was carried out by WWF Caucasus PO and IUCN Caucasus Office

Additional information on any other aspects of Strategy 2.5 implementation:

STRATEGY 2.6 Ramsar Site status. *Monitor the condition of Ramsar Sites and address negative changes in their ecological character, notify the Ramsar Secretariat of changes affecting Ramsar Sites, and apply the Montreux Record, if appropriate, and Ramsar Advisory Mission as tools to address problems.*

2.6.1 Are arrangements in place for the Administrative Authority to be informed of negative human-induced changes or likely changes in the ecological character of Ramsar Sites, pursuant to Article 3.2? {2.4.1} KRA 2.6.i

A - Yes

2.6.1 Additional information (if "Yes" or "Some sites", please summarise the mechanism(s) established): Kolkheti NP (KNP) and Kobuleti PAs (KPAs) administrations carry out monitoring, including changes in ecological characteristics and provide the information.

2.6.2 Have all cases of negative human-induced change or likely change in the ecological character of Ramsar Sites been reported to the Ramsar Secretariat, pursuant to Article 3.2,? {2.4.2} KRA 2.6.i	Z - No negative change
---	------------------------

2.6.2 Additional information (if "Yes" or "Some cases", please indicate for which Ramsar Sites Article 3.2 reports have been made by the Administrative Authority to the Secretariat, and for which sites such reports of change or likely change have not yet been made):

2.6.3 If applicable, have actions been taken to address the issues for which Ramsar Sites have been listed on the Montreux Record, including requesting a Ramsar Advisory Mission? {2.4.3} KRA 2.6.ii	Z - Not applicable
---	--------------------

2.6.3 Additional information (if "Yes", please indicate the actions taken):

Additional information on any other aspects of Strategy 2.6 implementation:

STRATEGY 2.7 Management of other internationally important wetlands. *Appropriate management and wise use achieved for those internationally important wetlands that have not yet been formally designated as Ramsar Sites but have been identified through domestic application of the Strategic Framework or an equivalent process.*

2.7.1 Has the ecological character of internationally important wetlands not yet designated as Ramsar Sites been maintained? KRA 2.7.i	A - Yes
--	---------

2.7.1 Additional information: Javakheti PAs include Javakheti NP and five Sanctuaries: Bugdasheni lake, Khanchali lake, Madatapha lake, Kartsakhi lake and Sulda wetland areas;

Materials and report about research of wetlands biodiversity:

1. Report of Socio-Economic- Cultural data research, 2010;
2. Water Resources Management of Javakheti Lakes and wetlands, 2010;
3. Report of water supply and sanitary standards, 2010;
4. Report of Khanchali lake, 2010;
5. Materials on the Avifauna of Javakheti Lakes, 2009;
6. Mammals variety of the Planning Javakheti Protected Areas, 2009;
7. Avifauna variety of Javakheti Plateau, 2009;
8. Tourism Development Potential research, assessment and implements plane, 2009

Additional information on any other aspects of Strategy 2.7 implementation:

GOAL 3. INTERNATIONAL COOPERATION
--

<p>STRATEGY 3.1 Synergies and partnerships with MEAs and IGOs. <i>Work as partners with international and regional multilateral environmental agreements (MEAs) and other intergovernmental agencies (IGOs).</i></p>

<p>3.1.1 Are mechanisms in place at the national level for collaboration between the Ramsar Administrative Authority and the focal points of other multilateral environmental agreements (MEAs)? {3.1.1} KRAs 3.1.i & 3.1.ii</p>	<p>C - Partly</p>
--	-------------------

3.1.1 Additional information:

<p>3.1.2 Are the national focal points of other MEAs invited to participate in the National Ramsar/Wetland Committee? {3.1.2} KRA KRAs 3.1.i & 3.1.iv</p>	<p>C - Partly</p>
---	-------------------

3.1.2 Additional information:

<p>3.1.3 Are mechanisms in place at the national level for collaboration between the Ramsar Administrative Authority and the focal points of UN and other global and regional bodies and agencies (e.g. UNEP, UNDP, WHO, FAO, UNECE, ITTO, etc)? KRA 3.1.iv</p>	<p>C - Partly</p>
---	-------------------

3.1.3 Additional information:

<p>3.1.4 [For African Contracting Parties only] Has the Contracting Party participated in the implementation of the wetland programme under NEPAD? {3.1.3} KRA 3.1.iii</p>	<p>Z - Not applicable</p>
--	---------------------------

3.1.4 Additional information:

Additional information on any other aspects of Strategy 3.1 implementation:

<p>STRATEGY 3.2 Regional initiatives. <i>Support existing regional arrangements under the Convention and promote additional arrangements.</i></p>
--

<p>3.2.1 Has the Contracting Party been involved in the development and implementation of a Regional Initiative under the framework of the Convention? {2.6.1} KRA 3.2.i</p>	<p>A - Yes</p>
--	----------------

3.2.1 Additional information (If “Yes” or “Planned”, please indicate the regional initiative(s) and the collaborating countries of each initiative): Georgia has been involved in the development and implementation of the Regional Initiative of Black and Azov Seas Coastal Wetlands - BlackSeaWet

3.2.2 Has your country provided support to, or participated in, the development of other regional (i.e., covering more than one country) wetland training and research centres? {4.10.1}

B - No

3.2.2 Additional information (If “Yes”, please indicate the name(s) of the centre(s):

Additional information on any other aspects of Strategy 3.2 implementation:

STRATEGY 3.3 International assistance. *Promote international assistance to support the conservation and wise use of wetlands, while ensuring that environmental safeguards and assessments are an integral component of all development projects that affect wetlands, including foreign and domestic investments.*

3.3.1 [For Contracting Parties with development assistance agencies only (“donor countries”): Has funding support been provided from the development assistance agency for wetland conservation and management in other countries? {4.5.1} KRA 3.3.i

Z - Not applicable

3.3.1 Additional information (If “Yes”, please indicate the countries supported since COP10):

3.3.2 [For Contracting Parties with development assistance agencies only (“donor countries”): Have environmental safeguards and assessments been included in development proposals proposed by your development assistance agency? KRA 3.3.ii

Z - Not applicable

3.3.2 Additional information:

3.3.3 [For Contracting Parties that have received development assistance only (“recipient countries”): Has funding support been received from development assistance agencies specifically for in-country wetland conservation and management? {4.5.2}

A - Yes

3.3.3 Additional information (If “Yes”, please indicate from which countries/agencies since COP10): Ecoregional Conservation Programme-Establishment of Javakheti PAs financed by German Government (BMZ/KfW), grant 2,250,000Euros; 2009-2012(13).

Additional information on any other aspects of Strategy 3.3 implementation:

STRATEGY 3.4 Sharing information and expertise. *Promote the sharing of expertise and information concerning the conservation and wise use of wetlands.*

3.4.1 Have networks, including twinning arrangements, been established, nationally or internationally, for knowledge sharing and training for wetlands that share common features? {3.2.1}

C - Partly

3.4.1 Additional information (If "Yes" or "Partly", please indicate the networks and wetlands involved): KNP and KPA collaboration with NGO 'Tchaobi'- IMCG. According to Georgia-Armenia project, IMCG organized a Wetlands Conservation Symposium in 2009, at 1-16 September in Batumi. Nature Specialists of KNP and KPAs participated in Symposium.

3.4.2 Has information about your country's wetlands and/or Ramsar Sites and their status been made publicly available (e.g., through publications or a website)? {3.2.2}

C - Partly

3.4.2 Additional information:

3.4.3 Has information about your country's wetlands and/or Ramsar Sites been transmitted to the Ramsar Secretariat for dissemination? KRA 3.4.ii

B - No

3.4.3 Additional information:

Additional information on any other aspects of Strategy 3.4 implementation:

STRATEGY 3.5 Shared wetlands, river basins and migratory species. *Promote inventory and cooperation for the management of shared wetlands and hydrological basins, including cooperative monitoring and management of shared wetland-dependent species.*

3.5.1 Have all transboundary/shared wetland systems been identified? {2.5.1} KRA 3.5.i

A - Yes

3.5.1 Additional information:

3.5.2 Is effective cooperative management in place for shared wetland systems (for example, in shared river basins and coastal zones)? {2.5.2} KRA 3.5.ii

D - Planned

3.5.2 Additional information (if “Yes” or “Partly”, please indicate for which wetland systems such management is in place): Transboundary Joint Secretariat (TJS) was specially created on the regional level for the Ecoregional Conservation Programmes in South Caucasus for the coordination of transboundary activities, creation of dialogue platform and promotion of the projects in Armenia, Georgia and Azerbaijan under the programme. TJS phase I 2007-2010; the phase II 2011-2014.

3.5.3 Does your country participate in regional networks or initiatives for wetland-dependent migratory species? KRA
3.5.iii

B - No

3.5.3 Additional information:

Additional information on any other aspects of Strategy 3.5 implementation:

GOAL 4. IMPLEMENTATION CAPACITY
--

<p>STRATEGY 4.1 CEPA. <i>Support, and assist in implementing at all levels, where appropriate, the Convention's Communication, Education, Participation and Awareness Programme (Resolution X.8) for promoting the conservation and wise use of wetlands through communication, education, participation awareness (CEPA) and work towards wider awareness of the Convention's goals, mechanisms, and key findings.</i></p>
--

<p>4.1.1 Has/have an Action Plan/Plans for wetland CEPA been established? {4.4.2} KRA 4.1.i</p>	
---	--

- | | |
|--|--|
| <p>a) At the national level
b) Sub-national level
c) Catchment/basin level
d) Local/site level</p> | |
|--|--|

	<p>C - In progress B - No B - No A - Yes</p>
--	--

<p>(Even if no CEPA plans have been developed, if broad CEPA objectives for CEPA actions have been established, please indicate this below in the Additional information section below)</p>	
---	--

<p>4.1.1 Additional information (if "Yes" or "In progress" to one of the four questions above, please describe the mechanism, and identify if it has involved CEPA NFPs):</p>	
---	--

<p>4.1.2 How many centres (visitor/interpretation/education) have been established at Ramsar Sites and other wetlands? {4.4.6} KRA 4.1.ii</p>	
---	--

	<p>2 centres</p>
--	------------------

<p>4.1.2 Additional information (If centres are part of a national or international network, please describe the network(s)):</p>	
---	--

<p>Visitor Centers have been established at Kolkheti National Park. Visitor center are part of the national network of Protected Areas System; Kolkheti NP has a sister park - Point Rays Seashore in US. Visitor Centre of Kolkheti National Park consist of small museum, the conference hall for 60 people, hotel rooms and cafeteria. Besides that ranger shelters, bird ringing station and bird watching towers have been.</p>	
--	--

<p>4.1.3 Does the Contracting Party:</p>	
--	--

- | | |
|--|--|
| <p>a) promote public participation in decision-making with respect to wetland planning and management
b) specifically involve local stakeholders in the selection of new Ramsar Sites and in Ramsar Site management?</p> | |
|--|--|

	<p>C - Partly C - Partly</p>
--	---------------------------------------

<p>{4.1.3} KRA 4.1.iii</p>	
----------------------------	--

<p>4.1.3 Additional information (if "Yes" or "Partly", please provide information about the ways in which local communities are involved):</p>	
--	--

4.1.4 Has an assessment of national and local training needs for the implementation of the Convention been made? {4.10.2} KRAs 4.1.iv & 4.1.viii	A - Yes
4.1.4 Additional information: Training Needs Analysis on the System Level was done through the UNDP/GEF Catalysing Financial Sustainability of Georgia's PAs project.	
4.1.5 How many opportunities for wetland site manager training have been provided since COP10? {4.10.3} KRA 4.1.iv	0 opportunities
4.1.5 Additional information (including whether the Ramsar Wise Use Handbooks were used in the training):	
4.1.6 Do you have an operational National Ramsar/Wetlands Committee (or equivalent body)? {4.8.2}	A - Yes
4.1.6 Additional information (If "Yes", indicate a) its membership; b) its frequency of meetings; and c) what responsibilities the Committee has): Council on wetlands management issues was established in 2006 by the decree of Ministry of Environment Protection and Natural resources of Georgia. The council is acting as a National Wetlands Committee and prepares recommendation for the Ministry on National Wetlands Policy, Protection and Management of Ramsar Sites and wise use of their resources. Representatives of governmental and non-governmental bodies are involved in the council.	
4.1.7 Are other communication mechanisms (apart from a national committee) in place to share Ramsar implementation guidelines and other information between the Ramsar Administrative Authority and a. Ramsar Sites managers? b. other MEA national focal points? c. relevant ministries, departments and agencies? {4.4.3} KRA 4.1.vi	B - No B - No B - No
4.1.7 Additional information (If "Yes" or "Partly", please describe what types of mechanism are in place): Kolkheti and Kobuleti managers share experience during face to face meetings, trainings and site visits.	
4.1.8 Have World Wetlands Day activities, either government and NGO-led or both, been carried out in the country since COP10? {4.4.5}	A - Yes

4.1.8 Additional information:

Celebration of the Wetland International Day by the Agency of Protected Areas in 2009-2010-2012

Wetland International Day is annually celebrated by The Agency of Protected Areas. On this day several events are held like conferences, environmental weeks, tree planting days, cleaning up activities, and so on. The Agency also organizes competition on different topics. For example, in 2010 the competition was about 'Wetlands against climate change' and in 2011 'Wetlands and forests'. Students make presentations on a given topic and winners are gifted with souvenirs and books.

February 2nd is especially celebrated by those protected areas that are Ramsar Sites. For example Kolkheti National Park Administration (with the National Park staff, students and teachers from 14 public schools, as well as the Youth Center are also involved in these events) as well as Kobuleti Protected areas (Students and teachers from 15 public schools and Batumi Youth Centre). It is also important that local authorities and local population take part in these events

On the 2nd of February, 2011 on the Wetland International Day an environmental week was held at 10 public schools in Tbilisi, where presentations were made by the staff of the Agency of Protected Areas on the topic 'The importance of Wetlands'

4.1.9 Have campaigns, programmes, and projects (other than for World Wetlands Day) been carried out since COP10 to raise awareness of the importance of wetlands to people and wildlife and the ecosystem benefits/services provided by wetlands? {4.4.4}

A - Yes

4.1.9 Additional information (including, if support has been provided for the delivery of these and other CEPA activities by other organisations, please indicate this):

Georgia hosted 41st Meeting of the Standing Committee in 2010. The event was widely highlighted by local and national media. This gave excellent visibility for Georgian wetlands and helped raise awareness of both the general public and decision-makers in the country. Wetland painting competition was organized, which brought together children, representatives of local and national authorities, the TV station and their reporters. Quite a number of students from Batumi University were involved as a volunteers in organization of the event.

Additional information on any other aspects of Strategy 4.1 implementation:

STRATEGY 4.2 Convention financial capacity. *Provide the financial resources necessary for the Convention's governance, mechanisms and programmes to achieve the expectations of the Conference of the Contracting Parties, within the availability of existing resources and by the effective use of such resources; explore and enable options and mechanism for mobilization of new and additional resources for implementation of the Convention.*

4.2.1	
a) Have Ramsar contributions been paid in full for 2009, 2010, 2011? {4.6.1} KRA 4.2.i	A - Yes
b) If "No" in 4.2.1 a), please clarify what plan is in place to ensure future prompt payment:	

4.2.2 Has any additional financial support been provided through voluntary contributions to non-core funded Convention activities? {4.6.2} KRA 4.2.i	A - Yes
4.2.2 Additional information (If "Yes" please state the amounts, and for which activities): Financial contribution for organizing 41st Meeting of the Standing Committee in Kobuleti, Georgia, 2010.	

Additional information on any other aspects of Strategy 4.2 implementation:

STRATEGY 4.3 Convention bodies' effectiveness. *Ensure that the Conference of the Contracting Parties, Standing Committee, Scientific and Technical Review Panel, and Secretariat are operating at a high level of efficiency and effectiveness to support the implementation of the Convention.*

4.3.1 Has the Contracting Party used its previous Ramsar National Reports in monitoring its implementation of the Convention? {4.7.1} KRA 4.3.ii □	A - Yes
4.3.1 Additional information (If "Yes", please indicate how the Reports have been used for monitoring):	

4.3.2 Has the Secretariat been updated on any appointments and changes in Administrative Authority focal points and daily contacts (including CEPA and STRP National Focal Points)? KRA 4.3.i	Z - Not applicable
4.3.2 Additional information:	

Additional information on any other aspects of Strategy 4.3 implementation:

STRATEGY 4.4 Working with IOPs and others. *Maximize the benefits of working with the Convention's International Organization Partners (IOPs*) and others.*

* The IOPs are: BirdLife International, the International Water Management Institute (IWMI), IUCN (International Union for Conservation of Nature), Wetlands International, and WWF International.

4.4.1 Has your country received assistance from one or more of the Convention's IOPs in its implementation of the Convention? {4.9.1} KRA 4.4.iii	A - Yes
4.4.1 Additional information (If "Yes" please provide the name(s) of the IOP(s) and the type of assistance provided): WWF, IUCN	

4.4.2 Has your country provided assistance to one or more of the Convention's IOPs? {4.9.2} KRA 4.4.iii	B - No
4.4.2 Additional information (If "Yes" please provide the name(s) of the IOP(s) and the type of assistance provided):	

Additional information on any other aspects of Strategy 4.4 implementation:

Section 4 (www.ramsar.org/doc/cop11/cop11_nrform_e_sec4.doc) is an optional Annex to the National Report Format to allow any Contracting Party that wishes to do so to provide additional information separately for any or all of its Wetlands of International Importance (Ramsar Sites).
