

# Work out your own 2012 RIS

- a) If no information exists relating to a specific field, please leave this field uncompleted (or indicate 'unknown').
- b) Recording some information – even if this is an incomplete or merely provisional assessment – is more useful than giving no information at all.
- c) Provide input if you wish especially with:**
  - examples of Ramsar boundary deliniation / demarcation
  - priorities for subjects / tools for filling in the RIS properly
  - Any difficulties or general comments or recommendations you may have to the 2012 format

# Thank you!

## Your Name, Your title

Ramsar Convention Secretariat
