

Nature and Biodiversity Conservation Society (NBCS) and M.Sc. Programme “Management of Protected Areas”, University of Klagenfurt were jointly organized seminar and documentary film show on the occasion of World Wetlands Day 2010 on 2 February at Klagenfurt University in Austria.

The Seminar topic was “Wetlands, Biodiversity and Climate Change”. Two documentary films were presented in the wetlands day celebration programme (Ramsar video “Wetlands: keeping our planet alive and well” and Wetlands International video “Adapting to climate Change: Mangrove Forests”). Muhammad Shariful Islam, President of NBCS presided over the seminar and present seminar paper on “Wetlands and Biodiversity in Bangladesh” as a keynote speaker. Mag. Michael Jungmeier, Director, International M.Sc. programme Management of Protected Areas and Founder, E.C.O Institute of Ecology and Prof. Dr. Marina Fischer-Kowalski, Institute of Social Ecology, Vienna were delivered their valuable speech in the seminar as honorable guests.

Environmental professionals and Students of International M.Sc. Programme “Management of Protected Areas” from 4 continents (Europe, Asia, Africa and America) of 12 countries and the E.C.O Institute of Ecology, Austria were participated in the programme.

12 Ramsar sites in 12 countries (4 continents) were presented in the programme.

President of NBCS specially thanks Prof. Dr. Michael Getzner, Director of International M.Sc. Programme “Management of Protected Areas” for successful celebration of World Wetlands Day 2010 in Austria.
