FEEDBACK ON COP9 NATIONAL REPORT FORMAT

[Go to last Operational Objective \(21\)](#)

[Go to Table of Contents](#)

Please include additional comments on the COP9 National Planning Tool, National Report Format. (For instance, adequacy of the questions, the difficulties in completing them, and any further recommendations on how these reporting guidelines could be improved)

This National is comprehensive enough to capture the required information but it is cumbersome to fill and is not user friendly. A much simpler format should be adopted to serve as the format for national reports for COP10 and Uganda would be willing to serve on a task force to this effect.

In case a specific working group would be created, will you be interested in participating in the preparation of the COP10 National Report Format?
